IN THE progress of fashion there is ever one dominating note which gives impetus to the season's style trends. This spring and summer it's lace. What with the featuring of fashion this season, which include everything from high-cutting suits, beach outfits, sporty clothes and daytime tailors to fine millinery and gracious evening attire, lace is everywhere. And after that amazingly beautiful lace ball which was recently given in New York where everyone wore lace, the guests as well as those who took part in the gorgeous pageantry which was staged so picturesquely, we are coming to know more about lace than we have ever known before.

When all has been said and done, the present season will go down in history as an era in which lace really came into its own—as a period which marks the development of a new appreciation for lace, a new feeling, a new lace sense as it were. Up to now, in the hands of most of us lace had its limitations, was rather a luxury to be reserved for occasions of more or less dress-up tendency. Henceforth, with modern lace being that versatile thing, ranging from sturdiest sporty cotton and linen types to be used in fabric way, to laces so delicate and of so fragile a nature the traditional cobweb will have to look to its laurels, theories in regard to the restricted possibilities of lace have had to give way to lasting conviction that the practicality and the adaptability of lace to every phase of fashion, measures up 100 per cent to that of any other member of the fabric realm.

So it is we find lace going everywhere this season, no matter how formal or how informal the event. Then lace, either cotton or linen, you can choose nothing smarter for your tailored suit or your simple daytime frock.

A most fetching idea is to wear a blouse of monogrammed chiffon (chiffon is the lace for blouses) with

THROUGH A Woman's Eyes

By **JEAN NEWTON**

ON DRIVING OUT DEVILS

A WOMAN was telling a child a story of a little boy who became a happy child by driving out of his nature all the little devils who made trouble for him. What those little devils were, and the object of the mother who told the story, will not require a great deal of speculation on our part. We see right off it as it were.

And yet it came to me as I listened to the story that allegory is sometimes so near to truth that we may question in many cases whether it is not indeed truth—and not a preposterous invention suitable only for the minds of children.

As I look about me I see people harassed and unhappy; but very rarely because of malicious fate or unfortunate accident blighting their lives. Usually they are harassed and unhappy because of forces within themselves which are inimical to peace and happiness.

I see women who have been more than fairly dealt with by Providence leading lives of constant friction because of the working in themselves of such qualities as jealousy, greed and suspicion. I believe it would be safe to say that for every woman who is unhappy because of some influence or event in her life that was beyond her control, hundreds are unhappy because of "little devils" in themselves—which is a real effort on their part might exercise.

The woman who is discontented as long as any woman of her acquaintance has something that she

the lead, but gray, brown, yellow and the dusty pinks and zinnia tones are important.

Never in years have dainty feminine lingerie touches been more important.

Smart women are carefully studying their types and dressing them. Even the strictly tailored clothes must have a feminine touch.

Velvet is carrying on into summer. With lace daytime and evening clothes, wear little velvet capes, jackets and scarfs. They make the richest, the smartest and the most attractive combination.

Metal Lace Extensively Used in Spring Jewelry

Brazelets, earrings and clips of metal lace are the new feminine decorative jewelry notes for spring. Very clever and something different are those do-dads in which lace designs, both in etching and inlaid, have been impressed into metal in bright colors—pink, blue, green, yellow and in brown, black and navy.

Some of the brazelets are an inch wide, others two inches. The clips resemble a cluster of lace and one design that is fan-shaped is especially clever. The earrings of course are of their inspiration from coasters.

NAPOLEON GALLATIN COUNTY

Mr. and Mrs. J. L. Reffet entertained Mrs. F. M. Pindell of Covington, and Mrs. J. A. Farris of Walton, from Thursday until Sunday. Sunday J. A. Farris and son Jack Farris and family motored out and spent the day and all returned to their respective homes Sunday evening.

FARM POULTRY

BRIGHT LIGHTS ON LIGHTS FOR BIDDY

Red and Yellow Rays Said to Be Stimulating.

By Prof. L. C. Norris, New York State College of Agriculture.

Giving the hens a longer working day through the use of artificial light has long been a custom of poultrymen. The idea was that hens are more feed and as a result produced more eggs. The old idea is reversed, and the belief now is that the increased opportunity to eat feed afforded by artificial light is not the important reason for this practice. Rather, the artificial light is said to stimulate the reproductive organs which in turn results in increased egg production. More feed, therefore, is eaten.

The results, however, are the same; more eggs are produced when artificial light is used, but the attributed cause has changed. No change in regard to the use of artificial light to increase daylight hours are recommended, but providing strong enough artificial light is emphasized. If the light is barely strong enough for the hens to see and drink in their quarters, it may not stimulate egg production.

It is believed, also, that the color of lights has an influence. Red and yellow rays in white lights are said to be stimulating, whereas green and violet rays have a retarding effect on the hens.

Home-Grown Feeds Used for the Poultry Flock

A good rule to follow in making a mixture of home-grown feeds for poultry is to use 60 per cent corn or wheat or both. The remainder of the mixture recommended to make 100 per cent, is a combination of any two or more cereals, such as oats, buckwheat, barley, or more corn and wheat.

But do not use more than 10 per cent of barley, 30 per cent of heavy oats, or 2 per cent of buckwheat or rye in the mixture.

Potatoes can be used as a poultry feed. Four to five pounds of potatoes are equivalent to one pound of grain. They should be cooked when used. After cooking they should be mashed and mixed with enough of the laying mash to make a crumbly mixture. Use about two pounds of potatoes to one pound of mash. This can be fed as a moist mash in amounts which the hens will eat in from 15 to 20 minutes. One hundred hens will eat from six to eight pounds of potatoes a day in this way.

A Wet Mash Pays

It will pay well to feed the layers a wet mash. It will increase consumption of feed which promotes heavy egg production. If a small amount of milk is available, the Missouri Farmer, it will pay to mix this with the mash, otherwise plain water is beneficial. If the mash can be mixed with warm water or milk it will be relished by the birds. They should be fed all of the mixture they can clean up in about 20 minutes. A new theory among investigators as to why a wet mash causes heavier production is that a wet mash stimulates the reproductive organs of the layers rather than increase the consumption of feed. Suffice it to say, however, that the efforts are very beneficial and the extra work is a good investment.

Part Turkeys, Chickens

It is advocated that turkeys be kept away from chickens, that it is impossible to rear the two kinds of fowls together. That is not true merely because the two fowls are different, or because the chicken has some mysterious power for evil over the turkey. It is simply because nine out of ten farm hens are infested with the cecal worm, which is the immediate host for the blackhead germ, and it is highly necessary to keep poultry from coming in contact with this worm. If chickens were absolutely free of this worm, as well as of all other kinds, there would be no danger in permitting them to run together.

Poultry Facts

Throughout history women have been especially interested in poultry for their meat and egg value, while men have bred poultry mainly for relaxation and for such pleasures as game-cock fighting.

Production of both poultry and dairy products in the United States is expected to decline 5 per cent in 1935 from the production reported for 1934.

Since the rooster will influence the chicks of each 12 hens, it becomes true that "the rooster is more than half the flock."

A California company finds it can use a bread-wrapping machine to wrap eggs in waxed paper cartons.

THE NUTRITIOUS BANANA

GOVERNMENT experts tell us that the banana is one of the most nutritious of our fruits, and is one of the most easily digested. Found in few pounds it contains as much as 100 pounds of potatoes and it constitutes the chief carbohydrate food of millions of people in the tropics, where it takes the place of cereals and tubers, such as potatoes.

The banana has still another quality which highly recommends it. The thick skin which covers the fruit protects it against all contamination and makes it a most sanitary fruit.

The ripe banana is easily digested. It is important that all fruit should be well ripened before eating. The skin of the fruit should be a deep yellow with flecks of brown covering it. A firm fruit from a dark brown skin is thoroughly ripe.

Banana With Beefsteak.
Slice into halves under-ripe bananas and lay in a granite dish with butter, lemon juice and sugar, with a sprinkling of salt. Bake until the bananas are soft, then serve as a garnish to the steak platter, serving a juicy porthouse.

Banana Fluff.
Take a cupful of ripe banana, add a little lemon juice and half cupful of sugar, add an unbaked egg white and whip until firm. Serve in sherbet glasses with a little lemon syrup poured over it and top with whipped cream.

Banana Fritter.
As an entrée a banana fritter is especially appetizing. It may be served with various meats or as a dessert. Cut the banana into thirds or smaller, if desired, dip them into the fritter batter and fry in deep fat. Serve hot or cold with a lemon sauce, using the juice and rind of lemon with a bit of cornstarch for thickening and sugar to cook a rather light syrup.

NATURAL TONES ARE FAVORED JUST NOW

Strong Colors Appear in All Summer Fabrics.

Natural tones are outstanding. They appear in every type of washable sports silks, linens and cottons. They are followed closely by the strong peasant tones, such as gold, vivid pinks, clear strong greens and blues.

"Sweetpea" colors, combining strong and light tones such as mauve and lavender, two tones of lilac, deep and light pinks, are taking hold quickly. The prevalence of two-tone treatments makes it easier to assemble a smart accessory ensemble without having to match the dress, giving that appearance of studied casualness of which our English sisters are past masters. Some printed silk crepes and end-to-end effects are used, but in the main the monotoones have it.

Washable silk shirtings are to be found in abundance. In the regulation striped effects and in end-to-end weaves. Using the fabric with the stripes running in two directions is a favorite theme. Silk gingham also are used, and fall into the same type group. A navy and white dress, striped diagonally, with an off-white jacket, is typical of the style.

You can drive it 50 miles an hour the day you buy it

The Ford V-8 is ready for normal driving when you buy it. There is no tedious period of breaking-in for 500 or 1000 miles. You can drive it up to 50 miles an hour the first day. And after the first hundred miles you can drive it as fast as you desire.

That means greater motoring enjoyment for every motorist. It is especially important to motorists who are thinking about a new car for a vacation trip—to physicians, salesmen and all those who use a car for business. Instead of dragging along at slow speeds for days, you can make good time from the start.

Farmers to Study Use of Ground Limestone and Alfalfa Growing
Kenton county farmers who are interested in learning more about the use of ground limestone and alfalfa growing on the ridge soils will hold a field tour, Thursday afternoon August 15th.

According to the schedule that has been worked up with the farmers the following four farms will be visited.

1:00 p. m. Eastern Standard time. The touring party will meet at the farm of J. H. Maddox and Walter Maddox on the South Taylor Mill road near Nicholson. Because of the Taylor Mill road being under construction, all persons going on the tour should enter the Taylor Mill road at Nicholson on the LLL Highway, Route 17. The touring party will move north from the Maddox farm on Route 17 to the Harris road and then on via Towers and Staffordsbury to the farm of Emil Stein at 2:00 p. m.

At 3:00 p. m. the party is scheduled to meet at the farm of J. L. Rapp on the Staffordsbury-Towers road.

At 3:45 the party will visit the farm of John W. Shaw on the Taylor Mill road, 3/4 mile east of Towers. Successful Practices of Growing Alfalfa to Be Studied

The purpose of the tour is to make a study of the successful practices used by farmers in growing alfalfa on the ridge soils by the use of ground limestone and phosphate. And how to get the most hay and maintain the stand of alfalfa. An outline history of each field will be given in the study on each farm. The use of lime spreaders and equipment will also be studied.

Farmers who are interested in the use of ground limestone and growing leguminous alfalfa, and clover will have an opportunity on the tour to learn how to avoid many mistakes.

Poultry Pointers for August
According to W. M. Insko, Jr., of the Poultry Department, University of Kentucky, particular attention should be paid during the month of August to Culling, Feeding and Sanitation. Profits for the year may be determined by the quickness with which the birds are sent to market when they have ceased to lay.

Three points to keep in mind: 1. Culling. 2. Feeding. 3. Sanitation. Each of these points are discussed in detail in a mimeographed sheet. The article states that sanitation is very important. It is during August, that flocks often get tapeworms. Clean range should be used. Houses should be disinfected and cleaned out for fall and winter. Flocks treated and gotten into condition for winter production.

Poultrymen interested in getting a copy of the Poultry Pointers for August should write to Mr. Insko, Jr., Care of the Poultry Department, Experiment Station, Lexington, Ky.

Heartiest congratulations of a wide circle of friends are extended to Mrs. Sarah F. Toile of Mayville, on the recent observance of her 86th birthday anniversary. She is the venerable mother of Rev. R. H. Toile, highly efficient pastor of the First Baptist Church of Falmouth, whose son Rucker, has long resided with her. In possession of many sterling traits, an outstanding characteristic is his devotion to his widowed grandmother, and as she descends the sunset slope, her declining years are made brighter and happier by his thoughtful kindness. That she may still be permitted to celebrate many milestones of added birthdays is the united wish of many friends.

Mr. Nisbett is warmly welcomed home from Christ Hospital, having successfully undergone an appendicitis operation.

Accompanied by Mrs. Logan Pickett, daughters, and winsome little granddaughter, Dorothy Parker, Mrs. Besse Trapp and son Blaine arrived Sunday evening in Mrs. Richardson's lovely radio equipped car, for a visit with relatives and friends.

Miss Ruth L. Schmidt paid friends a brief call Wednesday afternoon. Friends here sorrow with Mr. Ware and family in the sad bereavement that has befallen them. The death of his father occurred Tuesday, at his home in Vassila, and last rites were conducted at the Baptist church Thursday afternoon by Rev. George Kelly, followed by interment in Independence cemetery. Many noble traits characterized his life and he was endeared to a host of friends, by whom his passing is sincerely mourned.

Mr. and Mrs. Carl Fisk and daughters Misses Louvena and Margaret were Sunday guests of Mr. and Mrs. A. P. Grizzle and son.

Many hearts go out in deep sympathy to Mrs. Alice Fisk and Mrs. R. C. Dills of Falmouth, in the recent passing of their sister Mrs. Bradford.

Faithfulness unto death wins the crown of life.

He was unloading various cans and packages from his pocket—devils ham, cream, rolls, butter.

Gail felt as remote from him as if she had never seen him in her life before. He was nothing, nobody; she disliked him because she had made a fool of herself over him in her own soul.

"Oh, are we picknicking?" she asked blantly.

"Aren't we?" he demanded, stop-plug short.

Her blood rose at once. Of course they would picnic! She began to untie the packages, lettuce, fish into a deep glass jar. Dick Stibbins! Why, he was the same country boy he had always been. Nice enough. The salt of the earth.

Dick came to stand beside Gail, the wrapped packages of coffee and sugar in his big hand, and she trembled and dared not look up. They went up to the old dam, in the sweetness of the autumn afternoon, and built their picnic supper fire on the sunbaked slingle. Phil sat silent, utterly content, watching a fish rise, his handsome, thick Lawrence brows drawn together as he pondered something that was far away from fishing. Arel and Van Murchison were on the slingle.

Sam not being at home when the picnic expedition had started, a note had been left for him, pinned to the kitchen door. Van, arriving before Sam, had calmly read the note, and had sat down on the Lawrence's doorstep to await Sam's return. After which, they had followed the others in Van's car, a circumstance that added the last touch of felicity to the occasion for Gail. She remembered her old efforts to attract Van, a few months ago, the smiles of wit, the constant attempt to amuse him.

Arel made no such efforts—not she! She simply was, and Van trailed her helplessly, irresistibly. When Arel went down to walk across the old boards of the dam, Van followed. Arel, Gail noted, did not speak much; she never did. Van did all the chattering.

The little fire burned hotly in the windless air; long shafts of sunset were striking level upon the water now; the dam was a sheet of blue satin, twinkling in the light and slipping into exquisite jade and ultramarine shadows against the overhanging banks.

"Oh, we do have fun!" Edith commented luxuriously, glancing at flat hot stones as the meal finished. There was silence in the group that was resting on the slingle in the dusk. A great owl fluted low over the dam, and was gone; the creek rippled, rippled in the pause.

Clearing away all signs of the picnic in the fast-gathering dusk, Gail tried an experiment. She took Dick's carrying off the coffee pot to throw the grounds away behind the trees, she rewarded him with a casual "Thank you, dear!" said in just the tone she used to Sam and Phil. Later she said again, "Take that, will you, dear?"

She couldn't remember whether she had ever called Dick "dear" before. If she had, it had been a long time. Probably she had, but it seemed to make not the slightest impression on him tonight. If he had looked surprised she had planned to laugh quite naturally and say, "I thought I was talking to Sam!"

But there was no necessity for this explanation. Dick paid no attention to the affectionate monosyllable. Oblivious old Dick, she thought, who never dreamed that close beside him was a woman who was thrilling with love and happiness and the need for him in this wonderful hour of autumn warmth and moonshine!

They walked, slinging down the steep, rutty half mile to the car. Gail needed a hand now; the hand that gripped her was Dick's. She marvelled that he could not feel the electric current that ran through the tips of the square, thin fingers.

Afterward she always remembered the night they went up to the dam. A hot night of moonshine and laughter and talk on the slingle above the dam.

Soon the weather changed and autumn came in, with October, in earnest. The leaves began to fall now, and the wind to blow. To Gail it was a thrilling time, this autumn filled with hints of change, of endings and beginnings. She was in love, and it was entirely different from what she had expected to be. Far from giddy, rapture and excitement, it made her serious business; it made her feel grown up and responsible.

She could never love anyone else

but Dick; it was all settled. Every-thing she thought now had to live him in it; the future had narrowed itself down to just Dick.

He had no money, he was country-bred, he was only the son of the people who rented the old Lawrence place over in Stanislaus—it did not matter, Gail, who had always felt that Clipperville limited and bound her, knew herself quite willing—albeit breathlessly willing—to live contentedly in Clipperville forever, or out on the Stanislaus country, ever; if Dick so decreed. What Arel or Edith would think of this sudden altering of all her dreams was nothing; there was nothing any more, except Dick!

All life was a miracle now, and she walked in the glory of it like somebody lifted above the earth. All the happy old customs that she and Edith had known for years were touched with new joy and new pain. When Dick joined the family circle the air was only a little more electrified than when he did not come. And meanwhile Van had established a more comfortable footing in the old Lawrence house than ever before, and he and Arel did not seem to be exactly friendly, exactly having an affair—there was a far more substantial base to their relationship than his friendship with Gail had ever known. Very quietly, in an almost bored tone, he told her sisters in early November that Van was going east to go to work.

"No more college?"

"No, he wants to get into business. His father says he'll start him in the New Jersey plant."

"Then he won't come back to Clipperville?"

"Yes, he's going to be back for a week in January. That's—that's month after next!"

"He's coming back after her?"

Edith said, when she and Gail were alone.

"Oh, Ed, it does look like it!"

Gail's imagination was off at full speed. Arel married at eighteen to young Van Murchison; Edith and Phil and Sam living on here at the old house; herself and Dick . . .

But this last smatched at her breath. Herself and Dick! People in the library would glance at her: "She's engaged; she's going to marry that young lawyer, Richard Stibbins."

Dick would have cases, and she would study every detail of every case and keep up with him. And she would have babies—babies tumbling about among the flowers. Happiness, happiness, happiness—to be married to him, to have Dick all to herself! The miracle of marriage, the amazing flaming glory of it, surrounded her with a cloud of mist by day and of fire by night.

It began to seem as if things were happening in Clipperville, that Gail's life was stirred in many ways. It was not only that Phil got a raise, and that Van Murchison might marry Arel. Sam was working for a scholarship, and might actually win a year at Columbia! Columbia university in New York. Gail was assistant librarian now, with the name "Abigail Lawrence" printed in gold on the library windows and a salary of fifty-five dollars a month.

And then Christmas was coming. Always exciting, it seemed doubly so this year. Dick was hoarding with them now, for his mother had gone to Oregon to stay with a daughter newly widowed, and there were only men on the Stanislaus ranch.

There was one cloud in the sky, to be sure. Gail and Edith acknowledged its existence bravely one December evening when they asked Dick if he thought Phil really cared for Lily Cass.

"That's a hard question to answer," Dick said, with a faint frown and a sigh.

"Do you like her, Dick?"

"Well—she's not my type. But she's an awfully sweet little thing, really."

"Is she divorced, Dick?"

"No. But there's talk of it."

"If she were, do you believe Phil really would marry her?"

A pause. Then Dick asked slowly, "Would you girls care?"

"You've answered!" Gail said, with a brief, merciless laugh.

"I suppose I have," Dick sighed again. "There's never been anything wrong with Lily," he offered, doubtfully.

"No!" Gail agreed forcefully. "Except that she was an ex-convict, a fruit fiend, and ran with that terrible box-factory gang, and chewed gum in church, and talked way up in G major."

This rather finished Lily's case for the moment. But a little later Gail said apologetically, "I don't

know why I got so wild about poor Lily. She certainly is having a rather tough time of it."

"I'll tell you!" Dick said eagerly. "Phil's the quiet sort. He loves Clipperville, he couldn't change places with the President. He wants to stay here and develop the place, and he loves Lily—or if he loves her—" Dick floundered, turning red and correcting himself hastily.

"We know he loves her; you needn't be so scrupulous!" Gail said. "A dry little thing, believe you'd stand up for Phil if he went out some night and cut somebody's throat!"

But she loved Dick for his loyalty, none the less, and she loved the nutria stew with one idea in her mind. "They'll eat it, and he loves it, curried!"

Christmas falling on a Tuesday, they all went up to the woods on the Saturday afternoon preceding it, and came back laden with evergreen, scarlet potted berries, crisp, polished hickories, holly, and the one great bunch of mistletoe that Dick climbed high into a dying oak to secure.

Gail, frantic to start tying him up in mistletoe, was in the line to spend the wet Monday in the line. She walked up to Miller's at five o'clock, not only to wait for Edith but to help her effectively. She did not care what it was. In an exhausted whirl of kisses Christmas passed; Arel also was there as one of her Christmas as usual, for two dollars a day.

Edith was twinkling and sparkling in the black night as the Lawrence's came wearily, excitedly, and started for home. Arel was very silent.

But Gail and Edith were gay Christmas eve, at library and shop, was over, and nothing but fun and holiday ahead. Edith thought of the tissue paper and ribbons in her room, was twisting and turning, began wrapping and marking packages right after dinner; she had completely ruined herself on presents as usual, and she felt the usual joy in her plight.

Gail thought of presents, too. She wondered if Dick would give her a present—of course he would! She would not care what it was. It would be the most valued thing she received. Dick needed socks and ties and belts and gloves—if he was wearing any. Dick, with his hands would send gloves—but she had dared give him some of these. Books. She had two books for him. In one, with a fast-beating heart, she wrote "Dick, with love, from A. L." Love. Love from Abigail Lawrence for Dick Stibbins.

"Perhaps we'll be married by next Christmas!" thought Gail, ringing, racing, hurrying home in the black, rainy darkness of Christmas eve.

It seemed to her the most wonderful Christmas they had ever had. From the hour on Christmas eve when she, Arel, and Edith got some wet, cold, and tired to the warm kitchen and to planning and laughter and tea, toast, and jam and wrapping gifts and surprises, until the two o'clock dinner on Christmas day was safely served, there was not a flaw.

They got all their presents ready and at eleven o'clock set the table for breakfast, then walked under warm shining stars to church at midnight. Every one stumbled back utterly exhausted, to go to bed heavily and blindly, fingers sore from strings and tinsel, backs aching, hands scented with pine resin, hearts filled with happiness.

And then it was Christmas morning, and every one was thanking every one else and Gail was honestly amazed at all the things they got—and such beautiful things. Tables were loaded with boxes and bundles.

Breakfast, leisurely and late, was wonderful, and by eleven o'clock the scent of the early afternoon meal was in the spicy air, the Christmas-scented air. Dick was leaving for Los Angeles at seven; Arel had promised Miss Lizzie Vail, with whom she had been studying dramatic expression, to have supper with Lizzie and her mother.

"But come home early, darling, for tomorrow's your birthday, and we have to celebrate all over again!"

"Oh, I will, Gail," Arel was very doleful. She seemed to her sister to be at her sweetest today. Van had sent her no present that they knew of. But Christmas mails were always late.

At two they sat down, ravenously, to the feast. Everything was perfection. Long after three o'clock the festive fingers at the table, nibbling raisins and nuts, trying the German honey cakes that had come as a greeting that morning, sampling the Christmas candy.

And when finally there was a stir, it was only after an unanimous decision to abandon all plans for supper. Phil went off to some point unknown—probably to see Lily—Sam helped clear the table; Dick had to walk down to his office to get some papers, and Arel herself suggested that she walk with him because she had a present for Mary Binner, and could leave it by the way.

"But please leave the silver and glasses for me to wash—please," Arel pleaded.

"Oh, nonsense!" Gail said. She and Edith made short work of the clearing up.

The short day ended with them both stretched luxuriously on Gail's bed, reading at intervals, talking desultorily, waiting for night to bring the other members of the family home.

How long will Dick be in Los Angeles, Gail?

"Only about two weeks. It's a ship case. A great chance for him. I think he's such a dear. I've grown awfully fond of him this fall," said Edith.

"He's a darling."

Arel put her head in the door.

"I've been asleep," she said, blinking.

"We looked in and saw you now we came in."

"I'm going to Miss Vail's now," said Arel, who was hatted and coated and gloved. "I'll be back early!"

"Dick will be gone when you come back?"

"I know it. I said goodbye to him." Arel looked very pretty in her dark blue coat and snug blue hat. She came in, kissed Gail, and kissed Edith. "I don't want to go," she said, with a weary sigh.

"I hate to have you," Gail said affectionately.

"Think of being eighteen tomorrow, baby. Mother's pet, eighteen."

"Mother's darling!" Arel said blithely.

"Gail," Edith asked, when Arel had gone, "did she get anything from Van?"

"Not that she told me."

"It might be delayed in the mail."

"A telegram wouldn't be."

"I know."

There was a silence in the big, shabby, pretentiously furnished room. Gail roused herself, stiff and drowsily. "I told Dick I'd start packing his bag for the trip," she said, with an exultant rise at her heart.

"We'll miss you."

"Oh, won't we?"

Edith watched agonizingly. Gail crossed the hall to Dick's cold big bureau of a room to find him done with his packing, and ready for good-bys. He looked almost handsome—or at all events, Gail found the lean, big-featured face handsome—as he belted his coat and pulled on the new gloves that Edith had not been too self-conscious to give him, if Gail had.

"You're worrying about this case and might be over to your counsel's," he said unusually grave.

"No, yes, I'm kind of worried," Dick said.

"Arel's gone to the Vails', Dick, and Phil isn't back. Sam's" Gail called. "Come out and say good-bye to Dick."

"I think we ought to kiss him good-bye on Christmas night!" Edith said giddily, in a rare mood of daring.

For answer his big-coated arm went about her, and he kissed her so heartily that she emerged breathless and protesting. Then it was Gail's turn.

The clean-shaven hard cheek was against her, his tremendous grip lifted her, held her shoulders tight; she felt weak, helpless, she

drank the deliciousness of that first kiss as if it were a draught of heavenly wine. For an instant she was his, dazed and ecstatic. Then panting, laughing, she was squarely on her feet again, still close to him.

"Well, Edith! The next time you have a bright idea you might take Dick and me into your counsel's!"

"Don't worry—about anything that comes up, Dick! Dick was saying rather confused and breathless myself, very big, very much the man. I'll be back in a few days. Everything will come out all right!"

He was gone. They heard the engine start in the yard, and laughed at each other as they wandered down to the kitchen.

Edith and Sam had ten and cold turkey, after all. But Gail, although she sat with them at the table, was feeling on finer food, and could not touch their tangible vands. Her mouth, her whole being, still put to Dick's grave, hard, deflating kiss. How he had kissed her!

Phil came in at nine, and they talked lively until the clock amazed them by striking ten. Then every one was up at once, and Gail went to the telephone. If Arel was late as she said, Phil must get her. Poor Phil, who looked so tired!

"Let me run upstairs, Gail," Edith pleaded, and see if she hasn't slipped in and gone to bed. She can't be at the Vails' this late."

Edith came downstairs with a

letter in her hand, and a whitened face.

"It was on her pillow, Gail."

"What?" Gail whispered. Without moving her eyes from Edith's, she tore open the sealed envelope.

"She's gone!" Phil said.

"Eloped with Van!" Sam suggested.

"Read it," Gail whispered, handing the written sheet to Phil.

Phil read it slowly, aloud:

"Dick dearest, and all if you: Forgive us. We had to do this way for reasons we'll write you."

"It's always been Dick, Gail. I think Edie knew months ago. Knew how I felt, anyway. But I never knew how he felt, until lately."

"We're going to Los Angeles, and we'll be married there. I couldn't stand the gossip on home, and having no money for clothes or anything."

"I've told every one that I have an annul down South. It's true—and that I'm going to try to get into the movies."

"I have told every one that. At least, until we're married. Gail. If there is any hitch, I never can come back home. But I don't want to write you everything, and where we are, and everything."

"Don't tell anyone—don't tell anyone. Gail, just tell them I'm trying to get a job in the movies, and let it go at that. If I don't make good, Dick'll bring me home."

"Expect a telegram tomorrow. I do love you, Gail, and I'm sorry."

It was signed "Arel."

"My G—d! Dick Stibbins!" Phil said, in a long silence.

"Gail, don't look at it. Edith said trembling, crying. "She's sure with Dick. Maybe—maybe it's the best thing that could have happened!"

Gail moved her lips as if she were about to speak, swallowed, shook her head. She got up and went to the sink and took a glass of water, her back turned toward the room.

When she turned about her face seemed oddly changed. It was white. It was odd, somehow, and infinitely weary. Her hand wet with the cold water, she brushed her hair feverishly from her forehead; her lips were wet with water, too, as she spoke.

"Well," she said quietly, in a conventional tone, her heavy brows knitted in a frown. "Well, that's that. Isn't it? That's that."

Edith and Gail had the Wilcox cottage at Carmel for two dreary August weeks. These were peaceful days—definitely happy days.

"I feel as if I had gotten my soul back again," Gail said. "I never thought, somehow, I never saw myself, somehow, at twenty-six, contented to be a Clipperville housemaid," she mused, as if to herself, as if thinking aloud.

"You don't have to be a Clipperville

ville old maid, Gail," she said then, lightly, but with a touch of pain in her voice.

"I suppose not," Gail paused in her turn. "You mean Clipperville?" she asked indifferently.

"Ole, ole Gregory. You could be Mrs. Gregory (then Your Own Home in Westgate Gray," Edith said.

Gail mused on this, her heavy brows drawn.

"Somehow it doesn't click, Edie. Somehow—well, I would have driven me out of my senses with joy, at twenty, to have two or three of Clipperville's rising young citizens want me. But now it just—doesn't click, that's all. I'm vacillated."

"Was it Van, Gail?"

"They had been to the edges of this ground, before, many, many times. But in the more than two years since that fatal Christmas night that had ended one phase of the Lawrence's life forever, Edith had not quite dared this much before."

"You, partly, I suppose," Gail answered simply.

"You did care for him, Gail?"

"No, not that I!" Gail laughed. "A little weakly, without much mirth, and she said thoughtfully. "He wasn't the sort of boy for whom I cared. But I rather went crazy that summer. Edie, it's that that I hate to remember."

"I was sick of Clipperville and poverty and dish washing, and when Van came along I sort of lost my bearings. I thought you could force your—well, your fate. Group what you wanted. I did everything he wanted me to do, went about with those rich people although I knew all the time I didn't belong there, and they didn't want me. And in the end, I had nothing to show for it."

"As if that wasn't all natural enough, Gail, for a girl your age!"

"Oh, it was natural enough. But if I didn't have much sense at twenty-three, Arel was only a half at seventeen. I thought you could force your—well, your fate. Group what you wanted. I did everything he wanted me to do, went about with those rich people although I knew all the time I didn't belong there, and they didn't want me. And in the end, I had nothing to show for it."

"It was half a joke for me. But it was deadly serious earnest with her. She wasn't going to be caught in the trap you and I were in—perfectly respectable, and not having any fun!"

Her words carried Gail over that wearisome road her thoughts had beaten in the last thirty months, and she could not go on. Jealousy and pain mingled together like suffocating fumes in her heart.

Arel's thick wife. Arel for more than two wonderful years Dick's wife—sharing his breakfasts, meeting him at the door at night, asleep in his arms when fires were lighted on winter evenings, and happy on the front seat of Dick's car when summer expeditions were afoot. It wasn't fair—it wasn't fair.

These agonies were routine now. She knew how long the spasms of sheer physical wretchedness would

last, how long it would take her to return sane and weary, to the routine of library and kitchen, Clipperville streets and the company of old books again.

From Dick there had come but one brief letter, received on the New Year's day just one week after he and Arel had gone away. Arel was well, the letter had said, and they were to be married tomorrow. There had been delays because of residence, and other legalities; they would write full particulars in a day or so. Meanwhile the family was pleased not to say anything about it. And he was as ever their affectionately Dick.

And after that the long months had spun themselves to a year, to two years, to more, and there had come no other word. Clipperville was perfectly satisfied to hear that Arel Lawrence was staying with an aunt, down Pasadena way, and working hard to get into the movies. There was nothing to bring Dick back to the home town, with his father dead, his mother living with a widowed sister, way up North, and the Stanislaus place rented to strangers.

When Phil, only a few weeks before these happy holidays at Carmel, had told his sisters that some time this summer he was to be married to Lily Cass, widowed now, it was the usually quiet Edith who broke into tears, protest, and pleading, and the usually impetuous and proud Gail who said zealously:

"You love her, Phil. Edie and I wouldn't want anyone who—who loved anyone—really truly loved her—to be unhappy."

"With—your—sweetest—right, taken unawares, and completely derailed, had said gratefully.

"So that's the night we have to face!" Edith had said when the sisters were alone.

"I suppose so."

"I'd like to know how he thinks we're going to manage financially!"

"Oh, I don't know. Perhaps renting the corner to the gas-station people?"

"Which—well, never do!" Edith had said hotly. She had hesitated, surprised at the expression on Gail's face, and had added, quickly, "You wouldn't want your Gail to be a big money for that empty corner."

"If Phil marries Lily," she went on, after a thoughtful interval, "I mean to act—well, with all the character—I mean with all the—well, philosophy I can scrape together. I'm going to act as if she wasn't Lily Wilcox of Thomas Street hill, but Phil's wife. Not the one we would have chosen, maybe."

(To be continued.)

Lawyer—All right. I'll take your case. I feel sure that I can get you justice.

Edith—Why, you little nitwit, it ain't justice I want. You've got to get me off—Pashinder.

MAN ENDS LIFE BY DRIVING OFF FERRY

Drives Off Ghent Ferry Boat Into Ohio River and Is Drowned

Friday

Friday, Joe E. Blas, 39 years old, stock buyer for Armour & Co., of Louisville, ended his life by driving his automobile off the Ghent and Vevey ferry. Capt. Jack Graham pilot, and in charge of the ferry and his assistant, and C. H. Sanders, a truck driver, located the submerged car about 50 feet from the landing. Graham and Sanders dived to the car, opened the door and brought Blas's body to the shore where they tried to resuscitate him.

The Carrollton Fire Department brought an inhaler which was operated for two and a half hours without results. A notebook wrapped with tape was found in the car when brought to shore with several pages of a note addressed to "Dear Muggsy," supposed to be his wife. The note expressed a wish "to end it all," as his supposed friends had made life no longer livable.

VERY SUCCESSFUL FLORENCE REVIVAL

Membership Increased to 21 Under the Preaching of Rev.

R. F. DeMoisey

The revival of the Florence Baptist church closed Sunday night with an increase of 21 new members. The regular pastor, Rev. R. F. DeMoisey, did the preaching, and Mr. and Mrs. D. I. Tanner had charge of the singing and music, which added greatly to the enjoyment of the services. During the pastorate of Rev. DeMoisey, in the past five years, this church has made splendid progress and a large increase in membership. The Bible school has more than doubled in attendance and the church is now on full time work. The Women's Missionary Society and Junior organizations are graded A, there being only 13 in the state of Kentucky.

Through his untiring work, Rev. DeMoisey is due the growth and good fellowship feeling among the members. The pastor is very popular with his congregation.

BIG NATIONAL HOME SHOW

Opens In Covington, Ky., Monday, September 21

Plans for the National Home Show which will be sponsored by the Northern Kentucky Real Estate Board of Covington during the week of September 21st indicates the biggest event ever attempted in this section of the country.

Sixty-three of Covington's leading merchants and manufacturers have contracted for space. Spectacular displays will be shipped here for various merchants, which have been used only at the largest exhibitions in the country.

The Federal Housing Administration who are co-operating and are staging the show will use a \$50,000 display called the "Talking Towers." Included in the displays are 24 designs of model homes. Special representatives will be in the Federal Housing Administration booth to explain how one can build or buy a home, or remodel their home or store for less than the average rent would cost.

Six big feature vaudeville acts will be used for entertainment, an act being presented every thirty minutes. Demonstration of the latest improvements of Home saving devices electrical appliances as well as the sampling of food and other demonstrations will make every one of the sixty-three booths a real theatre in itself.

A carload of equipment will be used in transforming the big Kenton County Loose Leaf Tobacco plant into a palace of splendor in which one will see a miniature World's Fair that will offer the most educational and entertaining program ever presented in Northern Kentucky.

TWO MEN ARRESTED IN GRANT CO. FOR SHEEP STEALING

It Is Stated That Over 100 Sheep

Have Been Stolen and Other Suspects To Be Arrested

Two men were arrested in Williamson, Ky., last week charged with the theft of 100 sheep from W. Woods of Grant county, early last month. The men arrested are Henry Simpson of Williamson and Bill Ibeek, a roadhouse employee near that town. A preliminary hearing was held Saturday morning. Other arrests are expected to be made soon, according to statements of the authorities. Simpson and Ibeek are alleged to have sold the sheep at the Union Stock Yards in Cincinnati, O.

During the past several months more than 100 head of sheep have been stolen, according to statements made. Former County Attorney, L. M. Ackman, is conducting a court of inquiry, has questioned 300 witnesses. Since the court first met several suspects have left Grant county.

As sheep raising is one of Grant county's principal industries, the farmers are greatly concerned.

FOUR OLD AGE PENSIONS GRANTED IN BOONE COUNTY

Evan Hance of the Welfare Department has granted four pensions to aged persons in Boone county as follows: William Sebern Acree, Burlington; William Wallace Dameron, Beaver Lick; George Broce Verona, and Edith Mae Rouse, Walton.

Prof. and Mrs. G. E. Gregory of Independence, attended the fish fry at the Methodist church, Friday night. Mrs. Gregory has fully recovered from a recent illness.

County Clerk C. D. Benson and son Charles of Burlington, were here Sunday, visiting his parents Mr. and Mrs. Mart Benson of High street.

HONEYDEW MELON RAISED AT BEAVER

First of Its Kind Known to Be Raised In Kentucky

Saturday, O. C. Long, one of the progressive farmers in the Beaver Lick neighborhood, brought to the Advertiser office a large honeydew melon which he presented to the editor, and said it was the first melon of that kind ever raised in Kentucky (as far as he ever heard). Honeydew melons are raised principally in California. Geo. B. Powers stated he had tried to raise them but it was a failure as they did not mature or assume any size.

OLD LANDMARK GONE

Probably one of the oldest houses in Walton was razed on North Main street last week when the former home of Mrs. J. V. Dicks was torn down by workmen. This property was bought by the Walton-Verona School Board to give a more spacious frontage for the school property and greatly improve the appearance of the school building.

This building was erected many years ago by a man named Gill Booth. It was a two-story log house and was torn down at its former location and re-erected on its later site. There is no way of knowing its age as it is past the memory of our present citizenry.

A 100-BARREL DISTILLERY AT WARSAW

Lanham Furniture Factory Building To Be Remodeled and Enlarged

Last Wednesday, George Alt, construction engineer for the Mission Springs Distilling Company, Louisville, Ky., negotiated for the purchase of the Lanham Furniture Factory building on Federal Highway 42 on the east side of Warsaw, Ky., for the establishment of a 100-barrel output of whiskey for the above named distillery. Construction work will begin at the earliest practicable moment possible. This will require quite a number of men, both practical and laboring. A bottling plant will be one of its accessories.

This is an ideal location for a distillery, as it is located in a large corn belt in both Kentucky and Indiana, as the river bottoms on the Indiana side is one of the greatest corn raising sections in that neighborhood.

It is estimated that the distillery will employ from 20 to 25 people daily. It will be a great factor for taking care of a number of unemployed in Warsaw.

TOMLIN-JEWELL

Miss Elizabeth Tomlin and John Berry Jewell Jr., Were Wedded Tuesday Evening

Tuesday evening at 8:30, E. S. T. Miss Elizabeth Tomlin of Handyside Court, Cincinnati, O., and John Berry Jewell, Jr., of Lexington, Ky., were joined in the holy bonds of wedlock at the Seventh Presbyterian church, that city. The bride is the daughter of Mrs. J. G. Tomlin, formerly of Walton, and the groom is the son of Mr. and Mrs. J. B. Jewell, Sr., Lexington. The bride was born and reared in Walton, and has many friends here who wish her a long life of happiness and prosperity.

POLLUTED WATER

Some farmers in the neighborhood of Salem Church on Salmon Creek are up in arms and highly indignant at some individual who dumped a mess of garbage, etc. in a small body of water in that neighborhood from which they carried water during the drought and warmed stock. The farmers term this individual "the meanest man" ever.

Jealous Man Shot At Mt. Zion

Jesse House In Serious Condition At St. Elizabeth Hospital From Gunshot Wounds

Sunday night, Jesse House, age 32, Grant county, Ky., while in an intoxicated condition, went to the home of J. C. Maddox, 65, Mt. Zion Ky., and created a disturbance when he found Mrs. Lorena WeWaser, divorced daughter of Maddox, in her home with Allen Haley, of Cincinnati, O.

Mr. Maddox ordered him away after he had been around the house for several hours. When he tried to enter, Maddox shot him with a shotgun, shot entering House's face, chest and arms.

House was taken to St. Elizabeth Hospital, Covington, where his condition is said to be fair-by attaches.

Walton School Largest In Years

Splendid Attendance Greeted Opening of School Sept. 14th

The attendance at the Walton-Verona school on Monday, September 14th, was one of the largest that this school has had in years. The attendance Monday was 253 pupils and more will possibly enroll later on. Under the present school board and the principal, Raymond W. Beavary, and the excellent corps of teachers, it has grown to its present proportions.

Many new improvements have been added to this school and for the comfort of the pupils.

And, while we are praising this school, let us not forget the Parent-Teachers Association that has so unselfishly catered to the wants of the pupils.

The removal of the ancient building on the frontage of the school lawn has added greatly to the appearance of the school building.

Verona Common school opened on the 14th, with an attendance of 75 pupils with an excellent corps of teachers.

A PRETTY BUT QUIET WEDDING

On L.L.L. Highway Saturday Afternoon At Home of Mr. and Mrs. E. F. Vallandigham

Saturday afternoon at 4 o'clock Miss Jane Vallandigham, the pretty daughter of Mr. and Mrs. E. F. Vallandigham, was united in the holy bonds of wedlock to Dwight E. Weber of Detroit, Mich.

The home was beautifully decorated with ferns, gladiolus and roses. When the hour arrived for the ceremony, the strains of the wedding march, played by Mrs. J. M. Ervin, ushered in the bride and groom, preceded by their attendants, Mr. and Mrs. Leo L. Rieux. The bride procession was met by Rev. J. M. Ervin, of the Walton Christian church who very impressively joined these two young lives together, after which the happy couple received congratulations of their friends and relatives.

At 6 o'clock a delightful course dinner was served, after which the newlyweds left for New York City Boston, Mass., and other eastern points. At Boston they will be entertained by Mr. and Mrs. C. A. Rouse and daughter Miss Lois Rouse. Mr. and Mrs. Weber will be at home to their friends in Detroit, Mich., September 28th. Mr. Weber is a Certified Public Accountant in Detroit.

Among those present were: Mr. and Mrs. Leo L. Rieux of Detroit, Mich.; the groom's parents, Mr. and Mrs. E. F. Weber of Marshall, Mich.; Mr. and Mrs. E. F. Vallandigham; Lynn Percival, Rev. and Mrs. J. M. Ervin and Miss Mary Ransler of Walton.

SMITH GETS 20 YEARS

For Attack On 12 Year Old Girl

On Walton-Verona Highway, On July 19

Tuesday night, a jury in the case of Henry Smith, age 24, at Burlington, for attack on a girl 12 years old after deliberating an hour and a half sentenced him to 20 years in the penitentiary.

The crime for which he was tried occurred July 19th on the Walton-Verona Highway, early in the morning of that day. Smith's wife, Lena and his sister Ethel Smith were arrested and indicted as accessories to the crime.

The case came up in the August term of Boone Circuit Court and at the request of Smith's attorneys was postponed until Sept. 15th.

Commonwealth Attorney Ward Yager, assisted by County Attorney Simon Gaines, made a vigorous attempt to give Smith the full benefit of the law, which was death or life sentence. Smith's attorneys made a motion for a new trial.

The following jury rendered the verdict: August Dringenberg, Lester Ayler, Leyman Goodridge, Will Waters, W. T. Rudicill, Russell Sparks, Theodore Carpenter, Cecil Conner, John Ryle, Courtney Jarrell, Walter Johnson and Claude Attam-Smith.

Smith's wife and sister will be tried at the December term of the Circuit Court. His wife is confined in the Burlington jail, and his sister in the Covington jail.

Quality Leads to Success

Monday morning, workmen will begin to remodel the Quality Sample Shoe Store, 627 Madison Ave., Covington, Ky. The management attributes their rapid growth to the smart shoppers of Northern Kentucky. These shoppers realize that this store is giving them shoes of fine quality at prices that are one-half or more less price than their real value, and at the same time the highest quality merchandise that can be bought. The management invites the Ladies and Misses who have not taken advantage of these remarkable low prices, higher Quality Shoes, to drop in and look their new fall display over without any obligation to buy.

The Quality Sample Shoe Store says Our Pledge shall always be: "The Highest Quality at the lowest prices," and they are all Nationally Advertised Brands which makes the quality beyond question.

C. C. C. CAMP FARM MODEL

To Be On Exhibition At National Home Show In Covington, Ky.

A committee from the National Home Show, Covington, Ky., to be held at the large Kenton Loose Leaf Tobacco Warehouse, beginning on Sept. 21st, and continuing for one week, is in Walton, Friday. The committee was composed of E. N. Williams, director; E. J. Melanson, representative of National Housing Administration exhibit department; and Orville Noel, general chairman. They came autistically to see the Soil Conservation Service exhibit of farm models at the CCC camp in Walton, built for the State Fair at Louisville. The committee was highly excited with the two most complete models, built by the Technical Service by men of the Walton camp, recommended by the United States Department of Agriculture.

It is stated it required 15 barrels of paper pulp to complete these models which are complete in every detail.

The above committee were fortunate in securing this excellent exhibit for the National Home Show at Covington, after the close of the State Fair at Louisville.

Young Man Killed Sunday Morning

When His Auto Leaves Highway At Ackman Farm About Two Miles South of Walton

Early Sunday morning, a young man named Charles J. Lanigan, age 25, of 422 Elm street, Ludlow, Ky., died on the Dixie Highway, at the Ackman farm, about two miles south of Walton, when his auto left the highway.

His skull was crushed and he died almost instantly. Passers-by summoned Dr. F. E. Bedinger of Walton, but he was dead when the physician arrived.

Saturday night he had left home to go on a fishing trip and the conclusion is that being up all night he had fallen to sleep when the car struck a concrete culvert, but came to a stop in an upright position, but is it the opinion of the Kenton county Coroner, Dr. Riffe who held the inquest, that the car had turned over at least once.

The remains were taken to Covington by undertakers of that city. Young Lanigan was the son of Mr. and Mrs. Joseph Lanigan, Ludlow engineer of the Southern Railroad and besides his parents is survived by one sister, Miss Suzanne Lanigan.

The father had passed north as engineer of a passenger train near where his son had been killed early that morning but, was unaware of the death of his son until he arrived in Ludlow.

Joseph Lanigan was a former resident of Walton many years ago and is well known by our older citizens.

Funeral services took place from his late home Wednesday morning from St. James church, Ludlow, burial in St. Mary Cemetery, Covington.

HE WON THE TOURNAMENT

He always had a good form—but he couldn't seem to locate the chalk lines. He lost game after game on outside balls. Then he had his eyes examined. Keen sight put the lines where they belonged: he won the tournament. Maybe better sight will help your game. Why not drop in and see us this week?

**Urges Treatment
of Cabbage Seed**

Guard Against Black Leg, Black Rot, Advice of an Expert.

By C. H. NISLEY, Professor of Vegetable Gardening, New Jersey College of Agriculture—TRENT, N. J.

Seed for mid-summer and fall cabbage needs treatment against black leg and black rot disease if it is to produce an abundant crop.

The black leg disease affects the inside of the seed and surface sterilization will not control it. The hot water treatment, however, kills both black leg and black rot organisms and the process is simple to follow.

Fill a wash boiler about two-thirds full of water and heat to 122 degrees Fahrenheit, using a good thermometer to be sure the temperature is exactly right. Submerge the cabbage seed, which has been placed loosely in a cheesecloth bag and move it up and down so that the water will permeate the seed. After the seed has been submitted to the hot water for 25 minutes, cool it by dipping the bag of seed into a bucket of cold water. Then spread the seed out to dry.

When the water is heated over a gas stove, it is easy to control the temperature. But when a coal stove is used, the boiler should be removed when the water reaches the right degree of heat and the heat regulated by adding small quantities of boiling water from time to time so that the temperature at any one point does not go above 122 degrees.

Indigestion invariably precedes an attack of heat exhaustion. Carefully watching the manure and urine at morning, noon, and night will help prevent loss.

During warm weather let horses rest in the shade when the manure changes from normal to a mushy, loose, foul smelling mass of glistering, hard mucus covered, clay-like or dark colored balls. When urine becomes scanty, dark colored, or thick and honey-like, you may be pretty sure the horse is suffering from indigestion, according to a writer in Hoard's Dairyman.

When "Dobbin" stops sweating and the nostrils are pretty much dilated, it's time to head for a shady tree. Sunstroke soon may follow and that means one dead horse. The body may be sprinkled with cold water and a wet sponge should be tied at the poll. Two ounces of a mixture of two parts medicinal alcohol and one part of sweet spirits of aiter and aromatic spirits of ammonia in one pint of water should be given once an hour until the horse is relieved.

Indians Grew Much Corn

The great age of corn culture in America is witnessed by the fact that the first explorers found Indians growing corn practically everywhere that it can grow on this continent, from the forested regions of New England and Ontario, through the rich Midwest and the irrigated pueblo lands of the Southwest, rising to the high mountain peaks of the Mexican plateau, Yucatan, and the Andean uplands of South America, out again rapidly among the more primitive tribes of the Pampas to the south. Only desert, extremely poor soil, or a too short growing season could discourage an Indian tribe from adopting corn as a mainstay food plant.—Successful Farming.

Horse Ages Rapidly

A horse at five is comparatively as old as a man at twenty; at ten he equals a man of forty; at fifteen he is a man of fifty; at twenty a man of sixty; at twenty-five a man of seventy; at thirty a man of eighty; and this five-fold increase is considered as old as a man of ninety years. The comeback that horses are making is putting many old horses into the hands of farmers at prices out of line with what they are going to return. All horses offered for sale are of course "coming seven." If you can't tell whether a horse is young, old, or in between, by his teeth, better take a veterinarian who knows or an experienced horseman with you when you make a purchase.—Hoard's Dairyman.

Around the Farm

Grapes are grown in 44 different states.

Milk is no more fattening than fruits or vegetables.

Strawberries rank second in the value of Canada's fruit crops.

Unless it is in a tightly sealed container, honey should be stored in a dry place.

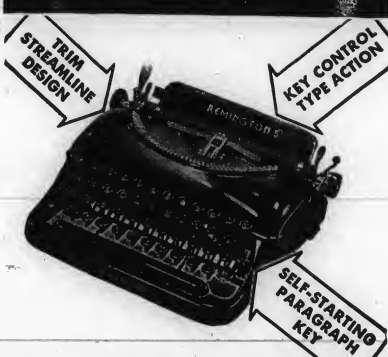

Goats' milk is nearly always pure white. The small size of the fat globules is one of its chief characteristics.

It is very necessary to dip the sheep once a year and twice is much better. It keeps the ticks down and is just naturally good for the sheep.

CHAPTER IX

As the weeks went by Hugh experienced the disintegrating effects of split emotions. Try as he would he could not reconcile the situation into ease of mind. It was like a broken dish which had been unskillfully mended. You saw at once the ugly dark line where it had been joined together. Grudgingly he admitted that Dorrie seemed to be making an effort to efface her conduct; she was conciliatory, consulted his wishes in a new way. This last was disconcerting for it continually reminded him of the reason. She had been wont to demand, not to appeal. She did not try to get another maid when Tillie left, studied a cook book, and had new dishes for dinner. She carefully recounted where she had been each day, as if to reassure him.

He had a new wife—but at what price?—he told himself. Although his longing for her did not cease, became more powerful as he became more aware of it, it was a hideous thing, humiliating him because he was helpless before it. He was often short and curt with her, tried to make up for it, was careless, polite.

One day he went into a new restaurant for lunch. The owner had achieved the synthetic atmosphere of a Moorish inn, stone floors, tapestries, and just before a drinking fountain in the wall. The place was dimly lighted and it was not until he had ordered that he saw Ellen Pendleton eating lunch with Ronny Wakes. They occupied a red leather wall seat just opposite him.

Ellen was talking animatedly to Ronny, her frequent laughter a little feverish in its gaiety. Preoccupied with his own affairs, he had seen and heard nothing of Ellen for some time, and when Ronny left the table to telephone, Hugh crossed over.

"Hello, stranger. I haven't seen you all summer."

"It has been a long time."

Hugh humbled. "Everything going well?" he inquired after a pause.

"Everything."

"I must be getting back to the office. By the way, you're worth Ronny. How come?"

Ellen's lashes swept her cheeks, and she raised her eyes unflinchingly. "I suppose because he asked me."

"I'm squealed!" But I thought—I was given to understand that your interest lay in another direction. That soulful young chap, Jerry."

He saw an odd thing. A quiver of emotion, so sentient, so defenseless, crossed her face that he thought she was going to faint. Then she was controlled; she even smiled. "Haven't you heard? His interest lies in another direction."

"I haven't heard a thing," he replied frowning. "Mind if I say he has rotten taste?"

She laughed on a low note. "Loyalty at all?"

"Yes—then," said Hugh slowly. His own predicament made him more alive to the remote suffering in her eyes. "Call on me if there's anything."

Ellen shook her head firmly. "Thanks—there's nothing."

Ronny came back with the telephone with apologies. Hugh spoke to him and then took his departure. He found himself wishing he did not have to go back to the office; the work had gone flat to him and he found himself struggling to concentrate on the simplest problems. When he hung up his hat, Miss Ruskin passed with a paper in her hand. "Mr. Sloan wants to see you, Mr. Marsh."

He went into the office of the president. Sloan was telephoning but he nodded him to a chair. "Marsh," he began briskly when he hung up the receiver, "how would you like to take a vacation?"

Hugh felt a faint perspiration break out on his forehead. "You mean you're not satisfied with my work?"

Sloan gave a short laugh. "Look in the glass, my boy. You've been off color for a month. Run away for a week or so, play golf, keep out in the open air, forget the business. You're heading for something—something, I would say—if you don't snap out of it."

The thought clicked in Hugh's brain that twice lately he had heard of men sent on vacations by thoughtful companies, men who in a few days received a wire that their services would no longer be needed. "I'm all right," he answered brusquely. "I feel better working."

His superior played with his fountain pen. "Something bothering you?" he inquired.

Hugh did not answer.

"Financial?"

"No."

Sloan relaxed. "My advice is to get out of town for a few days. Get a new perspective on your work."

"Whatever they say. We say things in proportion after a change of scene." He nodded at him kindly.

"I can spare you next week."

He turned it over in his mind as he walked home. Probably Sloan was right and new scenes might be a help, might ease the burden.

The radio was chattering with a plangent sonority. "I got those Decatur Street blood-ooes!" when he came in. Dorrie, near it, a newspaper in her lap, was gazing out the window. She started at his entrance, rose, dropping the paper.

"Oh, Hugh," she said in soft surprise.

"Didn't you expect me yet?"

"Of course—fifty—thirty. But I hadn't realized it was so late."

She put her hand absently to her hair, patted it back.

"Hughie, I haven't any dinner ready. I've run out of ideas about food. And see—I burned my hand this morning."

"I'm sorry."

"On the toaster. I touched it when I put it away—had left the current on. It started so I had to bandage it. Will you be very nice and take me out to dinner?"

"I have my moments!" He endeavored to speak lightly.

"You're sweet." She smiled into his eyes.

Release flooded his heart, tingled through his veins. "Where shall it be? The club?"

"Most anywhere. They say that room near the bridge has a special dinner."

He wanted her to sit down, wanted to tell her about the vacation, but she slid out of his arms with a feline grace. "I'll make myself beautiful," she murmured, starting for the stairs.

As he stood heavily where she left him, her haste to get away closed down on him.

Presently he picked up the paper, sat down by the window. His eye traveled over the headlines—the orders received by the steel mills which would put several hundred more men to work, the dying out of the last epidemic in infantile paralysis, the suicide of a prominent banker, the President's latest speech. On the third page a small item caught his roving eye; "Joan Whitney, 120 Mimosa street, v. Cunningham Whitney, 120 Mimosa street, on the grounds of mental cruelty. They were married April 6, 1924, and have no children."

Ellen, half-hidden in a big chair, clutched the magazine she was reading and braced herself, for her mother had come into the room. She settled herself in chair opposite Ellen. "What are you reading?"

"The Modern Arts Magazine."

"The Arts? Lips thinned disapprovingly."

"It's harmless, isn't it?" demanded Ellen with sudden spirit.

"I suppose you have to have something to occupy your mind."

It was hard to concentrate with Mother staring at her, and she read it only because she hoped

Lizzie would go away if she saw her absorbed.

"How he could treat you that way—the cad! My blood boils when I think about it!"

Lizzie threw the magazine down. Some more blood was to be attempted—cutting—dissecting—probing! And there was no anesthetic to save you to the

pains of the knife held by maternal hands. "It's exactly what you wanted," she said in a low voice.

"You didn't approve of him."

"I was very nice to him—very."

"And if he likes Kexia better, he has a right to change his mind. Let's not discuss it any more."

"Ellen, you never give me your confidence," complained Lizzie.

"You always keep me at arm's length."

Ellen was silent for a moment then she leaned forward pleadingly. "Mother, couldn't I please don't say 'no' right away . . . couldn't I take that last year of school this time?"

October, but I'd only be a few weeks late. I could make it up. They go abroad in December. Please talk it over with Father."

"I'm very unhappy here . . . please let me go away!"

Lizzie straightened herself regally. "Now we've been all over that before. No daughter of mine can go around studying naked statues in France and Italy with a troop of dissolute students."

"They're not dissolute."

"I don't care how well you are chaperoned, or how famous your instructors are—I won't hear of it. Perhaps some summer you can go with me to Europe. Your father will never leave long enough to take me, so we'll go together! Just be patient."

Lizzie was not the same. I want the instruction in the class. I want to graduate from Pearson school."

"But why in the world do you want another year? You can't seriously mean to be an artist?"

"Why not?"

"An artist?" Lizzie's voice whined like a saxophone off key. "With all your father's money? Such nonsense!"

"It's not nonsense, Mother. It's seeing things further than anyone else sees, expressing things that others don't think of. It's something too tremendous to put into words."

The silver voice ran off Lizzie like rain off water-proof. She reached up and swatted a fly on the curtain. "I'm sure you paint very pretty pictures now," she said flatly.

Ellen knew her cause was lost. She won't dream if Lizzie had ever been in love—not liking, not acceptance, but had known this lovely terrifying thing she felt for Jerry. She didn't have—or she would remember.

NUTS AND BOLTS

"Gosh! This Rush is Killing Me!"

Listen, Brother, you keep on doing that and you'll keep your appointments for the next few weeks in the hospital. There's a place for you to cross the street in safety. It's down at the corner, just a few steps away. No business is quite so important that you should risk your life to save a couple of seconds. Thirty-three thousand peo-

ple were injured last year doing just what you are about to do—stepping out from between parked cars. More than 1,100 were killed that way. These figures are taken from Travelers Insurance Company records. Maybe in the rush of business you're forgetting to give enough attention to the business of living.

WHAT FOODS TO BAR FROM DIET

Consider Those Affected by Certain Articles.

By EDITH M. BARBER

AT THE present moment, general rules for good nutrition are well established for the normal person. Every once in a while, however, you find a personal idiosyncrasy for one or more foods which demands that they be excluded temporarily or permanently from the diet.

There are a number of persons who are what is known as sensitive to certain foods and when they take them, even in small amounts, allergic conditions may be developed. The symptoms are hives, and nasal disturbances which are not unlike hay fever, which is also caused by sensitiveness, in this case, to pollen.

A number of children are born with a sensitivity to such foods as eggs, whole grains and wheat and sometimes to beans and peas. There is an occasional reaction to milk. These conditions can be overcome in general by giving minute quantities at first and gradually increasing the amounts. It is quite common to find that strawberries and shellfish cause reactions. Sometimes this fact will be undiscovered until it shows after a nervous strain or disease. Often skin tests will show what food has suddenly become responsible for hives or a chronic cold. Usually the sensitivity clears up after other conditions are improved.

If there is a chronic condition which has been found impossible to correct, foods which are responsible must be replaced by others which will provide the same type of nourishment. If one member of the family is allergic, the meals for the family should be planned as far as possible with this consideration in mind.

Eggless Mayonnaise.
¼ cup evaporated milk
¼ teaspoon granulated gelatin, soaked in one teaspoon cold water
1 teaspoon salt
½ teaspoon paprika
1 teaspoon sugar
¼ teaspoon dry mustard
Few grains cayenne
1 cup vegetable or olive oil
1 tablespoon lemon juice
1 tablespoon vinegar
Scald milk in the top of a double boiler. Add soaked gelatin and stir.

Deviled Ham and Egg Canape.
Butter
Deviled ham
White bread
Hard-cooked egg
Seasoning.
Cream the butter and ham together. Cut the bread into rounds a quarter of an inch thick, and spread with the mixture. Separate the whites from the yolks of the eggs. Season the yolks with salt, pepper, onion juice and enough salad oil to blend to a paste. Chop the egg whites and season. Place the yolks in the center of the canapes and sprinkle with whites around the edge. Allow one egg for each two canapes.

Rye and Rice Muffins.
(Without Wheat, Eggs or Milk.)
¼ cup rice flour
¼ cup rye flour
6 teaspoons baking powder
¼ teaspoon salt
¼ cup water
½ tablespoon vegetable shortening, melted.
Sift dry ingredients together. Add water and melted shortening and beat thoroughly. Pour into muffin tins, greased with a vegetable shortening and bake in a hot oven, 400 degrees Fahrenheit, 35 minutes.

Salted Meat Loaf.
1 tablespoon gelatin
¼ cup cold water
¼ cup cooked salad dressing
¼ cups cooked meat, ground
½ cup chopped celery
¼ green pepper, chopped
Seasoning to taste
Sliced egg
Soak the gelatin in cold water, dissolve in hot salad dressing. As the mixture begins to thicken add the meat, celery, green pepper and seasoning to taste. Turn into a mold, chill until firm. Remove from mold, garnish with shredded egg, and serve with sour cream dressing.

Sardine Toast.
1 can sardines
¼ cup minced olives
1 hard-cooked egg
1 tablespoon mayonnaise
Blend the ingredients thoroughly and spread on slices of bread toasted on one side.

How to Banish Sparrows.
Probably the best way to get rid of sparrows is to poison them by scattering wheat soaked in strychnine about the place where they gather to feed. Care must be taken to keep other birds, chickens and even stock from getting the poisoned grain. Another method is trapping and another is to catch them at night in their roosting places, using a light to blind them. All nests should be destroyed before the young have left them. If this is done during the nesting season, their number will be very materially decreased.

How to Kill Lice in Clothing.
Lice and nits can be killed by soaking the infested clothing in water having a temperature of 130 to 140 degrees Fahrenheit, for 30 minutes. To avoid shrinking the fabric after soaking it, cool it gradually to body temperature (98 degrees Fahrenheit) by using a succession of moderately cooler rinse water. The use of a chemical in the water is not feasible, but certain articles may be dipped in kerosene or gasoline without washing. Boiled eggs and lime insects will be killed if the fluid penetrates the clothing thoroughly.

How to Tell Good Sheeting.
At "white goods" sales one way of telling good sheeting is to rub the material between the hands and then hold it up to the light to see the amount of fuzz raised; better sheeting in general has less fuzz, textile specialists say.

How Rainseed Oil is Made.
Edible rainseed oil is made by curing, grinding, cooking and pressing the seeds, just as if they were cuttouseed. Approximately 15 per cent of the weight is oil and the remaining cake is used for feed, fuel or fertilizer.

Muffled Voices.
"My neighbor H. H. Hat does not speak to my neighbor H. Hum," remarked H. H. Ho, the sage of Chinatown. "I speak to neither, for I discovered long since that none of us ever has anything worth saying."

Gift of Cheerfulness.
Be cheerful always. There is no path but will be easier traveled, no load but will be lighter, no shadow on heart and brain but will lift sooner for a person of determined cheerfulness.

HOW

TO MAKE BEDS EXPLAINED BY EXPERT CHAMBERMAID Bedmaking, once regarded a simple matter of putting linens and blankets and coverlets on the bed, is an art, says a writer in the Indianapolis News, something not to be passed over lightly. Here are the essential steps in making a bed in the best manner.

Spread undersheet, narrow hem at the foot, and tuck well under on all sides. Be sure it is smooth. Miter the corners. Grasp the edge about two feet from the corner. Lift up and form a triangle. Lay the triangle back at the top of the bed, tuck the base under the mattress. Then drop the triangle and tuck under.

Leave at least ten inches of top sheet to turn back over the blankets. Put top sheet on right side down.

Place blankets well up toward head of bed. Fold back the top sheet to protect edges of blankets. Fold top sheet and blanket under together at the foot.

Let the covers hang loose at the sides. Insert the pillow into case by using both hands. Shake it down so no wrinkles or lumps appear. Put top cover on smooth, tuck under pillows for an inch or two.

How to Keep Combs and Brushes Free From Germs

When washing hairbrushes and combs, don't forget there are other brushes that require attention—the nailbrush and the toothbrush. Give the toothbrush, a soaping, rinse well in plain water, and finally in a salt-and-water solution. To keep the bristles straight rub the brush on a dry cloth. Alum, if available, may be used instead of salt. The same method should be applied to the nailbrush, but in this case first see that all accumulations of soap are freed from the base of the bristles.

Tooth, nail, hair and clothes brushes all require regular attention. They are for the purpose of removing those enemies to health—dirt and dust, and unless kept clean they will not perform their work satisfactorily. It is important to see that a high standard of cleanliness is maintained in any hairdressing or beauty establishment you frequent. Inspection is easily carried out; these establishments unless all the equipment is properly sterilized before use.

How Much Time You Spend in Talking.
How much time do you spend in talking? According to a recent estimate, taking the average life as seventy years, we spend thirteen years of our life in telling other people what we think. Of these thirteen years, six are devoted to talking at work, two to talking while we eat, five to casual gossip. The estimate doesn't differentiate between men talkers and women talkers; it records, however, that on an average our daily speech totals 15,000 words—about 1,000,000 in a lifetime. We spend 22 years in bed, 20 years in leisure, six years in eating, three years in study, nearly two years in washing, and one year in thinking.—Pearson's Weekly.

HISTORICAL SPOTS IN BOONE COUNTY

Boone County, the thirtieth in order, was organized in 1798, out of part of Campbell County. The history of Kentucky by Richard H. Collins published at Louisville in 1877, gives a list of early settlements and stations in Kentucky which were settled before 1800. This list included two settlements which were in Boone County. One settlement, called Tanner's Station, on the Ohio river, twenty-two miles below Cincinnati, was on the site of the present town of Petersburg. It was settled by and named for Rev. John Tanner, the first resident Baptist minister in the county. In April 1788, he with a small company from Pennsylvania, cleared thirty or forty acres on a claim, previously made by Rev. Tanner. In May, 1790, John the nine year old son of Rev. Tanner, was made a prisoner by the Indians. A year later his fifteen year old son Edward was also captured by Indians, but escaped two days later. Young John was not again heard of by his family for twenty years or more. He lived with the Indians until 1818, when he became an interpreter for the United States government, and served along the Canadian border. Tanner's Station, or Petersburg, as it was later called, was built upon the site of an aboriginal burying ground, the history of which is unknown. The older inhabitants of Petersburg, when digging cellars or for foundations for buildings have excavated pieces of earthenware vessels, and Indian utensils of stone, some of them curiously carved. A little above the town, on the bank of the river, were found remains of an ancient fortification. An embankment about four feet high extended from the bank of the river to the bank of Taylor's creek and inclosed an area of about twenty five acres. The population of Petersburg grew slowly, and in 1860, the first year of which there is a record, the inhabitants numbered 420.

Another early settlement in the county, listed by Collins, was that made by Mr. McClellan, in Bullitt's Bottom, now North Bend, on the Ohio river. The settlement was named Bullittsburg in honor of the original claimant of the land. Rev. Lewis Dewees, another Baptist preacher, had come to Tanner's Station in 1792, and from there he came to the newer settlement of Bullittsburg and organized in 1794, the Bullittsburg Baptist church. This was the first Baptist church in the county, and probably the first church of any faith to be organized in Boone County.

An article written by Mr. A. M. Yeakey of Florence, gives an interesting account of another early settlement in Boone County. During the year of 1790, William Underhill and wife left their home in Pennsylvania in a house boat and passed down the Ohio river. They landed near the present site of Taylorsport, and found there a family by the name of Craig, who had previously located there. Mr. Craig had a large family and about twenty slaves, so he urged Mr. Underhill, who was a shoe maker, to settle there and make shoes for them. The latter agreed and built a cabin for himself. On November 18, 1798, his son John was born. He was the first white child born in the county after it was organized. John Underhill became a preacher and preached for more than fifty years at the old Gunpowder church. He also preached at the Mudlick church which was on the site of the present Beaver Lick Baptist church. It should be of interest to note that Rev. Underhill was the Warwick portrayed by the author, John Uri Lloyd, in his book "Warwick of the Knobs." Wm. Underhill was also a great Indian fighter. The Indians often molested the settlements along the river. In 1792, when a band of them crossed the river to attack the settlements in Boone County, Underhill aroused the settlers to arms and forced the Indians to recross the river in their canoes. To stop these raids, the settlers organized a company called the Squirrel Hunters Brigade, chose Mr. Underhill their leader, and marched to Chillicothe, Ohio, where the Indian village was located. When they reached there the Indians were away, so they destroyed the wigwags and the corn uell, who discovered it in 1739, while and put a stop to the Indian raids.

No sketch of historic spots in Boone County would be complete without an account of Big Bone Lick. The first authentic report of this celebrated salt lick, was that given by a Frenchman named Long-descenting the Ohio river—he was making a trip of exploration from Canada to the Gulf of Mexico. Big Bone Lick was important to both

Indians and early white settlers, because it is known that salt was manufactured there by the Indians before 1780, and by the whites as late as 1812. It required five or six hundred gallons of water to make one bushel of salt, but because the need for salt was great and because the spot was fairly easily reached by way of the river, much salt was made there during this early period. The first white woman ever known to have visited Kentucky, was Mrs. Mary Ingles, who was brought as a captive to Big Bone Lick by Indians who had come there to make salt. From there she managed to escape and made her way amid untold hardships and dangers to her old home in Virginia. The first survey made in Boone County was also made at Big Bone Lick. Robert McAfee wrote in his private journal that on July 5, 1773, Captain Bullitt surveyed "a tract of very good land on Big Bone Creek." He and also James Douglas of Virginia, who visited the Lick the same year, wrote of the many big bones found there. They reported finding rib bones so large that they used them for tent poles, teeth that would weigh as much as ten pounds, tusks eleven feet long, and skulls two feet across. At no other place were such numbers of these remains found; and Big Bone has rightfully been called "the graveyard of the mammoth." Various collections were made of these bones, the first in 1803, and the last in 1891. The collection of 1891 was made by Dr. F. W. Smith and sold by him to an eastern collector for \$2,000, who in turn sold it for \$5,000. In 1840, Mr. Cooper of New York, estimated that the bones of more than one hundred of these huge animals had been taken from this Lick. Willard Rouse Jilson, author, said at the time these bones were first being discovered and collected that Big Bone was better known in Europe than New York. Most of the collections found their way to Europe, and some of them can be seen in the British Museum, London.

For a time at a later date the springs were popular as a health resort and in 1881 the following advertisement was displayed in Cincinnati: "C. A. McLaughlin, Jr., Proprietor, of Big Bone Springs, Hotel, announces that this popular resort which has been entirely refitted, will be open for the reception of guests, May 10, 1881. Every arrangement has been made to insure the comfort and pleasure of visitors. The sulphur baths can be taken hot or cold. Terms \$7 and \$8 per week. Big Bone can be reached by taking the 3 o'clock P. M. Madison Packet at Mall Boat Landing, Cincinnati, which lands at Hamilton where an omnibus will meet the boat every day." With the passing of the river packet the popularity of Big Bone declined and the accommodations have been allowed to go to decay. It seems unfortunate that a place once so famous as a scientific find and later as a health resort, should now be so undeveloped.

Burlington, the county seat of Boone County was settled in the early part of the century, and was incorporated in 1824. At this time it was about as large as was the city of Cincinnati. That it was planned for a big city is shown by the old houses, which were built without front yards, but which were very substantial, and some of which contain splendid examples of that architectural achievement, the circular stair-way. The census of 1830 gave the population as 276. In 1850 it had declined to 250, but by 1870 had reached 277. The first court house was built in 1817; remodeled in 1878 and later replaced by the present structure.

Florence settled about the same time as Burlington, has become famous as the Stringtown of Wm. Lloyd's books. One of the oldest houses is the early home of Mr. Lloyd's parents, now the headquarters of The Lloyd Memorial Society. In 1830, the population of the village was 89, but in 1870 it had increased to 379. To Miss Lucy Blackburn, assistant librarian at the Covington Public Library, credit is due for the following account of an interesting historic spot near Florence. "The Beeches, the home of General Leonard Stephens, located on the old Lexington place just off the present Dixie highway was one of the Kentucky homes at which General Lafayette was entertained when he was the guest of the nation in 1824. General Lafayette was entertained in Lexington, and later in Cincinnati. Record had been kept of his visits to these cities, but not of his movements between them. Last year the Covington Library was asked by parties in Syracuse, N. Y. for any information about the journey from Lexington to Cincinnati. Miss Blackburn was able to inform them about his visit to General Leonard Stephens, who was her great-grandfather

and also the great-grandfather of Miss Pearl and Mr. Rome Respass. General Stephens was also said to have owned the first carriage in Boone County.

Other historic spots in the county should be mentioned but the purpose of this sketch was to discuss the three where Mr. Lloyd spent his boyhood, namely Petersburg, Burlington and Florence, and to include the oldest and most famous historic spots in the county. Mr. Lloyd, it will be remembered, came from North Bloomfield, N. Y. to Kentucky with his parents when four years of age. His father, a civil engineer, had been chosen by a group of Eastern investors to survey a route for a railroad from Covington to Louisville. The road was to go through Boone County by way of Gunpowder creek past the Weaver and Christler Mills. Some stock was sold, but to be paid for when the road was built. The company failed in the year of 1854, but Boone County was made richer by the Lloyds, who remained, and this section of Kentucky has been introduced to the world by John Uri Lloyd's books. Mr. Lloyd himself said in an article which he wrote for the Boone County Recorder in 1903, "Tourists from as far as Boston have sought the Knob lands of Gunpowder and Big Bone and have come away delighted with both country and people."

STAFFORDSBURG KENTON COUNTY

Mr. and Mrs. C. A. Richardson who spent a week visiting relatives here have returned to Richmond where Mr. Richardson will resume his studies at Eastern College. Madison Hoffman and granddaughter Miss Phyllis Rosenberg were calling among their relatives here on Sunday.

Several from this community attended the meeting of the dramatic club at the home of James Stephens and mother on Saturday evening. Mr. and Mrs. Dawson Ballinger went, on Sunday, to visit his sister Mrs. Wm. Brannock and family of Kelat. Mr. and Mrs. Brannock's son Ralph was injured recently by being thrown from the railroad track at Berry, Ky., by a passenger train which he did not see because of another train on the crossing at the same time. They found him able to be home from the hospital and well on the road to recovery.

Donald Keeney spent Saturday night with his cousins Roy and Jeanne Reitor. Mr. and Mrs. W. E. Hanna had as a guest last week their niece Miss Naomi Brown of Lexington. Mrs. Hanna accompanied her home on Friday, where she visited until Sunday. Mr. Hanna and son Harley went to bring her home on Sunday and were accompanied home by Mr. Hanna's sister Mrs. Ann Faulkner.

We have been somewhat lonely since the closing of the revival. Did not have a very large Sunday School this week. Let's all rally for our "new" pastor, Rev. S. B. Godbey. If we encourage him as we did Bro. Wright, by attending every service he will be a better preacher and we will be better.

J. A. Keeney and family were guests on Sunday of Mr. and Mrs. T. J. Stephens. Some fifty odd members of the Sweeney family attended the family reunion at the home of their childhood where Pat Sweeney, sides along. All brought well filled lunch baskets and enjoyed the day together. Some remaining for the evening. May their number be broken for many more such occasions.

Mr. and Mrs. Nelson Hoffman were among a number who went to Coney Island on last Tuesday evening. Haas—That is a strange place to put them. Pete—I know, but my wife doesn't always stop the car when she gets inside the garage.—Pathfinder

Mr. Kieckbush—So you want to marry my daughter. Can you give her everything she desires? Young Rollo—I think so; she says she wants only me.—Pathfinder

VOTE ON BOND ISSUE

To Issue Bonds of \$72,000 to Build Municipally Owned Electric Light Plant

The voters of Williamstown, Ky., will vote on a bond issue of \$72,000 as to whether the city will own its own electric light plant, at the regular November election.

An ordinance was passed at a regular session of the City Council on Monday night, Sept. 14th. The ordinance calls for a bond issue of \$72,000 worth of 4% bonds which are not to be a part of the city's indebtedness—but are to be issued against the plant, to be liquidated by revenue derived from the sale of electricity. It is stated the interest on the bonds will amount to \$2,880 annually, and will decrease each year as taken up, to run for a period of 20 years, beginning in 1937.

FINE UNION

CITIZEN DIES

James Taylor, Aged Retired Farmer, Passed Away

James Taylor, one of the splendid old citizens of Union, age 90 years, passed away Monday after a short illness of bronchial pneumonia. Mr. Taylor was born in Ireland and came to Boone county when a child and lived here all his life. His wife died about 50 years ago. He was survived by two sisters, Mrs. Mary Hewlett and Miss Taylor, who resides on the Union and Big Bone roads. He was a brother of William Taylor, deceased of Walton, and Arthur Taylor of Patriot, Ind., who died a number of years ago and a number of nieces and nephews. He was a member of the Big Bone Baptist church and Hamilton Lodge of Masons.

His funeral took place from Richmond church, Wednesday morning at 11 o'clock, his pastor, Rev. Roy Johnson, preaching an appropriate funeral sermon to an assemblage of relatives and friends, after which the remains were laid to rest in the Richmond Cemetery.

Funeral Directors Chambers & Grubbs had charge of the arrangements.

Arthur Owens, son of Mrs. Christine Owens, left the fore part of this week for Pikeville, Pike county, Ky., where he will attend college for the ensuing year.

Mr. and Mrs. Ronald Bosson of Hyde Park, Cincinnati, were the guests of Mr. and Mrs. John Adams of Kenton county, and called on Mr. and Mrs. Marvin Gaines of South Main street, last Wednesday.

Mr. and Mrs. Barnett W. Franks moved the fore part of the week to the Edwards house recently vacated by Mrs. Mamie Simpson and son Malcolm, during extensive repairs are being made on their home in South Walton.

E. M. Johnson and family moved to the Arthur Rouse farm on the Dixie Highway between Richmond and Devon, Saturday, where Mr. Johnson will follow agriculture pursuits.

Noel Chapman and family moved to Dry Ridge, Grant county, from South Main street, the fore part of the week. He was a former resident of that town.

Mr. and Mrs. Lige Baker of Hamilton, Ohio, were the guests of Mrs. Baker's parents, Mr. and Mrs. Earnest Roberts of South Walton Sunday.

Mr. and Mrs. Claude Davis, sons Carey and Hugh, and daughter Miss Dorothy of Covington, were visitors here Thursday night. Miss Dot was one of the characters in the "Kiddie Revue."

Mr. and Mrs. L. E. McArt and sons Larry Lee and Jack Kerns of Covington, were here Sunday evening visiting Mrs. McArt's parents, Mr. and Mrs. V. P. Kerns.

HOW

ATTAR OF ROSES IS MADE IN BIG COPPER RETORTS.—In the making of attar of roses, petals, mixed with water, are sealed into great copper retorts heated by wood fires. During the first distillation, rose water trickles out through cool coils and a green oil rises like cream. A single retort may hold half a ton of petals. Such a retort can be refilled five or six times between dawn and afternoon, and a green oil rises like cream. A single retort may hold half a ton of petals. Such a retort can be refilled five or six times between dawn and afternoon, and a green oil rises like cream.

If the dewy petals are held too long, they ferment and the oil is ruined. By four o'clock in the afternoon the last mixture of petals and water is drained off into a convenient brook, and the distilled rose water is stored in the floating green oil has already been removed, is distilled again. From this second process a yellowish oil is obtained.

Most of the two oils forming the base for the world's best perfumes. Attar of roses has a most persistent but not strong odor, does not readily evaporate or oxidize, and is stored in triple-sealed copper tanks shaped like flat-sided caskets.

How the Fox's Tail Got White Tip Is Revealed

Once upon a time an old German woman was seeking a shepherd to care for her flocks. But all the men and boys of the neighborhood were busy and could not help her, so she accepted the offer of a shy red fox. He claimed he would care for the sheep as well as any shepherd, especially as he was very fond of them. The old woman did not suspect his cunning and left him to his meadow each night. Each morning, the fox came to the old woman's cottage with the story that a wolf had eaten a sheep during the night. He seemed so and that the old woman did not scold him. Early one morning, mused a writer in the Los Angeles Times, as she was eating her breakfast, she decided to make some fresh cream with the fox. She took her pitcher and went to the meadow where she discovered the fox himself devouring one of her sheep. Very angry, she threw the cream at the fox, and as the tip of his tail was drenched with the liquid, it has been white from that day to this.

How British Empire Is Divided

The British empire occupies one-fourth of the world's land area and controls one-fifth of the world's people. Since England began to expand, less than three hundred years ago, the authority of the British rulers has spread to every continent, either by exploration, war, peaceful occupation, treaty, or purchase. The Union Jack also flies over numerous islands in each of the seven seas. While vacationists are sunning themselves on the beaches of half of the empire, vacationists in other half may be sinking and bobbing along on snow and ice, for the British lands are almost equally divided between the northern and southern hemisphere.

How Wooden Sponge Is Made

Wood pulp is treated with lye and carbon disulphide to give a viscose solution, a sirupy liquid that can be hardened by contact with acid solutions. By passing viscose through a fine hole into a hardening bath, rayon is formed. Cellophane is formed by passing it through a slit. The wooden sponge is made by mixing the viscose with crystals of a water-soluble substance and then treating the mass with dilute acid. This hardens the viscose and at the same time dissolves out the crystals, leaving a spongelike solid.

How Dog River Got Its Name

Dog river is a short distance from Beirut, Syria. The name is derived from the great stone dog—or perhaps it was an Assyrian bull—that once stood on the height overlooking the mouth of the river and the sea. The figure's head was hollow and when the wind blew from a certain direction the dog used to give forth howls, to the terror of the surrounding population. The travelers of the community finally got up enough courage to push the figure over the cliff's edge into the sea, where it is still visible at low tide.

How to Lacquer New Wood

Apply a wood filler before lacquering new wood to secure a finish that is entirely smooth. The filler is applied in the usual manner, being brushed on, the excess wiped off, the surface allowed to dry. Lacquer is applied with a soft hair brush and "flowed" in rather than stroked back and forth. It should smooth itself out and never be gone over a second time—if it is possible to avoid it.

How to Open Oysters

Opening oysters is not always such an easy task. But here is a simple way of doing the job. Put a thin knife under the first valve of the oyster and cut the adductor muscle that is there. Then the valve may be lifted up in such a way that it is quite separated from the lower valve that holds the oyster.

ELEVEN GAS WELLS

STRUCK IN BOONE

Last Wednesday a Natural Gas Well Was Struck On Joel Gray's Farm

Eleven natural gas wells have been struck in Boone county in the neighborhood of Limaburg, Burlington and Hebron. Last Wednesday gas was struck on Joel Gray's farm near Burlington at a depth of 400 feet. No oil has yet been struck but drilling continues at most of the wells. The well on the Russ farm has been drilled to a depth of about 1300 feet but is said to be still in Trenton rock. It is said bids are to be made to lay gas mains from Limaburg to Florence, work to start October 1. The Columbia Gas & Electric Co. has contracted to take the natural gas product of the county, specifying that the county must produce 5,000,000 feet of gas daily, and it is contemplated that there will be in the neighborhood of 100 drilling outfits in this section of the county.

Mr. and Mrs. Joe Wilson of Sparta, Ky., were here Thursday night and attended the Kiddie Novelty Revue at the school auditorium, where their little granddaughter, Betty Joe McCordwell, appeared on the program. While here they were the guests of their son-in-law Tom McCordwell and wife of North Main street. Mr. Wilson, who suffered a heavy loss some time ago by the destruction of his home at Sparta by fire, is erecting a handsome residence on the site of the burned building.

Mrs. Wadsworth Latimer of Williamstown, Ky., spent Monday and Tuesday here visiting her mother Mrs. Effie James, who has been ill. Mrs. Latimer attended the protracted meeting at the Christian church Monday night, of which she is a member.

Mrs. James A. Baird and daughter Sarah Katherine of Knoxville, Tenn., who had been visiting Mrs. Baird's parents, Mr. and Mrs. Mart Benson of High street, left Thursday for Lexington, Ky., where they will visit relatives and friends before returning home.

L. & N. RAILROAD TRACK IMPROVED

Wm. Campbell, Section Foreman and Construction Gang Greatly Improve Roadway In Yards

Extensive repairs have been made in the L. and N. Railroad yards in Walton. The main track has been repaired with new ties and ballast with screenings. The siding has also undergone extensive repairs and the roadways present a greatly improved appearance. Section Foreman William Campbell and his force of hands and a construction gang did the work.

The L. and N. management is also making extensive improvements in the yards in Louisville from Baxter avenue, for a number of blocks erecting a long viaduct that will obviate crossing on the thoroughfares of that city. The cost of this latter improvement will cost the company many thousands of dollars.

WILL SELL OUT AND GO TO FLORIDA

Mr. and Mrs. Joe Hopperton Have Sale of Household Goods and Restaurant Oct. 3

On Saturday, October 3rd, Mr. and Mrs. Joe Hopperton, owners of Hopp's Tea Room, will offer for sale their restaurant and all their household goods at public auction. The R. G. Kinnison Co. of Covington, Ky., have the sale in their hands and all goods go to the highest bidder. An excellent lot of high class household goods will be sold and the restaurant is splendidly equipped and is a good paying business in the heart of Walton and a fine opening for a live wire. Mr. and Mrs. Hopperton anticipate leaving for Florida shortly where they will engage in business. See ad in this week's Advertiser.

CARD OF THANKS
Through the medium of the Walton Advertiser, I wish to sincerely thank each and every one for their splendid cooperation in making the National Home Show, sponsored by the Northern Kentucky Real Estate Board, aided by the Federal Housing Administration, a great success. The very commendable exhibits of the progressive merchants of Covington, the excellent display on farm cars made by the Walton C. O. G. Camp boys, the Board of Administration, the Covington city officials and the hearty support of Covington, Kenton and adjoining counties for their attendance.
—Orville Noel, General Chairman

Mrs. W. D. Richardson of New York, arrived here Sunday on a visit to her daughter Mrs. F. E. Bedinger and Dr. Bedinger.

CHRISTIAN CHURCH REVIVAL CLOSED

Sunday Night After a Most Successful Meeting of Two Weeks With Ten Additions

The revival which was of two weeks' duration, closed at the Walton Christian church, Sunday night with 10 additions, 8 by confession and two by letter. Those by confession were: Sarah Gordon, Ella Mae Chambers, Nelda Campbell, Wanda Lou Conrad, Robert Stevenson, Howard Stevenson, James Stevenson and Eugene Stevenson. Those by letter were: Mrs. India Lee Arnold and Mrs. Nell Campbell. Throughout the entire meeting large congregations greeted Rev. Lee Davis Fisher, evangelist, Somerset, Ky., to hear the splendid sermons he delivered. He is a young man of exceptional ability as an expounder of the gospel and held the attention and interest of his congregation throughout the entire evening. Aside from the additions to the church he no doubt proved of great interest to the church in stimulating the members to more active work in the future.

Throughout the revival he was ably assisted by the regular pastor Rev. J. M. Ervin, and the splendid singing of the choir. Baptismal rites will be administered Sunday night, October 4th at the regular church hour.

IMPROVING AFTER OPERATION

T. W. Jones of Walton, Route 1, who is a patient in Christ Hospital in Cincinnati, who recently underwent a major surgical operation, is getting along nicely and it is stated by his physician he will in all probability be able to return home in about a week.

A WORD OF PRAISE

In a letter from Prof. James H. Craven, one of the leading educators of Kenton county, he says: "I should feel lost without the Advertiser. We have greatly enjoyed the articles written by W. T. Loomis, especially the article about the Redwoods of California. Your correspondent at Verona deserves credit for the extensive, well written articles from that point. They are much appreciated because Verona used to be our old stamping ground. Why doesn't Prof. Charles Chambers send in more of his splendid articles? I feel proud of Charlie. It was his teacher in Walton when he was a mere boy, and he has become a very prominent and renowned educator. And what about our friend C. B. Powers? We miss that good old homespun philosophy he used to write for the Advertiser, and should like to hear from him again. Very truly,
J. H. CRAVEN."

Stolen Car Is Recovered

Telephone Coupe Found At Mt. Vernon, Ky. Two Boys In Jail

On Saturday, Sept. 23rd, a Dodge coupe was stolen from the Consolidated Telephone Co., at Florence. The sheriff of Rockcastle County arrested two young men on suspicion at Mt. Vernon, and discovered the coupe in which they were riding was the car reported stolen by the telephone company. He placed them in jail and phoned Mr. Groebel Stephenson, superintendent of the line at Florence. Accompanied by sheriff Will Cotton and deputy Frank M. Walton, they left the next day for Mt. Vernon, identified the coupe and returned the next day, the officers bringing the two alleged thieves with them and placed them in jail at Burlington, to await the December term of the Boone Circuit Court.

Capt. and Mrs. F. S. Kieren and son Frank, accompanied by Mrs. Kieren's father, Daniel Bedinger, motored from Anchorage, Saturday to spend the day with Mr. and Mrs. B. F. Bedinger and family near Richmond.

ALL MUST REGISTER IF THEY VOTE

All Who Did Not Register In the August Primary Can Do So October 10th

All legal voters who did not register at the August primary will have an opportunity to do so from now until October 10th, by going to the County Clerk's office at Burlington and registering. It is the duty of all citizens to register and vote, irrespective of their political affiliation. Exercise your privilege and vote at the regular November election. Remember—you must register at County Clerk's office by October 10th.

FORMER WALTON MAN PASSES AWAY

Newt Rouse Died In Anderson Hospital Sunday Night

Newt Rouse, age 80, a former citizen of Walton, died in an Anderson, Ind., hospital, Sunday night, after a short illness, followed by a paralytic stroke. A week previous to his death he went to Cincinnati, O., to visit his daughter Mrs. Leona Breed and other relatives. While at his daughter's he was taken ill and his physician deemed a surgical operation necessary. His daughter accompanied him home, where he entered the hospital, at Anderson, where it was his desire to go. With loving care she did all she could for his comfort, realizing his critical condition, but he passed away before an operation could be performed.

The deceased was a resident of Walton about 35 years ago and was well known by our older citizens. Previous to his illness he held a lucrative position with the Anderson Waterworks, which position he held for many years. He is survived by his daughter, Mrs. Leona Breed, three brothers, Jasper Rouse of Chattanooga, Tenn., N. T. Rouse of Cincinnati, O., and Ernest Rouse of Ft. Thomas, Ky.; also two sisters, Miss Pidge Rouse of Butler, Ky., and Mrs. Howe of Dry Ridge, Ky., and several cousins in Walton. His funeral took place at Anderson, Tuesday afternoon at 2:30. The many friends of the family deeply sympathize with them in their bereavement.

LOCOMOTIVE ON MAIN STREET

Members of the American Legion do not do things by halves and figure on some occasions an unique manner of attracting the public's attention. The Legion Post of Miami, Fla., conceived building an automobile, a replica of a railroad engine and traveling to Cleveland, O., to attend the annual convention. The engine was fitted with a whistle similar to a regular railroad engine and every town they passed through the whistle was blown loudly to attract attention. The engine and crew passed thru Walton on return trip home, Friday afternoon.

Hon. Brent Spence

To Speak At Limaburg Thursday Night

The Boone County Young Men's Democratic Club has extended a special invitation to Hon. Brent Spence, Congressman from the Fifth District, to address the voters of Boone county at Limaburg, Thursday night at 8 o'clock, fast time. All Democrats and others are most cordially invited to attend and hear Mr. Spence discuss the political issues.

Mrs. Carl Conner was called to Terre Haute, Ind., last week to attend the bedside of her husband, Carl Conner, who was quite ill in a hospital there. However, she was called home on account of the illness of her sister, Mrs. Cameron Brakenfield.

Nervy Woman Causes Hold-Up Men To Flee

Woman Returns Fire of Bandit, Four Youths Arrested and Lodged In Newport Jail

With an unusual nerve and presence of mind, Mrs. B. D. Hagwood of Neptune, Tenn., routed would-be youthful highwaymen last Thursday morning at 3:30, when they attempted to rob Deputy Sheriff B. D. Hagwood, wife and mother, who were parked on the side of Federal Highway 42 at Little Sugar Creek, 6 miles above Warsaw, in Gallatin county, where the Hagwoods stopped to rest while en route to Detroit, Mich.

At the time mentioned four youths appeared at the side of the Hagwood car, one armed with a gun who ordered them to hold up their hands. Mrs. Hagwood, with an unusual display of bravery, reached into a pocket of the car and pulled out a gun. The armed youth tried to intimidate her by firing his gun. She immediately fired at the four and they started to run. Mr. Hagwood caught the man with the gun who gave him a name as Hubert Morin 20 of Detroit, Mich. State Highway police were called and Charles Crow state patrolman took Morin to the Newport, Ky., jail. The state highway police found the other three trying to "thumb" a ride. They got it and were placed in the Newport jail, where they were placed under \$10,000 bond.

They gave their names as Gordon Caple, 19; Paul Collum, 18; John McBride, 22, of Little Rock, Ark. and Hubert Morin, 20, Detroit. Hagwood questioned Morin and he said they had a car parked down the road which carried Arkansas license plates.

Crowe said the car in which they were riding was stolen in Arkansas. They also are being held in connection with the holdup of a man on Route 40, twenty miles from Dayton, O., before they came to Kentucky.

Crowe and Chief of Police Leo Livingston of Newport checked with police of Little Rock, Ark., and were informed the youths were wanted for questioning in connection with the robbery of W. A. Harper, Little Rock, September 14. It was said that Harper was robbed of his car and \$20.

Crowe said the youths will be returned to Warsaw in Gallatin county for grand jury action.

Warsaw Man Critically Ill

William O. McConn, one of the representative citizens of Warsaw has been critically ill for some time and recovery is impossible, as he is suffering from pericarditis for which there is no known cure. Mr. McConn owned and conducted a men's shoe store on Main Cross street, in the old Arcade building some years ago which was destroyed by fire. He has held many lucrative positions as traveling salesman for a number of large Cincinnati firms and at one time was floor manager for the old John Shillito Dry Goods Company Cincinnati. His many friends deplore his most unfortunate condition, though he is not conscious of pain.

FELL AND FRACTURED ARM

Last Wednesday night during the rain storm, Mrs. Effie James of South Walton, one of Walton's excellent ladies, in attempting to close a window, fell, when her feet slipped on the floor, fracturing her left upper arm near the wrist and painfully straining her back. She was taken to Christ Hospital, Cincinnati, O., in the Chambers & Grubbs ambulance, where her injuries were X-rayed, remained a day and returned home. Her many friends sympathize with her and her family in her mishap.

BAPTIST MISSIONARY SOCIETY TO MEET

The Missionary society of the Walton Baptist church will meet with Mrs. Tom Perival on Thursday, October 8th, for an all day meeting. The W. M. U. and women of the church are invited.

CHAS. C. HERRICK DIED IN CHICAGO

Remains of Former Resident Buried At Warsaw, Saturday, Where He Was Born and Raised

Brought back to Warsaw, Ky., his old Kentucky home, a spot he so loved, associated with very tender memories, all that was mortal of Charles C. Herrick, was interred in the little cemetery of his old home town Saturday afternoon. Many of his old friends and loved ones gathered around to drop a tear to his memory. Here his remains rest among many old friends of years ago at rest in the little city of the dead. Not in strange lands, he knew not, but with old friends, some old and some young, with whom he had laughed and played—a dear wish realized that he could rest in this hallowed ground.

Charles Herrick was born in Warsaw, Sept. 1, 1859, where he lived until 25 years ago, when he moved with his family to Covington, Ky., moving to Chicago, Ill., about three years ago. Here he and his faithful wife made their home with their daughter, Mrs. Kathryn Norris. He began failing in health and for several months previous to his passing was perfectly helpless.

On June 25, 1885, he was united in the holy bonds of wedlock to Miss Georgia Roberts, daughter of Mr. and Mrs. Joseph Roberts of Warsaw. To this union were born two daughters, Mrs. Mary Louise Galt, Latonia, Ky., and Mrs. Kathryn Norris, Chicago. Besides his widow and daughters, he is survived by four grandchildren, one brother R. M. Herrick, Covington, and Mrs. Carrie Rea, Buffalo, Okla.

His remains were brought to the Funeral Home of Lineman & Sons in Covington, where they lay in state until Saturday, when religious services were held in the chapel by Rev. C. D. Carter, pastor of Latonia Christian church at 1:30 p. m., after which the remains were taken to Warsaw cemetery, where short burial services were held at the grave by Rev. Carter, who read the 23rd Psalm and offered prayer.

Mr. Herrick was a good man, of a sunny disposition, never had any hard luck stories, or if he did he kept them to himself. Everybody who knew him, loved him for his genial nature. He was a member of the Baptist church, corner of Robbins and Madison avenue, Covington. Had Charles adopted the stage for the profession in minstrelsy, he would have been a great success, as he had the blackface character almost perfect in his inimitable characterization of the Ethiopian. Whenever an amateur entertainment was to be staged in Warsaw, and it was a minstrel of a blackface comedian was desired, Charles was prevailed upon to assume that character.

The sympathy of the many friends of the family is extended them in their bereavement. The pallbearers were his brother R. M. Herrick, Bennett Herrick, Otto Herrick, Matt, Dick, Gil and Willie Roberts and another whose name we did not learn.

Methodist to Lay Corner Stone

Of the New Florence Church In Course of Erection

The corner stone for the new Methodist church at Florence, Ky., is to be laid on Sunday afternoon at 3 o'clock, Eastern Standard Time Dr. T. D. Ellis, Executive Secretary of General Board of Church Extension, Louisville, Ky., Dr. M. N. Waldrup, pastor of First M. E. church in Covington, Dr. O. B. Crockett, Presiding Elder, and other ministers are being invited to be present and to participate in the ceremonies. Actual brick work was begun on Tuesday of this week along with the general construction of the building. Mrs. Elmer Werks of Covington was the guest of friends here on Thursday.

J. W. GRANT NAMED CHAIRMAN OF CO. DEMOCRATIC DRIVE

To Start At Latonia Race Track Saturday, Oct. 3—Boone Co. Motorcade Starts at Florence

Appointment of J. W. Grant, Burlington, Ky., chairman of Democratic Campaign Drive in Boone county was made known by a telegram received Thursday by Mr. Grant from Vergo Barnes, State Campaign Director. This selection was made by Judge John Northcutt, Covington, Ky., Advisory Chairman of Fifth District.

C. D. Benson, County Court Clerk has been chosen Vice Chairman; Mrs. Emily Hughes Clerk of Beaver Lick, Ladies Chairman, and Mrs. W. T. Berkshire of Petersburg, Vice Chairman of Ladies Organization.

On investigation we have found there are several hundred legal Democratic voters in the county, who so far, have failed to register under the new Registration law. It is necessary for these voters to go to the Clerks office on or before Oct. 10th and register, in order to be eligible to vote at the November election. We are urging these voters to please register.

Opening of the State Democratic Campaign will be held in Covington on Saturday, Oct. 3rd, 1:30 p. m., slow time, at the Latonia Race Track. We would like a large delegation from Boone county to attend this opening. We are planning a motorcade to leave Florence, Ky., at 12:30 p. m., slow time.

The Young Men's Democratic Club Rally at Harvest Home has been called off, as the State Democratic Campaign opening will be held at Covington, Ky., on that date.

MASONIC MEETING

Walton Lodge No. 719, F. & A. M. will hold their regular monthly meeting Thursday night at 7:30 at their hall. All members are urged to be present.—O. W. Rouse, Secy.

Mr. and Mrs. Bruce Wallace, Mrs. Gertrude Gault, Mrs. Pearl R. Johnson, Mr. and Mrs. Powers Conrad, R. M. Hall and Mr. and Mrs. J. R. Wallace attended the National Home Show in Covington, Friday night.

Baptist Minister Called Sunday

Rev. C. J. Alford of Chillicothe, Ill., Called As Pastor of Walton Baptist Church

Sunday, after due deliberation, the members of the Walton Baptist church, called Rev. C. J. Alford of Chillicothe, Ill., as minister of their church. Rev. Alford preached at this church about a month ago and the members were very favorably impressed with his sermon, hence his selection.

Rev. Alford is a young man, married but has no children. He comes to this church with the best of recommendations and the members hope he will respond favorably to the call.

MOTHER OF SEVEN CHILDREN SUICIDES

Mrs. John Earl Wolfe Hangs Her Self Monday Near Florence

Dependancy over failing health caused Mrs. Stella Mae Wolfe to end her life Monday at her home near Florence, on the Florence-Burlington Highway, by hanging herself. She was the wife of John Earl Wolfe, former residents of Walton.

The unfortunate woman was found hanging from the top of a stairway leading to the attic at her home with a piece of binder twine around her neck. She had been dead for some time when found by members of her family. She had told relatives on several occasions that she intended to drown herself.

She is survived by her husband and seven children, Everett, James, Ralph, Anna, Laura, Nora and Alice Wolfe and her parents Mr. and Mrs. George West.

Her funeral will take place Thursday at 2 o'clock, fast time, from the Florence Baptist church, Rev. R. F. DeMoisey, the pastor, conducting the services.

Mrs. Pearl R. Johnson left Monday morning for Glencoe, Ky., where she is the guest of Mr. and Mrs. David Scott.

**CAMPAIGN AGAINST THE
HATED FARM THIEF**

The Kentucky Farmers Home Journal, 71 year old farm publication, has launched a state-wide drive against farm thievery throughout the State. This war against thieves has been waged in 13 counties, and it is the hope of Mr. Vaughn Spencer, publisher of this paper, to extend the campaign to cover every county in the State by the first of next year. Thousands of Kentucky farmers have joined in the efforts of Mr. Spencer to stamp out farm thievery, and hundreds more are joining every week.

This campaign is the first of its kind in Kentucky. Statistics reveal that farm thievery has been growing within the last few years. The annual loss through the theft of farm property runs into billions of dollars and organized farm thievery has become a serious menace to the countryside. Mr. Spencer was born and reared on a Kentucky farm, and realizes what it means to a farmer to cultivate a crop of tobacco and have it stolen; to raise chickens and have them taken from their roosts by the dozens; and to have fattened hogs and cattle driven from their pastures and butchered by the unscrupulous thief who preys upon the farmer. That is why the Kentucky Farmers Home Journal is dedicating itself to this cause—because it realizes the need of drastic and immediate measures against the farm thief, and because it wishes to see the farmers' property protected.

Because farm thievery is so widespread in Kentucky, the Kentucky Farmers Home Journal is offering a \$25 reward for the arrest and conviction of thieves stealing from the premises of all farmers who join this great campaign. A metal thief warning sign to display on his front gate is furnished to each member. Money for payment of rewards is in the bank.

Mr. Spencer personally delivered three reward checks on September 3. Two rewards were paid in Breckenridge county, and the other in Butler. These rewards were paid for the apprehension of chicken thieves who stole from members of this campaign. Several more thieves are in jail awaiting trial.

The Stop the Farm Thief Campaign, sponsored by Mr. Vaughn Spencer, editor and publisher of the Kentucky Farmers Home Journal, is adding about 500 members a week. This great drive is one of the most worthwhile campaigns ever sponsored to improve farm living conditions in Kentucky and it is the duty of every Kentucky farmer to rally behind the Farmers Home Journal in this fight against the farm thief.

CHAPTER XI

The walks were littered with leaves that scuffed under Hugh's feet. His shadow lengthened as he passed under one or another, shortened as he approached the light at the next corner. He walked slowly, took the long way round, that he might give Dorrie time to get home, for Can to get away, time for her to rehearse her story for the last time. And he must be cool, as he was now, viewing the whole thing with balance.

The turmoil which had mounted in him the last hour, and which had increased when he heard Dorrie's voice on the wire, ebbed away.

Dorrie had taken off her hat and coat. They were thrown on the davenport. A plaid scarf with rusted tinges was still around her neck. "Hello, Hugh," she said briefly.

"Hello, Dorrie."

She leaned over and tied the lace of her shoe. "Have a nice trip?" she inquired as she raised her head.

In spite of himself the sight of her flushed cheeks, her strange shining eyes, sent a tremor through his blood. He rested his arm on the mantel. "I had a profitable one."

She giggled this. "Meaning?"

"What I said."

"Very well—if you wish to be enigmatic!" Cruel pin-points danced in her eyes. "Are you going to ask me if I had a profitable time while you were away?"

"I took it for granted."

She shrugged. "Then said: 'The house is cold; you'd better build a fire if we're going to stay here.'"

Under his steady gaze her eyes dropped.

"I must have a talk with you," he said slowly.

They went into the sun room with its wicker furniture. Formally Hugh drew up a chair for her, brought her coat and laid it around her shoulders. He touched a match to the asbestos-backed grate, adjusted the flame. Then stood in silence. Dorrie looked to the fire; her white hands were clasped around her knees. She lifted her creamy eyelids. "Going to tell me you're through?" he asked.

"Yes, Dorrie, I'm through."

He thought she trembled a little, and the discernment that she was in need of pity even as he, battled

with his resolution. He stood watching her eyelashes flicker over her cheeks as she looked down.

"Hugh, you'll make it easy for me!"

"Certainly."

She relaxed in her chair a trifle. "It's one of those things which can't be helped. At first I was disappointed in him—he didn't act the way I expected when you found out. But when Joan went off the deep end—nothing seemed to stand in his way then."

"Except me."

Her "yes" was small, almost inaudible.

Curling bronze hair, white skin, lovely face, he must look his last upon them. Even desire was forbidden. The hate which surged up in him at her shallowness, almost as great as his desire, something rose in his throat which made it difficult to speak. He swallowed.

"No need to prolong this, is there?"

She started. "You're going?"

"You won't be afraid to stay alone tonight?"

She gave a gesture of dissent. "I'll be at Mother's. After you

you do something for me?"

"Name it," said Hugh without thinking.

"Will you get Jerry a decent job in your plant, something with good pay and a future to it?"

Hugh gave a short laugh, drew away from her.

"Please, Hughie—please."

"So you were bargaining? Weren't you concerned over your mother?"

"That goes without saying. But this means such a lot to me—you can manage it!"

"A soft job with fat pay? Any job at all is scarce in a steel plant. As soon as we can manage it we take back our old men whom we laid off."

Kazia gave a deep sigh; her eyes swam in mist. "Oh, Hugh, you aren't going to let us down? I counted on you."

"Use."

"Certainly."

"Don't you see he's using you to help himself along? He wants you to ask me, your brother, for a good position. Why doesn't he apply in the regular way—go state his qualifications to Kelly Burns who has charge of that?"

"Don't blame him. I thought of it."

"Does he know you're asking me?"

"Yes."

"He doesn't want a soft job," she hurried to say. "He wants someone with a chance at advancement—something he'll never get where he is. Speak to this Burns, who's coaxed, 'You just speak to him! Won't you do this tiny favor for me, Hugh?'"

He shook his head. "No, Kazia. He's lucky to have work—if you wish him."

"Why do you give Jerry a mere nod when you come in? You could be civil—say a few sentences now and then. I tell him that it's just your way—one of those big, silent business men with the reconstruction of the nation on your shoulders—but I wish you'd be decent."

"It's no go, sis. I don't like him."

"How can you say that? You don't know him." She was agitated.

He rattled his paper as a signal that he wanted her to take herself from the arm of his chair so that he might read. "I think it's just your way—one of those big, silent business men with the reconstruction of the nation on your shoulders—but I wish you'd be decent."

Kenton County Homemakers to Resume Program of Work

By Zelma E. Byerly

The Kenton County Homemakers resumed their regular program of work in September under the direction of Miss Zelma E. Byerly. Kenton County Home Demonstration Agent. The various groups have as their major study for 1936 "Better Buying of Clothing," which includes the following subjects: General Buying Practices, Buying Piece Goods, Buying Ready to Wear, and Buying Shoes and Hosiery. The minor program is "Reading in the Home," and a definite program of recreation.

Newly elected presidents for the year 1936-37 are: Staffordsburg, Mrs. Bluch Rich, Jr.; Nicholasville, Mrs. Rada Stephens; Forest Hills, Mrs. J. N. Cook; Winston Hill, Mrs. C. D. Vaughn; Oak Island, Mrs. Sherman Barberick; Independence, Mrs. Logan Wayman; Crescent Springs, Mrs. John Schmidt; Oak Ridge, Mrs. H. R. Hutchins; Piner, Mrs. Virde Mullins; Elsmere-Erlanger, Mrs. George Miller; Ryland, Mrs. William Dickman; Fort Mitchell, Mrs. Edna Schwaner.

Regular meetings will be held in the following communities during October, any person interested in the opportunity to study homemaking problems under trained leadership is cordially invited to attend:

Staffordsburg, Oct. 1st, 11 a. m. at Mrs. Kirby Richardson's.

Forest Hill, Oct. 2nd, 11 a. m. at the home of Mrs. Nell Jones.

Stokard, Oct. 3rd, 11 a. m. at Mrs. Clarence Armstrong's.

Nicholson-Atwood, Oct. 7th, 1 p. m. at Wood Hall.

Independence, Oct. 8th, 11 a. m. at Christian Church.

Crescent Springs, Oct. 9th, 11 a. m. Mrs. Raymond Bubbak.

Elsmere-Erlanger, Oct. 12th, 11 a. m. Legion Hall.

Winston Hill, Oct. 13th, 11 a. m. Mrs. Chris Leister's.

Oak Island, Oct. 14th, 1 p. m. Community House.

St. Mitchell, Oct. 15th, 1 p. m. at Mrs. Curtis Chalkey's.

Oak Ridge, Oct. 20th, 11 a. m. at Mrs. K. L. Galloway's.

Piner, Oct. 19th, 11 a. m. at Mrs. L. E. Hopkins's.

Annual meeting, Oct. 21st, 10:30 a. m. Independence.

Leaders' Training school, 10:30 a. m. Independence.

Training Schools for Leaders

The foods leaders met at Independence, Sept. 22nd, with Miss Florence Imlay, foods specialist from the extension department of the University of Kentucky. This group planned attractive menu for the Homemakers Clubs for the club year.

Clothing leaders met with Miss Iris Davenport at Independence on Sept. 24th. The training school was the first of a series to be held for the project, "Better Buying of Clothing," subject discussed was "General Buying Practices."

The leaders for the project on "Reading" met at Independence on Sept. 29th with Miss Zelma Byerly to formulate plans for the minor project, "Reading in the Home."

The leaders who have charge of recreation in each community club met Sept. 30th and made plans for definite forms of recreation to be carried out in the various organized groups.

An Aim for the Homemaker

To have the home, Economically sound, Morally wholesome, Mentally stimulating, Artistically satisfying, Socially responsible, Spiritually inspiring.

Founded upon mutual affection and respect.

A Design for Homemaking

"To have an orderly home, but so orderly that it is prim; to have work proceed with a pleasant rhythm, but not with a factory-like precision; so to manage the family money that it is not a constant source of annoyance and petty bickering; and so to distribute household work that each family member has a share, but not a burdensome share that interferes with other necessary activities; so to select and care for clothing; equipment and materials that there is little waste and reasonable satisfaction; to select and cook appealing meals that are nutritiously sound; and to serve these meals simply but in good taste and in a pleasurable atmosphere; to maintain sanitary conditions throughout the house, to care for children and train them to be useful and happy, to create a place of rest, relaxation and enjoyment for all the family."

"An Aim for the Homemaker," and

"A Design for Homemaking" were each written by Miss Lita Bane Director of Home Economics at the University of Illinois. We present them as a philosophy of Homemaking truly worth of the aspiration of every Homemaker.

OCTOBER SALE OF FORD USED TRUCKS

For the first time in the history of the automobile industry, Ford dealers throughout the United States will launch October first a nationwide used car and truck clearance sale, which will continue throughout October.

The aim of the drive is to put into the hands of new owners before the month ends more than 150,000 sound dependable used cars and trucks, taken in trade in the sale of part of the 1,000,000 new 1936 Ford V-8s produced this season. The drive is not only the first nationwide clearance sale of its kind ever conducted by Ford dealers en masse, but also the first nation-wide event of its kind in the history of the motor car industry.

Launched just in advance of the advent of cold weather, the clearance sale is intended to enable those whose own cars are not winter driving to acquire without great expenditure used cars or trucks which will serve safely and dependably. Dealers also will stress the advantage to be gained by buying before trade-in values of used cars now in service decline appreciably as the result of the announcement of 1937 models.

Many of the used cars and trucks in stocks to be offered by Ford dealers during the clearance sale will be marked under the "R & G" (renowned and guaranteed) plan, announced a year ago. The "R & G" label on any used car or truck in the stock of a Ford dealer means that the vehicle including engine, chassis and body, has been inspected and repaired or replaced, if found necessary.

The "R & G" plan permits a purchaser to drive a used car or truck bearing the label for two full days as a probationary period. At the end of this period, if he finds the vehicle is not satisfactory in any way, he may return it and get back the full amount paid. The plan was adopted more than a year ago in order to impress upon the public the fact that they may buy used cars and trucks through Ford dealers with confidence.

In preparation for the sale, dealers throughout the country are repainting their entire used car and truck stocks, in order to permit clearance without delay. Used cars are being refurbished and decorated for the event. Arrangements are being made for special activities throughout the month.

Laboratory to Study Soy Bean

Seek New Varieties for Many Industrial Uses.

A co-operative industrial research laboratory has been set up at the University of Illinois to study the soy bean crop. Dr. E. O. May has been named director. Breeding work is under the direction of W. J. Morse of the bureau of plant industry.

Three immediate objectives of the new laboratory are: Improvement of present industrial uses for soy beans; more facts on the effects of different processes on the quality and quantity of soy bean products; and facilities for testing different varieties as to adaptability for industrial use. On experimental plots nearby, plant breeders hope to grow new varieties even better suited to industrial demands.

Soy bean acreage rose from 2,000,000 acres in 1924 to nearly 5,000,000 last year. Production of the beans themselves increased from 100,000 bushels to 40,000,000 bushels. Reasons for this increase—in addition to the demand for beans for food, feed and industrial uses—are immunity of soy to chinch bugs and other pests; good prices compared with other grain crops; drought resistance and high seed yield.

Soy beans are used in making industrial and food products such as paint, enamel, varnish, glue, printing ink, rubber substitutes, linoleum, insecticides, plastics, glycerine, floor, soy sauce, breakfast food, canned "meat" beans with a milk-like flavor, live stock feeds, and so on. Lecithin is a valuable product of soy bean oil used in the manufacture of candles, chocolate, margarine, medicines, in textile dyeing and as an emulsifier.

A question the new laboratory will study is why the same soy varieties growing under varying soil and climatic conditions show a range of 12 to 26 per cent in oil and 28 to 54 per cent in protein. For paints, varieties having an oil high in "iodine number" are desirable. For food purposes an oil low in "iodine number" is better.

This laboratory is being established under the provisions of the Bankhead-Jones act of June 20, 1935, which provides for establishing by the Department of Agriculture of a limited number of specialized laboratories in the major agricultural regions.

Use Safety Pens for Handling Young Bulls

"Never slaughter a high grade young bull just because he has an eye," declared the Indianapolis Indemnity slaughtering of young bulls is a great hindrance to herd improvement in this state," says John A. Arey, extension dairyman at North Carolina State college.

When a bull has been found to have the ability to transmit good type and high milk producing capacity to his daughters, Arey added, he is a proven asset to the herd. The life of these bulls, which take the guesswork out of breeding, should be prolonged as long as they are active.

A dairy bull can be handled safely, and his period of usefulness extended, by keeping him in a safety bull pen. Such a pen can be built by any dairyman at low cost from materials usually found around a farm, he added.

A wider use of safety bull pens would not only make possible more rapid progress in herd improvement," Arey declared, "but at the same time would protect the caretakers from ugly bulls. No matter how tame a bull may appear to be, there is no way of telling when he may suddenly turn on his handlers."

Horse's Stomach Capacity

The average capacity of a horse's stomach is from 15 to 18 litres or three to four gallons, according to an authority in the Montreal Herald. These figures were obtained from a very large number of observations and give the extreme size of stomach when distended. However, the organ is under the best physical condition for digestion when it is about two-thirds full. That is, when it contains from two to two and one-half gallons of material. The above information does not necessarily mean that this quantity of material should be taken by a horse at any single meal, for the stomach is not usually completely emptied from one feeding to the next.

Buffalo Grass Success

One of the government experiment stations in Kansas finds that buffalo grass is drought-resistant and erosion-resistant. The re-establishment of this grass on abandoned wheat lands is encouraged. Propagation is said to be comparatively easy. By transplanting pieces of sod to well plowed land the grass gets a foothold and spreads rapidly. Pioneers never tire of singing the praise of buffalo grass. It makes excellent pasture and its good qualities, such as drought and erosion resistance, are well known. Buffalo grass has an amazing capacity for "coming back." After the summer dries the buffalo grass plots were the first to green up when rain fell.

SILVER DOLLAR BRADY RENTS PENTHOUSE FOR PRIZE HORSE

Silver Dollar Brady, wealthy cowboy from Dallas, has the world's first hotel "penthouse corral" 17 floors above Chicago. Brady and his horse are shown here "at home" looking out over the skyline.

"More Silver Dollars in circulation will bring back better business conditions a whole lot faster." That's the idea of Silver Dollar Brady, who arrived in Chicago with the intention of getting more Silver Dollars in circulation.

Brady, big, six-foot wealthy rancher from the West, walked into the Hotel Sherman, his prize horse trailing behind. First, he registered with the horse at his heels. . . then both man and beast went into the coffee shop and had a bite to eat. He had wired for reservations for himself and horse, and was given a penthouse high above the street

on the 17th floor. With a special corral, hay, oats and all for his horse.

"The trouble with paper dollars is, you don't feel 'em in your pocket," Brady said. "Now, it's different with Silver Dollars. You know you got 'em. They seem to mean a whole lot more. But because they're heavy, you spend 'em a lot quicker."

Brady said he was going to urge merchants to pay their employees in Silver Dollars.

"Then you just watch business boom," he said.

Brady himself wears a valuable belt made of old and rare Silver Dollars.

The following by special invitation of Misses Julia and Sue Hanco, were invited to their home in Cincinnati, Ohio, to attend a dinner in honor of their mother Mrs. Sallie Hanco's birthday anniversary: Judge and Mrs. Sidney Gaines, Miss Graham Roberts, Misses Sallie and Elizabeth Rogers, Mrs. Sam B. Street. Others who were invited were Mr. and Mrs. M. G. Martin, Florence; Clifton Roberts, J. W. Holmes and daughter Mary Lee of Covington, Ky., and Mr. and Mrs. C. F. Gardner of Carlisle, Ky.

Miss Georgia M. Rouse spent the latter part of last week here with her mother Mrs. Julia A. Rouse of South Main street. She left Sunday for Somerset, Ky., to resume her duties as Latin teacher in the public schools of that city.

1-MINUTE SAFETY TALKS

VICTIMS OF FUTURE ACCIDENTS

I'm starting a new club. It's the V. F. A. A.—or Victims of Future Automobile Accidents.

Instead of going out and getting hurt haphazardly on a sunny Sunday afternoon and coming home with any old injury, we V. F. A. A. boys will try to name our injury in advance, and we may give medals to members who come nearest to calling their shots.

I'm going out for a concussion of the brain ribbon. I've already made arrangements for two months in the hospital and have sent myself some flowers, and have set aside a thousand dollars for expenses. (We V. F. A. A. members have to pay ourselves out our bonus—and we pay it in advance as it will hurt more.)

The whole point is, we think it's smarter to plan our accidents than simply to have accidents most books do. All we have to do is to drive carefully for about 20 seconds on a curve or hill or straightaway. I'm planning to have my accident by passing some cars going up a hill.

Want to join? Here's the menu. Take your choice. Last year, according to The Travelers Insurance Company, non-fatal injuries in automobile accidents were as follows:

	Persons Injured
Fractured Skull	42,550
Fractured Spine	1,700
Other Fractures	79,410
Concussion of the Brain	14,320
Internal Injuries	17,770
Shock (not severe) and Shockup	821,800
Internal Injuries	15,400
Other Injuries (Sprains, Dislocations, Wrists, etc.)	109,240
Total	895,280

ROAD HOUSE OWNER IS INDICTED

By Federal Grand Jury At Jackson, Ky., In Alleged Auto Theft Ring

Two Northern Kentuckians—one of them a widely known roadhouse proprietor—and one Cincinnati man were included in a group of 12 persons indicted last Wednesday by a Federal grand jury in Jackson, Ky. in connection with an alleged automobile theft ring said to have operated in Cincinnati, Covington, and Carrollton, Ky. The indictments included 108 counts.

Nick Behle, owner of a roadhouse on the Dixie Highway, was named in two counts. George Krumpelman, Fort Mitchell, said to be serving a Federal sentence in Petersburg, Va., on a liquor charge was indicted on 12 counts. Al Faehr Cincinnati, was named on 20 counts.

The indictments charge that the defendants transported and concealed stolen automobiles in interstate commerce. More than 70 automobiles stolen in Greater Cincinnati and transported to Carrollton "were recovered by Federal agents," it was said.

CARROLLTON MEN DISMISSED

Oscar Kipping, Carrollton, was dismissed of charges of having had a stolen automobile in his possession when arraigned Monday before Jas. Rogers, United States Commissioner in Covington. Charges against Geo. Scott and Proctor Smith were dismissed later in the same court.

FOSTER L. WILSON

Foster L. Wilson, age 63 years, passed away Wednesday at his home near Devon, Ky., after a short illness with heart trouble. He had been a Green Line conductor for 30 years. He is survived by his widow Mrs. Mabel Wilson, two daughters Mrs. Wm. Turner, Devlin, and Mrs. M. C. Northcutt, Ludlow, Ky., and two sons—Elbert and Mervin—Wilson of Colorado, one brother, five sisters and seven grandchildren and a host of other relatives and friends.

Services were conducted at the late residence Saturday morning at 10:30 o'clock, interment following in Highland Cemetery. Funeral Director Philip Tallaferra had charge of the funeral arrangements.

The Use of Phosphate as a Soil
Building Practice Under the ACP
According to a statement from
O. M. Farrington, Administrative
Assistant, Lexington, Ky., the fol-
lowing are eligible uses of super-
phosphate on land being sown this
fall to small grains grown in com-
bination or immediately fol-
lowed by legumes and grasses. Soil
building payments may be made
for applying super-phosphate this
fall:(1) to any legume or perennial
grasses planted alone or in combi-
nation with any small grain, includ-
ing wheat;(2) when applied to any small
grain being planted for a green
manure crop, and(3) to a small grain, including
wheat, which will be used as a nurse
crop for clover or other legumes in
the spring of 1937.The crops mentioned in this para-
graph may be planted on land from
which a soil depleting crop has been
harvested without affecting the
eligibility of payments. For example
land from which tobacco has been
harvested the farmer may apply
superphosphate to rye being grown
for green manure crop which will
be turned under in the spring of
1937, or payments will be allowed
when the superphosphate is applied
to a small grain being planted as a
nurse crop for clover or grass on
land from which corn was harvested
in 1936.According to experimental data
published by the Kentucky Agri-
cultural Experiment Station, most
soils in Kentucky are deficient in
superphosphates, especially as re-
gards the production of legumes and
grasses for either hay or pasture.Prof. George Roberts of the Agron-
omy Department, states that the ap-
plication of superphosphate as a sep-
arate practice is as sound in Ken-
tucky as the application of lime-
stone as a separate practice. He
points out, however, that a com-
bination of limestone and super-
phosphate is highly desirable throu-
out the greater portion of Ken-
tucky.Farmers who cannot get ground
limestone to use up their soil build-
ing allowance can use superphos-
phate because most soils need phos-
phate as well as ground limestone.The superphosphate practice must
be applied between the dates July
1, 1936 and October 31, 1936 to be
counted.

SENATOR VEST'S **REMARKABLE ADDRESS**

In a Missouri Town Years Ago, Demonstrating His Great Love, For a Dog

Years ago, in an old town of northern Missouri a man brought suit for \$200 against a neighbor who had killed his dog, and engaged Senator Vest to plead his case. The senator made the following remarkable address, considered the finest classic gem of its kind in the history of forensic oratory:

"Gentlemen of the jury: The best friend a man has in the world may turn against him and become his enemy. His son or daughter that he has reared with loving care may prove ungrateful. Those who are nearest and dearest to us, those whom we trust with our happiness and our good name may become traitors to their faith. The money that a man has he may lose. It flies away from him, perhaps when he needs it most. A man's reputation may be sacrificed in a moment of ill-considered action. The people who are prone to fall on their knees to do us honor when success is with us may be the first to throw the stone of malice when failure settles its cloud upon our heads. The one absolutely unselfish friend that a man can have in this selfish world, the one that never deserts him, the one that never proves ungrateful and treacherous is his dog. A man's dog stands by him in prosperity and poverty, in health and in sickness. He will sleep on the cold ground where the wintry winds blow and the snow drifts fiercely, if only he may be near his master's side. He will lick the wound and soothe that come in encounter with the roughness of the world. He guards the sleep of his puer master as if he were a prince. When all the other friends desert he remains. When riches take wings and reputation falls to pieces, he is as constant in his love as the sun in its journey through the heavens. If fortune drives the master forth an outcast in the world, friendless and homeless, the faithful dog asks no higher privilege than that of accompanying him, to guard against danger, to fight against his enemies, and when the last scene of all comes, and when death takes the master in its embrace and his body is laid away in the cold ground, no matter if all other friends pursue their way, there by the graveside may the dog be found, his head between his paws, his eyes sad, but open in alert watchfulness, faithful and true even in death." Then the senator sat down. He had spoken in a low voice, almost without gesture. He made no reference to the evidence or the merits of the case. When he finished the judge and the jury were wiping their eyes. The jury filed out, but soon returned with a verdict in favor of the plaintiff for \$500. He had sued for \$200. It is even said that some of the jurors wanted to hang the defendant.

U. of C. Football Shorts

Bill Feldhaus and Linus Haby who are rounding out their third year as members of Coach Rust Cohen's University of Cincinnati Gridders have quite a reputation to live up to this year. Both were picked on the All-Ohio and All-Buckeye teams selected by sportswriters of the Associated Press and the United Press. Bill's play has been one of the shining lights of Bearcat teams the last two years and the former Cincinnati Hughes High School star promises to teach opposing linemen a thing or two about just how the game of football should be played while Linus Haby should be playing while Linus Haby the "Compton Comet" will be calling signals and twisting and turning through the enemy's defense in his usual fashion.

Two brother acts are listed on the roster of the University of Cincinnati football team for the first time in the history of the Bearcats. Dan and Mill Garvin of North College Hill, O., and Paul and Dick Jones of Cincinnati, all sophomores, are making a strong bid for a coveted position on the team. Dan is showing his wares at guard while brother Mill is trying out at halfback. The Jones boys are having a little argument among themselves as both are ends.

Coach Russ Cohen lists a Mutt and Jeff combination on the 1936 roster of the University of Cincinnati Bearcats. Little Linus Haby who only measures 5 feet, 7 inches resembles a circus midge when he stacks up against giant Fred Seibert, tackle from Ashland, Ky., who looks like a sure starter on the Varsity. Fred lowers into the ozone to the tune of 6 feet 3 1/2 inches, besides tipping the scales at 205 pounds. Sounds like an excellent candidate for Coach Tay Brown's basketball squad this winter.

The Cincinnati Chamber of Commerce might receive a few letters of recommendation from three sons of sunny California who have forsaken the Pacific Coast for the banks of the Ohio river. The best known member of the California contingent is the dynamic Linus Haby who is playing his third year on the Bearcat football team. Another boy who is winning his spurs is Larry Gibbons starting his second season at end on Coach Rust Cohen's aggregation. Larry hails from Long Beach, and Gordon Or learned the game at Compton. Haby's hometown, and is now entering his second year of intercollegiate football.

"This is a moat," said guide McAdam, who was showing a party about an old castle. "Now would anybody like to ask a question?"
"Yes," replied inquisitive tourist Falgar, "I want to know how in tunket anybody could get one of them in his eye?"—Pathfinder

Utopians Meet

Boone county Utopian club members held their regular September meeting at the home of Miss Mary Reitor of near Petersburg, Thursday night.

Tobacco and Dairy

Field Meeting Planned
Boone County dairymen are planning a combined Dairy Herd Improvement Association and Bull Association tour and field meeting on Wednesday, October 7th. General uproduct problems confronting the dairymen will be discussed by Geo. Harris, Dairy Specialist of the College, on the afternoon program.

Boone County tobacco growers interested in finding better methods of curing tobacco in the barn will hold a tour and field meeting on October 21st. Russell Hunt, Tobacco Specialist from the college, and leading tobacco growers will take part in the tobacco curing discussions.

These meetings will be of interest to a large number of Boone County farmers. Details of the meeting will be announced later. All who are interested are urged to make plans to attend.

4-H Boys Place Eleventh

The Boone County dairy-judging team consisting of Bennie Goodridge of Hebron, Donald Stevens of Florence and Thomas Lutes of Florence, won eleventh place at the Kentucky State Fair Dairy Cattle Judging contest at Louisville, Wednesday, Sept. 16th in state wide competition.

Bennie Goodridge was the highest scoring individual from Boone county, making a score of 220 points out of a possible 300. William Tappan of Florence, accompanied the team as alternate.

In the Utopia Club fat stock judging contest, James Edward Stephens of Burlington, won sixth place meriting a prize of \$300.

The Boone County teams were accompanied by David Colville, Assistant County Agent. Tents and coats were furnished the teams from the various counties, a group of 160 tents in all, each tent accommodating 6 boys.

The 4-H teams were honored on Tuesday night by free admission to the Horse Show, following a parade from the grandstand on the race track down the Midway and ending at the Hippodrome. The horse show according to the boys was one of the outstanding features of the Fair.

Advisory Council Meeting
Plans were completed for Annual Get-Together at a recent meeting of the Advisory Council of the Boone Homemakers' Club. Miss Lullie Logan, Assistant State Leader of Home Demonstration Agents told the Council that the purpose of the Annual meetings is to give a report

of the work done in the Homemakers Clubs the past year and to inspire them for the coming year.

October 22nd has been set as the date for the Boone Annual meeting. Club members and their friends are invited to attend. All members of the Advisory Council were present with Miss Logan and Miss Mary H. Gillaspie, Home Demonstration Agent. The Boone Training Class, Friday, Sept. 25th at the Courthouse, Miss Iris P. Davenport, Specialist in clothing, College of Agriculture led the discussion and work.

This was the first lesson on the Fall Project the "Well Groomed Woman" which the Club members selected to study for the year.

Two leaders from each of the ten clubs will attend the training class. They in turn will give the lesson at their local club meeting. The following leaders have been selected by their club to serve for the next eight months:

BAPTIST REVIVAL AT BANK LICK CHURCH

Will Begin Monday, October 5th.
Rev. R. F. DeMoisey Doing
the Preaching

The New Bank Lick Baptist church will begin their annual revival, Monday, Oct. 5th, at 7:45 fast time, of a two weeks duration. Rev. R. F. DeMoisey of the Florence Baptist church will be to the preaching. He recently held a very successful revival at his church, when 21 members were added to its membership. He held a very successful meeting at the Bank Lick church last year and the membership invited him back again this year. A cordial invitation is extended to the public to attend all services.

M. E. Missionary Society

The Young Women's Missionary Society of the Walton M. E. church met at the home of Mrs. G. C. Gregory of Independence on last Tuesday night. The meeting was opened by the President, Mrs. Jessie Pruett, and a very interesting program was rendered by several members. The topic being "Co-operation in Community Evangelism."

A very interesting talk was given by Emma Jane Miller on "Opening the Spring."

After the meeting, delightful refreshments were enjoyed by all. Next meeting will be held at the home of Mrs. Thomas Griffin.

Dr. and Mrs. Layle Baker of Criderville, Ohio, spent Monday and Tuesday here visiting his mother and family, Mrs. Thos. Percival and his grandparents, Mr. and Mrs. J. B. O'Neal.

MEMORIAL TO FATHER DONNELLY

Beloved Priest, of Brilliant Mind,
Charitable and Kindly Heart
(From Warsaw Independent)
29 Years Ago, June 1, 1907

The memorial services of the late Rev. Edward T. Donnelly held at Warsaw Catholic Church, Tuesday morning, were largely attended by the sorrowing friends of the lamented Father Donnelly, who in every phase of life left the impress of his warm, genial nature and kindly spirit. The auditorium of the church was draped in mourning and in front of the chancel a black casket rested, symbolical of death's sad visit. Rev. Father J. J. Taaffe of Portland, Pendleton County, conducted solemn requiem high mass and was assisted by Revs. Fathers C. J. Brockage of Carrollton, John Hickey of Cincinnati, and C. D. Cooney, pastor of the church, the choir of the Carrollton Catholic Church furnishing the requiem music. The services were very impressive and the entire assemblage appeared to participate in the solemnity of the occasion. At the conclusion of mass the priests and congregation, in solemn procession repaired to the cemetery adjoining the church where a catafalco had been erected at the edge of grave of Father Donnelly, and here Rev. Brockage delivered the memorial address. It was a beautiful thought, abounding in a tribute to the dead, consolation for the living, and inspiring an emulation of the virtues of the lamented Father. Rev. Brockage began with a beautiful quotation, and as he grew into his subject he painted in the prettiest of languages all that was good and true in this life to the memory of the deceased, feelingly referring to the noble qualities of Father Donnelly, and the affectionate esteem with which he was held by all. In his closing remarks, after alluding to the meekness and humility of the sacred calling of the priesthood, he concluded with Abraham Lincoln's favorite poem, "Oh, Why Should the Spirit of Mortal be Proud?" The services were closed with the priests singing the requiem to the dead. The grave was strewn with flowers, tokens from sorrowing friends.

Ren. Mulford, Jr., the sporting editor of the Cincinnati Daily Enquirer, contributes the following to the Philadelphia Sporting Life, regarding the death of Father Edward T. Donnelly:

"When Mother Earth received to her bosom all that was mortal of Father Edward Donnelly the world bade farewell to a good soul, the ball players lost a warm friend and the game an ardent lover. The death of Father Donnelly was a distinct shock to me. Over a year ago, when I was blue-suffering from a foul below the belt and on the verge of a nervous breakdown, Father Donnelly bade me in his kindly way to come to the retreat of the Fathers in old Kentucky for rest. It was the generous invitation of a man I'd always admired, and it came to me like a sunbeam through a rift in a bank of black, forbidding clouds. On more than one trip the Reds have crossed the trail of Father Donnelly, and I know I am voicing the sentiment of all the old guard in declaring that none knew this eloquent man of the cloth, this priest of God's calling but to love him. In his narrow home in the little cemetery at Warsaw, Ky., may his ashes rest in peace. His soul has found a happier home in the Great Beyond." (The editor deems it a great privilege and pleasure to have been numbered among the friends of this splendid, intellectual and lovable man and it was with deep sorrow that we learned of his passing away. He was a prince of good fellows, liberal to a fault, charitable to all with a loving heart for his friends.)

Independence P. T. A. Play

"Rosetime" a three act musical comedy, sponsored by the Independence P. T. A. will be presented at eight o'clock on the evenings of October 8th and 9th in the Independence school auditorium. Admission 15c and 25c, reserved seats 10c extra. All local talent, good cast and costume chorus thirty-seven people to entertain you. Come and see a worthwhile home talent play.

Mrs. Chas. W. Thompson spent last week end in Chicago, returning home Wednesday. She was accompanied home by Mr. and Mrs. H. W. Harbrough of Cincinnati.

DEATH OF THOS. H. KIRBY 33 YEARS AGO

One of Warsaw's Popular Citizens
Loved By All
(From Warsaw Independent)
Dec. 12, 1903

Thomas H. Kirby, postmaster at Warsaw, died Tuesday morning at about 8:30 o'clock, after an illness of several months from a complication of diseases. The deceased was the eldest son of Capt. Wm. H. Kirby and was born and reared in Warsaw, where he resided all his lifetime. He was of most lovable, genial temperament and was universally beloved for his kindness of heart and his sunny disposition. As a boy he took great interest in literature and the pleasant entertainments inaugurated for the enjoyment of the public and up to a few years ago there was no play or party a success unless Tom Kirby was in it. He was generous to a fault and many have been the recipients of his purse without any public knowledge. He was never so happy as when serving a friend or doing a deed of kindness. His life was a devotion to his friends and their happiness was his object in life. Being possessed of a bright mind he graduated with honor from college and took up the study and practice of law. The hardships of heavy study and the drudgery of work was not in keeping with his rollicking, light disposition and he never tried to attain distinction in his profession, although he had considerable business in the courts. He served as town attorney and police

judge of Warsaw with marked ability. Politically Mr. Kirby was an uncompromising Republican, yet he was never offensive to those who differed with him politically. His party recognized his worth and ability and he was chairman of the Gallatin County Republican Committee for the last nineteen years. Mr. Kirby was deputy postmaster under Capt. John C. Richards in 1880 and became postmaster under President Garfield, filling the position ever since with the exception of the two Democratic administrations. Mr. Kirby was the best postmaster Warsaw ever had, and was so considered by everyone who had business with the office, as he was polite and painstaking to all regardless of their political or social position. In all of his relations of life he was the same way, and no one was more deservedly popular. His genial smile, his cordial welcome and his sunny disposition will be missed by all. Mr. Kirby had been a member of Kentucky Lodge No. 38, I. O. O. F. for about 28 years and was the lodge secretary most of that time, holding that position at the time of his death. He was also a member of the Masonic fraternity, taking the entered apprentice degree several months ago. Besides a host of friends he leaves a father, mother, two sisters Mrs. George Thompson and Miss Maggie Kirby, and one brother Samuel O. Kirby, to mourn his death. The funeral took place from his late home Thursday afternoon at 2:30 o'clock, Rev. E. E. Holmes of the Methodist church conducting the religious services, and the Odd Fellows taking charge of the remains and performing their last sad tribute to their dead brother, after which the remains were laid to rest in the Odd Fellows cemetery. The

palbearers were B. K. Bailey, D. B. Wallace, George Merahon, Olie DeHart, Wm. Graham and R. B. Brown.

CRIPPLED CHILDREN SOCIETY TO MEET AT BANK LICK

On Tuesday, Oct. 13th, the Crippled Children's Society of Boone and Kenton counties will meet at Bank Lick, Kenton county, with Mrs. Dora Crutcher. The meeting will be an all day affair and each one is expected to bring a covered dish. Everyone interested in this work is very cordially invited to attend.

Mr. and Mrs. Earnest Roberts of South Walton, entertained her parents, Mr. and Mrs. Tucker and sisters Edna and Ethel of Greenfield, O., and Keat, Ky., and her sister-in-law Mrs. Josephine Tucker of Georgetown, Ky. Mrs. Roberts returned home with them Monday, expecting to return the latter part of this week.

Mrs. Agatha Ransdell

Mrs. Agatha Ransdell, age 51 years, passed away Friday night at her home on Erlanger street, Erlanger, Ky., after several weeks illness. The remains were removed to the Tallferra Funeral Home for preparation.

She is survived by her husband G. S. Daddell, three daughters Mrs. Sara Werneke, Misses Anna Belle and Buleau Ransdell, four sons Arthur J. G., James and Lee Ransdell and one grandson besides many other relatives and friends.

The palbearers were Harvey, Lee, Hugh and Bernice Ransdell, Rev. Johnson and Mayo Taylor.

Services were conducted at the Erlanger Methodist church, of which she was a devoted member, Monday afternoon at 2:30, by Rev. C. W. Arnold, pastor, after which she was laid to rest in Highland Cemetery. Funeral Director Philip Tallferra had charge of the funeral arrangements.

PRISONER ESCAPES FROM GRANT CO. JAIL

Henry Simpson, Charged With Stealing Sheep, Escaped Saturday Night

Henry Simpson, held in the Grant County jail, charged in three warrants with the theft of sheep from farmers in Grant county, escaped from jail Saturday night. W. G. Wood, a farmer and sheep raiser had asked the county officials to transfer Simpson and two fellow prisoners, Don Minor and Bill Elbeck, in this jail of the same charges to the Covington jail for safe keeping, because of the defective conditions of the jail. Wood, it is stated, said the county attorney decided to keep the prisoners in the Grant county jail.

State Highway Office Discontinued Here

Office Fixtures Taken to Covington Tuesday Afternoon

The State Highway Commission ordered all the office fixtures in the Walton office moved to Covington. Tuesday, and the office here has been discontinued. A large force of employees worked out of the Walton office for a long time, but many of the have been transferred to other sections and some dismissed. All of these employees formed acquaintances here and were a splendid set of gentlemen who made many friends among our citizens, who regretted their departure.

William J. Crouse, regional engineer, is the only one left but his work is not in this immediate territory, but he will retain his residence here for the time being.

Rev. Wade H. Caldwell of Dry Ridge, Ky., was a welcome visitor to Walton, Friday. He has a great many friends in Walton, who are always glad to see him.

PROMINENT KENTON CO. FARMER DIES

John E. Hogrefe Passed Away Friday At His Home Near Independence

John Effie Hogrefe, age 72, prominent Kenton county farmer, died Friday, October 2nd from hypostatic pneumonia. He was born in Kenton county, where he lived his entire life. He was a member of the Lutheran church and a man who had many friends. He is survived by his widow, Mrs. Effie Hogrefe, one son John Henry Hogrefe of Ambridge, Pa., and two daughters, Mrs. Frank Daugherty and Mrs. Marie Payne, the latter two residents of Independence; also three grandchildren. His funeral took place from the Independence Baptist church, Monday, October 5th. Three ministers officiated at the funeral and were as follows: Rev. H. M. Hutter and Harold Beemon of the Lutheran church, and Rev. R. F. DeMolsey of the Florence Baptist church.

The popularity of this fine man was evidenced by the large assemblage at the church, many being unable to enter the building. The floral tributes were numerous and beautiful. After services at the church the remains were laid to rest in the Independence cemetery. Funeral Directors Chambers & Grubbs of Walton, had charge of the arrangements.

Mrs. Mollie Wolfe of Lafayette Ind., and Joe Violett of near Cincinnati, Ky., were here last Wednesday visiting their sister Miss Nannie Violett of Nicholson avenue.

KENTUCKY BANKERS ASSOCIATION

Will Hold Their Annual Meeting In Louisville, Oct. 21 & 22

The Kentucky Bankers Association will hold its 44th Annual Session at the Brown Hotel, Louisville Ky., Wednesday and Thursday, Oct. 21st and 22nd, with a "night-before-party" on the evening of Oct. 20th. John M. Yost, Vice-President and Cashier, First National Bank, Pikeville, Ky., and President of the Association, will preside during the two-day session.

A most interesting program has been arranged, including such speakers as R. M. Plaster, Manager Bank Supervisory Dept., Moody's Investors Service; Richard Hunter, President, Association of Reserve City Bankers, and other outstanding bankers and business men, including U. V. Wilcox of the "American Banker," staff.

A new and most attractive feature which will be a high spot in the convention this year is the Open Forum to be conducted Wednesday afternoon, Oct. 21st.

Registration headquarters will be established in the lobby of the Brown Hotel and will open Tuesday afternoon, Oct. 20th. Delegates and guests will register as soon as they arrive.

On Tuesday evening, Oct. 20th, the annual dinner of past presidents will be held. Only those bankers who have served as president of the Association will be eligible to attend that dinner.

The address of welcome will be made by Mayor Neville Miller of Louisville, and the response will be made by Hollis C. Franklin, Cashier of Farmers Bank & Trust Co., Marion, Ky. This will be followed by the President's annual address by John M. Yost.

The Louisville bankers will be the hosts and will be in charge of the entertainment. The "night-before-party" will be given in cooperation with the ladies of the A. I. B. Chapter in Louisville.

MRS. WM. CALLOWAY DIES OF HEART ATTACK

Independence Lady Passed Away At Her Home In Independence

Mrs. Laura Virginia Calloway, wife of William C. Calloway, died suddenly Monday at her home at Independence, Ky., from heart attack.

Mrs. Calloway had lived in Independence 51 years. She was an active member of the Christian church of that place. Besides her husband four daughters Mrs. John Hatter, Louisville; Mrs. Clifford Coleman, Whites Town, Ky.; Mrs. Clifford Roney, Louisville and Mrs. Elmer Schindler, Independence; a son, Kenneth Calloway, Independence; a brother, John S. Riley, Lexington; two sisters, Mrs. Minnie Service and Mrs. Samuel Schuster, both of Covington, and 16 grandchildren survive her.

Services were conducted at Independence, with burial in the Independence cemetery.

Orville Noel, prominent real estate dealer of Covington, was a welcome visitor to the Advertiser office last Thursday.

V. D. James will leave today (Thursday) for Chicago, Ill., on a business trip.

Mr. and Mrs. Bert Schneider will move from Needmore street, to the property vacated by Mr. and Mrs. Joe Hopperton on South Main street.

A NEW WALTON BUSINESS INDUSTRY

Harry D. Mayhugh Has Entered Extensively In The New Zealand Rabbit Business Coupled With High-Bred Chickens

A new business industry has been opened up rather extensively by H. D. Mayhugh, on a plot of ground in Richmond Court, and at his home on South Main street. At his home he has converted his garage into a hatchery in which he raises fryers for high class trade. He has at present about one thousand chicks from four pounds down. All these chicks are fed in the coops and are never allowed to range and the meat is all white, commanding a fancy price from high class restaurants and hotels. He has built a new poultry house two stories high, 14x32 feet in dimensions and as soon as completed he will move all the hatched chicks to new quarters in this building equipped with all modern conveniences. The building is to be steam heated and a room is built in one end of the building on the lower floor for the caretaker, whose duty it will be to carefully watch all details of the hatchery.

On the same plot ground he has eight hutches for his New Zealand White Rabbits of which he has in the neighborhood of 150. These rabbits are a beautiful snow white with pink eyes and are not only delicious meat, but the fur is valuable and used extensively in trimming ladies winter wraps. etc. The female breeds four times a year and the litter is from four to as many as ten, but the average would be about six. The meat of these rabbits is very fine and has a ready sale. Mr. Mayhugh says he has calls for his entire output.

This breed of rabbit is very gentle and grow to weigh as much as ten pounds. They come from New Zealand, a British Isle in the South Pacific Ocean, south of the equator lying southwest of Australia several hundred miles.

Erlanger Underpass

Is to Be Completed In About 30 Days According to Engineer

Mr. Lyons, State Highway engineer, states that the underpass on the Dixie Highway at Erlanger, will be completed in about thirty days. The trains on the Southern Railroad are passing over the structure and the detour tracks have been removed.

AN INTERESTING LETTER

Readers of the Advertiser will miss a great treat if they fail to read the letter from W. T. Loomis in this issue. It is a most comprehensive and interesting article, written by a gentleman who gives many details intellectually set forth. We feel that we are fortunate indeed in being able to give our readers these excellent articles.

Midsummer Night's Dream

The much heralded Max Reinhardt production of "A Midsummer Night's Dream," the greatest of Shakespeare's comedies, and acclaimed by the entire world as the greatest motion picture ever filmed, will open a popular-priced engagement at the RKO Shubert Theatre, Cincinnati, for one week only, beginning Friday, Oct. 9th.

oWarner Bros., who made this picture, have presented the production as a road-show in a number of the world's key cities and the great newspapers of the country thought it of sufficient importance to have accounts of its premiere cabled to them. News-gathering agencies have devoted many columns to descriptions of these events for which patrons have paid as high as \$10 for a single seat at a premiere.

There is an all star cast which includes James Cagney, Joe E. Brown, Dick Powell, Jean Muir, Victor Jory, Verne Treadwell, Anita Louise, Hugh Herbert, Frank McHugh and scores of others. The screen play is by Charles Kanyon and Mary McCall Jr., and costumes are by Max Rice.

WARSAW LOSES ANOTHER CITIZEN

Wm. O. McCann, Prominent and Popular Citizen, Died Early Saturday Morning

The citizens of Warsaw, Ky., were saddened Saturday morning by the death of William O. McCann, who passed away early that morning at 1:30 o'clock after a short illness of a complication of diseases at his home on East High street. He was a valued member of Tadmor Lodge of Masons and a deacon in the Warsaw Baptist church.

He was born and reared in Ghent Ky., was 67 years old and the son of Mr. and Mrs. W. L. McCann. He was a graduate of Ghent High school and moved to Warsaw many years ago. He was for some time a valued employee of the J. H. McDaniell & Sons and Mountjoy & White merchandise establishments.

He was a man of exceptional ability in the dry goods, clothing, shoe and ladies and gent's furnishings and at one time he held the responsible position as manager of the entire second floor of the old John Shillito Dry Goods Co., Cincinnati, in which position he remained for a number of years. He was also traveling representative for large shoe and dry goods houses in the last named city.

Added to his many other business accomplishments he was a expert window dresser, possessing exceptional ability for neat, attractive and harmonizing display of goods. He was neatness personified and one of the best dressed men in the state, his wardrobe always the latest in style and most appropriate. However, he was very democratic, a gentleman always and never high-baited anyone; of a most gentlemanly and sociable disposition, he made friends wherever he went. Of a kind and gentle nature all with whom he came in contact liked him. He never forgot he was a gentleman and it was a pleasure to be numbered among his friends. If he had an enemy they were not known.

He is survived by his widow Mrs. Sallie McCann, one son William L. McCann, a daughter-in-law, wife of the latter, Warsaw; three sisters Mrs. E. N. Walne, Berkeley, Calif.; Miss Haidée McCann, Mrs. Vernon Driskell, Carrollton, Ky., and one brother John J. McCann, New York City.

During his illness he faithful wife and son and wife tenderly cared for him until the end.

His funeral took place from his late home, Monday afternoon at 2 o'clock, his former pastor, Rev. William Smith of Burlington, Ky., delivering a most appropriate funeral discourse to a large assemblage of relatives and friends, being assisted by Rev. Montgomery, the present pastor of the Warsaw Baptist church in prayer and scriptural reading after which the remains were taken to the Warsaw Cemetery where the members of Tadmor Lodge rendered their beautiful burial services at the grave. The floral tributes were numerous and beautiful, a token of love and respect of relatives and friends for the departed brother.

The many friends of the family tender their condolence to the bereaved ones.

GALLATIN COUNTY FAIR A SUCCESS

Very Creditable Show and Large Crowds Attended. Had a Good Stock Show

The Gallatin County Fair at Warsaw, Ky., which opened last Thursday and closed Saturday was attended by large crowds throughout the week. A fine display of stock and domestic articles were on exhibition. While the horse show was composed of a limited amount of saddle and harness horses, the stock was fine, as was also the sheep and cattle. The amusement concession did not do as well as expected. The domestic exhibitions were displayed in the large barn on the ground as was also the chickens, sheep and tobacco. Some nice automobiles were also on exhibition by the local dealers. As far as we could learn the fair was a success financially.

Due credit should be given the enterprising citizens of Warsaw and Gallatin county in giving these annual fairs as it requires a great deal of their time with small remuneration.

In the light harness ring, Bert Rich, Covington, won first prize with Miss Rich, driving; Uloos Carlton Warsaw, second, and John Fagan Walton, third. In the roadster ring, Elbert Gross of Walton, won first and second and John Fagan, Walton, third.

BARTON TIBBS

Berton Tibbs, age 63 years, passed away Sunday morning at his home in Columbus, Ohio, after a long illness with heart trouble. He is survived by his widow Mrs. Sara Tibbs, one daughter Mrs. Emmet Broderick of Erlanger, Ky., two sons Howard Tibbs of Covington, Ky., and Harold Tibbs of Ft. Mitchell.

Funeral was from the Tallaferrero Funeral Home, Erlanger, Ky., Wednesday at 10 a. m., with requiem high mass at St. Henry's church at 10:30 a. m. Interment in Highland cemetery.

Miss Zella Mae Osborne of Williamstown, Ky., accompanied by her friend Miss Pearl Parker of Covington, were the week-end guests of Mr. and Mrs. Tom Neal of South Walton.

North Regional Missionary

North Regional Missionary meeting will be held at the First Baptist church, Frankfort, Ky., October 15 beginning at 9:45 a. m., central time. Miss Rose Marlowe, Missionary to China, will be guest speaker, Mrs. M. E. Highland, Regional President, will be in charge—Pub. Chairman.

R. L. Westover, the genial editor of the Grant County News, Williamstown, Ky., was a visitor to the Advertiser office Monday.

HE'S ONE OF THE GANG, NOW

Johnny's spirit was willing, but his sight was weak. He'd have liked to play tennis—but he kept missing the ball. He'd have liked to ride horseback, but he never could see where he was going. He found himself left out of things. Then he had his eyes examined, their defects corrected. He's one of the gang, now. Is your sight depriving you of fun? Let us examine your eyes.

Important Correction on Last Weeks Comment on the Use of Phosphate As a Soil Building Practice.

ACCORDING TO STATEMENT FROM O. M. FARRINGTON THE ITEMS (2) AND (3) GIVEN LAST WEEK UNDER PHOSPHATE ARE INCORRECT AND CANNOT BE USED FOR SOIL-BUILDING PURPOSES IN 1936 UNLESS SEEDS IN COMBINATION WITH LEGUMES OR PERENNIAL GRASSES PRIOR TO OCTOBER 31, 1936.

The soil-building payments for the use of superphosphate applied on land being sown this fall to small grains will be limited to cases where legumes or perennial grasses are seeded this fall (prior to October 31) with the small grains or where the small grains are being seeded on land which has been classified as soil conserving in use on ECR-10.

In view of the corrected interpretation concerning the use of superphosphates as a soil building practice, it will be necessary for producers to sow a legume or a perennial grass with their fall seeded green manure crop, fall seeded winter cover crops and fall seeded nurse crop which are being planted on land which was idle in 1935 or from which a soil-depleting crop was harvested in 1935, in order to qualify for superphosphate payments. We regret that the error in last weeks statement was made but this should clear up any question before the application of the practice will be made by most farmers.

CHAPTER XII

"You talked to him then, Beautiful?"

Kezia's face assumed an expression of sullen discontent. "Mmm."

"No results?"

"None."

"Comments?"

"He craved about the men they laid off at the plant and had taken on as work picked up," he said you should go to Kelly Burns who hires them.

"Never mind. I expect you did the best you could. Providence wasn't willing! It is—or it isn't!—shall we drive to Brookline? Too far?"

"Cold?"

"Not much." Kezia shivered. "You might run up that window a bit. There—that's better."

"Your brother doesn't like me, but that," said Jerry, heroically, "fine fellow he is! I hear it on all sides—Hugh Marsh—a prince of a chap!"

"Hugh is pretty swell."

"Cousin Gavin probably would have taken you in his bank," said Kezia reflectively. "Didn't Lizzie say he would?"

"Once," admitted Jerry. "Until I threw the cat in the electric fan!" teased Kezia.

"Woman," cried Jerry with vehemence, "I'll kiss you!" He suited the action to the word swiftly. "Now will you be quiet?"

"Like a mule!" She laughed and leaned possessively against his shoulder.

Jerry's voice came to her with seductive sweetness above the roar of the noisy engine. "It's you, gorgeous, I'm thinking of. I want to marry you, but how can we do it on twenty-five a week?"

"You're so practical."

"A fellow has to stop and think occasionally. I adore you, precious—too much to lie up to poverty! Sometimes I think—"

A premonitory shiver went through Kezia. "What do you think?"

"That it might be better for us to break it off."

Kezia sat bolt upright. He would go back to Ellen! People would say he had thrown her over! She had a feeling for Jerry that no one else had ever stirred. He brought a swift conviction to her. He was elusive; he never satisfied her with his dependence.

Jerry guided the car to a bumpy pause on the shoulder of the road, switched off the ignition. "Come here," he said gently. He gathered her in his arms, laid his cheek against hers. "She cares... my little Kezia cares," he whispered. She felt his lips tremble as they touched hers.

"You want to give me up?"

"No, Angel, no!... I love you—you know I do."

"You've been hard."

He gave a despairing gesture. "It seems so hopeless."

"We won't allow it to be hopeless."

He was silent for a moment, keeping his arms tightly about her. "Not?" he questioned. Another long pause then he said, "Have you anything to suggest?"

"We might live with Mother."

Life was very dreary, thought Kezia, when you couldn't have what you wanted! And Jerry was the right combination for her. Just the way his hair went back was invested with a certain quality of emotion; the sulky fullness over his dark eyes sent warm waves up her arms into her shoulders. Jerry was caught up in that attribute of youth which drives for what it wants, mistakes or not, the impetuous urge which cannot wait for wisdom.

"Yes, we could live with Mother," she said a little more firmly. The hesitation on Jerry's face deepened. "Yes, that's a thought. How about it? ... Have Hugh patronize me?"

"He wouldn't."

"I can see him welcoming me to the family circle—big boy they had to keep!" His tone was rueful.

"It would be for only a little while," he coaxed. "I'd get something good in a few months. Perhaps Hugh would... then."

"Do you think so?" His voice, still uncertain, was slightly yielding.

And Uncle John Renshaw—nearly my uncle, but a cousin of Mother's—has a weakness for me. I think if I went to him, asked him very prettily, told him how fond I am of him—and of you—he'd try to help."

"He might do something," said Jerry thoughtfully. "No matter how good you are, it's pull and family that put a fellow up. I've

seen it happen too many times not to know. And if I made just a little more—say forty or fifty a week—you'd be willing to try it. Love-liness?"

Kezia nodded, her eyes like stars. He started the car. They drove for a mile or so when the headlights swept a sign on a curve of the hill: "Brookline. Marriage Licenses. No Waiting."

Kezia smiled to herself as she turned it over in her mind. Why, it actually stood there as if it were suggesting a way for them! There might be advantages to it. She chuckled a little and he turned to her inquiringly.

"I was thinking about that sign on the hill—the one about marriage licenses."

"What about it?"

"Think," she commanded. "Then tell me if you are thinking the same thing I am."

His eyes gleamed with swift intelligence. "You wouldn't!"

She snuggled her face against his sleeve. "Funny boy—it would work, wouldn't it? ... All over and done with... everyone would have to put a good face on about it. ... Is it a grand idea or isn't it?"

"Not give a hang for the future? Let it take care of itself!"

"It would—it would!" she chanted gleefully. "I know: my family—they're very loyal. Once it's done and over with they'd—"

"Have to like it?"

"They'll like it—us—Hugh, Uncle John, Will Platt."

Excitement played over Jerry's face, excitement and something more. He drove with one hand while the other arm encircled her. "And I'd have you for keeps, darling Kezziel!"

In Brookline which was just over the Pennsylvania border, it was not difficult to be directed to the frame house of John Bascome, the marriage squire. He was a small man, with a round head and closed eyes. He looked greedily pleased at their appearance, surveyed them with quick speculation, and exacted a good sized fee from Jerry before he asked the necessary questions. He would have the marriage license made out and would mail it to them in a day or so. His wife and daughter appeared as witnesses.

Margery and Will Platt had been over for dinner, and afterward, Hugh and Will discussed the last municipal election and the caliber of the men in office. The talk with Fluvanna and Margery, making comments, asking questions, switched to national affairs, to the labor situation and to the revolution in business methods.

Hugh was restless after they left. Now that the interlude of having to make conversation and listen to others was over, he was conscious of a slump. "I think I'll go for a walk, Mother."

He had reached for his hat when the front door bell pealed sharply. He took the telegram he boy handed him, signed for it, tore it open. The foal, the little foal! he ejaculated.

"Why, Hugh?" questioned Fluvanna.

So this was what Kezia had meant when she said "You'll all drive me to something one of these days!" He hesitated a moment before he handed the message to his mother. "From Kezia! She's done what we hoped to prevent—married him."

Fluvanna read: "Jerry and I were married in Brookline this evening. Home in a day or so. Very happy. Tell mother. Love, Kezia."

Kezia and Jerry came home to live. Jerry was devoted to Kezia, thoughtful of Fluvanna.

Uncle John Renshaw, after much wheedling from Kezia, found a place for Jerry in some government work at a better salary. An interview with Jerry predisposed him in his favor and he recommended that he go to a school for salesmen that his company was proud to send out and receive a two-room apartment, had the excitement of finding furnishings for it with the check furnished by her mother and Hugh, and moved in the week after Christmas.

In January Dorrie got her degree, and a few days later was married to Cunningham Whitney, whose divorce had been granted in December. They were married at her sister's home in Forest Hills and went to live in Philadelphia where Cunningham had secured a position.

Hugh frequently was invited to dinner at the houses of his friends, parties which were dull or lively according to the company. It was a wrench to go but he made it a point to accept most of the invitations. People, places, things which were normal were the best antidote for the perils of introspection.

He saw Gavin Pendleton, one noon at a director's meeting, and thought he looked much older. Gavin touched Hugh's arm as they were leaving the meeting. "It's yuh!"

"Very well. And you?"

Gavin looked meaningfully back at the room they were leaving and Hugh understood that he wished to speak to him privately. He followed him back to his father's corner.

"Mother well?" blurted Gavin. "Rather frail this winter. How is Lizzie—and Ellen?"

Gavin's left cheek and eye twitched, giving the effect of a grimace. "Wanted to speak to you," puzzled, "don't know what to do."

Hugh waited.

"One of the family... like your advice, Ellen."

"Ellen?" said Hugh with quick concern. "Something wrong with Ellen?"

Gavin nodded gloomily. "Won't eat... hardly talks... sometimes I think... Mother not good for her." He peered at Hugh with his near-sighted eyes. "What to do?"

"Have you had a doctor?"

"Umm-m," he assented. "Tonics and iron no good—nerves."

"She won't go... did for a while... says people terrify her."

"You might send her away."

"That her to Louise in December—Boston—after—"

"—came out." He shrugged his shoulders and Hugh felt he referred to Kezia's elopement. "No good... she's here in ten days... says she's haunted... funny stuff."

"She used to be fond of Mother, came to see her almost every day—"

"Mother has been very very much," said Hugh. "My sister isn't there now. Perhaps she would like to come over... you might suggest it to her."

"Good woman, Fluvanna!" blurted Gavin. "Try it." He looked at his watch, and nodding in dismissal to Hugh, rushed for the door.

Hugh, on his way out, planned that he would keep her very close. He would have his mother invite Ellen for dinner very soon. Or he would issue the invitation, call up and coax her a bit if she seemed unwilling. Not tonight—he had to work late tonight. And to-morrow Mother had invited the John Renshaws for dinner, and the next night he had to go to the Wellesley, some time soon! Perhaps next week.

But the Renshaws could not come the next night and Fluvanna went to a concert with Margery and Will. Hugh read the paper, looked at a trade journal, and at nine o'clock, feeling restless, decided on a long ramble. He took Rowdy, Kezia's dog, with him, a wire-haired terrier, which she could not keep in the apartment.

Hugh circled the boulevard and the park twice, a walk of two or three miles, drawn in deep breaths of the early March air which was keen and cold, yet with a difference.

He walked with a swinging step, submerged in his own reflections. Rowdy investigated lawns where lighted windows drained away into the shrubbery, then returned to him. Hugh did not know when he became conscious that a woman was walking half a block ahead of him. She must have turned out unnoticed from a side street. She walked rapidly, for it was a lonely place for a woman to be, the dark woods on her right, and on her left the houses set far back from the street. Young, slight, and faintly familiar.

Suddenly she turned abruptly to her right and plunged into the woods. She walked away and without uncertainty until she disappeared.

Hugh stood still. He had recognized her by a forward movement of her shoulders—or thought he had. Why was she going into the

"It's Hugh"... Hugh?" Then in a low murmur: "Why did you come?"

"Fate sent me, Ellen," he answered simply. He drew her head to his shoulder. "Because you were never meant to do that thing."

She gave a long sighing breath that was more poignant than any sigh, it held so much of tears unshed, of misery. "Hugh," she whispered, "it aches so here." She laid her hand on his heart.

"I know."

A pause, then her voice again on that tremulous, respiratory note: "Yes, you know." She drooped against him, shivering.

Suddenly she set up. The water dripped from her sodden clothes. She faced him, her watery blue eyes started and examining. She shook her head. "You are braver than I—stronger. I can't—go on."

She began to cry, shuddering dry sobs, that licked his heart like flaming fagots. He drew her to her feet. "Let us walk... no good sitting here in wet clothes after that ducking. We'll walk very fast—see, like this."

He led her out of the woods, unresisting.

"Can you run?... Come, Ellen, run with me as far as the next corner."

They ran for a long block, then slowed down to a walk. Hugh said: "Tell you what we'll do. You come over to my house and get off your wet clothes, put on something of Mother's. I'll fix you a nice hot drink—then you'll raid the box—get us a lunch! We'll have a nice clubby evening—come!"

She put her hand over her eyes. "Whatever you say—I'm so bewildered."

His mother was not home when they arrived. He took her directly upstairs, turned on the hot water in the bath. "Go in there, young lady, and be quick about it. I'll have changed and be pounding at your door in five minutes."

He changed his clothes quickly, then ran down to the telephone and called the Pendletons. Gavin's nervous, irritated voice answered. "Ellen is here with us."

"Yes, yes," Gavin stuttered. "It's all right but we'll keep her until tomorrow if you don't mind."

"Wait—wait!"

Gavin had a colloquy with Lizzie, then muttered, "Mother wants you to bring her home."

"If I do I won't answer for the consequences!" replied Hugh.

There was a pause while Hugh heard Lizzie's strident voice in opposition. She evidently wanted to talk to him. "Keep her," said Gavin suddenly. "See you tomorrow."

He forgave for everything he could find in the way of food, cheese and ham, olives, white and rye bread, fruit and cake. When Ellen appeared she shook her head. "All this to eat?"

He nibbled, then began eating. Presently at something he said the dimples came out and she laughed in soft merriment.

Her own laughter startled her, and a puzzled look came over her face. "It's beginning to seem ridiculous—like a joke... how could it?"

"Some people think life is a joke."

"Playing tricks—yes?"

"It looks like that sometimes when we've got our hearts set on something we don't get. Then we think that there is a malicious being who enjoys our scrapes, a leering, cruel, practical joker."

"It must be true. Her head dropped; her tone was muffled. "He blocks each exit as you hurry from one to another. He says, laughing horribly: 'Stay in your prison!... it seems that way to me.'"

"And there's another way to look at it. He may be a great wise force that foresees more than we can—has a plan for us. He lays on each one the burden of destiny... and says: 'Take this, carry it! The best you can; grow under it; and I shall lead you out and beyond.'"

"The burden of destiny," Ellen repeated in a dazed tone, "or a practical joker?... Which is right?"

"The one which gives us courage," said Hugh with sudden conviction.

"You believe that?"

"I believe that," he answered in a low voice. In his effort to help Ellen, he had suddenly clarified his own vague gropings—was conscious of the uplift of spirit which accompanies an illumination of thought.

So absorbed were they, that they did not hear Fluvanna enter. She stood at the door in her velvet evening wrap, surveying them with surprise. "Ellen—Ellen!" Ellen ran to her and hid her face on her shoulder.

"So glad you've come, darling," murmured Fluvanna, caressing her.

"She's going to stay all night—perhaps a week or two," said Hugh.

"Nothing would make me happier—Ellen knows I would like to have her forever."

Boone 4-H Girls Win at State Fair

Boone County 4-H girls exhibiting their sewing at the State Fair in Louisville, took premiums on every garment except one.

Edna Bradford, of Hebron, received first on her third unit costume. The Singer Sewing Machine Company of Cincinnati, gave an electric sewing machine as the first prize. Miss Bradford's costume was a yellow organdy garden party dress with a hat to match and white accessories.

Boone was well represented in the second unit. Marcella Bradford of Hebron, wearing second on the school costume and first on patch and darn.

Lorraine Reimer received a ribbon of a house dress entered in the first unit.

4-H club members that sent exhibits to the State Fair were Helen Bradford, Marcella Bradford, Lorraine Reimer and Ella Ruth Black.

Hamilton Plains Community Fair

Hamilton Sixth Annual Community Free Fair will be held Friday, October 16th, according to R. Z. Asbury, principal of the Hamilton school and chairman of the Fair Committee. Despite the drought, plans are this year for the biggest and best event of the past six years.

Hamilton community fair has represented one of the largest and finest community displays of crops, poultry, canned goods and women's work in Northern Kentucky.

A splendid show, P. T. A., 4-H club and contest program is presented in addition to the exhibits.

The community has set a fine example of what can be done when people come together to show the best that has been produced during the year and in a friendly community spirit.

It is all right but we'll keep her until tomorrow if you don't mind."

STAFFORDSBURG KENTON COUNTY

Several from this community are busy on the play "Rosetime" to be given by Independence P. T. A., assisted by a girls and a boys chorus from the High school on Thursday and Friday nights, Oct. 8th and 9th.

R. L. Hoffman spent Sunday with his daughter Mrs. David Galewood and family of Covington.

Mr. and Mrs. L. J. Rapp were the guests of her sister Mrs. Beale Schneider of Covington, Sunday.

Mr. and Mrs. J. A. Keeney and Donald Kelley on Mr. and Mrs. Leslie Kelley of Towlers, who having spent the summer in the country are moving to their city-home, Monday.

Mr. and Mrs. Earl Richardson spent Sunday evening with Mr. and Mrs. Kirby Richardson.

The Missionary society will hold its monthly meeting at the church on Thursday afternoon at 2:30. Come!

Gordon and Evelyn Adams of Linton, spent the week end with their grandmother Mrs. Nina Adams.

Many from this neighborhood of relatives attended the reunion at the home of A. Grant at Butler, Ky. This reunion of the family has been held for several years but was memorable this year as they celebrated Mr. Grant's 80th birthday. All wished him many happy returns.

Miss Byrly, our Home Demonstration and 4-H club leader, was pleased to hear that Kenton county won 18 ribbons at the State Fair four of them being first.

The Homemakers club really enjoyed its first meeting at the home of Mrs. Kirby Richardson on Oct. 1. The planned menu was well received and the lesson on better buying was very interestingly given by Mrs. Marie Rich. Our reading chairman Mrs. J. W. Wild outlined a reading plan so well that we will all be reading soon for pleasure and profit. Mr. Hanna and Mrs. Stein having charge.

No matter how many times a year Uncle Eli goes to the city he just can't seem to get used to city ways, especially around restaurants. As a result, he often gets into embarrassing predicaments. Just the other day a waitress in a Washington cafe set his order before him. Picking up the small portion of steak, Eli examined it critically and said: "Yep, that's exactly what I want. Bring me some of it"—Pathfinder

John W. Gardener, lumberman, had a minor accident Friday afternoon in Covington. Lee Collins who was riding with him received a few cuts and bruises about the face, otherwise no one was hurt.

Little Barbara Jean Webster spent the week end with her grandparents Mr. and Mrs. J. H. Osborne of Williamstown.

Mrs. Odie Kendall, we are glad to report, has recovered from a bad attack of fever.

Big Bone 41 Years Ago

(Warsaw Independent)

May 25, 1895
Born, May 17th, to James "Tucker" Aylor and wife, a fine boy; also on the same date, born to his son Jim and wife, a bouncing baby boy and to cap the climax of this remarkable coincidence both new arrivals tipped the beam at precisely 12 pounds.

Last Sunday while Ed Moore was away from home, his fine stock barn, containing a large amount of hay, corn and valuable farming implements, caught fire and burned to the ground. Although insured for \$500, it is a heavy loss to Mr. Moore the barn and contents being worth three times the insurance. Cause of fire unknown, but it is said his little boys had been smoking around the barn that morning.

Last Saturday night just as everybody were tucking themselves in their little beds for sweet slumber a lone buggy driven by Thomas Rich of Big Bone, might have been seen come quietly up to the residence of Add Miller of Normansville, where the idol of Tommie's heart, Miss May Belle Miller, was stealthily awaiting the arrival of her gallant Romeo, and quick as though she entered the buggy and they sped away to Rising Sun, Ind., where everything had been previously arranged for their marriage in the splendid parlor of "Squire" Wilson. After the nuptials they returned home Sunday morning and Sunday night took the steamer for Cincinnati, where they purchased their furniture and came to Big Bone and went to housekeeping Tuesday, parental objections to the whole affair to the contrary, notwithstanding. Mr. Rich is one of our most prosperous young farmers and has won for his partner in life one of Big Bone's most estimable young ladies and our wish for them is a long happy and prosperous married life. She had been a Miller for years. "Yearning to be Rich all her life; And now love true that never fails Has prompted her to be his wife. So she is a Miller no more. Having changed her former name; And whatever they were before, They are Rich now, all the same."

CAMERAGRAPHS

POLITICAL GUEST: Mrs. Langdon guests Mrs. Jay Elverson of Los Angeles, Calif., one of the guests at the Governor's reception, during a luncheon to some 2,000 young Republicans.

LOPEZ PLAYS AS HE RIDES. Vincent Lopez, famous band leader and pianist, has practice piano in the roomy back seat of his Nash sedan and gets in an extra hour or so of practice every day while he's travelling around keeping his engagements. Lopez brings his band back to the air in the new Nash-Lafayette program broadcast over a Columbia network on Saturday nights.

FUNNYMEN TUNE UP. America's foremost comedians, JACK BENNY and FRED ALLEN, got ready for the season. October 9, find them back on the air after their week-long vacation in California and Maine, respectively. Added by Mary Livingston (live) will be heard Sunday nights over the NBC-Rad-WEAF network. Allen with Portland, Me., will preside at "Town Hall Tonight" over the same stations on Wednesday evenings.

ARE YOU RADIO MATERIAL? For the first time a sponsor is buying a coast-to-coast network, giving it to the American public to do with as they please. The new "We, The People" will be on the NBC Blue network Sunday, at 8:00 p.m., E.S.T. Philip H. Lord in charge. You have an authentic at experience or lose that the critics believe to be of great interest, you will have a chance to come to Radio and tell the world about it.

EVENING SPLENDOR. It is portrayed by Joan Blondell, is personified in this Russian emine coat trimmed with silver fox and worn over a gown of net.

BROWN BOMBER COMES THRU AGAIN! With fans slightly doubtful after that Schleming affair, Joe Louis scored another of his bombastic victories. Al Ettore hugs the floor as Louis trudges to his corner.

Make an effort to come out to our revival services at Big Bone Baptist church and bring someone with you if you can't possibly come, then pray for the meeting. Rev. Steger has a splendid list of sermons arranged for all to hear who will come.

PITY THE POOR

By DOUGLAS MALLOCH

Pity the poor,
Ank they see,
And yet they but
Behold a tree.

Pity the poor,
When buds unfold,
Who see a flower
And not a rose.

Pity the poor,
Who sell, who lend,
Make gold, but never
Make a friend.

Pity the poor,
Who come, who roam,
And have a house
And not a home.

Pity the poor,
Who know no loss,
No crown because
They know no cross.

Pity the poor—
What'er the need,
These are the poor.
The poor indeed.

NUTS AND DOLTS

"Yes! We'll All Be A-Flyin' Soon"

Attention, drivers! Let's talk about instantiation.

High on the list of traffic sinners is the man whose eyes wander all over the landscape when they should be on the road ahead and whose mind, if any, is always on vacation from the business of driving.

Not only does he risk his own life, and the lives of his wife and kiddies, but he is also a menace to

every other driver on the road.

Travelers Insurance Company statistics show that 8,400 persons were killed last year when motorists drove off the roadway. Another 4,000 met death when they got over on the wrong side of the road.

Most accidents of that type would've happened to alert drivers. Enlist today in the ranks of Safe Drivers. Eyes Front! Attention!

Contour furrowing to control erosion is highly recommended by specialists of the soil conservation service and the North Carolina State college agricultural extension service.

When the plow is run along the contours of the land, the furrows are level and will aid greatly in checking the run-off of rain water. The water is given a chance to soak into the ground.

A furrow with a level base does not allow the water to wash down the hillside, but holds and distributes it regularly over the field. The water is given a chance to soak into the ground.

Contour furrowing is especially recommended for pastures or fields where erosion has reached serious proportions.

Contour Furrows Control Erosion

Level Base Does Not Allow Water to Wash Down the Hillside.

A furrow with a level base does not allow the water to wash down the hillside, but holds and distributes it regularly over the field. The water is given a chance to soak into the ground.

Contour furrowing is especially recommended for pastures or fields where erosion has reached serious proportions.

If the land is badly cut up with gullies, the furrows should be closed at the edges of the gullies. But if the field has only shallow depressions, the furrows may be run across them, provided the furrows are curved so as to keep their bases on a level.

By taking the water out of gullies, farmers can give grass and other erosion-resisting crops a chance to grow. As time goes on, the land will again become tillable. It will also produce a better crop.

In erosion-control demonstration areas, contour furrowing has proved to be an effective method of stopping soil-washing and conserving moisture.

Profit in Woodland if Only Big Trees Are Cut

There is a great deal more profit in lumber from farm woodlands when only the large, mature trees are cut and the small trees left to grow into another crop. The United States Forest Service has found that maple trees less than 12 to 14 inches in diameter actually do not pay their way through a band sawmill.

There is about 18 times as much lumber in a tree 28 inches in diameter as in a 9-inch tree. But since the lumber in the larger tree is worth about twice as much per foot, the total value is 36 times as great.

Selective cutting removes the greatest value with the least volume. It leaves small trees as a windbreak and allows them to grow faster because they no longer need to compete with big trees for moisture, sunlight, and space to spread their crowns. A farmer in doubt as to how to cut his woodland for lumber is advised to get in touch with a state forester, or his county agricultural agent.

Feeding Grain Mixture

The amount of grain mixture fed to cows when on pasture depends, to a great extent, upon the individual production, but where a cow is producing more than 7 pounds of milk a day, one pound of grain for each five to seven pounds of milk produced will be sufficient, according to an authority at the North Carolina State college.

This amount, in addition to the pastureage will usually maintain the animal in good flesh and permit maximum milk production. An average cow eats enough grass in a day to maintain her body and produce about two gallons of milk. If she is capable of producing more milk, the grass must be supplemented with the grain mixture in such quantity as to secure the maximum production.

LINK TO MAYAS IS FOUND IN DAKOTA

Discover Stone "Telescope" 4,000 Years Old.

Bismarck, N. D.—The influence of Mayan culture upon the primitive peoples of the Great Plains has been further corroborated in North Dakota with the discovery of a stone "telescope" in a gravel pit north of Grand Forks in the Red river valley.

Edward A. Milligan, North Dakota archaeologist directing excavating of Indian village sites for the WPA, announced the discovery. He estimates the instrument was used by the aborigines who roamed this area about 4,000 years ago.

Hewn from a form of limestone that has become almost as hard as marble, the telescope is 8 inches long and 1 1/2 inches in diameter. It has a conical cylinder 1/2-inch in diameter at the eye end. On the exterior is a single carved symbol, the nature of which is undetermined.

The telescope was one of the numerous artifacts recovered from the gravel pit, a graveyard of prehistoric people. Archaeologists know the use of this kind of character for astronomical purposes, because carvings on the Mayan pyramids of Central America depict people of that era studying the heavens with the tubes in connection with their worship of the heavenly bodies.

Mr. Milligan believes that the Mayans, their relatives or offspring migrated by way of the West Indian islands to Florida, thence along the Appalachian to Ohio, and thence along the Ohio, Mississippi and Missouri rivers. He points out that artifacts of Mayan character have been found along this supposed route and as far west as Yellowstone National park.

Slouching Good for Some Folks, Doctors Declare

Kansas City—"Chin up, shoulders back, chest out," is the advice given by the military bearing is not the best for every one, Dr. Louis B. Laplace and Jesse T. Nicholson of Philadelphia, Pa., the American Medical association at its recent convention here.

"Every person has a certain posture, determined by his particular build and function, which is best suited to him," they said.

"Slouching" is good for some people, or, in the words of the doctors, "there are many persons whose optimum physiological function is attained in a posture which is not entirely correct by orthopedic standards."

In such persons, they believe, "the greater spinal curve" compensates for individual differences in body structure and physical activity.

Studies of twenty-three healthy men and women, they reported, showed that "vital capacity"—the functioning of the heart and blood system—can be diminished "by extreme correction of posture as well as by a marked slump."

They found two persons, however, whose blood circulation improved with corrected posture. "Flexibility of posture" results in the best vital capacity and each case requires individual study, they concluded.

New and Simpler High Power Air Fuel Produced

New York—A new fuel for aviation engines was described by W. S. Farish, chairman of the board of the Standard Oil company of New Jersey, and F. A. Howard, president of the Standard Oil Development company.

The fuel is a synthetic one composed of gasoline, isopropyl-ether, itself a product of a gas now produced in large quantities in most large oil refineries—and a small quantity of tetraethyl lead. It is still called by its laboratory "incubator" name, "EL-435."

The discovery of the blend using so common a by-product as isopropyl ether, Mr. Howard explained, assured the aviation industry of being able to obtain in ample quantity and at commercially practical prices fuel of 100 octane rating which had heretofore been made in a different way and confined to military use.

Tests indicate that the new fuel will give an increase of 30 per cent in power.

New Device Junks Hand Cranked Rural Phones

Rochester, N. Y.—The old hand telephone on the farmhouse parlor wall, with its disturbing jangle of bells and long run on the way out. With a device perfected by William J. Vincent rural subscribers are promised the same type service as urban users. Vincent's invention is a neon relay tube that eliminates the hand crank and the old code ringing system under which every telephone on the party line jingled. Now only the party wanted is summoned by the bell.

The tube is being installed on all rural lines served by the Rochester company. Officials predict it will be in general use throughout the country soon.

Claims Log Train Record

Nipawin, Sash.—E. J. Morris has established what is believed to be a new Canadian hauling record with a tractor. The tractor hauled a log train weighing 1,400 tons nine miles to a mill.

time in August at either the Owen-
ton or Madison Ind., tracks for a
purse of \$200, mile heats, best three
in five. A forfeit of \$50 has been
in the hands of Wm. Furnish for
some time. Mr. Cunningham took
his horse to Cleveland, O., Wednes-
day to be put in training. Mr.
Marshall is training his horse on his
track near town.

The protracted meeting at the
Baptist church still continues. One
addition has been obtained, Mrs.
Georgia Herrick, and the ordinance
of baptism was administered in the
Ohio river Wednesday morning, as
she expects to join her husband at
Bellfontaine, O. shortly.

Rev. C. R. Thompson, the pastor,
and Rev. E. N. Walne, former pastor.

Wednesday, the false work used in
the erection of a bridge across the
Licking river between Newport and
Covington, gave way, and between
fifty and sixty workmen were precipi-
tated into the water of the river, a
distance of about fifty feet, and
thirty were killed and drowned
while others suffered severe injuries.

Warsaw, Ky., Dec. 26, 1896

Married—James W. Wheeler to
Miss Maude See, Thursday afternoon
at the residence of the bride's par-
ents.

Married—Amos Davis to Miss
Emma L. Levell, daughter of D.
Levell, Monday, Dec. 21st, near
Ehrhridge. Rev. Robert Hiner, of-
ficiated.

Married—At the Methodist par-
sonage, Wednesday evening, Holt
White to Miss Mary Bradburn.

Thursday evening, Charles Edwards
to Miss Janie Walls of Napoleon.
Rev. Robert Hiner officiating in both
marriages.

Hon. Ben F. Furnish of Napoleon
was united in marriage to Mrs.
Amanda Howard, Tuesday afternoon
at Berry Station, Harrison county
Ky. The ceremony took place in the
Baptist church at 3 o'clock. Rev.
James A. Davis of Georgetown, Ky.
officiated.

Mrs. Sally Ritchey has been quite
ill the past week. Her daughter
Mrs. Jennie Davis of Steeles Bot-
tom, has been at her bedside.

arrived here last Friday on a visit.
He has been connected with a large
nursery at Painesville, the past year
and is contemplating the establish-
ment of a nursery here with Capt.
D. E. Gibson.

Mrs. Minnie Scott, wife of Joseph
Scott, died at their home on Little
Sugar Creek, Dec. 12th, after a long
illness from consumption, age
22 years. She was the daughter of
Mr. and Mrs. Sim Brock of Owen
county.

Wednesday afternoon, a tragic
accident occurred near town in
which W. L. Ryle, a well do to far-
mer, residing a short distance from
Warsaw, lost his life. Mr. Ryle, with
his wife and little son James, had
been in town purchasing Christmas
goods and were returning home.

As they reached the residence of
Capt. J. H. H. Dannehl a package
fell from the buggy in which they
were riding and the horse took fright
and ran away. He dashed down the
driveway which curves just in front
of the house. The buggy upset,
throwing out the occupants. Mr.
Ryle's head struck the post of the
veranda, fracturing his skull. Mrs.
Ryle was seriously injured but the
son escaped injury. The injured
people were taken into the McDan-
nehl home and physicians summoned.

Origin of Word "Quiz"

The word "quize" is of uncertain origin. It is said that Dalg, manager of a Dublin pub house, laid a wager that a new word of no meaning should be the common talk and puzzle of the city in 24 hours. In consequence the letters "quize" were chalked by him on the walls of Dublin with an effect that won the wager. The word, however, appears in literature some years before the date of this episode.

It's Season of Intriguing WoollensBy **CHERIE NICHOLAS**

THE new woollens are having their day and a grand and glorious day it is, marked with new triumphs in color, in designfulness and versatile weave. They are grand and glorious beyond description and they have taken on a sheerness and featherweight texture that add much to their lure. With the college girls the thought of a back-to-school wardrobe that does not include a costume suit fashioned of handsome wool is inconceivable. And so it's wool-gathering these fair collegians are going with all the enthusiasm of youth that sets forth to get what it wants.

Not that college-faring girls are the only ones engaged in the wild scramble to be first in fashion by going stepping in a brand new autumn ensemble styled of chic and handsome wool weave. Fact is every woman who is fashion-wise is making one grand dash in the direction of the glamorous wool fabric sections, which is exactly what she should be doing to be smartly apparelled in the days to follow.

Among the woollens to meet the rapturous gaze of the woman in quest of modish materials for her fall costume are the most enticing jacquard-patterned weaves. Fancy could possibly picture. These are that new you will get all the thrills that come with having a forward look into fashion futures. In these jacquard wool weaves the patterns are woven right into the material. Then there are the cunningly embroidered woollens which promise to be quite the rage. These make up ever so smartly in tunics and waistcoats. They come in pretty florals and bold coin dots and other clever motifs mostly wide-spaced but not infrequently all-over designed. As to wool plaids and stripes and checks their name is legion. The big idea right now is a gay plaid skirt with

monotone blouse or sweater. The flaring plaid tunic is also outstanding in the new stylings. As to the fantastically nubbied tweeds that are so important this season, every one who sees falls prey to their wiles at first glance.

Designers are playing up the new woollens for all they're worth, using them by the two's and three's in combinations that stress striking contrast both in color and weave. Two of the three models in the picture make contrast their theme, in use of versatile woollens. The ensemble to the left can be worn from early fall to early spring in perfect comfort, with or without its matching coat. Here a plaid rabbit's wool dress in pencil silhouette with a high-surplice bodice—elegant—bright velveteen scarf has a plain rabbit's hair tunic coat with double-breasted front and wide revers of the plaid. The new "swing" effect is achieved with unpressed box pleats that start from the waist.

To the right in the trio a striped rabbit's wool plays in duet with a plain rabbit's wool weave. The dress in pencil silhouette has as complement a flared tunic coat of the plain wool with tuxedo fronts of the stripe. A bright velveteen ascot and belt buckle catch the "color" in the stripes. The dress is ideal to wear under a separate winter coat later on.

Centered is a cape outfit of jacquard tweed. It is this sort of novelty woollens that is glorifying the fabric style picture just now. The raised shoulder line which is the much-talked-of new silhouette is carried out in gunnary tuck. The long sleeved dress has a flared skirt. The popular stand-up collar adds a keen touch, also a patent leather belt to match the patent leather shoes.

THROUGH A WOMAN'S EYES • By JEAN NEWTON

ON CHECKS VS. LOVE

ONE of our readers wants the column to say something about husbands who think they can buy their wives' love or return their devotion with a check.

"It is so much easier," she writes, "to give money than tenderness and understanding. A present is so much cheaper than thought. That is, it requires so much less attention, is so much less diverting from the stock market or whatever the business to which our men have dedicated their lives. I suppose many husbands would actually be astonished to find that their wives are not mere gold diggers and do not always place the highest value on the thing that costs money. In fact that they resent the lack of thought and understanding which their husbands seek to make up with a check."

That, of course, is not an individual complaint. Only generally the accused husband is called "the American husband" and the contrast made with the more telepathic and therefore more sensitive, and understanding males on the other side of the water.

For my part, I hold no brief for checks in the line of love and understanding. But I do think the checks are frequently underestimated for their significance in that same quality of love and devotion which they are supposed to replace. From my observations of the American business man I have seen very few to whom the accumulation of money is an effortless matter, and to whom the writing of checks for their wives' pleasure means no more than most men, not only in these days but ever since I can remember, the money which they so generously gave their wives represented not only hard work but frequently strain and worry and sleepless nights. And it may help the situation for the wives in question to realize that the generosity of their husbands may be merely an evasion but it is an expression, in their own way, of the devotion of which these women think themselves cheated.

What we do not regard it as the ideal or most desirable expression, things which cannot be changed may as well not be fretted over. The point is we all have our own way of expressing ourselves. And if the American husband is no artist in this matter, a little understanding will usually illuminate other aspects in which he more than makes up for the shortcoming.

Hugh John Richards In Critical Condition

Warsaw Man In Good Samaritan Hospital, Cincinnati, Where Blood Transfusions Are Given

Hugh John Richards, son of Mr. and Mrs. J. Dean Richards of Warsaw, Ky., who is a patient in Good Samaritan Hospital, Cincinnati, is in a critical condition and it was found necessary, by his physician, to give him blood transfusions to save his life. A number of Warsaw's young men volunteered to give their blood for their friend and neighbor. Charlie Howell and Leon Gridley were two of the acceptable subjects as a specimen of their blood proved of the proper type and the transfusions were made last Tuesday and Wednesday, and if it is found necessary other subjects will be used. Mr. Richards is a fine young man who has a host of friends who are anxious for his recovery.

These displays will be made in its windows weekly. Don't fail to see these bargains. See ad in this week's Advertiser.

Prof. N. R. Elliott of the University of Kentucky, expert in landscaping architecture and home ground beautification, was the guest of Mr. and Mrs. John L. Vest last Wednesday. A number of our progressive citizens who believe in home beautification in trees, plants and floral decorations received valuable information relative to beautifying their premises.

Mr. and Mrs. J. M. Arnold, Mrs. Joe Shearer and Mrs. Hugh Arnold attended the funeral of their relative William Sandford last Thursday at Sanders, Ky. The funeral took place from the Christian church in that town after which the remains were laid to rest in Highland cemetery, Ft. Mitchell, Ky.

Mrs. Emma Tomlin had the misfortune to run a rusty nail into her foot last Friday.

Kentucky-Tennessee Synod Deals With Moral and Social Welfare

"Social reconstruction, including re-employment, proper housing, relief from abject poverty, the abolition of class feeling are urgently important today," the United Lutheran Church's Committee on Moral and Social Welfare will report at the biennial conference of that body in Columbus, Ohio, beginning next Wednesday.

The report is one of a number drawing special interest of local Lutherans, who are members of the Kentucky-Tennessee Synod of the United Lutheran Church.

Kentucky-Tennessee Synod delegates have copies of the report in their hands for study.

"There has been significant improvement in the motion picture situation since the last convention though the opposite has been true in other spheres of interest," the report continues.

"Gambling of all kinds is more rampant than ever. The program of peace has been floated. Open vice and drunkenness continue to be major problems.

"Divorce has continued a scandal in the United States. Progressive polygamy raises its head here in almost every state, with South Carolina the only commonwealth in the union that has no provision for divorce."

Stressed as a notable exception to lack of improvement in other spheres in interest the report states "the disparado type of lawlessness in the United States is being dealt with summarily and effectively by agents of the Federal Department of Justice."

"Capital and labor are meant to work together cooperatively in industry for the benefit of the community rather than in opposition to each other for selfish ends," the report goes on.

"The earnings and profit of a business. The exploration of wage earners ought not to be tolerated in civilized society. Ruthless, predatory competition among business enterprises should be halted."

"Unless it becomes the character to conduct its affairs equitably in freedom, the time may come when business will be under a strong-armed dictatorship, un-Christian in ideal and practice."

"The social order can never be made good until the individuals who compose it have become regenerate men and women."

"One important recommendation appended to the report is that 'the Lutheran minister should perform a marriage ceremony for a divorced person, until he is convinced that the individual is the innocent party in a divorce occasioned by grounds recognized by the church as valid.'"

Concerning schools the report says "theoretically the state in its scheme of education must not encroach upon the sphere of religion. Practically, however, government-controlled education works to the detriment of the Christian life, for however will the state may guard against the teaching of positive religion it cannot eliminate the opposite tendency."

Joseph H. Graves

Joseph H. Graves, age 87 years, passed away early Thursday morning at his home on Bartlett avenue, Erlanger, Ky., after a long illness. The remains were removed to the Tallaferrero Funeral Home for preparation.

He is survived by one sister Mrs. W. A. Price of Erlanger, one nephew M. C. Price of Georgetown, Ky., and one niece Mrs. Wm. Corey of Erlanger, besides other relatives and friends.

Services were conducted by Rev. D. D. Brown, Saturday afternoon at 2:30 o'clock at the Tallaferrero Funeral Home, interment following in Highland Cemetery.

RETURNED FROM HOSPITAL

W. T. Jones, who resides on the Dixie Highway, about a mile south of Walton, and who underwent a major operation some time ago, was brought home last week and is getting along very nicely.

BAPTIST PARSONAGE SOLD FOR \$1,400

Brittenhelm the Purchaser

The public sale of the Baptist parsonage adjoining the church, took place Saturday afternoon at 2 o'clock as advertised. The veteran auctioneer W. B. Johnson, volunteered as auctioneer, and by the way was one of the bidders. The building, a five-room cottage with a lot 60x150 feet, was sold to William Brittenhelm, property baron of Walton, for \$1,400, Colonel Johnson running up the price to \$1,375.

The reason we call Mr. Brittenhelm a "property baron" is from the fact he owns within the corporate limits of Walton, 28 pieces of real estate, including his own home. Quite a large crowd was present and the property, in the estimate of many, brought a good price.

This building was built by A. M. Edwards in 1883, 53 years ago, as a residence, and he and his family lived there for a number of years afterwards building his present handsome two-story residence in South Walton.

Several months ago the cottage was gutted by fire during the absence of Rev. T. W. Woolen, pastor of the Baptist church, and will have to undergo considerable repairs before it is habitable, unless the owner concludes to rebuild.

Splendid Kept Section

Gordon Phillips, the efficient section foreman of the Southern Railroad in this section, is greatly improving the appearance of the railroad in Walton and the other extensions. He is given credit for being the best section foreman between Tinslow and Lexington and has been awarded the gold premium for a number of years, within this division of the Southern Railroad.

WALTON PERMIT SAVES TRUCK DRIVERS' FINE

County Judge John B. Read Dismisses Charges Against Truck Drivers

Ruling that a Walton ordinance permitting operation of overweight trucks within five miles of that town is still in effect, Judge John B. Read in Kenton County Court Saturday dismissed the cases of Arnold Gray and Earl Hickman Cincinnati truck drivers, charged with overweighted trucks. Both drivers held Walton permits and were within the five-mile limit.

ERROR IN MOVING OFFICE

Owing to the fact that we saw a van backed up to the entrance of the State Highway office, leading desk furniture, we concluded the equipment was of the latter office but we afterward learned that attorneys Vest & Vest had equipped their offices with new furniture and the van was taking away the old desks.

QUARTERLY BANQUET

The quarterly banquet of the Community Public Service Company, was held at Wynantown, Ky., on Tuesday afternoon at the Hotel Ray House, from 3 to 5:30. These events are a get-together meeting of the employees of this large electric service company and are always enjoyable and beneficial affairs.

The representative heads of the company attend and confer with their employees. Nice refreshments were served and a very pleasant time enjoyed by all. Those who attended from the Walton office were: Mr. and Mrs. Powers Conrad, Mr. and Mrs. R. O. Wynn, Mr. and Mrs. C. H. Fennell, Joe Richards, and R. M. Hall, local manager.

METHODIST CHICKEN DINNER

The ladies of the Walton Methodist church will give a chicken dinner on the evening of Saturday, October 24th, in the basement of the church, beginning at 6 o'clock.

Carrollton Fair A Big Success

Some Boone and Gallatin County Exhibitors Win Premiums

The Carroll County Fair held at Carrollton, Ky., for four days was a very successful affair owing to the splendid cooperation of its citizens in the town and county and the wide awake business men who managed it. Some Gallatin county and Boone county exhibitors carried away premiums. Most of the exhibits were under roof of the Henry County Tobacco Warehouse. A Cincinnati Brass band, rodeo and other outside features furnished amusement. The only drawback was the rain on Friday.

The following Boone and Gallatin county exhibitors won premiums in the horse show ring: Best combined 5-gaited horse, any age, J. R. Fagan of Walton; best rooster gelding, any age, J. E. Gross of Walton, 2nd; best saddle horse one year old, led by halter, Howard Wilson, Sparta; Martin of Sparta; best 5-gaited horse any age, J. R. Fagan, Walton; best plantation stallion, mare or gelding any age, running walk and canter required, Rufus Martin, Sparta.

Best plate Grimes Golden apples Margaret Gard, Gallatin county; best mixed bouquet (large basket) Mrs. J. E. Mountjoy, Warsaw; best bouquet large zinnias, Mrs. Margaret Gard, 2nd; best bouquet bay zinnias, Mrs. J. E. Mountjoy; best mixed bouquet roses, Mrs. J. E. Mountjoy, Warsaw.

Mrs. Gertrude Dahl, 3 1st and 2nd on Dahlia's; 2 1st and 3 2nd on her Barred Rock chickens. Mary Katherine Ewbank, 3 1st and 3 2nd and 1 3rd on Sheep. Mrs. Helen Mountjoy, 3 1st and 3 2nd on bouquets and assorted flowers.

Mrs. W. B. Furbush, 4 1st and 3 2nd on White Rock chickens.

MRS. MOLLIE HARRIS DIED IN FLORIDA

Mother of Claude E. Harris of Erlanger, Ky., Passed Away Last Thursday

It has just been learned that Mrs. Mollie Harris, age 80, mother of Claude E. Harris of Erlanger, died last Thursday in Bradenton, Fla., at the home of her daughter Mrs. Mary L. Wadham. Mr. Harris was called to her bedside and she died a short time after her arrival. Mrs. Harris is survived by two sisters Mrs. Maggie Muirhead of Covington and Mrs. Clarence Hazzard of Umatilla, Fla. She was a sister of the late Mrs. Lenora Hopkins of Walton. She is also survived by a number of nieces and nephews. She was a former resident of Independence, Ky., and was the daughter of John and Adeline Ruff Gallbraith pioneer residents of Kenton County. Mrs. Harris was a splendid lady, loved and respected by all who knew her. Burial was at Bradenton.

Tom Marshall Again Manager

Recognizing his efficiency as general manager of the Independent Tobacco Warehouse in Cincinnati, Ky., Tom Marshall of Walton, has again been selected for this important position for the coming season. If there is anything Tom knows, it is tobacco.

A rare treat is to be given the citizens of Walton at the Walton Methodist church on Sunday evening, October 25th, when the well known organist, Pat Gillock, national broadcaster from B. C. A. studio will render some of his favorite numbers on the marvelous Hammond organ at the church. The program will begin at 7:30 p. m. There will be no admission charged, but a free will offering. Everyone is cordially invited to attend and hear some wonderful organ selections, by this gifted artist.

BIG LAND SALE

The Guy Downs Realty Co., of Shelbyville, Ky., will on Saturday, October 24th, sell the Mrs. Ida Smith farm, 3 miles southeast of Florence, Ky., consisting of 226 acres, with improvements, in three tracts. This firm's reputation for business-like square dealings is well known. Watch for advertisement in next week's Advertiser.

BEAUTIFUL FUNERAL AT PATRIOT SUNDAY

Unusual Burial Services For Lucian McHuron Who's Ashes Were Strewn on Bosom Of Ohio River

One of the most unusual and beautiful burial services were held at Patriot, Ind., Sunday afternoon when the last rites were held for Lucian McHuron, who died at Indianapolis, Ind., at his home about three weeks ago, after which his body was cremated.

He was 77 years old and was born and reared at Patriot, where he was loved and respected by all who knew him. His ashes were brought to the home of his sister Mrs. Lemuel Emerson. Before he passed away he requested that his ashes be taken to Patriot, the spot he loved so well. Funeral services held at the Baptist church, and the pastor Rev. Robert McNeely, officiated, after which his ashes were to be taken to the center of the beautiful Ohio river and cast upon its bosom. He lived this Ohio river and had made many trips in former years on the palatial steamers running between Cincinnati and New Orleans. During his vacation days he visited his relatives and friends in his old home town and spent much of his time on the river and enjoyed crossing the river with the ferryman and rowing up to Big Bone Island.

According to his wishes burial services were held at the church, the beautiful poem, "Crossing the Bar" rendered, the ashes taken in a box to the center of the river by Ferryman John Kennedy, where they were strewn on the bosom of the beautiful Ohio, mingled with beautiful flowers. An unusual large number of relatives and friends gathered to pay tribute to Lucian's memory. He had many friends in upper Gallatin county, Ky., many of whom attended.

MARTIN MARRIES MARTIN

Thursday of last week, Mrs. Morgan Martin, age 72, married, but did not change her name, as she married Roger Martin, 2 few years her senior, and a relative of her first husband. The wedding took place in the same house in which she was married many years ago, and the day was the fiftieth anniversary of her marriage to Morgan Martin. Marriage had become natural to Roger Martin as he has participated in matrimonial experiences several times heretofore.

An usual feature about this marriage was that the same bridesmaids and groomsmen, Hon. and Mrs. J. C. B. Conrad of Williamstown, served in the like manner at this wedding and also that the bride wore some of the same wedding trousseau that she wore when first married many years ago.

Father-in-Law Killed In Hope, Arkansas

When Struck By An Automobile While Crossing the Street

Friday night, Mr. and Mrs. Joe Neumeister of the Dixie Highway about two miles south of Walton received the sad intelligence by phone that her father, Monroe Boswell, of Hope, Ark., had been struck by an automobile and not expected to live. He was crossing a street in Hope, when struck by the car.

He died of his injuries 6 o'clock Saturday morning. From what we hear he was a fine christian man and when Joe married his daughter he requested his son-in-law to take his wife to church every Sunday, as that was her habit.

Joe Neumeister and Miss Lucretia Boswell were married at Hope, last February. He is a fine young man and the son of Mr. and Mrs. Carl Neumeister, with whom the young couple are making their home.

A PENALTY IF CAUGHT

Gordon Phillips, local section foreman on the Southern Railway, notified all people in or around Walton not to dump tin cans or trash of any kind on the property of the railroad. Only last week someone dumped a lot of cans on the road's right-of-way and he had to use the section hands to remove this debris. If this practice is not stopped he says some one will be arrested and fined. One warning is enough. It costs the railroad company hundreds of dollars annually to remove all this trash and they say it has got to stop. The section foreman is continuously working on his section to keep it neat and clean and it is very aggravating to him to have to contend with this nuisance. If people would carry trash into your yard, what would you say?

Mrs. J. F. Cleek of the Hughes Chapel neighborhood made the Advertiser office a pleasant call Monday.

EASTERN STAR INSTALLATION

Of Officers of Walton Chapter 161, Order Eastern Star, October 19th

Walton Chapter No. 161, Order Eastern Star, at their regular meeting, Monday night, Oct. 19th, will install its elective and appointive officers. John L. Vest, Past Grand Patron of Kentucky, will be the installing officer. Light refreshments will be served. Members from adjacent Chapters are cordially invited to attend.

CROW HUNTER SHOT IN EYE

Sunday Morning and Taken to Hospital But Eye May Be Saved

Sunday morning while a party of young men were out shooting crows on a farm on the Walton-Beaver Lick road, George Code, son of Jas. Code, deceased, received a charge of shot in his face, one shot striking the ball of his left eye. It seems that one of his companions was on the opposite side of a hollow and fired his shotgun at some crows part of the charge striking Mr. Code with the above results.

Dr. R. E. Ryle of Walton, was called, gave him first aid and sent him to St. Elizabeth Hospital. The physicians at that institution do not think the eyesight will be destroyed.

FOOD FOR THE ORPHANS

Last Thursday the members of the Walton Methodist church, mostly ladies, canned and prepared beans and tomatoes for the Methodist Orphans' Home at Versailles, Ky., to help take care of the little ones during the winter months. It was a very creditable action and worthy of emulation.

BAPTIST SERVICES

Sunday, Rev. D. B. Eastep of Covington, preached at the Walton Baptist church, both in morning and evening.

YOUR BOY?

He likes school—He likes his school mates—But three o'clock finds him so tired and headachy that the minutes seem to crawl. Its eyestrain from his defective sight that makes him so tired—but he doesn't know it. His teacher doesn't know it either. Both should know that better vision means better health and better work.

Romantic Old Edinburg

a Fine Place to Browse
Edinburg is like an old bookshop, where those who like the bindings, first editions, old romances and even detective stories can be happy to browse for days.

Over in Henderson row is the old academy where Robert Louis Stevenson went to school, and there at No. 8 Howard place he was born; 17 Heclet row is where he lived for 17 years. His grandfather lived at 1 Baxter place, while in 477 Baxter's Close, Bobby Burns lived in 1780.

At 30 Castle street Scott lived for 20 years, for this city is his "Heart of Midlothian." His mother died at 49 Queens street. At No. 52 Sir James Simpson lived and died; the first old doctor who gave the anesthetic chloroform to the world.

At 21 Comely bank, Carlyle lived for two years, and Thomas De Quincey lived in Lothian street. At 322 Riddles place, Hume wrote his "History of England," and 182 St. John's street, Smollett wrote his "Humphrey Clinker."

Yes, Edinburg is an old book-store, in which to browse and dream and leave with regrets over treasures that mere money cannot buy.

When Jack's a Dull Boy

Defective Eyesight may be the cause

Many a school failure has been traced to defective eyesight. When a child begins to show signs of backwardness—don't be alarmed—but do have his eyes examined by an eyesight specialist. Eye glasses may correct the trouble.

On the other hand, why wait until symptoms of eye trouble appear in your home? Guard your child's eyesight—and your own—with better light.

Better home lighting means plenty of light, well shaded and free from glare. Moreover, the whole room should be lighted, not just parts of it.

It costs little to correct poor lighting. Sometimes rearranging portable lamps and changing bulbs or lamp shades is all that is needed. We'll be glad to help you with suggestions.

Free Home Lighting Check-up

You don't need to guess whether or not your home lighting conforms to modern standards for safe seeing. We'll gladly send a representative to measure your lighting with a Light Meter. Phone or write for an appointment today.

CHAPTER XIII

Gavin took off his glasses and rubbed the place behind his ear where they had rested, then put them on again and blinked at Hugh.

"Lizzie will raise a fuss," at length came his pronouncement. "I've not talked to Mother yet, but she is so devoted to Ellen that I think she can be persuaded to go," said Hugh.

Six months in France and Italy would restore Ellen, Hugh had pleaded. His mother would accompany her, he thought. It would be well for his mother to have the change; the family difficulties—he had paused—had been hard on her.

Gavin frowned. "But Lizzie?" "You mean she'll disapprove? You must make her see how important it is. It means more than I've been telling you, Gavin. . . . He leaned forward and rapidly told him of the incident down by the park lake.

Gavin rose, paced the room, muttering unintelligibly under his breath. He came back. "You go to see her . . . tell her . . . Oh, my God . . . Ellen!" He slumped down in his chair.

Hugh rose. "You want me to talk to Lizzie?" "Yes, I'll drop around there this afternoon." He did not fear the interview with Lizzie; a fractional part as much as her husband did. . . . Gavin wrung his hand at parting. "I'll pay expenses for both," he blurted.

Lizzie received Hugh in the square expensive ugliness of the Pendleton living-room. Lizzie was uncertain in her manner, not knowing whether to be haughty or friendly. She melted under Hugh's friendly agreeableness, and was soon—loquacious about her ill-health and the trials she had had to bear with her children. Presently Hugh began talking to her about the girl who had been with her mother very soon, a half-smile appeared on her lips. "I'm wondering—wondering—"

"Just what?" "Do you suppose it was a trick she played to get her own way? She may have seen you—knew you'd follow her, tell us about it." "Did Ellen ever play tricks to get her own way?" Hugh asked gravely.

"No." "She couldn't have seen me. I was too far away. I tell you the girl was desperate—half out of her head!" "Then the place for her is a sanatorium—not Europe!" said Lizzie quickly.

"Do you want that stigma on her?" "Oh goodness, Hugh, do stop." Hugh pressed his point eagerly. "And my mother needs this trip. It will do them both so much good. She can leave easily now that Kezia is married—while you, Lizzie—"

"I can take her myself this summer! Gavin will send us if I insist." "No." "An inspiration came to Hugh. 'Lizzie, you know you couldn't—' you'll never get away. Gavin won't let you out of his sight. He'd rope and grieve, get sick if you were gone longer than a week! . . . If Ellen is to get well, she must have a change of scene for several months."

A flush tinged Lizzie's faded fairness, a gratified light shone in her eyes. She sighed. "Poor Gavin—I'm afraid so! Quiet—never says much, but absolutely devoted. You'd be surprised if you knew how dependent he is on my advice!"

"We all know that." "And how much his success is due to me!" Hugh nodded encouragingly. The belief which he helped to build as to Gavin's need of her, was useful to him, and harmless to her. It gave her stubborn mind something to cling to, and might allow Ellen to depart in peace.

That night in the library he tossed some travel pamphlets to Ellen and his mother. "I got these today from the agent. Look them over and tell me which trip you two would like to take."

They looked at him questioningly as they unfolded them. "There's a good boat sailing in three weeks."

"England—France—Spain—Italy—Germany," murmured Fluvanna. "Shall we take them all or are we limited to two or three?" "Greedy! . . . Paris or Florence since Ellen wants to study."

Ellen's blue eyes were open, started. Her lips parted but she did not speak. "Hugh!" said his mother, warningly.

"Not joking I've had a busy day planning this. I couldn't speak of it until some details were settled—but they are now. Ellen's father and mother have given their consent—All you two have to decide is where you want to go and the earliest date you can be ready to sail."

Fluvanna looked agitated. "No—no," she began. She stopped at the casual expression on Ellen's face.

"Cousin Fluvanna, think of it! Paris—Florence—the Louvre—the Uffizi Gallery!" Ellen buried her head in the arm of Hugh's chair; he patted her shoulders comfortingly.

Fluvanna's face was a study of struggling emotions. "Leave you?" she whispered. "What a few days of life to give—to help you? The wheel is turning—turning . . . This body will never come back. No, no, no!"

Ellen raised her head, touched her shining eyes with her handkerchief. "Excuse me . . . I go all weepy with grief or happiness lately, but it was happiness this time! . . . Oh, Fluvanna, what wonderful precious times we will have together! . . . and I shall study so hard and try to paint really good pictures!" . . . Hugh, how can I thank you!"

"Pull your chairs up close to mine," said Fluvanna in an odd, hollow voice. "We'll go over the folders together."

The sailing date was set for the seventeenth of April and the days flew by in a hurry of preparation until there was only a week left for Fluvanna to say good-bye to dear familiar furnishings, to Margery and her children, to Kezia, to Hugh.

Kezia had offered to stay at the big house with Hugh. "It's costing us quite a bit, Mother, for rent each month, and you'd feel better about Hugh, wouldn't you, if someone were in the house with him? And then Anna might just as well be cooking for three, instead of just one person."

The experiment of housekeeping had been fun for a while; but Kezia was finding washing dishes and getting meals irksome. Also, Jerry's salary, augmented though it was by the new position, was woefully small for two people accustomed to be free with money. Her mother welcomed the arrangement, however. She would rather have had company in the house in her absence.

"Mother isn't keen about this trip," commented Margery to Will Platt. "She looks rather lost and scared. Hugh is pushing her into it, and she would walk barefoot through the world for Hugh! . . . However, it is a good thing for Ellen, and Mother will enjoy it when she gets there. She has always wanted to go."

They reached New York the morning of the day they were to sail. It was mild and sunny. They leaned at the rail of the ferry, watching the spires of the city come closer.

"The skyline has a soaring aspiration in it!" mused Ellen. "Sometimes the tip of buildings are in the clouds—but they always reach up—up! I like this approach to the city so much."

Hugh smiled down at her. Again he had the feeling of a rose opening, the delicate face, the petals texture of her cheeks, had the softness of a flower. She looked like a different person these last few weeks since she knew she was to leave. Her face was in her melodious voice, in the graceful movements of her slight figure. What she sought she would find—perhaps on this trip. He hoped so.

"I recognize the Empire State building," said Fluvanna. "We'll go to the top of it today," Hugh promised.

Their taxi came slowly across the town, held up by the traffic and the whistling lights. The crowds of people on Forty-second street, the sea of restless, rhythmic, lashed back and forth like the sea. A man, selling roses at the corner of Fifth avenue, extended his bunches in gratifyingly to passers-by. The sun sparkled on the silver top of the Chrysler building.

"When we come back we will stay here a week," said Ellen. "All of America is here, the west, the north and the south, all fused in a kind of eagerness for achievement. I felt that when I went to school here, Hugh, when we come back, will you come on to meet us?"

Hugh smiled at his mother. "Haven't you heard? I'm coming over to get you when you are ready to come home."

"No!" Ellen leaned forward to look in his face with a sparkle in her glance. "Are you bringing us to cut short our stay?"

Fluvanna rested in the hotel while Hugh and Ellen went to a matinee. After a late dinner they went down to the boat which was to sail at eleven. Although they were early, knots of people promenade the decks, laughing groups. Boys scurried down corridors with luggage; the whole ship buzzed with activity. Hugh had secured an outside stateroom with twin beds. Flowers were already there from Kezia and Jerry, fruit from Margery and Will, books, candy, letters, and bon voyage telegrams from friends.

"You're so quiet, Mother," said Hugh, sitting on the arm of her chair. "Tired?" "No, dear," she replied. She reached for his hand. Hugh, her boy. The moments, the dear moments were flying, and all the while her heart knocked the passionate ardor. "I shall never see him again." Twice lately she had had attacks which she felt might be her last. Two or three months. . . . A little while at most, she could have been with him, she reasoned. And he wanted this—wanted to help Ellen. He had been better lately in his enthusiasm for helping Ellen. It would work out for the best. Perhaps a dear wish would be fulfilled . . . that old wish . . . Good-bye, dear, farewell, dearest and most tender of good-byes. What a few days of life to give—to help you? The wheel is turning—turning . . . This body will never come back. No, no, no!"

Ellen raised her head, touched her shining eyes with her handkerchief. "Excuse me . . . I go all weepy with grief or happiness lately, but it was happiness this time! . . . Boone County Farm Notes

H. R. FORKNER, County Agent

TWO HUNDRED EXPECTED

AT ANNUAL MEETING
The Boone Homemakers are having their first county wide meeting October 22nd, at 1:00 P. M. at the Courthouse in Burlington. Two hundred Homemakers are expected to attend this annual meeting.

Reports will be given by the President of each local club about the work done in her own community. A report on the work done by the Home Demonstration Agent will be given by Miss Mary Gillespie.

Miss Myrtle Weldon, State Leader of Home Demonstration Agents, will be the main speaker.

The recreational part of the program will consist of a stunt or play to be given by each local club. The Vice-Presidents will act as hostesses at the tea following the program.

Pulverizes 120 Tons Per Day
The limestone pulverizer operating in Boone County has installed electric lights, employing two shifts of workmen and are crushing at the rate of 120 tons of limestone per day, according to David Colville, Assistant County Agent.

The pulverizer at the present time is operating at the farm of Joel Gray of near Burlington. The route from there will be Henry Siskman's farm, Chester Aylor's farm and then on toward Hebron.

The pulverizer is making better progress recently than anticipated. Those who wish rock crushed and are not already on the list are urged to notify the County Agent's Office immediately.

Farmers Notified ACP Performance
Boone County farmers are being notified by letter on the probable amounts of their ACP performance for 1936. Payments for tobacco in Class I is definite and amounts to approximately \$38,659.50.

The Class I payment for general soil depleting crops is not definite because of a 11% downward deduction base adjustment for the county as a whole required by the State Office. The approximate payment for the County on this class of crops will be \$31,121.30.

The Class II or Soil Building allowance payment has been most difficult for farmers to understand. These payments are made for carrying out soil building practices as seeding grasses, legumes, liming, phosphate on grass or legume crops and certain other approved practices. Each farm has a definite allowance which represents the maximum for these practices. Each practice has a definite amount per acre that will be paid if that particular practice is carried out. All approved practices will be paid on up to maximum allowance for that farm. If the maximum is not used that part which is used will be paid. The maximum soil building allowance for the County is \$40,465.60.

The County Agent's office is using every effort to be of service to farmers, realizing it is difficult to understand all points of a new program and urges farmers to call at the office when they have any questions. The point difficult for most farmers is to understand that payments are made for tobacco, general soil depleting crops and soil building practices. Most letters to date have been only on the soil building practices.

He watched until the deck became a dark blur of figures as the boat moved away from the lights of the pier swung into the distance. He would follow—no, he couldn't. But he would go in a few weeks. Things were better. Go home; get things in order; perhaps the last of May—June. He stumbled along the wharf. At the street a pleading derelict asked him for a dime. He put a dollar in his hand. While he waited for a taxicab, he looked up at the heavens. In the powdered sky, one star shone more brightly than any of the others. Bright star—steadfast and enduring.

Fluvanna nodded at him delightedly. Why, Mother wanted this too! Ellen's eyes were on him; he could see her mouth tremble. She stretched out her arms. The boat was moving faster. Once more she gestured, this time more timidly. "You—over there." She threw him a kiss.

VERONA
BOONE COUNTY

Mr. and Mrs. Stanley Dawson, who have been residing with her mother, Mrs. Emma Alexander, moved to Latonia this week.

Mr. and Mrs. J. W. Powers, nee Ruth Jenkins are rejoicing over the arrival of a fine daughter at their home in Erlanger.

Mrs. Ruby Duncan, Singing Evangelist, has returned to her home in La Grange. This is the second year Mrs. Duncan has had charge of the singing in the revivals and she has made many friends here. They wish continued success for her in her work.

Mrs. Charles Stafford of Latonia and Miss Nora Cole of Cincinnati spent part of the week here with Mr. and Mrs. A. J. Stone.

Mr. and Mrs. J. A. Harris had as guests Sunday, Mr. and Mrs. T. B. Sturdivent, Mr. and Mrs. Onely, Misses Mary and Margaret Sturdivent of Carrollton.

Mr. and Mrs. Howard McClure and Rev. and Mrs. Miller of Elmers attended church at the Baptist church Friday night.

Miss Edna Myers of Covington is spending several days here the guest of relatives.

Mr. and Mrs. Scott Hamilton attended the University of Kentucky and Georgia Tech football game Saturday in Atlanta, Ga.

Miss Kathryn Harris, who has been teaching in the Concord school has accepted a position in the Bromley school and left Monday to take up her duties at that place.

Miss Mary Blanche Webster had the misfortune to sprain her ankle some time ago and is still confined to her home.

Mrs. K. M. Klingner of Ludlow was the guest of Mr. and Mrs. Scott Hamilton, the past week.

Friends of William Sanford of Sanders, regretted to hear of his passing away Monday at Christ Hospital, Cincinnati. He was well known in this community, having married Miss Jeanne Jenkins, daughter of Mrs. Rose Jenkins, several years ago.

Revival services which have been in progress at the Baptist church, closed Friday night and notwithstanding the inclement weather of the past week, large congregations greeted Rev. C. E. Brown to hear the splendid sermons he delivered. The church is indeed "fortunate" to be able to secure a man of his ability as pastor. Rev. Brown is a forceful expounder of the Gospel and experiences no difficulty in holding the attention and interest of his congregation. Aside from the additions to the church, the revival will no doubt, stimulate the membership to more active work in the future. The services on Friday night were held at the "Old Church on the Hill" and the large crowd in attendance not only from here but many from a distance, bore evidence that many people still have a sincere love for the church of their childhood and are glad of the opportunity to worship there.

The Junior Choir of the Baptist church, who had been so faithful in attendance during the Revival services, were given a party on Friday afternoon by Mrs. Duncan. Special recognition was given Rose Ellen Chapman, Albert Hunt and John Lewis Coyle, who were the most regular attendants. After a number of songs and interesting games refreshments were served by Mrs. Duncan assisted by Mrs. Grace Renaker, Mrs. Lorena Meyers, Mrs. Emma McCandless, Mrs. Shirley Roberts, Mrs. Nell Hunt and Mrs. Grace Brewster. The Juniors present were: Rose Ellen Chapman, Albert Hunt, John Lewis Coyle, Dorothy Linder, Julia Leathers, Christine Hopperton, Catherine Caldwell, Mildred Leathers, Rita Roberts, Thomas Lee Leathers, Billy Mack Waller, Bobby Sturgeon, Charles Lewis Vest, Elmer Richards, Junior Vest, Hazel Napier, Marjorie Hopperton, Loreta Anderson, Cordelia Leathers, Anna Lee Coop, Wanda Brewster, Vernon Myers, Billy Hoffman, Flossie Locke, Mary Zelma Richards, Johnnie Sturgeon, Johnnie Locke, Junior Kendall, Frances Sturgeon, Shirley Sturgeon and Ima Jean White.

TEST YOURSELF ON THIS TOUGH ONE

Here is a chance to test the sharpness of your vision! Scrutinize carefully the following sentence and state how many F's either large or small, it contains.

"The Famous Valparaiso fish is the result of scientific study combined with the experience of years."

Out of twenty persons of intelligence not more than two will get the above test right the first time, and a large proportion of the persons making the test will not believe they are wrong, even after they have told them so. Even after trying this sentence, trained secretaries cannot get the correct number of F's. How many did you get?

"Little Stories for Bedtime" by Thornton W. Burgess

THE ANGRY TRAPPER

JERRY MUSKRAT had decided that Farmer Brown's Boy wasn't coming back when he heard footsteps and a moment later Farmer Brown's Boy appeared coming down the Laughing Brook toward the Smiling Pool. Jerry remained hidden where he could not be seen, but where he himself could see all that went on around the Smiling Pool.

In one hand Farmer Brown's Boy carried a bunch of things that clanked as he walked. Jerry knew

The Top of the Stick Was Split and in His Slipped a Piece of Paper.

what they were. He would know those things as far as he could see them. They were steel traps. Jerry scowled as he saw them. The sound of them hitting together sent little cold shivers over him. They were dreadful things, even more dreadful than terrible guns. There was nothing to fear from the latter save when they were in the hands of hunters, and any one with his wits about him ought to be able to see a hunter in time to seek safety.

But these dreadful traps were left hidden in the very places where a fellow had the right to feel safest, ready to seize him in cruel steel

jaws and hold him to suffer pain and dreadful fright for hours and hours, sometimes for days. Jerry could think of nothing so dreadful as those steel traps, and so he shivered at the sight of them.

Farmer Brown's Boy threw the traps down on the bank of the Smiling Pool. His usually sunny face was clouded. From his pocket he took a piece of paper and a pencil. Then he sat down and began to write. When he had finished he went over to Jerry's favorite log and thrust a stick in the bank just above R. The top of the stick was split, and in this he slipped the piece of paper. Then he went back, gathered up the traps, slung them over his shoulder and tramped off in the direction of home.

All the rest of that day Jerry kept an eye on that piece of paper at the end of his favorite old log. It puzzled him. He didn't go near it. He didn't dare to. He was suspicious of it. It might be some new kind of trap. Jerry was very unhappy. Early the next morning Jerry heard some one coming down the Laughing Brook. He promptly hid where he could watch. In a few minutes the stranger whom he had one time thought his friend appeared, and it was plain to be seen that he was very angry. He was muttering as he strode along. All at once he saw the piece of paper left by Farmer Brown's Boy. His stride over to it, picked it up, and read it. This was what was on it:

"No trapping or hunting is allowed on this property. You, whoever you are, can get your traps at Farmer Brown's house."

The trapper turned and shook his fist in the direction of Farmer Brown's. Then, still muttering, he walked away hurriedly, but not in the direction of Farmer Brown's. Jerry didn't understand it at all but for some unknown reason he felt better.

1-MINUTE SAFETY TALKS

By Don Herold

Automobile accidents are here to stay. Then why is it that cities which really want to reduce 'em DO?

SPOTTED FERVOR

Automobile accident prevention improved greatly in spots in the United States in 1935, although the country as a whole was almost as bad as it was the year before.

Deaths from automobile accidents for the whole country in 1935 totaled 36,100, according to The Travelers Insurance Company—one per cent more than in 1934. But five per cent more cars were registered, so the national record was slightly improved—not much.

In certain localities, however, the rate was reduced BY AT LEAST ONE-HALF. In certain records were made by Providence, R. I., Evanston, Ill., Lynn, Mass., Syracuse, N. Y., Hottelown, Pa., Greensboro, N. C., Hoboken, N. J., Lansing, Mich., and Pittsfield, Mass.

This spotted improvement is something about which to be glad. If accidents can be markedly decreased in spots, they can be equally decreased nationally . . . eventually. If they can be decreased in spots, it proves they CAN BE decreased.

AND NOW COMES
THE AUTO GYROA Contraption That Can Fly In
the Air Or Run On
the Highway

The day may not be far distant when the average man will drive his own plane out of the family garage, steer it down the open road and then fly it in the air.

Demonstrated outside Philadelphia, the new contraption has been turned over to the Department of Commerce with the assertion that it can be produced in quantity to sell for less than \$2,000. Designers were engineers of the Autogyro Company of America which, although it has announced no definite plans, may be ready to manufacture the plane on a large scale.

The machine is a three-wheeled autogyro auto which can be used either on land or in the air. It has collapsible rotor blades and a 90-horsepower motor. It has a top speed of 100 miles an hour in the air and about 30 miles on the road. It fits into the ordinary garage. The marketing world may soon see it advertised—Pathfinder.

Now this is an admirable machine for a drunk or reckless driver. He cannot run over children, pedestrians or wreck other cars, and when he meets with an accident there will be no police arrests, ambulance or hospital.

Why It Is Volga Republic
The German settlement is known as the German Volga Republic. It is situated on the Volga and is mainly bordered by Saratov province, which it divides into two separate parts. It was created in February, 1924, as an autonomous Soviet Socialist republic in the Russian Soviet Federated Socialist republic. About 27,000 German colonists were settled there in 1920 and 1921 at the invitation of the Empress Catherine II, when the population of Russia was so much less than today and the government was concerned for the development of uncultivated lands.

Why Tower Leans
The Campanile, better known as the Leaning Tower of Pisa, 174 feet high, leans 13 feet out of the perpendicular. Begun in 1173, it was only 35 feet high when a subsidence of the soil threw it out of perpendicular, but the builder kept on, endeavoring to rectify the inclination later on. By the year 1300 the tower had risen as far as the bell chamber and about 1850 was completed as it stands today.

Interesting Account of Visits to Grand Canyon, Boulder Dam, Etc.

Port Worth, Texas, October 4, 1936.

To the Walton Advertiser:—

We reached Ft. Worth, last night where we will be domiciled for a week that we may visit the Fair here and at Dallas. And, too, look into other matters not of general interest.

I must take today to write you as I am getting far "ahead of the bounds" in my continual go, running down new fields "to conquer." Let us retrace our trail back to Prescott, Arizona, from where my next main objective was the Grand Canyon, the greatest, of its kind, of all the wonders of the world. It is a place I had for the greater part of my life longed to visit, but deferred for lack of opportunity. Now at last, it was within my grasp. So much has been written of it, and so many pictures given to the public, it would seem nothing more in interest can be added. I found when I did look down upon it, I had secured from these descriptions and pictures a fairly good mental conception of it, but, withal, it must be seen to fully appreciate its immensity, beauty and grandeur. Standing upon the rim of the Grand Canyon looking across to the opposite brink, covers simply a view of the valley of the Colorado river which varies in width from four to eighteen miles with an average width of ten miles, while away down more than a mile below, about the middle of this space, may be seen and there, short stretches of a silently flowing river, insignificant muddy looking little river, but small as it appears, it is about three hundred feet wide.

From Prescott, I did not go directly to the Canyon. It was my desire to first see some of the outlying territory and the general conditions that have made possible and brought about such an unusual exposure, hoping thereby to have a better understanding and comprehension of this wonder when I did come to view it than I would otherwise have.

So with this idea in view, from Prescott we drove north to the Old National Trail just west of Williams, thence west with it to Kingman, where we left it for a northwesterly course to Boulder Dam, near where we spent the night. From there we wended our way to Zion Canyon where we lodged for that night. The next night we spent at Bryce's Canyon. From there we proceeded southward to the Grand Canyon of the north rim at Angel Point. A view from this point is thought by some to be the most beautiful and grandest of all. With this I do not agree. While it affords a fine point of view, I found those along the western end of the roadway along the south brink afforded a more extensive view with a better comprehension of its vastness. Of course, due to the river's meandering and deviations from a straight course and the Canyon's great length, but a partial view is allowed at any one given point. Only an airplane would make possible a view, at any one point, within the possible scope of unobstructed human vision.

From Angel Point, after a night at an inn, within Kaibab National Forest, picturesque from the great amount of its white aspens, we proceeded east crossing the Colorado over the Navajo Bridge, thence south to Cameron and east to Tuba City. From Cameron we went west and along the southern rim of the Grand Canyon as far as Hermit's Rest. Thus we were acquainted with surrounding conditions. Arizona, New Mexico and southern Utah embrace a striking display of canyons and mesas. This whole region, especially about the Grand Canyon gives evidence of having several times been beneath the surface of either an inland sea, or the briny deep. There are, also, indications of varying climatic conditions, with aridity predominating. Much of the soil is loose and gravelly weathering easily. Much of the general composition is of sandrock that erodes easily.

Standing at the southern rim of the Grand Canyon a continuation of its strata can be seen in the northern banks, but at a higher level. Geologists say 1,200 feet higher. They also, say that in the Ages past there was a general rising of the surface, say something like our Cincinnati Arch, that gave the river greater and greater pitch with resultant increasing erosive effects.

Zion and Bryce's Canyons are in southern Utah. Zion Canyon is nearly half a mile deep out down by

the Virgin river. A good auto road extends up the canyon for some distance and at its termination a foot path continues a mile or more further until under its narrowing walls the river requires all the space. Higher up stream they are but fifty feet apart.

The sidewalls of this canyon have marks as if scored by glacial drift but such is not the case. On the contrary they are division marks between layers of sand and silt laid down under water action ages ago now formed into sandstone. This fact became the more evident as we climbed out of the canyon over the Pine Creek roadway cut out of the creek's steep walls backward and forward around hairpin turns, eventually entering an upgrade tunnel cut through the solid rock to a distance of more than a mile, that brought us out high among immense layers of sandstone rocks laid down in sheets like immense pancakes piled in promiscuous series, one upon another. It was down through these that Virgin river, during the Ages has cut its way, and is still at work in the bottom of Zion Canyon. It is the edge of such layers on the side of the canyon that gave the effect of glacial drift scratches.

Bryce's Canyon is really not a canyon at all, the term being somewhat of a misnomer. Bryce's bluffs would be a more definite term. We see there the slow weathering away and recession of an extensive plateau. A roadway runs along and near the edge of these bluffs and standing at the edge of which one looks down some three thousand feet onto flat lands below over which this plateau once extended. This eroding plateau is made up of stratified sandstone that readily yields to weathering. It bears vertical cracks, the sides of which weather down into myriads of fantastic forms. At one point where the recession has been more rapid than these fantastic forms disappear, there is a perfect forest of domes, spires and temples. Among these one may wander and scramble with delicately balanced rocks far above head ready to fall at most anytime with others in time to share a like fate. It is these that have stressed the term canyon.

The soil condition of all this territory of Bryce's, the Zion and the Grand Canyon show plainly the effect of water action. It all yields readily to weathering. What has happened at the Grand Canyon, under a like volume and pitch of water anywhere in this territory would have resulted in the same. An erosive section of the Colorado river extends for a distance of 217 miles along its course. Above and below the river is confined to a narrow canyon. At Boulder Dam its canyon is narrow, deep and dark. Upstream where I crossed over the Navajo Bridge its walls are narrow and deep, the bridge being 467 feet above the water.

Boulder Dam is located 450 miles above the mouth of the Colorado and 260 miles below the suspension bridge crossing the river built for the use of those who wish to descend to the river's edge Donkey back. Owing to the heavy fall of the river bed backward from Boulder Dam will not in the least mar the grandeur of the Grand Canyon. Standing upon the rim of the Grand Canyon, one sees as he can not see elsewhere, and with few exceptions, Mother Earth's slow ascending history as laid down in her stratified rocks from the very beginning of such up to medieval times. Away down over a mile deep is the Colorado river cutting its way into the igneous rock about ten miles away. They stay out the entire night feeding upon night flying bugs and insects, returning to the cave at dawn. Some seem to hibernate within the cave. They have a wing spread of about eight inches. At the entrance to the main cave Uncle Sam has painted on a board the information that there are three millions of these bats. On one first evening we drove up there to witness their exit. They came out like swarms of bees, would group and disappear in the distance. It was this that attracted White's attention. He first entered one of these bat caves some distance from the main entrance and discovered the connection of the main cave. He explored the main cave. Strange to say the bats do not undertake to occupy the main cave, although a portion of them use its entrance to their quarters. In the bat cave is a distinct division of the main cave. Visitors are not taken through that section as the odor is very disagreeable. Thousands of tons of bat guano have been removed and shipped from this bat cave, so it is evident it has been used by bats for thousands of years.

For the convenience of the public and for the use of those who can not walk so far, the government has installed a double set of elevators with

below us. Pleasure boats now ply its waters for the pleasure of sight seeing visitors. The work on the dam is not yet fully completed, fully a thousand men are still employed putting on the finishing touches. It was told that during its construction ninety men have lost their lives. The top of the dam bridges the public roadway at this point.

In southern New Mexico, west of Alamogordo, B. R. 70, is located White Sands National Monument, most interesting feature of our trip. We drove eight miles into its interior where we found enclosed on a stand a request to register. Opening the container holding the Register I found a printed slip from which I secured this information: "There are 176,000 acres of crystallized gypsum. It is the only area of its kind in the world. It is a perfect snow field of dunes spread over a brick colored sand base ranging, I would say, from twenty to twenty-five deep. While the notice by the roadway warned us that driving over these sand dunes was at our own risk, still I saw a number of tracks over them. Unless clambering up over steep portions the sands were firm to the touch. On the interior we ran across a picnic grounds near which was a driven well from which we pumped mineral water with not a very valuable taste yet harmless to the health. This little sheet contained this fact from which I quote and show nature's adjustment to surroundings: "Among the animals and insect life there are many marked examples of protective coloration. The ordinary pocket mouse which is found at the edge of the sand, changes its coat to white a mile or so within the boundary. Lizards and other insects, found within the sands, are extremely light in color." This slip informs us in constant process of making. The "vest of the Sands is an old lake bed which is drying up and working itself by the process of making these crystals of gypsum; that the gypsum is carried down from the surrounding hills in solution and when the water evaporates it leaves these snow white crystals on the surface of the ground. The prevailing southwest wind blows the sand into piled dunes; that are moving toward Alamogordo at the rate of approximately 8 inches a year." I gather from this that there is a rock strata below the lake in the hills that is highly impregnated with gypsum and weathers rapidly. It is a most interesting thing of many things to see.

At El Paso we crossed over the border into Jurex, Mexico. This was my third point of entry into Mexico. Take these trips every time the occasion presents, it will enhance your love for your Uncle Sam and stimulate your loyalty. From El Paso, Texas, we took R. 92 to the Carlsbad Caverns in south-eastern New Mexico. We secured quarters for a couple of nights at a place called Carlsbad National Park. There is a splendidly constructed auto road within the park while all through the caverns are foot paths some three or four feet wide giving ample room for sight seers to pair off. Rangers are on charge and lead you through the entrance to this cave has been known to whites for eighty years, but was first explored by Jim White, a cowboy. Not far from the main entrance are one or two openings that connect with the main cave. Of an evening immense swarms of bats fly from their openings and go for water in a small stream about ten miles away. They stay out the entire night feeding upon night flying bugs and insects, returning to the cave at dawn. Some seem to hibernate within the cave. They have a wing spread of about eight inches. a capacity of eleven persons each with one grand descent of 700 feet. Going and returning by the mouth of the cave requires a walk of about six miles. As much of this round trip is over the same ground, I made my exit by means of the elevator.

Entering the mouth of the cave we were taken a zig-zag course almost straight down for eight hundred feet, a walk none too easy on the legs. Our party consisted of 380 persons, one of the number from Illinois, had the honor of rounding out the number eight hundred thousand who had entered as visitors of the cavern, a number in strong evidence of its growing popularity. From the entrance to the elevator near the large room is a distance of about 2 1/2 miles. Adding to this the trip through the very large room and returning to the surface by the elevator I covered about four miles. The stalactite and stalagmite formations, together with the immensity of the large room constitute the main features. Along the entrance route are two rooms designated as the "Kings" and "Queens" room. The stalactite display in these two rooms is most beautiful. The stalactite and stalagmite formations in the large room are grand in all the world implies. They claim for this room the largest known stalactite with an estimated age of sixty million years. This large room is over four thousand feet long and six hundred feet wide at the widest point.

The Carlsbad Caverns are deemed "Dead Caves," although I saw numbers of places where sedimentary deposits were still in action. Where the flow of water is excessive erosion takes place rather than stalling and stalagmite formations. We see the effect of this in the walls of the deep pits of our Mammoth cave in that the walls are fluted and the pits grow broader in their descent. For stalactite and stalagmite formations the flow over the surface must be very slow allowing for evaporation. Knowing this I asked about a possible draft or circulation of the air within and was told by a Ranger there was a constant renewal of the air within every twenty-two hours.

In the large room I noticed some two or three deep sinks that indicated lower levels and I was told such existed but not yet ready to open to the public. I saw a number of small pools in which the water was as clear as glass. This cavity can be used as a glass. This cavity can be used as a glass. This cavity can be used as a glass.

The whole way is well electrically lighted in such a manner as to avoid glare. As I looked away down in one of these deep sinks in the floor of the large room to add to its weirdness, seven hundred feet beneath the surface, the emission of groans and sulphur fumes would be most complete. I was reminded of a conversation we had on the St. Petersburg pier with a Kentucky mountaineer preacher who was then holding a protracted meeting in the city. He pointed straight down and with all earnestness told us Hell was exactly 18 miles down and that right there was the nearest place. Eighteen miles looked like a pretty thin crust to me. I wondered how he had arrived at so exact a figure. As I looked down in one of these holes I wished he was beside me and had we the sulphur fumes accompanying with few groans I am sure he would have reduced his estimate of 18 miles, or perhaps broke a speed record in the addition of distance between him and that hole.

The entrance fee is \$1.50. Each use of the elevator is 50 cents. Lunch is served in a large room near the elevator for which charge of 60 cents is made. Thus we had the pleasure of a meal seven hundred feet beneath the surface.

"SHOOTING FISH" OF SIAM REAL EXPERTS

Piscatorial Freaks Could Teach Naval Gunners.

New York.—In the waters some where east of Siam, lives a "shooting fish" that can give naval gunners a lesson or two when it comes to marksmanship. This strange creature, known as the "archer fish," lives largely on insects which it shoots from overhanging branches with bullets of water.

Even cigarettes have been extinguished by these marine sharpshooters, according to Hugh M. Smith, former fisheries advisor to the Kingdom of Siam. During his stay in the East, Mr. Smith studied these fish in the Philippines, French Indo-China, Siam, Malaya, Burma and India.

Most Efficient. "Of the oriental fresh-water fishes with which I am acquainted in the wild state, none gives such an impression of intelligence and efficiency as does Toxotes the archer fish. This impression grows on an observer as he notes the purposeful way in which a fish moves about in a stream, the accuracy of its aim, the thoroughness with which it explores aquatic and overhanging land plants for insects; the high development of its sense of sight in both air and water; the skill displayed in dislodging insects and seizing them as they fall into the water; the alertness in avoiding danger; and the readiness in adapting itself to life in small ponds and responding to the attentions of persons who provide food.

"A friend of mine, a distinguished scholar of the royal family of Siam, and an ardent student of biology, had a residence on the broad Menam Chao Phya above Bangkok and used to entertain American and European guests with shooting fish performances. A veranda on which he took many of his meals was directly over the water, and under it Toxotes, the archer fish, was kept, attracted by scraps of fish, meat, chicken, and prawn which were regularly thrown from the table. By the skill of the fish, which was trained to a black thread from end of a short bamboo pole, the shooting fish could readily be induced to exterminate their marksmanship. I sometimes saw spent water pellets splash on the ceiling of the veranda 10 to 12 feet above the river, and witnessed many other exhibitions which aroused my respect for the intelligence and skill of Toxotes.

Extinguish Cigarettes. "On two occasions to my personal knowledge, when my friend sat on the veranda eating his breakfast, reading a newspaper, smoking cigarette, and apparently neglectful of his fish wards, his attention was attracted by well-directed shots which extinguished his cigarette. "The force with which the water pellets may strike an object is sometimes most astonishing to a human observer. An insect may be knocked high in the air or may fall on the bank beyond a fish's reach. At short range the drops may strike a person's face with a distinctly stinging sensation. On many occasions, during exhibitions in Siam, a spider at the end of a thread hanging from the end of a pole was knocked far up on the thread or even over the pole. Spent shots could be heard to splash against the roof of a veranda over the water.

Honolulu Prison Uses Flogging on 2 Inmates Honolulu.—Flogging has been reintroduced at Oahu prison recently, introducing a controversy concerning corporal punishment.

Acting Warden Joseph Ordway, ordered thirty lashes each be laid across the backs of Charles Cooper and Julian Eugster, incorrigible inmates. The punishment is being spread over an extended period. The convicts first received six lashes each with a cat-o-nine tails made of knotted rope. If their behavior does not improve, they will be flogged periodically until the thirty lashes are completed. The flogging recalled the celebrated Lucas Candido case of 1929. After twice escaping from prison, Candido was ordered flogged. The case went into the Federal Circuit court on habeas corpus proceedings to enjoin prison authorities.

Ha! Ha! Don't Laugh, Queer Quebec Name Quebec.—United States motorists in Quebec this year will find a merry Ha! Ha! awaiting them, but it won't be from traffic police. The roads department expects soon to open a new highway into Little Ha! Ha! and Big Ha! Ha! Lakes district, at the head of the Ha! Ha! river.

Traction has it that the name Ha! Ha! was given the bay by early explorers of the Saguenay river who mistook the bay for a continuation of the river and named it as a joke on themselves.

Cooperative Stock Selling

Brings 10,000 Kentucky Stock Raisers \$2,700,000

Louisville, Ky., Oct. 12.—Ten thousand farmer-members of 3 livestock marketing associations of Kentucky marketed \$2,700,000 worth of livestock through their cooperative selling organizations on the terminals markets during the 1935-1936 marketing season as compared with \$1,400,000 worth during the 1934-1935 period, according to recent statement by the cooperative division of the Farm Credit Administration. In calling attention to the increased dollar volume of livestock marketed cooperatively, John E. Brown, President of the Louisville Bank for Cooperatives, said today that the dollar returns from livestock marketed cooperatively in the United States during the past season totaled \$75,000,000 above returns of the preceding year, due chiefly to prevailing higher prices for livestock. "Six hundred thousand farmers and stockmen marketed their animals through cooperative associations during the recent season, with a return of \$250,000,000 compared with \$175,000,000 worth last year," he said. "Most of the livestock handled by local shipping associations, and much of that delivered at the terminal markets by farmers individually, are sold for them by large scale cooperative sales agencies. Such an agency owned and operated by the producers is found in Louisville, as well as on such markets as Chicago, Cincinnati and others patronized by Kentucky livestock farmers."

The largest of the cooperative terminal market sales agencies handled more than \$1,000,000 head of animals for its farmer patrons reporting gross sales above \$3,000,000. Another agency handled more than 900,000 animals. In several states more than half the farmers market their livestock through cooperatives.

at this time. Several of the larger associations, including the Producers at Indianapolis and Cincinnati, also serve their farmer-members with a purchasing service for supplying them with feeder cattle or lambs to fill their feedlots in fall and winter, Mr. Brown said.

VIRGINIA METHODISTS

The Virginia Methodist Conference will hold its annual session in Richmond during this coming week. The Southern Churchman, as the organ of many Episcopalians in Virginia, extends cordial greetings to the representatives of a great sister church. On Sunday, October 18th many of the Episcopal churches in Richmond will welcome to their pulpits ministers of the Methodist Church, as a gesture of good-will and as evidence of their faith that with all the doctrinal and denominational loyalties, they recognize a deeper unity of the Spirit in common allegiance to the one Lord and Master.

HAPPY HELPERS MEET

The Happy Helpers class of the Walton Methodist church, met with Prof. and Mrs. C. K. Gregory, Independence, on Tuesday evening. About forty members and friends were present and greatly enjoyed the evening.

The class will hold a rummage sale in Covington, the first part of November, and on Monday evening, October 26th, they will entertain the corresponding classes from the Newport and Latonia Methodist churches.

Save Grass Seed, Expert's Advice

Red Clover, Alfalfa, Will Be in Great Demand, Growers Are Told.

Supplied by the United States Department of Agriculture-Walton Service.

Pointing to the prospect of reduced supplies of grass seed this season, Dr. A. G. Black, chief of the bureau of animal industry, recommends that farmers make every effort to save all possible red clover and alfalfa seed.

Farmers in many of the principal seed-producing regions will harvest a little less than half as much grass seed this year as last, he said. The timothy seed crop is less than one-third as large as last year's crop of 128,220,000 pounds, while redtop appears to be around 40 per cent of last year's production of 9,750,000 pounds.

There is a relatively large carry-over of red clover and alfalfa seed, and much above normal stocks of sudan grass seed.

Dr. Black said that the situation known because most of the clover seeds are harvested later than the grasses, but present conditions are unfavorable. The crimson clover seed crop of approximately 1,000,000 pounds, is about one-third smaller this year than last. White clover is a substantially larger crop than last season, although the 1935 crop of 400,000 pounds was much below normal. The carry-over of clover seed is unusually small.

The harvest of the red clover and alfalfa crops, two groups of seeds that will be needed most next spring, will not be completed until later. There is, therefore, still time for growers of these legumes to make a special effort to save the seed where they are not forced to cut the crops for hay, Dr. Black said.

Drouth Silage Problem Faced by Many Farmers

What is the feeding value of fodder or silage made from drouth-damaged corn? How much feed will such corn yield per acre?

The yield of feed per acre depends so much upon the amount of growth attained before cutting that it is impossible to generalize on the probable production in any one case. Tests at the Indiana station, however, indicate that corn cut just after it has completed the pollination stage will produce about one-half as much dry matter per acre as when it is cut at the hard kernel stage. The point most in favor for normal silage filling in the Indiana experiment, corn cut at four feet in height produced less than one-tenth as much dry matter per acre as when it was permitted to stand until the hard kernel stage.

As for differences in feeding value, the limited information available indicates that fodder or silage made from drouth damaged corn will probably run a little higher in protein, pound for pound, than ordinary fodder or silage. On the other hand, it runs lower in sugar and starch and does not keep as well. Thus, drouth damaged corn may not make silage of as high quality as normal corn, but it will be good feed, nevertheless. — Wallace Farmer.

Rye for Live Stock

Rye, sometimes used for live stock, is not a very satisfactory feeding material. If limited to 20 per cent of the ration in the feeding of hogs, however, rye may be 90 per cent as valuable as corn, pound for pound, says a writer in Wallace Farmer. When ground or cracked, it also compares fairly well with corn as a feed for beef cattle. Rye is liked least by horses and best by sheep. In the case of horses it should be coarsely ground or crushed and fed only as part of the ration. Sheep, on the other hand, will handle unground rye as well as the same amount of barley. Rye used as a live stock feed should contain very little, if any, ergot. The presence of ergot is indicated by purplish, abnormal kernels. In particular, ergot kernels should be kept away from pregnant animals.

Dairy Cows to Be Listed

Every animal enrolled in dairy improvement associations will be listed as to identity and production by the U. S. Bureau of Dairy Industry at Washington. There are 405,000 cows with production records and 17,000 herd sire units enrolled in 900 cow test units in the country. Less than 75,000 cows in the associations are identified by pure-bred registrations, and the new plan will identify the other cows not listed in the breed club records.

Prolificacy

Prolificacy should be just as much a goal toward which breeders strive as the type and breed characteristics which appear so important today, says the Indiana Farmer's Guide. The overhead of keeping the breeding stock is indirectly proportional to the number of offspring. Latest scientific evidence indicates that prolificacy is found in strains of every class of animal, and it is best to propagate such strains.

PADDED SHOULDERS

By CHERRIE NICHOLAS

Here is a composite suit of spectacular sports aspect which embodies many fashion highlights for fall. It is in modish wine color. The football shoulders are staunchly padded to give the very newly featured broad effect. The wide revers are sweated to match the gray high-necked sweater which is knitted in an interesting waffle weave. Ever so many of the new ensembles are that way—a combination of knit weave that has every appearance of hand-knit, with regular wool material. The little "oversize" cap is worn cocked at a jaunty angle. The wide belt and conspicuous pockets are stylish details.

GOAL OF 104,000 FOR AMERICAN RED CROSS

Regional Meetings Held in Kentucky Preliminary to Membership Drive

A tentative goal of 104,000 members in Kentucky has been set for the 1936 rollcall of the American Red Cross. It was learned this week following the holding of six regional conferences, in the state, in preparation for the annual rollcall. J. A. L. Sayer, national representative of the American Red Cross in Kentucky, with other representatives from the national headquarters at Washington, attended the regional conferences, which were held at Mayfield, Hopkinsville, Owensboro, Frankfort, Corbin and Prestonsburg. All were well attended, the keenest interest was manifested by the representatives of all chapters and it was felt that a successful start of the preliminaries for the 1936 rollcall had been achieved.

P. E. Farrell and Arch Noel of Verona, were welcome visitors to the Advertiser office, Monday.

P. E. Brainerd, proprietor of the Red Arrow Tourist Camp, near Florence, was a business visitor in Walton, Saturday.

Big Democratic Rally at Burlington

Hon. Alben W. Barkley, Will Address Democratic Voters At Burlington, Oct. 29th

It is anticipated one of the largest Democratic meetings ever held in Boone county, will gather at Burlington on Thursday afternoon at 1:30 to hear that matchless speaker for the Democratic party, U. S. Senator Alben W. Barkley of Paducah, Ky. He was the key-note speaker at the National Democratic Convention at Philadelphia, in the nomination of President Roosevelt, and was greeted by thunderous applause by that vast congregation.

He is a man of nation-wide reputation and one of the outstanding Democrats of the United States, and all Democrats in the county should not fail to hear him.

Much credit is due John W. Grant, Chairman of Boone County Drive in securing this eminent statesman and speaker for Boone county.

PARENT-TEACHERS ENTERTAINMENT

At School Auditorium On Thursday Night, October 29th

On Thursday night, October 29th the Walton Parent Teachers Association will give an entertainment consisting of recitations, songs and music. The proceeds are for the benefit of the association which is in need of supplies for the lunch room, where the school children are fed. The admission fee will be a pound or a can of food to be used in the lunch room. A little help here and there will be of great benefit to this worthy cause.

Mrs. Emma Menefee of Covington, was a welcome visitor to Walton, last Thursday.

LEFT SATURDAY FOR FLORIDA

Mr. and Mrs. John W. Sleet, son John Robert Sleet, of Green Road, and Mr. and Mrs. A. C. Johnson of Walton Star Route, left Saturday morning for Tampa, Florida, where they will spend the winter months. Both Mr. Sleet and Mr. Johnson have not been enjoying the best of health, especially Mr. Johnson, whose condition precluded him from work. Melvin Jones, a neighbor, will have charge of Mr. Sleet's farm during his absence.

Lawrence Wilson and wife of Dry Ridge, have moved to the Johnson farm which they will manage during Mr. Johnson's absence. Mrs. Wilson is a daughter of Mr. and Mrs. Johnson.

PARK HILLS SCHOOL

Host to P. T. A. In All Day

Meeting, Monday, Oct. 19

The Kenton County Council of the Parent Teachers Association, held a meeting with the Park Hills school on Monday. The program was prepared by Mrs. Rodney Bryson. The address of welcome was made by Mrs. Julia A. Rouse, principal of the school, and singing by two members of the Park Hills Glee Club. The business session was presided over by Mrs. A. B. Bates, president of the council. In the afternoon talks were made by Glen O. Swing superintendent of Covington schools and by Mrs. George Smith, president of the Sixth District P. T. A., and readings were given by Joanne Schwartz and Robert McCann, students.

SHOWER FOR YOUNG COUPLE

On Wednesday of last week a delightful shower was given at the home of Mr. and Mrs. Elmer Ellison near Verona, in honor of their daughter, formerly Miss Eva Mae Ellison, who was quietly married to James Omer Clegg, son of Postmaster O. W. Clegg, of Walton, in July. Among those attending from Walton, were Mrs. Mollie Clegg, Mrs. John R. Fagan, Mrs. John Lewis Fagan and Mrs. Clinton Clegg.

WALTON ADVERTISER 21 YEARS OLD

Now Entering the Twenty-Second Year Of Publication. Circulation Increasing

The Walton Advertiser is now entering its twenty-second year of publication and its circulation is increasing with each year. This is gratifying as it means we are publishing a worthwhile weekly newspaper. We have fifty correspondents representing points in Boone, Kenton, Grant, Gallatin and Owen counties, and a fine set of news gatherers that chronicle the new events of their respective communities. As an evidence that we are giving the reading public just the kind of weekly newspaper they desire, we receive many letters of commendation from our subscribers. That of itself is very gratifying to us and we shall make every effort to give to our readers a paper that meets with their approval. To our many new and old subscribers and advertisers we wish to express our most sincere appreciation.

PAT GILICK EMINENT ORGANIST

In Organ Recital At the Walton Methodist Church

A real treat is in store for lovers of good music at the Walton Methodist church, Sunday evening, Oct. 25th at 7:30, Central Standard Time. Mr. Pat Gillick, noted radio artist and organist for the Cincinnati Symphony Orchestra, will render a program on the new Hammond Organ.

Mr. Gillick is a real organist and will give a recital of high merit which will be uplifting and inspiring to those who may hear him. The Hammond Organ, to be used in the program, is an entirely new musical instrument, capable of producing millions of varying tone colors, made possible by the modern use of electricity and radio equipment. It has been styled as "The eighth wonder of the world" and "the miracle musical instrument of the ages."

No admission fee will be charged. A free-will offering is to be taken to be applied on the purchase of the organ for the Walton Methodist church.

The public is cordially invited to hear this eminent musician on the wonderful new musical instrument.

OLD WATCH OF FELIX MOSES

A Well Known Character in the Story "Felix Moses, the Beloved Jew" Written By John Uri Lloyd, Given to Museum

An ancient watch which belonged to Felix Moses, an old Jew Pedler who at one time lived in Florence, Boone county, of whom Prof. John Uri Lloyd, deceased novelist, wrote a story entitled "Felix, the Beloved Jew," has been given a place of honor in the Hebrew Union College Museum, Cincinnati, Ohio.

The watch was given to the college by John Thomas Lloyd, son of the famous author, who found it among his father's effects after his death last spring.

It was carried by Moses when he was a soldier in the Confederate Army. It was in his pocket when he died. Given to T. J. Childress Erlanger, Ky., a close friend and comrade in arms of Moses's, it was presented to Dr. Lloyd years later after the death of Childress.

About fifty years ago, Felix Moses boarded a steamer at Aurora, Ind., on a trip down the Ohio river. It was supposed he was murdered by some thief and his body thrown in the river, as his remains were found on the Indiana shore some days afterwards.

RELIGIOUS PAPER OVER 67 YRS. OLD

Signs of the Times, Devoted to Old Baptist School Cause

Through the kindness of J. W. Comer, one of the worthy citizens of Erlanger, Ky., we were loaned a copy of an old Baptist paper 67 years old date, September 15, 1869. This was the 37th volume of the paper according to the caption on the title page and No. 18 of that volume, consequently the paper was established 104 years ago, when electricity, telephones, automobiles, radios and even lamps were unheard of. Possibly even candles were not in universal use at that time. Travel was made by horseback or teams, and not even dirt roads existed. In those years people who were religious were ultra religious and even fanatical. Those that were bad were really bad and ostracized from all respectable society. Of course there were crafty men who lived under the cloak of religion and swindled the poor and ignorant and eventually came to an ignominious or tragic end.

The paper was printed in tabloid form of 20 pages, at Middletown, N. Y., and devoted to religious subjects aside from a time table of the Erie Railway, wherein all trains were called "Express." It states that the Erie Railway was 860 miles long, between Atlantic Coast Cities, west northwest and southwest. One patent medicine ad for cure of fever and ague.

Mrs. Gaius Huey of South Main street, spent Saturday and Sunday at Burlington, the guest of Mr. and Mrs. Herbert Snyder.

NEW MEMBERS RECEIVED INTO CHRISTIAN CHURCH

A reception service was held at the Walton Christian church, Sunday evening for those who came into the church during the revival meeting. The church has been greatly strengthened by the addition of these new members. Mr. and Mrs. L. A. Gardner from the Christian church at Jk. Thomas, Ky., united with the local congregation on October 4th.

Auto Turns Over With Woman

Early Saturday morning a sedan bearing Florida license, turned over at the junction of the Dixie Highway and the Walton-Nicholson Highway when the driver, Mrs. Don Mead, failed to negotiate the curve in the highway while driving at a high rate of speed. Fortunately she escaped injury and the automobile was but slightly injured. It was towed to the Walton Garage for repairs. Mrs. Mead went on to Cincinnati, and returned for the car when it was repaired.

Gutting-LaVelle Wed At Warsaw

A Quiet Wedding of a Popular Young Couple Monday

Monday morning, Miss Dorothy Gutting and Mr. Joe LaVelle, two prominent young people of Warsaw, Ky., were united in the holy bonds of wedlock at St. Joseph Catholic church, Rev. Father Gerald Connolly, the pastor, performing the ceremony. The attendants were Miss Nancy LaVelle, sister of the groom, and Nesbit Gutting, brother of the bride.

The wedding was a very quiet affair, only a few members of the church, who had learned of the event, being present, as there were no invitations issued.

The bride wore new shade of rose crepe with gray accessories, and a corsage of yellow roses, and the bridesmaid wore gray crepe with black accessories and a corsage of red roses. The groom wore a suit of Oxford gray, and the best man, dark blue, and each with a boutonniere.

The bridal party, accompanied by Miss Mae Grant, left for Cincinnati after the ceremony, where they had wedding breakfast and in the afternoon left for Cincinnati, Ohio to visit the bride's brothers, J. L. and G. H. Gutting and their families after which they will visit Mr. and Mrs. Fred Mours at Newark, Ohio.

The bride is a lovely little lady the daughter of Mr. and Mrs. Louis Gutting, and a sister of Miss Margaret Gutting. She is loved and respected by all who know her, for her lovely disposition and gentle manners. She owns a beauty parlor and her popularity has brought her a splendid business. The groom is the son of Mr. and Mrs. William LaVelle, and is a splendid young man who has many friends. Upon their return to Warsaw, they will go to housekeeping as soon as a suitable home can be secured.

Covington District Missionary Society

Held a Most Enjoyable Meeting At Walton Methodist Church Monday

Monday, in an all day meeting of the Covington District Missionary Societies of the Methodist church held at the Walton church, a delightful meeting was had. About 150 members were present and enjoyed a lengthy and inspiring program. Mrs. Logan Blaine of Dry Ridge, secretary, presided over the meeting. Lunch was served in the dining room of the church, serving 124 members.

Rev. and Mrs. Wade H. Cardwell of Dry Ridge, were here Monday attending the all day Missionary meeting at the Walton Methodist church. These excellent people are always welcome to Walton where their friends are numbered by its greater population.

Mrs. Gaius Huey of South Main street, spent Saturday and Sunday at Burlington, the guest of Mr. and Mrs. Herbert Snyder.

Mr. and Mrs. Charles W. Thompson left Tuesday for Louisville, to attend the Kentucky Bankers Association that holds its 44th annual session at the Brown Hotel in that city, Wednesday and Thursday. Mr. Thompson, cashier of the Dixie State Bank, is a member of the nominating committee and will assist in the selection of officers of the association for the ensuing year.

V. D. James attended the Kentucky Grand Lodge of Masons at Louisville, Tuesday, Wednesday and Thursday as the delegate from the Walton Lodge, No. 719, F. and A. M.

The following attended the all day Missionary meeting of the Hughes Chapel church last Wednesday at the home of Mrs. J. M. Jack: Mrs. J. C. Bedinger, Mrs. W. O. Rouse, Mrs. W. W. Rouse, Mrs. Ida English and her guest Mrs. McCullough of Covington.

WARSAW GROCERY ROBBED THURSDAY

Thieves Break Glass In Window and Steal Large Quantity of Goods

On Thursday night of last week thieves burglarized the grocery store of Samuel O. Kirby, Warsaw, Ky., by breaking the glass in a window in the rear of the store. Bacon, coffee, flour, canned goods and what money there was in the cash register was taken. It is supposed the theft was done by local talent.

Only recently this store was robbed in the daytime while Mr. Kirby was away from his establishment.

Theatre News

On Friday and Saturday of this week, manager Falls of the Unique, will present Robert Taylor in one of his best pictures, "His Brothers Wife," with Barbara Stanwyck as the feminine lead.

The daring story of a young scientist who ventures into the jungle to find the cure for a dreaded malarial and returns to the realization that the woman he loves is his brother's wife, provides a dramatic vehicle for these distinguished stars.

And then on Sunday and Monday nights, October 25th and 26th, will be the picture that you have been waiting for, "San Francisco" with Clark Gable and Jeanette Mac Donald. See the "Paradise," hottest spot of Frisco's most daring days! See the fountain of champagne in San Francisco's New Year's Eve revels! See "The Chicken Ball" with a pot of gold for the most popular entertainer. See a gala first night at The Tivoli Opera House! See San Francisco in flames... a roaring cauldron of death and destruction!

On account of the great popularity of this picture and the long runs it has enjoyed, Mr. Falls has arranged for three showings—two on Sunday night, at 7:15 and 9:00, and then again at 8:00 on Monday night.

Mr. and Mrs. Robert G. Moore and Miss Corinne Moore visited Mr. and Mrs. Moore's daughter, Miss Virginia Moore, who is a student in Transylvania College, Lexington, on Friday.

THERE A BIG DIFFERENCE between GOOD GLASSES and CHEAP GLASSES

The quality of the glass—the workmanship and finish—the style and fit—the comfort and safety—and, above all the accuracy and polish in the grinding of the lenses and the clearness of the glass used. Our glasses are made of the finest quality material and best of workmanship.

Universal Credit Company Great Expansion Program

Authorized Ford Credit Company Has 100 Offices Serving Ford Dealers and Purchasers

Upon completing its eighth year of exclusive service to the great Ford market, Universal Credit Company has in operation offices in 100 cities from coast to coast, serving in a convenient and courteous manner the many thousands of time buyers of Ford cars and trucks.

More than 60 of these offices have been opened since late summer of 1934. Additional operating offices are planned for the remainder of this year and further expansion will follow where necessary during 1937.

This expansion program has been undertaken to keep pace with the great public acceptance of the Ford V-8. Throughout the country Ford Dealers have come to look upon Universal Credit Company as an outstanding sales adjunct and many outstanding dealers have stated that UCC low cost, flexible plans for the Ford buyer will play an even more important part in future sales than in the past.

The outlook for Ford sales for the remainder of this year and for 1937 is assured with the highest type of sales leadership indicated on every hand. Universal Credit is proud to play a part in bringing the great Ford products to constantly increasing thousands of the buying public by making possible the purchase of Lincoln, Lincoln-Zephyr, and Ford V-8 cars and trucks, out of income at new low costs in the industry.

During the comparatively brief period that has elapsed since the Universal Credit Company was established, that institution has financed the purchase of Ford transportation by the motor-buying public of America in the amount of more than \$2,000,000,000, serving a total of more than 3,000,000 customers of Ford Dealers.

Ever since Universal Credit Company commenced operations, over eight years ago, financing costs on Ford products have been materially

reduced. It is estimated that time payment buyers of Ford cars and trucks have thus been saved in excess of \$75,000,000 through the lower financing costs made available by the Universal Credit Company. These lower credit costs have been and continue to be constructive contributions toward national economic recovery.

When asked regarding the outlook for 1937, Mr. Ernest Kanzler, president of the Universal Credit Company, recently said:

"I consider our expansion program the best expression of our confidence in recovery and in an expanding business future. We are going ahead with our expansion plans without hesitation. We have increased our offices to over 100 located in all sections of the United States to meet the growing demands of the public for Ford cars and for our credit services.

"These are, more than ever, days of building good will through efficient service and courtesy in the credit industry. Our Company has always served the Ford Dealer and Ford time buyer with these factors uppermost in our mind. Throughout all our growth," said Mr. Kanzler, "we have always kept before us our original statement of purpose made several years ago when we were first organized. In which we said: 'In the performance of our many duties, we can remember always that beyond our contribution to the advancement of organized industry, UCC is at the same time contributing substantially to the happiness and contentment of society.'

"By extending credit to every deserving person in the nation, we are enabling him to purchase Ford products at the lowest possible cost and are thereby bringing greater health and happiness to a larger group of American people, heads of families as well as their children.

"In the process of transition from the crowded city to the healthy country districts, UCC is aiding the American family to establish itself with economic advantages in more desirable locations and thus helping to raise the standard of American living conditions.

"Because we are making a moral and social contribution, and because

and purpose, we are confident we have such a fundamental mission that the company is on the road to further achievement and success.

"We are indeed fortunate that such worth while purposes are being accomplished and are bound inseparably with our daily tasks. With these thoughts in mind, individual success cannot help but follow the inspired and painstaking efforts of every person in Universal Credit Company."

Universal Credit Company serves Ford Dealers exclusively and UCC Plans are available through the J. E. Falls Motor Co., Walton, Ky., the local authorized Ford Dealer in this community.

Boone County Farm Notes

B. R. FORKNER, County Agent

Farmers Being Notified
Letters are rapidly being sent out to all ACP cooperators listing for them the information which has been obtained by the field supervisors, according to John E. Grigler, Secretary of the Association.

The letters show approximately the amount of payment that can be expected for the diversion of land from tobacco and other soil depleting crops to soil conserving crops. The total soil building allowance is shown, and the amount earned to date. The approximate total payments on the whole program that can be expected if all of the soil building allowance is earned are also shown in this letter. Administrative expenses for operating the Association, however, will be deducted from the total payments. Farmers are urged to carry out more soil building practices before October 31 so that none of their Soil building allowance will go unearned.

The date for seeding idle land to a soil conserving crop has been classified as soil conserving for this year has now been extended to Oct. 31st. Also by seeding this idle ground to a soil conserving crop the soil building allowance will be increased to that extent.

Lawn Demonstrations Held

In Five Communities
Boone County is very fortunate to have native shrubs and trees that are appropriate for lawns according to N. R. Elliott, Landscape Architect, University of Kentucky. Five communities were visited on the two day tour of lawns by Mr. Elliott. The front door should be the center of interest of any home according to Mr. Elliott. All shrubs and trees should lead the eye to the front door. He stated that yellow poplar, dogwood, redbud, wild crab apple were very good native trees to use as a background for the home.

Lawns visited by Mr. Elliott and Miss Mary Hood Gillispie, Home Demonstration Agent, were those of Mrs. B. F. Hossman, Hebron; Mrs. Lon Pope, Burlington; Miss Mary Rector, Petersburg; Mrs. John L. Vest, Walton, and Mrs. Jake Cleek, New Haven.

The attendance at the demonstrations were good even though it rained at every home visited on the tour, according to Miss Gillispie. Hebron 4-H Club

Leading In County Scoring
The Norbex Champions 4-H Club at Hebron is leading in first County-wide scoring of 4-H Clubs, according to David Colville, Assistant county agent.

Each year the highest scoring club is presented a beautiful framed picture donated by the banks of Boone County. If this picture is won for two consecutive years by any one club it remains in their permanent possession.

The most important factors in scoring are project completion, exhibits at shows and fairs, participation in judging and demonstration teams and new articles. All indications point to 100% completion in several of our 4-H clubs. Competition is keen and the club that wins this year may well be proud of their award.

"Susquehanna," Indian Name
"Susquehanna" comes from the Indian words, "siskiu" or mud, and "hanna" or river.

Snakeroot Poisons Animals

Veterinarians say white snake-root causes a disease among cattle, horses, and sheep commonly called "tremor." It seems to affect the nervous system. The poisoning is sometimes contracted by human beings from drinking milk or eating milk products from poisoned cows. The disease is called "milk sickness" in man. White snake-root poisoning is accumulative, according to authorities, and a small amount of the plant eaten over a long period of time may produce the same effect as a large amount eaten at one feeding. Calves and lambs have been fatally poisoned from nursing cows and ewes that had eaten snake-root.

"Go to Jericho!"

When Mark Twain reached Jericho he said: "I am where my grandmother has wished me many a time." The origin of "Go to Jericho!" is wrapped in mystery. One explanation is that the neighborhood of Jericho is barren, mountainous and full of strait passes abounding with robbers in these days as in Biblical days, and going to Jericho was, and is, a hazardous ordeal.

THE BEAUTIFUL

OHIO RIVER

Anyone who was born and reared on the banks of the beautiful Ohio River, with few exceptions, loves that grandstream. No matter should they travel away in foreign lands or in distant parts of the good old United States, when they return and their eyes rest on this fascinating body of water, there comes up in their heart the old love for it. It may at times become murky with muddy water or gorged with ice in the winter time, but it is like a child with a dirty face, when it recovers from these onslaughts of nature, like the child's face when it is washed, it is beautiful. The following poem was written many years ago by Mrs. Bessie H. Woolford of Madison, Ind., at that time one of Indiana's well known poets, who loved the old Ohio and all it carried on its broad bosom:

I stood on the shore in the moonlight,
No longer than last Sunday night,
When just as the "Fleetwood" had whistled,
The "Madison" rounded in alight,
Oh, the river was smooth as a

mirror,
And over the hills, all wooded, at rest,
The moon newly risen in splendor
Threw a broad bridge of light o'er its breast.
From the band of the graceful
"Fleetwood" came
The strains of "The Sailor Boy at Sea,"
While softly and sweetly the
"Madison" played.
A song—"Then you'll remember me,"
Slowly the boats move into shore
Where the glancing moonbeams quiver;
Of "Annie Laurie" the "Madison" sang,
And the "Fleetwood" "Swanee River."
Side by side, oh, you beautiful rivals
You lay on the river's broad breast,
(Don't ask me, I beg, if you love me,
Which one of the two I like best!)
I stood on the deck of the "Fleetwood."
As she proudly drew out in the stream,
And the music came over the water,
Like the melody heard in a dream
From the "Madison" "How can I leave thee"
Rose tender and clear in its tone,
While the harp of the "Fleetwood" played softly,

(For me, I thought), "Oh call me thine own."
Further and further apart we drift,
Then one song arises, grand and free,
And the strain that both are playing now,
Is—"Nearer My God to Thee."
There are many sweet things in this life, friends,
Apart from its sorrow and pain—
There are times when we turn from the world, friends,
And forget all our greed for its gain
For in the soft hours of evening,
We dream the old dreams as of yore,
And long for the friends who have left us
Alone on the moon-lighted shore.
And we think of a world far beyond us—
A world free from sorrow and sin,
Where we know that the loved ones are waiting
To welcome us when we come in.

LANDING

BOONE COUNTY

Whooping cough has literally taken this community by storm; grown-ups as well as children are experiencing its thrills.

Although Friday was a very wet and disagreeable day, a large crowd attended the Hamilton community fair held at the school building, and the exhibits were fairly large and varied. We are hoping to have it earlier in the season next year.

Mrs. Harry Huff and daughter Wilma spent Sunday with her mother Mrs. Alta Hamilton.

Mr. and Mrs. Everett Jones and young son Reuben were the overnight guests of relatives at Mt. Sterling, Ky., this week.

Mr. and Mrs. Garland Huff entertained the following guests at dinner, Sunday: Mr. and Mrs. Everett Ryle, Mr. and Mrs. Thos. Huff and Mr. and Mrs. Frank Seebree and daughter Alberta.

Nine pupils from Hamilton school will help represent Boone county at the State Tournament at Lexington, next week. We all feel very proud of the showing our school made. Besides the nine mentioned above, there were a great many who won second and third places in scholarship.

Mrs. Lillie Huff spent the week end with Mr. and Mrs. Robert Hodge who are entertaining a new baby girl at their home, named Shirley Fay.

Mrs. Margaret Feldhaus of Cincinnati, O., is visiting friends and relatives here.

Ben Ames Williams
Writes New Serial
For Our Readers

Ben Ames Williams, one of America's foremost fiction writers, is the author of "Deputy of the Devil," this paper's new serial story.

It deals with a famous physician, Dr. Greeding, who imagined himself endowed with strange supernatural power. He used it selfishly

Ben Ames Williams

to gain his own desires at the expense of others, forgetting the old axiom that "he who eats with the devil must use a long spoon." Like the famous Dr. Faustus, this man was finally rebuffed by his own fiendish tactics.

Intermingling with this unique plot is a fascinating love story in which the doctor's daughter and a young college professor from Dr. Greeding dislikers are the principals.

"Deputy of the Devil" follows a series of remarkable stories by Ben Ames Williams, including "Hostile Valley," "Honeyflow," "All the Brothers Were Valiant" and "Great Oaks." He has also written innumerable short stories for magazines. Williams started his career as a newspaper reporter in Boston, following his graduation from Dartmouth college in 1910.

He now lives in Massachusetts, spending his summers in Maine indulging in his favorite sports of trout and bass fishing, tennis, golf and swimming.

We urge our readers to follow "Deputy of the Devil" from issue to issue as it unfolds serially in these columns. You'll receive a pleasant treat from this unique tale—a treat seldom made available to newspaper readers.

LANDS POSTED

All persons are hereby warned not to hunt with gun, dog or trap of any kind on the land of the undersigned. Any person or persons caught trespassing will be prosecuted to the full extent of the law. It is necessary that we take this step to protect our stock, fences and game. This also includes for hunters, who in the past have done a great deal of damage to our fences and sheep, many of the latter being killed by their dogs.

has been overrun with orders the past three weeks and immense shipments have been made since the season opened.

Sunday, a party made a trip from Cincinnati to Warsaw, a distance of about forty miles, in three hours. The machine gave fright to half a dozen horses and caused a couple of vehicles to be broken up. The danger of frightening horses and causing them to run away, is making the automobile a thing to be dreaded in the country districts.

The walking match to be given by Cowboy Will Smith at the Warsaw Opera House last Monday night had to be declared off owing to the breaking down of the electric light system. An effort to get lights in shape Tuesday night was a failure and the money paid for tickets was refunded. He went to Markland Ind.

Mr. and Mrs. Otto Adams attended the bedside of Teddie Chrysler of Poplar Grove, who is dangerously ill.

Last Thursday, Dick Markberry and Guy Wood of Owen county, engaged in a fight in which Woods received a black eye and scalp wounds. Town marshal Zebb Kinman arrested them and lodged them in the county jail. Friday they were tried before Judge Connely. Markberry was fined \$15 and costs, while Woods was released. Markberry is an ex-convict out on parole.

Poison Ivy "Fights"

Poison ivy is the only plant that actually "fights" anything that disturbs it, destructively using the hollow, tanglie tubes which fringe its leaves, says a writer in Collier's Weekly. When a leaf is gently touched by some harmless object it quickly aims the nearest tubes toward the irritant and ejects poison on it for a distance of three inches.

Writes Interesting Letter About Indians of the Southwest

Dallas, Texas,
Oct. 11, 1936.

To the Walton Advertiser:—

I wrote you last from Ft. Worth. I had been led to believe Ft. Worth had put on an exposition in opposition to that of Dallas. I found, however, there were no grounds for such a claim. What they have is more a carnival of side shows, such as generally go with an exposition. Near by the place, nearing completion, is a permanent, well constructed fine building as a memorial to Will Rogers that will hereafter be used for horse and stock shows.

Surrounding Ft. Worth is a good lying rich farming country. The city of Ft. Worth is well located in a spot that is a bit of a surprise. In so far as I traveled about it, I saw no squallor. Dallas is 33 miles east. The intervening space between these two cities is so rapidly being built up, I think it will be safe to conjecture that within another one hundred years the two cities and this intervening territory will constitute one vast city with no division mark except in name only. Dallas, too, is a fine city.

The Dallas exposition is rather an extensive affair, well constructed and interesting. The night lighting effect is good. Not as with other expositions the Dallas authorities have not seen fit to segregate her side shows from the exposition proper, consequently for any one who bears no special interest in one of these features, a lot of unnecessary walking is required.

But hearing of expositions bears no special interest. They must be seen to be appreciated. So let us return to the south-west for the time and have something to say relative to its past and present Indian inhabitants.

We of the Ohio river valley are almost never brought in contact with an Indian unless without our territory. There are Indians north and north-east of us, a few in the Cherokee reservation in the Great Smoky Mountains and an unquered remnant of Seminoles who have retreated to the Everglades of Florida. When we speak of Indians our minds naturally center on the Indian Territory, or now Oklahoma, and drop it at that. I have been aware of the existence of Indians in the west, but I was truly surprised in finding so great a number there. He surely is by no means a rarity there.

We talk of the aborigines as red men, while on the contrary they are not at all red, but decidedly brown much browner in the west than are our eastern Indians.

As a white race we have woefully wronged the Indian. He has fought us as he had a right to do—fought us as invaders. I have seen a number of reservations set aside for him, too often fit only to barely eke out an existence. Our betrayal of the Indian Chief, Ocoila, in Florida, in recall should make us hang our heads in shame. The present home of the Seminoles in the Everglades is a most wretched place for any human being to have to live. Now there is a move on foot to make a Park out of the place and reserve the Seminoles into the far north, a most cruel proposition, one that if carried out would indirectly amount to murder. It is true, we are not wholly in dishonor, in that we have schools for the education and betterment of Indian conditions. Such a school at Albuquerque, which we visited, we found to have six hundred Indian pupils. There is also another such school at Tuba City, a short distance out from Cameron. In talking to a professor of this latter place in a mention of the Indian character, he said that as a class they adhere more closely to a moral code than does the white man. We have also heard this mentioned several times elsewhere. As a race they are possessed of a high degree of manhood, gratitude, loyalty and honor. He will not submit to slavery. It is true, however, there are bad Indians just as there are bad whites. This applies in graduation to the different tribes. Among the lower might be mentioned the Apache. The Apache has ever been a menace to adjoining tribes in his thievery. He lacks honor. Among the many tribes of the south-west the Pueblo Indians seem to have attained the greater self culture. We talked to a pure blood Pueblo Indian woman holding a high position in one of these Indian schools. She showed culture and mentality a graduate of Carlisle College. The Pueblos hold an annual Fiesta on the 18th of September, at Laguna, New Mexico, which is located near Highway No. 66. Like the white man they have a love for gatherings. As

we made our way east over this route we overtook and passed so many Indians, a few in autos, some horseback, but a large majority in covered wagons, it looked to us the country's Indian population had pulled straps and were migrating. Upon inquiry we learned the nature of the trek. This went on for two days prior to the date set for the Fiesta, or Fair. We reached Albuquerque the 18th and the next morning retraced our way back to Laguna. There we found some two or three thousand Indians on the grounds. There was a highway down a ridge a short distance to this Pueblo village. All had located with their conveyances conveniently near this road. Many had fire going on the ground about which the Indian women were preparing food. Indians are given to much trading among themselves and they make of these annual gatherings a special occasion for such. Here and there along this roadway could be seen little groups bartering for a deal. They care but little for gold, silver and turquoise having a far greater attraction becoming their main source of wealth. Of some carry considerable value on their person, in the nature of jewelry.

Within the confines of this Laguna Pueblo is a Catholic church. The greater part of the Indians who have embraced Christianity here are Catholics. The white man's religion in their acceptance of it, it seems is more of an outward expression, or form, while deeply implanted within them remains a love for their old religious traditions, so in part they seem to act to please the church followed with their own ceremonies to please themselves. The day activities began with services within the church, followed with a march in ceremonial line, lead by an Indian priest, with a white priest walking in the center of the procession. This procession comprised but a small percent of the total Fiesta attendance.

Following these services, within a plaza, or patio, enclosed on all four sides by walls or buildings, the Indians then proceeded with their Fall Festival dances. These are not pleasure dances as with us, but on the contrary are of a serious religious nature without any expression of mirth or joy. It was the Zunis who were the first to give the Fall Festival Dance for the day. On the ground floor all around the patio was a single row of filled seats. At places along the wall above stood groups of Indians, while higher up on some of the buildings were perched other spectators. There were perhaps not six whites in all that throng, so it was a spectacular white man made affair, but decidedly Indian, Indian spirit and manner.

As the dancers entered at an opening in the wall at one corner of the patio a single Indian kept up a rhythmic tom tom with his drum in keeping with the dancers step. The dancers were made up of two groups. The leading group was composed of men and women. The men of this group were stripped to the waist with their bodies variously painted and about their form in general a conglomeration of decorations of dangling fox skins, Indian woven blankets and turquoise beads. The women, all young girls, wore deer skin moccasins with leggings of white deer skin, also beautifully decorated with beads and feathers and their hair straight and jet black, was combed at full length, cut with bangs that flowed over half their eyes, down over full half their faces. Following this group of dancers was another group composed entirely of braves most of whom were in ordinary civilian clothes, but with silks with no two of the same color. This group had a leader or two partially decorated with feathers. This second group remained distinctive, never at any time during the performance did they mingle with the first group in the rhythmic step of both groups, but in keeping with each other and that of the drum. Their dancing is not like that of the white man, but is just an up and down stepping with the feet. While the dancing vigorously proceeds there was a constant chanting, unintelligible to me, arising from the main from among the braves. It was not a meaningless expression, but one understood by the drum and the tom tom of the drum met fully the expressions of the chant.

We were very fortunate in seeing these ceremonies of the Indians given in their own native way. Above and about among the spectators was the wonderful coloring of the decorations worn by the women, while many of the Indian men wore bright red bands about their heads which, together with their bright colored shirts, added a spectacular background to it all. It was all most

interesting and a performance that must be seen to be fully appreciated.

The south-west contains numerous evidences of prehistoric occupancy by man. Who these people were has long been a mooted question. After studying carefully their habits and methods, as seen in their abodes and their implements of agriculture and such as used in the hunt and for their personal protection, archeologists are coming more and more to believe these ancient inhabitants are but the ancestors of the present Indians, taken as a whole, now occupying this region. As yet it is not known if these people of the south-west have any special relationship with the mound builders of the Mississippi Valley.

From what has been learned of these people in that of their ways and methods, their line of development, it seems, will bear classification into three distinctive divisions. The basket makers are of the very earliest. As time passed they developed the art of pottery making in addition to their basket weaving. The use of obsidian, flint and stone in agriculture, hunting and warfare is an art long known by man and with these peoples may have preceded that of basket making, but they do not seem to consciously seek it out. At present, these inhabitants make use of all these three arts, an evolving process through their past history that still continues, as these Indians still adding a higher development in what they have learned from contact with the white man.

In one of the cliffs about Carlsbad was observed indications of a possible hidden tunnel. Upon breaking into it, a corpse was found in a sitting position with the knees tightly drawn up against the breast. Over the crouching form was drawn a mantle woven in stocking style from yucca fiber. Upon the removal of the mantle it was found the body had not decayed, but was simply dried up. About the body lay five human bones, each on a tray of like woven fiber, all of which had dried without decaying as had the body. Near these on a like woven tray of yucca fiber, lay the dried up corpse of a very small infant. No corks or implements were found, and it seemed it was a find from the basket age. Archeologists have placed the age of the remains from a few hundred years to several thousand, they as yet having no dependable evidence of a nature justifying the fixing of a definite age.

On the mayas, especially those of the west, you will see the designation of National Parks and National Monuments. The latter term would seem to indicate the creation of some man made edifice in memory of some individual or deed, etc. But such does not always so imply. Congress retains to itself the right to make, or set aside given places of more or less interest as National Parks, but delegate to the President the right of creating and establishing National Monuments under Federal control. For illustration, the White Sands Monument, heretofore mentioned, is simply a section of sand covered territory with a roadway, eight miles in length to the interior. That is all, but withal a most interesting sight.

About 57 miles south-east of Mesquite, Arizona, is such a monument bearing the name, Casa Grande National Monument. Its purpose is to preserve to the public an old prehistoric Indian ruins, of which there are many in the south-west of a like nature, I say, Indian ruins as there is every reason to infer such. It seems plausible, too, to infer that the Cliff Dwellers were also Indians. These two peoples, if they were not one and the same were at least not the only inhabitants. The people of this Monument, which embraces a lot or ruins of an old habitation within a protective enclosure, with a main five story building doubtless, in the main was built by them for protective purposes. They, as with the Cliff Dwellers, were prehistoric. Each had acquired the art of pottery making. This central fort stood high enough for a sentinel to have a good view of the surrounding country. He was thus enabled by signals, or otherwise to give warning to the workers in the fields of an approaching enemy. These people practiced irrigation that with their crude tools must have been most laborious. That the Cliff Dwellers sought protection among the cliffs at points most difficult to reach, is in evidence of enemies.

As you will remember, when Cortez conquered the Aztecs it was discovered they had a calendar fully as accurate as did the Spaniards. My attention was drawn to two holes in the Casa Grande, fortification, one of which was through the side of the east wall, while in exact line through the wall of a central room

was the second hole. From the interior one could look through both to the outside. For a period of about eight minutes, in the morning twice a year, the sun shines through these two holes giving a spot of sunlight on the wall of the interior room. This occurs each year on 7th of March and the 7th of October. Thus it can be seen that by this means they could keep time with accuracy for such annual occasions they saw fit to keep. We, as you know, must have an extra day every four years and an additional one every four hundred years.

The walls of this fort, as well as all its other buildings were built of a specially prepared mud mortar with rather more than the average amount of cohesiveness. They were enabled to apply some mortar mixture that gave greatest endurance and smoothness as a surface coat. On the walls in the rough, the hands were used much in smoothing it down, numerous finger and hand prints being left in the soft mud before it had hardened. There could be detected the use of the right hand in preference to the left, the left being used in supporting the body while using the right.

Among a number of designs on the walls is one not found in any other ruin in either New or South America. It is one peculiar to the Indians found on an old copper coin of the Isle of Crete, in the Mediterranean Sea, a coin of two thousand years ago. These ruins are thought to date back that far. Are those who argue for a sunken Atlantis here given additional evidence in support of their claims? The Pyramids of the Aztecs and those of the Egyptians afford a suggestion of communication. They claim a point in the fact that from afar out in the Atlantic has been dredged up lava of a nature peculiar to lava dried in the air. Such, if correct, does not indicate these people were Indians. From a trash pile near the ruins has been found a square and compass of puzzling interest. We have seen a number of such ruins. One under process of excavation have uncovered the skeletons as they lay in two graves. The indications are the people of this class of ruins were of low stature, which is a marked feature of the Hopi Indians now living in Arizona. These Indians largely practiced cremation.

On our run from Boulder Dam to Zion Park we left the main road going south to view a historic ruins that had been partially restored. With all such will always be found a "Kiva." This is generally a round house with an only entrance at the top. This is a council house within which braves meet in council, no women being allowed present. This restored portion will eventually be submerged by the waters of Boulder Dam when fully filled. However, just back of the ruins is a low foot hill which I climbed and found over its top here and there holes drilled in the rock for the support of poles for the main support and frame work of their buildings. Too, I found where a number of graves had been dug into, with broken crockery scattered about. Beside one was a few pieces of badly decayed bones.

East of Flagstaff is a road leading off to the south that further east touches Walnut Canyon. This canyon was largely resorted to by the Cliff dwellers. At a prominent point on the cliff can be seen about three hundred ruins. These cliffs do not afford very deep recesses, such as I saw at Montezuma's Castle, where I climbed and scrambled up ladders 128 feet to a five story Cliff Dwellers home. These of Walnut canyon were necessarily very small not allowing the grouping of many individuals at any one point.

The style of Cliff Dweller architecture suggests to me a relationship between them and the Pueblo Indians of the present date, or rather I should say they were the ancestors of the Pueblos. The latest Cliff Dwelling occupancy of which I have heard dates back at least 750 years. The modern Indians are holding down the height of pueblo New Mexico. They are one story in height, sometimes two stories, but seldom if ever, more than that.

At Taos, New Mexico, located on a high plateau are two of the old style pueblos separated by a small stream of water. They are of plastered mud, some five to seven stories in height. The pueblos are so constructed that the tops of the first story forms a porch for the outer buildings of the second story and it in like manner for the story above, and so on to the very top. In short each story recesses in the climb upward. Each of these

two pueblos contains about three hundred rooms. These Indians always have a governor whom they elect. They are adverse to picture taking, or at least you are required to pay a dollar for the privilege which privilege you must first secure from the governor. At San Domingo, New Mexico, is located one of the modern pueblos. Visiting it we first sought out the governor and secured permission to drive the streets of the town, having first secured all the pictures of that nature we desired at Taos.

The noted Acocoma pueblo of Arizona is located on a stone mesa 357 feet high, merrily climbed by foot holds dug into the rock, and in part by ladders. Now means of ascent have been made easy with an admission charge of one dollar and an extra dollar for the privilege of picture taking. All the material of that town had been carried up this precipitous ascent when a single slip of mistep meant death. Out on the plain near from the Acocoma mesa stands the Enchanted Mesa of which we read so much. It is a perpendicular rock protrusion 431 feet high. Indian tradition claims it was at one time occupied, having a pueblo upon its top with as many as 600 inhabitants. The top embraces as much as forty or fifty acres of surface. Indian tradition claims that upon the ripening of their crops in the plains below the entire population went down to gather it, leaving one old lady with two other women above. While down on the plain, thus engaged a terrific rain and flood loosened the footing of a rock slide that had afforded a sloping climb to the top. This slide gave way thus losing their only means of regaining the top. The three were left to starve except one that leaped from the top to her death. This tradition is generally thought to have no foundation in reality, but later by the use of modern means the top was scaled and evidence of a former occupancy proven. Above where the rock slide had formerly rested there still remained in the walls above it the old foot holds of traditional days.

In New Mexico much of the cheaper house construction is adobe brick, which are mud brick mixed with straw, laid in mud mortar. Some have stuccoed these walls and a few bear painting. Such gives a very neat and clean appearance. This is peculiar to New Mexico. Another decided feature peculiar to New Mexico is that of large strings of peppers that hang along the sides of these walls somewhat indicating Mexican blood with their hot dishes.

From Cameron, in Arizona, which is located at the side of the canyon of the Little Colorado river, I went to Tuba City, thence south four miles to Montezuma pueblo. This pueblo is generally of one story height, built of stone. My main purpose in going there was to see some dinosaur tracks imbedded in stone. These I found a few feet from the doorway of an Indian home. It was a rather novel experience in putting my feet in the tracks of a monster belonging to a species that had become extinct sixty million years before the advent of man. On the way out there I saw other tracks of prehistoric animals, as well as the petrified remains of several trees.

On the way we encountered several "Hogans," mud and stick, one room, round top houses, a style of house occupied by Navajo Indians. We had put up at an Inn in Cameron and that morning at breakfast we had a short talk with a scientist, who with his aids, was going that morning out in the region mentioned to investigate some newly discovered prehistoric tracks. While at Cameron it had rained the evening before with a slight rise in the Little Colorado river. It was the muddied water I had ever before seen, so muddy it would put the Missouri river to shame. It was so muddy it did seem worthy of its reputation of being "too muddy to drink, yet too thin to plow." It was illustrative of the soil conditions that made the Colorado Canyon possible.

Hopkins of Falmouth, Ky. Her funeral took place Tuesday, the remains being laid to rest in the Gardnersville Cemetery.

By marriage, she was an aunt of John B. Johnson of South Walton.

ICE CREAM TAX IS INVALID

Says Judge Ardery of Franklin Circuit Court. Future Collections Impounded

For the second time Judge William B. Ardery of the Franklin Circuit Court, held the 28 cents a gallon ice cream tax law invalid, Saturday, and ordered future collections impounded until the Court of Appeals issues a final ruling.

In a written opinion Judge Ardery termed the tax "discriminatory if not substantially confiscatory," and said the State Tax Commission "had recognized that the act discriminated against Kentucky distributors."

"No amount of numbers of administrative rule can cure this inherent defect in the act," Judge Ardery wrote.

From official sources came a suggestion that the commonwealth drop the case without an appeal, thereby permitting the tax to be automatically. Governor Chandler, though previously had expressed determination to take the case to the state's highest court.

On application of a group of individual ice cream dealers representing organized ice cream dealers in Kentucky, Judge Ardery appointed Kelly Smithers, Clerk of Franklin Circuit Court, and State Treasurer John E. Buckingham co-receivers to handle future collections from the tax payments made by dealers.

Smithers said such payments will be impounded until the Court of Appeals rules on the case.

Assistant Attorney-General J. W. Jones, who represented the state in the case, pointed out that only those dealers who had paid their tax under protest could recover in event the tax ultimately is knocked out. Most dealers have paid under protest.

The tax, collected by dealers at the rate of one cent a cone and seven cents a quart on retail sales went into effect July 1st. It was one of the most controversial sections of Governor Chandler's revenue program enacted by the 1936 General Assembly.

Judge Ardery's decision Saturday was in a suit brought by Anelli Nocerio, Covington dealer, against the State Tax Commission.

Three months ago Judge Ardery held the tax invalid but the Court of Appeals ordered a new hearing for more evidence. Since then Judge Ardery said Saturday, the monolithic has produced no evidence countering Nocerio's contention of invalidity.

Mr. and Mrs. Levi Pennington entertained a number of their friends Sunday in honor of Mr. Pennington's birthday. Those present were Mr. and Mrs. Nathan Brewster of Verona, Mr. and Mrs. W. M. Sturgeon, Mr. and Mrs. Eckler Norman, Looka, Paul Johnson of Walton, Mr. and Mrs. Earl Prakes and children of the Green road, and Miss Geneva Dixon of Beaver grade.

Mr. and Mrs. E. L. Aylor of North Main street, attended the morning and afternoon services at the First Baptist church, Covington, Sunday.

The Tell Tale Squint
— a sign of Poor Home Lighting

If your child squints while reading or studying at home, don't overlook it. For squinting is often a tell tale sign of poor lighting. Guard your child's sight—and your own—with better light. In rooms where members of your family read, study or sew be sure there is plenty of light—well shaded and free from glare. The whole room should be lighted, too, not just parts of it. Poor home lighting can be corrected easily and inexpensively. Defective eyesight, on the other hand, is difficult to correct and sometimes costly. Play safe. Protect your family from eyestrain by providing them with better light.

Free Home Lighting Check-up
You can easily determine whether or not your lighting conforms with modern standards of safety by having it checked with a Light Meter. We'll gladly render this service for you without cost or obligation. Phone or write for an appointment today.

HOME ROBBED IN COVINGTON

While Visiting His Parents In Walton, Saturday Night. \$350 Worth of Goods Taken

Saturday night about 9:30 the home of Roulle D. Farris, 20 East 5th street, Covington, Ky., was entered by thieves who stole all the clothing among which was his wife's fur coat, and gold watch, radio and other articles. He resides on the second floor of the above number, over the plumbing shop of J. Harry Norris. The thieves also stole the truck of Mr. Norris to carry away the goods. Mr. Farris and children were in Walton, at the time, visiting his parents, Mr. and Mrs. J. A. Farris and his wife was visiting her mother in Covington.

The police are making a diligent search for the thieves and took finger prints found on articles in the home with a possibility of discovering who the thieves are.

SUDDEN DEATH OF JUDGE LASSING. PASSED AWAY AT WINTER HOME IN FLORIDA

An Able Jurist, a Staunch Friend, a Public Spirited Citizen Who Will Be Greatly Missed In Boone Co.

His Friends Were Legion and Many Drop a Tear to His Memory

Most of the citizens of Boone county were saddened Sunday by the intelligence of the sudden death of Judge John M. Lassing at his winter home in St. Petersburg, Fla. He was a lifelong resident of Boone county, where he was born and reared. He made his home in Burlington, in the summer months and at St. Petersburg, in the winter. He left Burlington last Thursday for Florida, and while there was no evidence that he was nearing the end of life's journey, his health had been failing for several years.

Sunday morning he suffered a heart attack. Medical aid was summoned, but the grim reaper had taken its toll and he quietly passed away. The remains were shipped back to his Old Kentucky home, where he lived so well, there to rest among those he loved. All that is mortal of this beloved citizen arrived here Tuesday and lies in state at his home in Burlington, until on Wednesday, where appropriate funeral services were held, after which the remains were laid to rest in the beautiful Richmond Cemetery. And here, let us say that it was through his generous contributions as a stockholder, that this beautiful little city of the dead, assisted by other stockholders, that this pretty little cemetery was made possible.

He was one of the most public spirited citizens of Boone county and a great champion of good roads and many road improvements were made through his aid and direction. He was a man of quiet demeanor, but executive in ability. Only those who knew him personally, appreciated his kindly heart and gentlemanly qualifications.

We knew him intimately and can justly pay tribute to his memory. There was nothing like about Judge Lassing, and while like all successful men, he might be criticized by some, he could be relied on to stand by a friend and that in itself was a most worthy trait. He was an ardent Democrat and worked early and late for his party. His advice was always sought on political questions and he rarely made a mistake. Of a keen, analytical mind, he could always be depended on in an emergency.

He was also an honored member of the Masonic order.

The following is a review of his life and connections written some years ago:

John Maurice Lassing, age 72 years, the eldest son of Dr. H. C. and Anna E. Lassing, was born at Elm Tree near Union in 1864. He received his elementary education in the common schools of Boone county and his college course at Central University, Richmond, Ky., from which he graduated in 1886. For the next two years he taught school and studied law in his spare time under Fountain Riddell, an eminent lawyer practicing at Burlington. To complete this study he entered the Cincinnati Law School in 1888 finishing the regular two year course in one year, graduating with the class of 1890 ranking seventh among a total of ninety students. He at once entered the practice of law at Burlington and became actively identified with Democratic politics in Boone county and the Sixth Congressional District.

In 1891 he was elected to the office of County Attorney which position he held for the three-year term fixed under the new constitution. At the expiration of this term he was reelected in '94 and held this office until the death of John W.

Green, Circuit Judge in this District when Mr. Lassing was appointed Circuit Judge resigning the office of County Attorney. He was elected to this office by the people at the November election following his appointment and at the expiration of this term was reelected Judge Lassing held this office until Judge Thomas H. Paynter, who represented this district on the Appellate Court Bench, was elected to the United States Senate, creating a vacancy in the Appellate Court from this district. Judge Lassing was appointed until the next regular election when he was nominated by the Democratic party and elected for the remainder of that term when he was again nominated and elected for a full term. He held this office until impaired health caused him to resign.

He held each of the above mentioned offices approximately seven years thus giving him twenty-one years of public service along the lines of his chosen profession. His political record is unique and perhaps without parallel having been twice elected to each of three offices and having voluntarily resigned each. Shortly after locating in Burlington, Judge Lassing married Mary Lillard Brady, youngest daughter of Robert A. and Susan Brady. They had three sons, Warren and Robert who are located in Florida and John, Jr., who resides in Burlington. All three of the sons are married. The Judge had two grandchildren—June, daughter of Robert and Jennie May, and Mary Lina, daughter of John, Jr., and Ruth.

He is also survived by one sister Mrs. Joseph A. Huey of Union, Ky. and three brothers, Capt. Walter Lassing of the U. S. Navy; Coleman Lassing of St. Petersburg, Fla., and Henry Lassing of Nashville, Tenn. all of whom were present at the funeral.

Judge Lassing was, for many years, quite active in State politics, having charge of Democratic Headquarters with Gov. McCreary in the management of the Beckman-Yerkes campaign which was perhaps the most hotly contested of all Kentucky gubernatorial campaigns. He likewise managed the successful campaigns of Gov. McCreary in his race for the United States Senate and later the campaign of Judge Paynter for that same office. It has been said of Judge Lassing that he never lost a fight where he was given exclusive control of its management.

Since his retirement from the bench he spent his winters in Florida, and had ceased his political activities. He devoted most of his time to improvement of the roads in Boone county and the network of federal and state highways being laid out in the county stand as a testimonial to his ability along these lines.

Funeral Directors Chambers & Grubbs of Walton, had charge of the funeral arrangements.

The funeral took place in beautiful Richmond Cemetery, Wednesday morning at 10 o'clock. A vast concourse of friends of Judge Lassing were present to pay the last and tribute of respect, among whom were city officials of Newport, Covington, Walton, Warsaw, Carrollton, Owen and Williamstown.

Great numbers of floral tributes of beautiful and gorgeous flowers were in evidence, a touching tribute from his loved ones and friends.

Rev. D. E. Bedinger of Walton, an old and faithful friend, officiated as minister of the gospel, reading several scriptural passages and offering up a fervent prayer.

LADIES INJURED IN AUTO CRASH

Near Lexington Friday Night—Pinner School Teacher and Mother Suffer Cuts and Bruises

Friday night, about four miles from Lexington, Ky., while returning from Pinner, Ky., in their automobile, Mr. and Mrs. J. T. Baker and daughter Miss Minnie Clay Baker, accompanied by Mrs. C. H. Talbott, their car was struck and crowded off the highway by a truck and completely wrecked. Mrs. Baker sustained the most serious injuries, but no fractured bones being out, but bruised painfully. Miss Baker suffered head lacerations and cuts on the face. Mr. Baker and Mrs. Talbott escaped injury. All are residents of Lexington.

Miss Baker is one of the teachers in the Pinner Consolidated School and Mrs. Talbott is the mother of Miss Louise Talbott, another teacher in the above school. Both these young ladies make their home in Walton, during the school year.

ORGAN RECITAL A GREAT SUCCESS

The Well Known Radio Artist, Pat Gillick, Greeted With a Large Audience Sunday Night

The Hammond organ recital at the Walton Methodist church, Sunday night, was largely attended and the audience was delightedly entertained by that well known radio organist, Pat Gillick, of Cincinnati, Ohio, who was especially engaged to demonstrate the great possibilities of this instrument that develops volume equal to that of a large pipe organ. The attendance would have been much larger but for inclement weather and a local tragedy.

Mr. Gillick gave an hour's program in two half hour intervals, playing sacred, oriental, classical and Indian selections.

A free will collection was taken and the sum of \$25 was realized. This fund will be used to eliminate the organ indebtedness.

Rev. W. Bird, one of the representative citizens of Ottland, Ky., was a welcome visitor to the Advertiser office, last Thursday.

Large Gathering Of Master Masons

Forty-Two 32nd Degree Masons From Covington, Confer the Master's Degree

Saturday night was a red letter day (or night) in the history of Walton Lodge No. 719, F. and A. M., when 42 32nd degree Masons of Covington and vicinity very graciously came here to confer the Master's degree on Daniel W. Bedinger.

The delegation arrived here about 6 o'clock with all necessary paraphernalia to exemplify the work. They were taken immediately to the dining room of the Methodist church where the ladies of that church had prepared an excellent chicken dinner for the occasion. After supper by the guests and local brethren they went to the hall where a smoker was enjoyed previous to beginning the work. There were about eighty Master Masons present from numerous points of the Fifth District and a few from other states.

The work, as anticipated, was solemn and beautiful, all characters in costume, supposed to be worn in ancient Masonry, and to say that the members attending as spectators, enjoyed the occasion, is expressing the mildy.

Members of Walton Lodge feel under everlasting obligations to these high order Masons who made this meeting long to be remembered with high exemplification of the ancient craft Masonry.

After the work Brother John L. Vest, with the assistance of Brother R. D. Stamler, gave a stereopticon review of the history of Masonry, with a learned and edifying lecture by Brother Vest.

The following is a list of the members in attendance with probable misspelling of names, as the writing was not very legible in some instances:

Mrs. Mollie Brakefield Fatally Injured, Sunday

When Struck By Auto On North Main Street While Waiting to Go to Hospital

Willis Cleek, of Verona, Loses Control of Car Which Leaves Highway Striking Unfortunate Lady

Sunday afternoon, shortly after the noon hour, Mrs. Mollie Brakefield, 65, of Adairville, Ky., mother of Cameron Brakefield, assistant in Jones' drug store, was fatally injured when struck by an automobile driven by Willis Cleek of Verona.

It appears from the statement of Clinton Cleek, assistant postmaster, that he was driving north on Main street. Two other cars were driving in the same direction. R. C. Brakefield, who resides in Dixie View subdivision, was to take Mrs. Brakefield and Mrs. J. Walter Stephenson to the Good Samaritan Hospital, Cincinnati, O. to see his wife, Mrs. Lucille Brakefield, a patient in that institution. She with Mrs. Stephenson was standing on the lawn in front of the Brakefield residence. Mr. Brakefield had driven up in his car and had partially parked a short distance from where the ladies were standing. Clinton Cleek following the Brakefield car was followed by Willis Cleek. Another car was approaching, going south. Clinton Cleek stopped his car to avoid hitting the Brakefield car or pulling in front of the southbound car. As Willis Cleek was approaching this car he put on his brakes, and seeing he would hit the car ahead of him, steered his machine onto the roadside, struck a concrete walk, blew out a front and rear tire, losing control of his auto and it went bounding toward the spot where the two ladies were standing. Mrs. Stephenson stepped back but the Cleek car struck Mrs. Brakefield, knocking her down and rendering her unconscious. She was hastily taken to the Good Samaritan Hospital, Cincinnati, O., where it was found she

had sustained a fractured skull, jaw and right knee cap and a crushed chest, and died at that institution a few hours afterwards.

It was a most deplorable tragedy and young Willis Cleek deeply deplores the accident, but claims he could not avoid it as he lost control of the car he was driving after the tires blew out and deeply regrets the fatal accident.

Mr. Brakefield was prostrated with grief over the tragic death of his dear mother, and the citizens of Walton tender to him their heartfelt sympathy in his great bereavement.

Mrs. Brakefield's husband passed away several years ago. She is survived by her son and two daughters, Mrs. Ivan Field, Mt. Vernon, Ind. and Mrs. Irwin Wherry, Auburndale, Florida. Both ladies were here to attend the last sad rites.

The body was shipped to Adairville on the L. and N. train Tuesday night at 10:35, accompanied by her son-in-law, Rev. Irwin Wherry, Mr. Brakefield, his sisters, Mrs. Irwin Wherry and Mrs. Ivan Field, accompanied by Mrs. Carl Comer, drove through by automobile.

Funeral services were held at Adairville, Wednesday afternoon. Burial in local cemetery.

Funeral Directors Chambers & Grubbs had charge of the arrangements.

Gobel Stephenson of Florence, general manager of the Consolidated Telephone Co., was here on business Tuesday.

Mr. and Mrs. Jack Farris and children of Hamilton, Ohio, were week end visitors to his parents, Mr. and Mrs. J. A. Farris.

Fall Treatment For Worms Urged
Treating sheep for stomach worms in late October or November is advocated as a means of keeping worms from being carried over to reinfect pastures the following spring. Free form worms, ewes make better use of feed and reach lambing time in better condition than do infected sheep.

Bluestone, the combined bluestone and nicotine and sulfate treatment or tetrachloroethylene capsules are recommended by Richard C. Miller of the University of Kentucky College of Agriculture. So-called worm remedies administered in the feed or salt are not satisfactory. Farmers without experience in treating sheep for worms should get a copy of Kentucky Extension Circular No. 155 Revised, "Stomach Worms in Sheep" from your county agricultural agent, or a copy may be obtained from the Extension Division College of Agriculture, Lexington, Kentucky.

Poultry Pointers for October
(By J. E. Humphrey)
Those who usually realize the most money from their chickens have them in good laying condition by early October; then they can take advantage of the best market because egg prices are at the peak during the fall and early winter months.

It is now time to house your poultry. You certainly will have an opportunity to check them over as you handle them. If your pullets are not in good flesh and you have been feeding them fairly well in all probability they have intestinal worms. However, do not come to this conclusion until a post mortem is conducted on several of the most suspicious looking individuals. See Extension Circular No. 265 for details on conducting post mortems and the treatment for worms. Under existing conditions there are a few suggestions worthy of consideration.

1. Cull the flock closely. Feed is

rather high in price so keeping only the good producers cannot be over-emphasized. All slow-growing pullets with dull, sunken eyes, narrow heads and slim bodies should be culled immediately and sold on the market or canned for future use in the home. The old hens should also be culled. Read again Extension Circular No. 167 on "When and How to Cull." If you have misplaced your copy your County Agent will be glad to give you another one.

2. After the flock has been properly culled and treated for worms if found wormy, put the pullets in a clean house. If it is an old house it should be thoroughly cleaned, sprayed and repaired. It is not uncommon for birds and later, roost to develop among pullets soon after they have been put into the house. However, this is not likely to occur if the house is dry, well ventilated without drafts and possessing sufficient room. See Circular 107 on "House Farm Poultry."

3. When you have only the best pullets left and they are comfortably housed, be sure they are properly fed. This is quite an item at present feed prices. For pullets both grain and mash should be hopped fed at all times. A good grain mixture of one bushel of shelled yellow corn and one bushel of wheat, or either one by itself may be fed with good results. If only wheat is fed some sort of green feed will be available and ground yellow corn used in the mash, since wheat is low in vitamin A. Green alfalfa or lettuce hay fed in racks will be satisfactory.

4. Many people wonder if they should turn the pullets out after they are housed. If only market eggs are wanted and the ground around the house is contaminated keep them up. If you have a range keep them with green feed available just as soon as the birds are accustomed to the house, let them out during clear days throughout the winter. Since 90% of the eggs are usually laid by noon, let the hens out about 1:00 p. m. on days when the ground is damp or muddy.

5. Keep a record and know what your flock is doing; don't guess at it. Your County Agent will be glad to furnish you a Poultry Calendar on which to keep this record. The

record should start October 1st. Those who have been keeping a record this year should finish it and complete the closing inventory with the September report. Figure up the summary sheet in the back of your book and turn it in with the September report. If you don't know how to figure it your County Agent will assist you.

6. A number of people have asked about the salary method of identifying poultry to aid in lowering the number of poultry thefts. This plan is being used in Kentucky this year and is sponsored by the Kentucky Poultry Improvement Association. More than 700 members have been signed up so far. A number of states have used this plan and found it quite successful not only in apprehending poultry thieves but in reducing thefts.

FORD MILL PIKE GRANT COUNTY

(Crowded out last week)

Mr. and Mrs. Everett Stone were calling in Jonesville, Monday. Marion Robinson and Mr. and Mrs. Floyd Adams and son were calling in Dry Ridge, Tuesday afternoon.

Everett Stone called on Mr. and Mrs. Al Crouch, Wednesday. Marion and Otto Robinson were calling on friends near Mt. Zion Wednesday and Thursday.

Miss Emma Stone called on Mrs. Mary Jump, Thursday. Ed Funk of Georgetown, called on friends near Hanks, Thursday and Friday.

Mr. and Mrs. Everett Stone called on friends on Warsaw Pike, on Thursday.

We are glad to report Floyd Adams' hand some better at this time. Clyde Jump purchased a 33 acre farm from Ed Funk, Friday for \$450.

Mr. and Mrs. Jake Hedger had for Thursday guests, Clyde Jump, Bob Crouch, Jim Robinson, Lawrence and Orville Crouch.

Mr. and Mrs. Will Lafferty and daughter Elfreda were shopping in Covington, Saturday.

Ed Funk of Georgetown, was the Saturday guest of Mr. and Mrs. Everett Stone.

Clarence McCune and son Chester called on relatives in this vicinity, Sunday.

Marion Washburn called on Mrs. Mary Ann Jump and family, Sunday.

The death angel visited the home of Dick Hutton again and took from his home his beloved wife, Mrs. Julia (Fisher) Hutton. They had only been married a very few years until she was called from him. She was sick only a few minutes. She died with heart failure. Her death was a shock to everyone. She passed away Friday night at 11 o'clock. She was united in marriage to Mr. Fisher some years ago. He passed away and then she married Mr. Hutton. She leaves a kind, devoted husband and four sons by her other marriages and a host of other relatives and friends. Her funeral took place at Wesley Chapel, Monday at 11 o'clock, and buried in the cemetery on Warsaw Pike. Her husband, relatives and friends have the sympathy of this vicinity. Harry Bokler had charge of the funeral.

Mr. and Mrs. Everett Stone called near Eagle Hill, Sunday.

The scribe wishes to correct a mistake which she made last week. She stated that Bro. Littrell would be pastor at Wesley Chapel for the coming year, but it was learned later that Bro. Lewis will be with us for another year. So let everyone remember that Bro. Lewis will be the preacher instead of Bro. Littrell.

Mr. and Mrs. Millie Jump were the Sunday afternoon guests of Mrs. Mary Ann Jump and family.

This community was saddened by the death of Tom O'Donald of Warsaw Pike.

Mike—The trouble with you is that you don't have any social tact. Matt—That's just where you're wrong. When it comes to social tact I have it.

Mike—Say, I'll bet you don't know what social tact means. Matt—Sure I do. Social tact is making your company feel at home although you wish they were.—Pathfinder

Statue of Evangeline
Herbert's statue of Evangeline weeping for her lost country stands in Grand Pre Memorial park, 60 miles from Digby, N. S. Nearby is an old chapel housing Acadian relics. Evangeline's well, used by Massachusetts troops during the tragic expulsion of 1755, is still intact.

Words Few but Effective
Washington seldom spoke in public and when he did, it was but a few pointed remarks. In the convention that framed the Constitution, he made but two speeches of a few words each, yet the constitution acknowledged the master spirit and it is said that for the 30 words of his first speech the Constitution would have been rejected by the people.

KENTON CO. HOME-MAKERS ASSN. MEETS

By Zelma E. Byerly

The Sixth annual meeting of the Kenton County Homemakers Association was held at Independence October 21st, with 200 members in attendance. The officers, Mrs. Bluch Rich, Jr., president; Mrs. C. D. Vaughn, vice president; and Mrs. H. R. Hutchins, secretary-treasurer were re-elected for the year.

"A New Way of Living" was the program theme of the day. The reports showed that the new knowledge gained through the year's work has been applied to a new way of living which makes for more leisure, better living and greater enrichment of life.

The morning session was given over to various reports, project achievements for the year were told in a clever original "An Interesting Interlude," given by Mrs. Lewis Gabriel, Mrs. James Keeney, Mrs. Leslie Riley and Mrs. Denver Blinder. Mrs. C. D. Vaughn chairman of the membership committee gave a very interesting report on "Membership and County Wide Activities." The P. Mitchell Homemakers' club, a newly organized group was welcomed as a member of the organization.

Reports given by the clubs showed many achievements in the science of homemaking and were given by the following districts: Staffordsburg Mrs. Leslie Riley; Ryland, Mrs. W. A. Damon; Piner, Mrs. Lewis M. Gabriel; Nicholson-Atwood, Mrs. Walter Moffat; Winston Hill, Mrs. Elmer Brant; Oak Ridge, Mrs. Daniel; Oak Island, Mrs. J. Beck; Independence, Mrs. Mary Armstrong; Forest Hills, Mrs. George Koster; Elmore-Erlanger, Mrs. Howard McKee; Crescent Springs, Mrs. J. E. Beers.

Progress of home demonstration work in Kenton County was discussed by Miss Zelma E. Byerly, home demonstration agent. Miss Lullie Logan, Assistant State Director of Home Demonstration Agency, University of Kentucky, told of the growth and development of the club in the state.

Afternoon session was opened with community singing directed by Mrs. John Murchinson and Mrs. Ray Overand. The Third Triennial Conference of the Country Women of the World which was held at Washington recently was reported upon by Mrs. Ray Eubank, there were 30 delegates to this meeting from the county.

Mrs. Sarah B. Holmes, Assistant Dean of Women of the University of Kentucky had as her subject "A New Way of Living." She emphasized the fact that women have changed their way of living due to the new knowledge which has been made available to them, and as a result have more leisure, better living and greater happiness than in times past.

The meeting closed with a one-act play, "Thin Ice," which was given by the Forest Hills club.

Ky. Wesleyan College

Students from Kenton county attending Kentucky Wesleyan College this fall are Miss Elizabeth Brown daughter of Mr. and Mrs. Winston Brown, Crittenden; Miss Lucille Parr, daughter of Mr. and Mrs. Benjamin E. Parr, Erlanger; Miss Mary Ellen Richmond, daughter of Mr. and Mrs. Edward Richmond, Ludlow; and Mr. Lloyd Baldwin, son of Mr. and Mrs. Frank T. Baldwin Covington.

Misses Brown and Richmond are active members of the Sophomore class. Miss Brown is a member of the Y. W. C. A. and Alpha Psi Omega, National Dramatic Fraternity. Miss Richmond is a member of the Y. W. C. A., the Girls' Glee Club, and the Woman's Council.

Miss Parr is a popular member of the Freshman class.

Mr. Baldwin is a Junior at Wesleyan. He is also director of Alpha Psi Omega, National Dramatic Fraternity, and Secretary-Treasurer of The Keys Fraternity. Mr. Baldwin was Vice-president of the Sophomore class. He has also received departmental honors in Biology.

Fifty-four Kentucky counties and five other states are represented in the Wesleyan student body. The College, entering upon its seventeenth year, is looking forward to one of the most successful years in its history.

Borrowers Had to Steal
According to Plutarch, in the city of Chosrus, borrowers had to go through a formal ceremony of pretending to steal the amount borrowed with the idea that, in case the borrower did not pay back on the due date, or refused to acknowledge the debt, the lender could have him arrested for theft.

New Chevrolet On Display Nov. 7

See New Cars With Improvements at Vest Chevrolet Garage

Chevrolet dealer employs throughout the United States will celebrate the public announcement of Chevrolet's new 1937 models with several thousand "Chevrolet Breakfasts" held simultaneously from coast to coast on the morning of November 7th, when the new cars make their formal bow. W. E. Holler, vice president and general sales manager of Chevrolet, announced the breakfast program this week, explaining that it celebrated this year's all-time sales record and the outlook for new records in 1937.

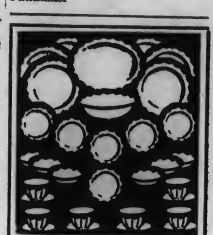

More than 50,000 employees will sit down to the breakfast, Mr. Holler said. Immediately following the event, showrooms will be thrown open for the first public inspection of the new models, which are being kept a closely-guarded secret up to the announcement date.

"In spite of the fact the new cars have not yet been shown, thousands of the new Chevrolet have been ordered for immediate delivery," said Mr. Holler. "It is doubtful if any industrial organization ever received a more eloquent endorsement than that which thousands of men and women have given Chevrolet this year, by placing their orders for the new models before they were introduced—in fact, before anything at all was known of them except that they were Chevrolet."

"The engineering department and the manufacturing department have given the public an outstanding product, and it is gratifying to know that their efforts are fully appreciated—that Chevrolet cars and trucks and the institution behind them, enjoy such a reputation that America will unhesitatingly purchase thousands of these products before anyone outside the factory knows definitely what they will be like."

LANDING BOONE COUNTY

Mrs. Margaret Feldhaus of Cincinnati, was the pleasant guest of Mrs. Harry Jones, on Sunday of last week.

Rev. R. A. Johnson of Covington, was a supper guest in the home of Mr. and Mrs. Everett Jones last Wednesday evening.

Hamilton's male teachers attended the October meeting of the Buffalo Club in Covington, last Wednesday night. Lady teachers, have you never thought of retaliating with a Deer Club?

Mrs. Harry Huff and daughter Wilma called on her mother, Mrs. Alta Hamilton, Wednesday.

Congratulations are being extended to Mr. and Mrs. Amos Jones (colored) nee Ruby Taylor, upon the arrival of a baby daughter.

Hamilton P. T. A. met at the school building on Thursday evening with the new officers in charge. Plans are being developed for a program to be presented by the ladies of the organization in the near future.

Mr. and Mrs. Ivan Watson are the proud parents of an eight pound baby boy, born October 22nd.

No so long ago we read an article in a farm magazine that was so good that we couldn't forget it, and with a word of appreciation to the lady in Tennessee who wrote it, I am passing it on. It is titled "Country Things I Love Most."

"Country" lanes—narrow, grass-grown with scattered thickets and neglected weeds opening their purple flowers, wild carrots spreading their lace, and wild grapes climbing and spreading their leaves and fruit.

The old orchard with its gnarled trees, its lichen-covered rail fence and the little log cabin where my mother lived as a bride.

The old water mill, where we have had our corn ground ever since I can remember.

The footlog over Clark's Creek where I love to sit and watch the reflection of the trees and clouds in the water.

Old-fashioned mothers, with smooth hair and gingham aprons. And, best of all, I love to think that there are still country places where—

The old, plain men have rosy faces and the young, fair maidens quiet eyes.

Mr. and Mrs. Asbury spent the week with relatives in Mt. Olivet, Ky.

Robert Ewalt of Cincinnati, spent Sunday with his family here.

Miss Lucille Williamson of near Grant, was the week end guest of Miss Jean Ogden.

Members of the Aylor family about here attended the family reunion at the home of Miss Cora Aylor of Walton, Sunday.

Mrs. Edith Jones and son Lloyd were shopping in the city, Saturday.

Mr. and Mrs. John Aylor entertained the Barcoas and Fiddis Sunday School classes with a social on Saturday night.

Don't forget to watch out for spoons next Saturday night; the "white owl" will be sitting in the kitchen—the squinch bugs will be out, jack-o-lanterns'll be setting just around the corner—and down the road in the wend moonlight will go your front gate, walking on legs.

Mr. and Mrs. R. N. Moore of Dayton, Ky, spent Sunday with Mrs. Moore's father, Wm. Huff and sons.

Mr. Tom Hamilton and daughter Clara Mae called on Mrs. Bertha Huff, Saturday afternoon.

Rev. R. A. Johnson was the Sunday dinner guest of Mr. and Mrs. Tom Huff.

The Light Meter shows why she frowns

IF THE mere thought of darning socks gives you a headache, cheer up! For "measured light" is coming to your rescue.

Scientists say it's perfectly natural that mending should be more tiring than reading a well-printed book. There's so little contrast between the sock and the darn that your eyes may demand many times more light.

And that's where the new scientific Light Meter comes in. It not only measures light as accurately as a thermometer measures temperature, its dial tells instantly how much light your eyes need for any given seeing task.

We'll be glad to measure your lighting with one of these new Light Meters without any cost or obligation on your part. Phone for an appointment today!

History of Yarmouth

The history of Yarmouth, southwest gateway to Nova Scotia, is wound up in the history of the sea and it goes back far beyond the days when white men began settling in the new world in the Sixteenth century, for at Yarmouth is a Run stone which scholars say was inscribed in 1001 by Lief Erikson. The inscription on this stone is interpreted as reading "Liet to his Raissa" (this monument).

Lief Erikson, having dedicated it to his father, Erik the Red, ruler of Greenland.

Criticism Not Feared
"A truly great man," said Hi Ho, the sage of Chinatown, "does not fear criticism. It is the mistaken critic who will be hurt by his own recollections."

Derivation of "Iris" Cited
The word "iris," the flower, the same word also standing for part of the human eye, together with the word "iridescent," came from the Greek goddess Iris, whose outer form was the rainbow.

The Colon Archipelago
Colon is the official Spanish name for the archipelago popularly known as the Galapagos Islands. Colon is Spanish for Columbus and this is the name used by the Republic of Ecuador, to which the islands belong.

Two kinds of Rabbits

There are two kinds of true rabbits—first, what is known as dumb rabbits, and second, furious or violent rabbits. In the first the dog acts as if it has something caught in its throat. Generally behaves abnormally. Lower jaw becomes rigid. Naturally dog with this type of rabbit does little biting. Condition of his lower jaw prevents it. In violent rabbits the symptoms are much the same as in the dumb variety, with the evidences of uneasiness or nervousness, and drooling. In violent rabbits the dog always snaps at things or people. That is the outstanding difference between the two types.

Fight Against Farm Thievery

Starts In Boone and Surrounding Counties

Vaughn Spencer

Mr. Vaughn Spencer, editor of the Kentucky Farmers Home Journal is making fine progress in his "Stop the Farm Thief" Campaign. Sixteen counties have already been organized and thousands of farmers are now members of the organization, with several hundred more being added each week.

Mr. J. O. Matlock, the State Campaign Manager, in this fight against farm thievery, has a crew of men with Mr. C. G. Purdon in charge now working in Boone and surrounding Counties. These men are calling on the farmers as rapidly as possible to inform them of the operation of the Protective Service furnished by the Kentucky Farmers Home Journal.

The Kentucky Farmers Home Journal is offering a reward of \$25 for the arrest and conviction of any thief who steals from one of the organization's members. Several thieves are already serving terms for thefts committed and rewards have been paid and several more will be paid in the next few days for the arrest and conviction of these thieves.

Mr. Purdon states that several hundred members were obtained in Grant County and he expects to get the same fine cooperation from farmers in Boone and surrounding Counties. He says they have had fine cooperation from all County Officials in each county organized. The offering of a reward will get the evidence, whereby the officers can arrest and convict the thief more often than where a reward is not offered. It will be time well spent for any farmer to investigate the Protective Service offered by the Kentucky Farmers Home Journal.

Indian Language a Puzzle

During the World war the Germans often tapped the underground telephone systems of the allies and secured valuable information, says a writer in Collier's Weekly. But one day new and strange sounds began to come over the wires, baffling the code experts and linguists up to the time of the Armistice. It was the language of a group of American Indians who had been taught to send and receive the messages.

Farm Notes

R. R. FORKNER, County Agent
Lime Pulveriser Changes Route
Limestone pulverizing in Boone County was at a standstill last week caused by broken parts on the crusher, according to David Colville, Assistant County Agent. The pulveriser was repaired and began crushing for Bert Loomis near Burlington, Oct. 19th. Since the work has been momentarily halted it will be necessary to crush for those farmers whose names were first turned into this office.

From Mr. Loomis' farm the pulveriser will go to the farms of Henry Stiekman, Chester Aylor, Ralph Jones, C. H. Tanner, Robert Chambers, Grant Maddox, Clyde Anderson, Henry Anderson and W. H. Rucker.

For the benefit of those farmers who do not have the rock available, Ralph Barlow of Union, has agreed to furnish crushed limestone delivered at or near Burlington for \$2.00 per ton. Since there are only two more weeks to apply limestone and receive soil building payments under the ACP, all farmers who are interested are urged to get in touch with Mr. Barlow or call the County Agents' office.

Farmers Expected to Lose
\$15,000 of ACP Allowance
Boone County farmers cooperating in the Agricultural Conservation Program will lose or fail to earn from present estimates approximately \$15,000 of the approximately \$45,000 Soil Building Allowance. The Soil Building Allowance is \$1.00 per acre for each acre of Soil Conserving Crops on crop land on the farm in 1934. This may be earned by carrying out certain other soil building or soil improving practices. These practices must be carried out by October 31st.

The following are some good practices that may still be carried out and are practical for many Boone County farmers and will help them earn their full Soil Building Allowance.

SEEDING—Blue Grass—12 to 28 lbs. per acre, \$2.00 per acre. Blue Grass Mixture, at least 40% blue grass, (not less than 5 lbs), \$1.50 per acre. Red top or at least 40% red top mixture, 75 per acre. Velvet at least 15 lbs. per acre, \$1 per acre.
FERTILIZING—Lime, 1/2 ton to 2 tons per acre, \$1.40 per ton, (may be applied on any land on the farm).
Phosphate, 80 to 320 lbs. of 20% super phosphate, 62 1/2 cents per hundred, (must be used on any grass or legume crop).

Practically all of Boone County land needs both lime and phosphate for growing of better grass and legume crops. Farmers who still have sufficient Soil Building Allowance should top dress either their young or old seedlings of grass and legumes with from 80 to 320 lbs. of phosphate per acre.

Phosphate unlike certain other fertilizers does little leaching from the soil and like lime will last for several years.

Farmers who have not used their Soil Building Allowance should make every effort to do so if at all practical.

WARSAW, KY., 41 YEARS AGO

FROM THE INDEPENDENT PUBLISHED BY D. B. WALLACE

Warsaw, Ky., May 11, 1895
At a special term of County Court on Saturday, Judge Brown appointed B. S. Landrum trustee of the town of Warsaw, to fill the vacancy caused by the death of Dr. B. B. Allen.

John Barksdollar, a prosperous farmer of Ohio county, Ind., was here the latter part of this week delivering his tobacco which he sold to Green & Co. He is an old schoolmate of H. P. Clore and were reared together as boys in Ohio county, and it had been forty years since these gentlemen had met.

The cut worms are reported all over this section in unprecedented numbers, devouring all vegetation. All corn that has been planted will have to be replanted. Several large fields are cleaned out completely by the pests.

There is a strong movement among the citizens of Gallatin county to have free telegraph roads, and in all probability the question will be submitted to the people for a vote on the question.

Thos. R. Roswell, an account of whose death was printed in the Independent, May 27th, was born on May 3, 1817, a native of Scott county. His father was a native of Albemarle county, Va., and first settled in Scott county, Ky., but moved

to Fayette county in 1824. He moved to Gallatin county where he died in 1851. Thomas Roswell settled in Gallatin county at the age of 19. He was married to Amelia Kirby of Bourbon county (the daughter of Enoch and Deliah Kirby. Two sons and two daughters were born to them, only one survives. He died on April 24th, 1895, age 78 years.

DEATH CLAIMS

MRS. VARNON

Widow Of Late Dr. Charley T. Varnon Dies of Heart Attack

We copy the following article from the Carlisle (Ky.) Mercury relative to the death of Mrs. Margaret Layson Varnon, a former well known lady of near Walton, who died at Millersburg, Ky., October 9th, of whose death was imparted to us by her sister, Miss Martha Layson, last week, too late for publication:

Mrs. Margaret Layson Varnon, daughter of the late Zed Layson and Sallie Varnon Layson of this vicinity, passed away at the age of 81 at her home in Millersburg, at five o'clock Friday afternoon, after a long illness due to heart trouble. Mrs. Varnon, the widow of the late Charles T. Varnon of Madison Mo., spent many years in that city where her husband was a practicing physician. A few years after his death at that place she came to Walton, Ky., to make her home with her brother, the late Edward Layson and her sisters, Misses Mattie and Gene Layson, with whom she came to Millersburg to reside a few months ago.

Here amid the scenes of her childhood she spent the remaining days of her life happy in the companionship of her friends of other days her life a benediction to all with whom she came in contact.

Surviving her are two sisters Misses Mattie and Gene Layson and the following nieces and nephews: Mrs. Calvin Packler, Danville, Mrs. Newton McConathy, Nicholasville, Mrs. Lillian Caldwell, Paris, Mrs. Joe Penn Redmon, Mrs. David E. Clarke, C. B. Layson, Dr. Z. C. Layson, Maysville, and Scott Weathers Fayette county.

The funeral conducted by Rev. John W. Groves, was held at the Millersburg Presbyterian Church Sunday afternoon at 2:30, followed by interment in the family lot in Millersburg cemetery. The following acted as casket bearers: O. R. Rankin, C. B. Layson, J. P. Redmon, Winn Rutchcraft, D. E. Clarke and Scott Weathers.

Mr. and Mrs. J. S. Reffett of Napoleon, two of that section's excellent citizens, were in Walton Saturday, shopping.

PRESIDENT AND MANAGER

V. P. Kerns of South Main Street at a recent meeting of the board of directors of the Tri-State Loose Leaf Warehouse, Second and Russell streets, Covington, Ky., was elected president and manager of that concern. Through the efficient management of this warehouse, Mr. Kerns has increased the sales from 2,000,000 pounds annually to 4,000,000 pounds. He says his house has the reputation of giving all tobacco growers a square deal and continue to do so.

"THE IDLERS" MUSICAL COMEDY

Convinced by last year's success of "The Chocolate Box Revue" in every way, the Parent-Teachers Association has again booked Mr. Barrow and he is bringing to Walton on Thursday and Friday nights November 19 and 20, his newest musical comedy success "The Idlers." It is a little bit different from last year's show, but it is a merry and fast romp of comedy; music surrounded with beautiful ensembles carrying a cast of forty or fifty with fifteen principals. Mr. Barrow will arrive on November 5th, when rehearsals will begin.

JAMES D. PETTIT

James D. Pettit, age 65 years, passed away Friday night at his home near Limaburg, Ky., after a two months illness. He is survived by his widow, Mrs. Hattie Pettit, one son Shelby Pettit, two full brothers, Z. T. Pettit and Sam Pettit and one half brother Frank Pettit, besides a host of other relatives and friends. Services were conducted at the Hopeful Lutheran church Monday afternoon at 2 o'clock by the Rev. Harold Beemon, interment following in the nearby cemetery.

The pall bearers were R. Cook, George Hill, Alonzo Beemon, Fred Hill, Owen Bethel and Bernard Pope.

Funeral Director Philip Tallferro had charge of the funeral arrangements.

CARD OF THANKS

In our sorrow, we cannot forget the kindness bestowed upon us by our relatives, friends and neighbors in the loss of our beloved wife and mother.

STELLA MAE WOLFE
We do thank Rev. DeMoise for the beautiful services and words of consolation.

We thank all who took part in the music in rendering some of the palbearers, all donors of beautiful floral offerings, and Allison & Rose for their kind and efficient management of the funeral.

The bereaved husband, John Earl Wolfe, and Children.

Bluford Aylor of Carthage, Ill. who has been here visiting his sister Miss Cora Aylor of South Main street, returned home Monday. He is engaged in the automobile business at Carthage. He left Boone county when in his teens, going west to North Dakota, where he prospered, and in later years moved to his present location. Miss Aylor accompanied him home for an extended visit.

Mr. and Mrs. V. P. Kerns returned home last Thursday after a pleasant visit to their daughter Mrs. Franklin Rouse and husband at Logan, West Virginia.

Mr. and Mrs. Henderson G. Hightower and George C. Stahel of Covington, were callers on Mr. and Mrs. Bruce Wallace, Saturday night, for a short while.

A Beauty Spot In Walton

While we are a little belated, we wish to call attention to a beauty spot in Walton. In order to enjoy this spectacle it is necessary to divert from South Main at Needmore street, and ere you meet the overhead bridge, if you have an eye for beauty, look to your right and you will see it. Here you will observe a long expanse of beautiful green verdure, bedecked here and there with gorgeous flowers and evergreens of different varieties, making an entrancing view of color and cunning placement of artistically arranged shrubbery. In the center is a square latticed structure about twelve feet high with vines clinging to it and surrounded by flowers. Looking further north is a strip of land bedecked with shrubbery, roses and flowers. All is neatly kept and continuously cared for, costing hundreds of dollars annually. All this beauty is surrounded by a neat wire fence about three feet high.

This property is owned and cared for by Mrs. D. B. Wallace, a lover of shrubbery, flowers and roses, who not only tends this herself but has from one to two men employed the greater part of the year. Notwithstanding Jack Frost has been unheeded in and some of the beauty obliterated, it still will remain beautiful to the artistic eye.

The following of our citizens attended the Fifth District meeting of the Federation of Women's clubs at Newport, Ky., Thursday morning: Mrs. B. W. Franks, Mrs. John I. Vest, Mrs. J. C. Belinger, Mrs. D. Hess Vest, Mrs. J. R. Conrad, Mrs. Sam B. Sleet and Miss Anna Cleek. And in the afternoon attended a meeting of the Homemakers' Association at Burlington, together with Mrs. W. W. Rouse, Mrs. D. L. Lusby, Mrs. Fannie Brittenheim, Mrs. E. E. Fry, Mrs. P. I. Conrad, Mrs. W. L. Sturgeon, Miss Emma Miller, Mrs. Edward Jones and Mrs. Raymond Jones.

Mr. and Mrs. W. W. Rouse left Monday evening for Lexington, to attend the annual meeting of the Grand Chapter Eastern Star in session there this week, as delegates from Walton Chapter No. 161, O. E. S.

G. B. Powers, C. B. Taylor, son John and Billy Williams, made their farewell tour of Kentucky Sunday after traveling over 1,500 miles without machine trouble. Their destination was Manchester, after making several stops en route, at Sand Gap near Berea, to investigate some coal land in which the gentlemen are interested, and again at Big Hill one of the natural wonders of Kentucky. These weekly trips have been both pleasant and profitable, giving an added appreciation of our State.

Several from Walton, attended the funeral of Raymond Caldwell at Gardnersville, Ky., Monday. He was a brother-in-law of Mrs. Sampson Tomlin of Walton Star Route.

Mr. and Mrs. Lige Baker of Hamilton, Ohio, were the guests of her parents, Mr. and Mrs. E. B. Roberts in South Walton, over the week end. They moved their household goods being ready to go to housekeeping.

IDA SMITH FARM BRINGS \$75.00 ACRE

Sold by the Guy Downs Realty Co., Shelbyville, Ky., Oct. 24

The 236 acres of land in three tracts, the property of Mrs. Ida Smith near Florence, was sold at public auction by the Guy Downs Realty Co., of Shelbyville, Ky., Saturday, October 24th, and brought \$75.00 per acre. Dr. Thos. B. Casleman of Florence, bought two tracts and S. W. Smith one tract. All other articles offered brought big prices, in fact it was a most successful sale in every detail. The owner was well satisfied with the sale. The sum total of the sale was \$16,100.

Mrs. D. B. Wallace delightfully entertained at her hospitable home last Thursday evening in honor of her guest, Mrs. Forest Taylor, of Buffalo, N. Y., with a six o'clock course dinner. Among those who enjoyed the occasion were: Mr. and Mrs. Wallace K. Grubbs and daughter Jeanette, Mrs. Allen Conner, Mr. and Mrs. Bruce Wallace, and Mrs. J. R. Wallace, and the hostess and the honor guest.

Miss Martha Layson, former resident of Walton, who now resides at Millersburg, Ky., was here last Thursday visiting her many friends. Later she left for Williamstown, to visit friends. Her many friends here were pleased to meet her.

Mrs. Forest Taylor of Buffalo, N. Y., arrived here Thursday on a visit to Mrs. D. B. Wallace. Her husband was detained on business in the east but anticipates arriving here later. Mrs. Taylor was formerly Miss Jeanette Seacher of Elliston, Ky.

Mr. and Mrs. A. C. Marsh entertained Sunday, Mr. and Mrs. Tom Watson and daughter Miss Lucille, Mr. and Mrs. Jas. Watson, Mr. and Mrs. George Fisher, Mr. and Mrs. P. E. Fisher, Mr. and Mrs. Ed Mann, Mr. and Mrs. Lloyd Marsh and sons Jimmie and Clayton, Mrs. Gertrude Flynn and children Carl Richard and Lovena Faye, Miss Beulah Pickett, Misses Norval and Laura Marsh, Ralph, Henry and Harold Lee Marsh and the host and hostess. Everyone greatly enjoyed the day and hoped to be together again soon.

Mrs. Forest Taylor of Buffalo, N. Y., who had been the guest of Mrs. D. B. Wallace, left Sunday morning for Owenston, Ky., to visit her uncle James Wilson and family.

"My Man Godfrey"

with ALICE BRADY—GAIL PATRICK—JEAN DIXON

The greatest picture they ever played in—The greatest picture they ever made! You dare not miss this sippy, zesty romance of Bill as a lover in livery and Carole as a daring debutante who takes a shine to him—only to get polished off! It's sizzling, sparkling entertainment, and the first great triumph of the new screen season! She begged him to marry her—but he ducked her under a shower and left her cold! She wanted his kisses—but he gave her ham and eggs! The gay, rollicking escapade of a butler and a blonde, with Carole and Bill at their merriest, maddest best. The picture you've dreamed about. Here it is!

CANNERY CLOSED ON WEDNESDAY

Had a Good Supply of Fine Tomatoes But the Output Was Smaller

The Walton Canning Company finished its season's work last Wednesday. R. B. St. Clair, the owner stated that the tomato crop this year was one of the finest he had ever handled, but the output was not as large as last year. Considering the extreme drought this summer, the crop was an exceptionally large one. While the number of people employed this season was not as large as heretofore, yet it furnished employment for a great many needy ones.

In Critical Condition

Ell Conrad, former resident of Walton, and the father of John Conrad of Edwards avenue, underwent a major surgical operation at Good Samaritan Hospital, Cincinnati, O., Oct. 29th. ELECTRIC RATES REDUCED

In Walton, Boone and Kenton Counties

Customers of Community Public Service Company in Walton and in Boone and Kenton Counties will realize substantial savings in their electric bills, as the result of a reduction in residential and commercial lighting rates, which is being put into effect with the November 30th billing.

The reduction is the second voluntary cut that has been made by the company in the areas affected in the past two years, a previous reduction having been made in February 1935. The two reductions combined have cut the cost of electricity to the average residential customer approximately one-third, with commercial customers realizing savings that average somewhat larger in most cases. The present reduction averages 16% to residential users and 24% to commercial lighting customers, according to Russell Hall, district manager of the company.

The new residential rate for Walton is: 15 KWH at 10c, next 20 KWH at 8c, next 60 KWH at 4c, next 75 KWH at 3c and additional at 2½c, with a minimum of \$1.00 per month. The new commercial lighting rate for Walton is: 15 KWH at 10c, next 85 KWH at 8c, next 150 KWH at 5c and all additional at 3c with a minimum of \$1.00 per month.

The residential and commercial lighting rates in Boone and Kenton Counties, outside of the town of Walton, including customers on rural lines, is the same as the above except that the minimum is \$1.50. All customers who have been using less than the amount allowed under the minimum will save an even 50c. Other customers will save varying amounts depending upon their consumption. Below are a few examples:

Monthly Use	Old Rate	New Rate	Savings
20 KWH	\$2.04	\$1.80	24c
30 KWH	2.94	2.40	54c
40 KWH	3.66	3.00	66c
50 KWH	4.26	3.40	86c
75 KWH	5.24	4.40	84c
100 KWH	6.11	5.40	71c

Commercial Lighting Service	Old Rate	New Rate	Savings
20 KWH	\$2.10	\$1.70	40c
35 KWH	3.60	2.70	90c
50 KWH	5.10	3.60	150c
75 KWH	7.60	5.10	250c
100 KWH	10.10	6.60	350c
200 KWH	19.10	11.60	750c

"The reduction in electric rates in Walton, Boone County and Kenton County area is in line with my company's policy of providing electricity at the lowest cost commensurate with good service," stated Mr. Hall in announcing the new schedule. "This latest revision in rates is a continuation of a downward trend that had made electricity one of the smallest items in the average family's budget."

She is survived by her husband, Smith Collins, son Robert of Elliston; four daughters, Mrs. Charles Salmon and Mrs. Howard Beach of Grant county, Mrs. Jess Thornton of Walton, and Mrs. Ernest Smith of Louisville; also one sister Mrs. Nancy Carroll of Kenton county. Her funeral was held from her late home on Wednesday morning at 10:30.

P.-T. A. Masquerade Another Joyous Time

Hallow'en Night Greatly Enjoyed By the Old and Young. More Especially the Young

Saturday night the Parent-Teachers Association sponsored another one of their enjoyable Hallow'en parties at the Walton High School Auditorium. Hundreds of the youngsters and some of the middle aged and older ones came masked in all manner of characters and costumes. Some fancy, some comic, some with rented costumes and others homemade. The characters were very amusing and all who attended were well paid for their attendance.

Mrs. R. P. Hughes, a lady who has some of the most original ideas as to a unique and comical costume carried off the prize as the most unique and original costume. This is only one of many prizes she has carried off. Her representation was of an old Negro fisherman and carried some live catfish and a live turtle on a string. She received rounds of applause and no one was aware of the identity of the person until time for unmasking.

Miss Sue Evelyn Mann won the prize for the finest costume. Perry Hughes and Mrs. Ronald Bosong the latter from Hyde Park, Cincinnati, Ohio, carried off the prize as the most representative characters as coal miners, with lamps on their cap visors. Miss Evelyn Coffman in the children's class, took the first prize as a fancy-costumed Spanish lady. Nordine Mills in the children's class, received the prize for the best and prettiest costume, and in the same class Master Jack Hughes for the tuckiest costume; Marvin Hudson, Jr. for the best competitive costume. In the most popular ladies contest Miss Blanche Brittenheim received the largest number of votes. Jack Roberts as a young and vivacious girl occasioned considerable amusement.

The ladies of the Parent-Teachers Association were highly pleased with the success and amusement of the entire evening, coupled with a nice financial return of \$45.00 for their fund. These ladies are to be commended for their zeal in contributing to the amusement of our citizens and working so faithfully without any compensation for the accommodation of the school children in furnishing them with good wholesome food at a meagre price.

The ladies of the P.-T. A. wish to thank very kindly all who so liberally patronized their entertainments, both Thursday and Saturday nights.

OUR PRESIDENT

Pres. Roosevelt In Clean Sweep Latest Report That He Carried 46 States

Republicans Dumbfounded Over Result of Tuesday's Election

From latest reports from the entire United States it is apparent that President Roosevelt has carried 46 states, some of the rock-ribbed Republican states going Democratic. Vermont and Maine are the only states in which Landon has a majority. The great popularity of President Roosevelt is evidenced by his stupendous victory in Tuesday's election.

Governor Landon, Republican candidate for president, wired President Roosevelt his congratulations, and the president very graciously replied.

The vote in Boone county in complete returns is as follows: For President—Roosevelt, 2,761; Landon, 1,036; Lemke, 79. For U. S. Senator—M. M. Logan, 2,792; Lucas, 1,023. For Congress—Spence, 2,714; Bramlage, 1,017; Madden, 640.

A more detailed report of the vote will appear in next week's Advertiser.

GOLDEN WEDDING ANNIVERSARY

Of Mr. and Mrs. W. M. Whitson

Celebrated Sunday At Home

of Mr. and Mrs. D. H. Vest

Sunday, Mr. and Mrs. William M. Whitson of Verona, celebrated their golden wedding anniversary at the home of their daughter, Mrs. D. H. Vest of North Main street, Walton. They were married November 2, 1886. On that date Mr. Whitson took for his bride Miss Mattie May Hudson, and they have ever since enjoyed a most delightful and peaceful life together, loved and respected by all who know them. To this union was born five children as follows: Mrs. D. H. Vest of Walton; Mrs. J. L. Hamilton and Mrs. Harry Chapman of Verona; James Harvey and William J. Whitson of Detroit, Mich. Mrs. Vest had prepared a most delightful dinner for the occasion and a most pleasant day was spent together.

Mr. and Mrs. Whitson received many warm congratulations from their relatives and friends, who wished them many more years of wedded bliss.

A more extensive write-up is in the Verona news, written by our efficient correspondent.

MARRIAGE JUST REVEALED

Miss Marie Cook Married to

Manrice Clinkscales of Williams-

town October 30th

It was just learned Wednesday morning that Miss Marie Cook, the pretty young daughter of Mr. and Mrs. Leonard Cook of Walton was united in marriage on Friday, Oct. 30th, at Shelbyville, Ky., to Maurice Clinkscales, manager of a chain store at Williamstown, Ky. Immediately after the ceremony the young couple left for Mammoth Cave on their honeymoon. They returned here Sunday to receive parental blessings.

Lowest-Pitched Sound

The lowest-pitched sound used in music is the lowest note on a few of the greater organs, which vibrates at 16 times a second. Machinery often makes sounds still lower in pitch than this, but these are usually felt as vibrations rather than heard as sounds. The highest pitched note of the most complete type of piano vibrates 5,120 times a second; higher by two times or about 200 vibrations per second than the shrillest note of the piccolo.

Work On Verona- Glencoe Highway

Spreading a Coat of Gravel On Road For Winter Use

In a talk with O. M. Rogers recently, as to what disposition the State Highway Department had in view in regard to the Verona-Glencoe Highway which has been graded for the past two years, he said the department intended to place a cover of gravel on the road until such times as the state had sufficient funds to make it a high type highway. He said so many projects had been commenced and promised by the previous highway department that nearly all available funds had been expended and it would be necessary for this fund to receive before work on the above mentioned highway can be taken care of.

There is a question as to how serviceable the gravel covering will function during the inclement weather of the fall and winter. However, Mr. Rogers says, this is the best that can be offered in this case.

BASKET BALL AT INDEPENDENCE

Friday Night Between Independ-

High School and Piner

The opening basketball game of the season will be played Friday night, at the Independence gym. R. C. Hinsdale, coach of the Independence team, is making strenuous efforts to have his team in shape to wrestle with the Piner High school Lions. Coach Hinsdale lost three regulars last year, but thinks that his squad will give a good account of itself.

It is anticipated a very large number will be present to see this opening encounter.

It is said the Piner Lions are ready to go and expect to register in first place in this contest, according to rumor.

Rev. and Mrs. R. F. DeMoisey returned home Saturday after a pleasant visit with their son John R. DeMoisey and wife at Harrodsburg Ky.

Eloise Mayhugh of Walton, Ky.

Graduate Walton-Verona High School, Gains Honors

"Results of the freshman classification tests given to all students entering the University for the first time were released by Professor Asher of the department of psychology yesterday (October 22nd). The scores of these tests are used to classify entering freshmen in their English, mathematics and psychology classes and they become a permanent part of each student's record at the University.

An honor roll of the highest 10 per cent of each of the above tests have been compiled.

Scoring in the highest 10 per cent of all three tests were the following students: Jack Ballard, Frankfort; Derrill G. Barker, Hazard; Allen John Fulmer, Ft. Thomas; Kenneth Frederick Haynes, Louisville; J. Parker LaBach, Lexington; Preston L. Mansfield, Murfreesboro; Eloise Mayhugh, Walton; Nancy Noble, Hendersonville; P. Ekel Penn, Mayville; Virginia Petue Stanford; Harold E. Pope, Victory; John Albert Rassenfoss, Mt. Sterling; John Van Cleave Russell, Hopkinsville; David Sager, Lexington; Eldridge Snapp, Lexington; Alvin B. Stacey, London; Ben F. Van Sant, St. Victory; Harris C. Walker, Mayesville; Robert J. Williams, Crofton; and William C. Wilson, Lexington."

The above article was taken from the University of Kentucky school paper "The Kentucky Kernel."

Eloise graduated from the Walton-Verona High School in June. During her stay at Walton-Verona High School, she achieved many honors of which the school is justly proud. During her senior year she ranked first in Northern Kentucky in scholarship and geometry in the achievement tournaments sponsored by the University of Kentucky. She was editor of the "X-Ray," the school paper and "The Dawn," the school annual.

Dieppe, Tenth Century Town
Dieppe is situated on the seaside cliffs of Normandy. The town, in a break in the white chalk cliffs, was founded in the Tenth century by the Norse and got its name from the depth of its harbor. Then at the end of the Seventeenth century it was burned and later rebuilt.

Sultana Explosion
At 11 A. M. on April 27, 1865, at a point on the Mississippi river about eight miles above Memphis, Tenn., the northern-bound Sultana began to rock violently. She was topheavy with her load of 2,142 Union soldiers returning from Confederate captivity, for her hold was empty. The rocking motion agitated the water in the boilers, already enduring pressure far beyond their stated strength. In mid-stream, the strained metal gave way with a roar heard for miles and the United States had the biggest ship disaster in its history. The loss of life—1,179—was greater than in the sinking of the Titanic or the Lusitania.

Boone County Farm Notes

H. R. FORKNER, County Agent

Saturday Closing Date

For 1936 ACP Benefit

Farmers had until Saturday, Oct. 31st, to get credit for any 1936 income to present information. Many farmers have already carried out sufficient soil building practices to earn their full allowance. There are probably \$15,000 in allowance that have not been earned to date.

Farmers last week who had not earned their allowance were busy spreading limestone at rates of from one-half to two tons per acre, applying from 80 to 120 pounds of phosphate either with fall seedings of grass or grass and winter cover crops or top dressing old seedings of grass and legume crops on crop land, sowing grass mixture of at least 40% Red Top or Blue grass or a number of other practices for which credit is given.

Fall seedings of grasses, use of limestone and phosphate are the most practical practices for most farmers that can be carried out. Limestone will give results from five to fifteen years or longer and phosphate should give increased yields from three to six years or longer.

100% Attendance
The Homemakers' Leaders Training Class held their second meeting on the fall project "The Well Groomed Woman" with 100% attendance of clubs and members on Oct. 22nd in Burlington. Mrs. Alan Gaines of the Walton Club was elected County Project Leader.

Good physical care of the body was stressed by Miss Iris P. Davenport, specialist in clothing, University of Kentucky, in her discussion of "What Makes a Woman Well Groomed." She demonstrated inexpensive tooth powders that could be made at home.

Remodeling of hats has become very popular in Boone according to the reports given by leaders. They said that more than twenty hat blocks had been purchased in Boone several members in one club usually buy a block together and use it in the community.

Miss Mary Hood Gillespie, Home Demonstration Agent, reports that the Millinery lesson has been liked all over the county.

4-H Club Tobacco Show
The 1936-37 Northern Kentucky 4-H Club tobacco show and sale will be held at the Kenton Loose Leaf Tobacco Warehouse in Covington on Saturday, January 9th, according to an announcement received at the County Agent's office.

The Kenton Loose Leaf Warehouse has been an outstanding cooperator in 4-H Club work. This year they are greatly increasing the premium awards and are planning for the best show and sale ever held in Northern Kentucky. Boone county club members have produced some good quality tobacco this year that is expected to bring a good price.

Forty Attend Tobacco Meeting
Forty Boone County tobacco growers attended the Tobacco Field Meeting and tour held Wednesday, Oct. 21st.

Demonstrations visited and discussed at the field meetings mark an important step of advancement in the curing of Burley tobacco. The demonstrations visited were conducted by S. B. Scott & Sons of Grant, Emmitt Elliott and William Hill of near Idlewild.

Both Elliott and Hill have used recommended curing practices the past six years and advised growers that these practices had increased the value of their crops in the barn from five to twelve cents per pound. Russell Hunt, tobacco field agent from the College of Food and Agriculture, is giving greater attention to the curing of their crops. The new smoker types of "Burley tobacco" are more difficult to cure without injuring color.

Color is such an important point in selling price and is an ever changing factor often changing several times during the curing season. The College is doing considerable research work on the curing of tobacco. The use of artificial curing is dangerous if not properly carried out and may do considerable injury to the crop in the barn. Artificial curing properly carried out and combined with good judgement represents the greatest advancement in production of smoker type Burley

tobacco in recent years.

Boone County growers as a whole have their own ideas and take great pride in their personal ability to produce better quality of tobacco. This interest combined with demonstration and close study will lay a sound foundation for future progress County ACP Committee.

Make Adjustments
The Boone County Agricultural Conservation Association Committee are meeting in Burlington this week to make a 11% adjustment in Boone County's soil depleting crop bases as required by the State Office.

Boone County's 1936 soil depleting crops based on 1935 work sheets include 27,451.4 acres. Of this amount 3053.2 acres represent tobacco and 24,398.2 acres general soil depleting crops. The county average in 1935 soil depleting acres (corn, tobacco, wheat, etc.) for each 100 acres of land.

A survey made by the Boone County Agricultural Planning Committee last spring showed the yield of important soil depleting crops in this county had shown a marked decrease during the past fifty years.

The average acreage of these crops have been reduced in proportion to the decreased yield. The change in attention from soil depleting practices under the ACP to soil building practices if carried out over a period of years is made to make a marked change in Boone County's agriculture. The entire system of farming will tend to change toward greater production of livestock and tobacco, and smaller production of corn, oats and similar crops.

Score 4-H Clubs
Nine community 4-H Clubs will be scored for achievement and work during the next three weeks according to David Colville, Assistant County Agent. The winners will receive beautiful paintings awarded by the Banks of Boone County.

Each Club will be scored according to the State 4-H Club score card approved by the Boone County 4-H Council. Project completion counts 1000 points per member for the club with a 2000 point bonus for each club scoring 80% or more completion. Record books filled out and turned in are required for completion. It is hoped that all 4-H members will have their project records

turned in to the County Office before the National 4-H Club Achievement day Saturday, November 7th. The National 4-H program will be broadcast over leading radio stations from 11:30 to 12:30.

Pearls for Decorations
Since the dawn of history, pearls have been a source of joy and wonder to the human race, writes LaPlace Eastwick in Nature Magazine. They were found in the tombs of the Egyptians; in the burial places of some Indian tribes of the Southeast, and in the mounds of the mound builders. A thousand years ago they were used for decorative purposes in Japan, and large abalone pearls are found in images of Buddha made in the year 300.

ANNOUNCING REDUCED ELECTRIC RATES

For Our Customers in Walton and in Boone and Kenton Counties

We are pleased to announce a new schedule of reduced electric rates, which offers substantial savings to our residential and commercial lighting customers in Walton and in Boone and Kenton Counties. The current reduction represents the second voluntary cut in rates we have made here in the last two years.

NEW SCHEDULES OF RATES FOR WALTON Residential Service

First 15 KWH at	10c
Next 25 KWH at	6c
Next 60 KWH at	4c
Next 75 KWH at	3c
Additional KWH at	2 1/2c

Minimum Billing \$1.00 Per Month

10% added if not paid on or before 10th of month following date of period billed.

Commercial Lighting Service

First 15 KWH at	10c
Next 85 KWH at	8c
Next 150 KWH at	5c
Additional KWH at	3c

Minimum Billing \$1.00 Per Month

10% added if not paid on or before 10th of month following date of period billed.

NEW SCHEDULE OF RATES FOR BOONE & KENTON COUNTIES

Residential and commercial lighting rates in Boone and Kenton Counties, outside of Walton, including customers on rural lines, will be the same as above except minimum will be \$1.50.

Savings under the new rate are realized from a 50c reduction in the monthly minimum billing and reductions in energy charges on the various steps of the rate. Here are a few examples, showing the charges under the old and the new rate schedules for various consumptions:

RESIDENTIAL SERVICE

KWH Used Per Month	Cost Under Old Rate	Cost Under New Rate	Monthly Saving	Annual Saving
20	\$2.04	\$1.80	\$.24	\$2.88
30	2.94	2.40	.54	6.48
40	3.66	3.00	.66	7.92
50	4.26	3.60	.66	10.32
75	5.24	4.40	.84	10.08
100	6.11	5.40	.71	8.52

COMMERCIAL LIGHTING SERVICE

KWH Used Per Month	Cost Under Old Rate	Cost Under New Rate	Monthly Saving	Annual Saving
25	\$2.60	\$2.10	\$.50	\$6.00
50	5.10	3.60	1.50	18.00
75	7.60	5.10	2.50	30.00
100	10.10	6.60	3.50	42.00
150	14.60	9.10	5.50	66.00

The new rates are subject to approval of the Public Service Commission. The savings will show on the electric service statements mailed out on November 30th.

The current reduction, together with the reduction made in February, 1935, has cut the cost of residential electricity to the average customer approximately one-third, while savings to commercial lighting customers have been even larger in most cases. The current reduction averages 16% to domestic customers and 24% to commercial lighting customers. It is the continuation of a downward trend that has made electric service one of the smallest items on the average household budget.

OLD AGE PENSION INFORMATION

Who Is Entitled to Aid By the U. S. Government

Official information about the much-discussed old-age benefit section of the Social Security Act is now available for employers, employees and others interested, in the form of a pamphlet according to a statement from the Regional Office of the Social Security Board, located at 501 Bulkeley Building, Cleveland, Ohio.

The two-page pamphlet is addressed to employees of industrial and business establishments, factories, shops, mines, mills, stores, offices and other places of business and discusses in some detail the benefits and taxes under the Act.

The text of the leaflet follows: "The United States Government will, in the near future, set up a Social Security Account for you, if you are eligible. To understand your obligations, rights and benefits you should read the following general explanation.

"There is now a law in this country which will give about 26 million working people something to live on when they are old and have stopped working. This law, which gives other benefits, too, was passed last year by Congress and is called the Social Security Act.

"Under this law the United States Government will send checks every month to retired workers, both men and women, after they have passed their 65th birthday and have met a few simple requirements of the law. What This Means to You—

"This means that if you work in some factory, shop, mine, mill, store office or almost any other kind of business or industry, you will be earning benefits that will come to you later on. From the time you are 65 years old, or more, and stop working, you will get a Government check every month of your life, if you have worked some time (one day or more) in each of any 5 years after 1936, and have earned during

that time a total of \$2,000 or more. "The checks will come to you at a right. You will get them regardless of the amount of property or income you may have. They are what the law calls "Old-Age Benefits" under the Social Security Act. If you prefer to keep on working after you are 65, the monthly checks from the Government will begin coming to you whenever you decide to retire.

The Amount of Your Checks— "How much you will get when you are 65 years old will depend entirely on how much you earn in wages from your industrial or business employment between January 1, 1937 and your 65th birthday. A man or woman who gets good wages and has a steady job most of his or her life can get as much as \$85 a month for life after age 65. The least you can get in monthly benefits, if you come under the law at all, is \$10 a month.

If You Are Now Young— "Suppose you are making \$25 a week and are young enough now to go on working for 40 years. If you make an average of \$25 a week for 52 weeks in each year, your check when you are 65 years old will be \$33 a month for the rest of your life. If you make \$50 a week you will get \$45 a month for the rest of your life after age 65.

If You Are Now Middle-Aged— "But suppose you are about 55 years old now and have 10 years to work before you are 65. Suppose you make only \$15 a week on the average. When you stop work at age 65 you will get a check for \$19 each month for the rest of your life. If you make \$25 a week for 10 years you will get a little over \$23 a month from the Government as long as you live after your 65th birthday.

If You Should Die Before Age 65— "If you should die before you begin to get your monthly checks, your family will get a payment in cash, amounting to 3 1/2 cents on every dollar of wages you have earned after 1936. If, for example, you should die at age 64, and if you had earned \$25 a week for 10 years before that time, your family would receive \$455. On the other hand, if you have not worked enough to get the regular monthly checks by the time you are 65, you will get a lump sum, or if you should die before your family or estate would get a lump sum. The amount of this too, will be 3 1/2 cents on every dollar of wages you earn after 1936.

Taxes— "The same law that provides these old-age benefits for you and other workers, sets up certain new taxes to be paid to the United States Government. These taxes are collected by the Bureau of Internal Revenue of the U. S. Treasury Department and inquiries concerning them should be addressed to that bureau. The law also creates an "Old-Age Reserve Account" in the United States Treasury, and Congress is authorized to put into this reserve account each year enough money to provide for the monthly payments you and other workers are to receive when you are 65.

Your Part of the Tax— "The taxes called for in this law will be paid both by you and your employer and by you. For the next 3 years you will pay maybe 15 cents a week, maybe 25 cents a week, maybe 30 cents or more, according to what you earn. That is to say, during the next 3 years, beginning January 1, 1937, you will pay 1 cent for every dollar you earn, and at the same time your employer will pay 1 cent

for every dollar you earn, up to \$3,000 a year. Twenty-six million other workers and their employers will be paying at the same time.

At the first 3 years, that is to say, beginning in 1940, you will pay, and your employer will pay, 1 1/2 cents for each dollar you earn, up to \$3,000 a year. This will be the tax for 3 years, and then, beginning in 1943, you will pay 2 cents, and so on. Your employer, for every dollar you earn for the next 3 years, after that, you and your employer will each pay half a cent more for 3 years, and finally, beginning in 1949, twelve years from now, you and your employer will each pay 3 cents on each dollar you earn, up to \$3,000 a year. That is the most you will ever pay.

Your Employer's Part of the Tax— "The Government will collect both of these taxes from your employer. Your part of the tax will be taken out of your pay. The Government will collect from your employer an equal amount out of his own funds. "This will go on just the same if you go to work for another employer, so long as you work in a factory, shop, mill, mine, office store or other such place of business. Wages earned in employment as farm workers, domestic workers in private homes, Government workers, and on a few other kinds of jobs are not subject to this tax.)

Old-Age Reserve Account— "Meanwhile, the Old-Age Reserve fund in the United States Treasury is drawing interest, and the Government guarantees it will never earn less than 3 percent. This means that 3 cents will be added to every dollar in the fund each year. "Maybe your employer has an old-age pension plan for his employees. If so, the Government's old-age benefit plan will not have to interfere with that. The employer can fit his plan into the Government plan.

"What you get from the Government plan will always be more than you have paid in taxes and usually more than you can get for yourself by putting away the same amount of money each week in some other way.

NOTE— "Wages and "employment" whenever used in foregoing mean wages and employment as defined in the Social Security Act."

Additional information can be secured from the Regional Office of the Social Security Board, 501 Bulkeley Building, Cleveland, Ohio.

A number of relatives gathered at the beautiful country home of Mr. and Mrs. Walter Johnson on Sunday, Oct. 25th to celebrate the 56th birthday anniversary of his mother Mrs. John Johnson.

W. M. Whitson and Miss Mattie Hudson were united in marriage in the Hudson home at New Liberty, Nov. 2, 1886, by Rev. Cochran, and on last Saturday evening they celebrated their golden anniversary in the same home, where they were married and where they have lived nearly all of their married life, with a family dinner at which all their children were present except James Harvey Whitson who is employed in Detroit. Those present were Mrs. Hope Vest, Mrs. Rose Hamilton, Mrs. Alice Chapman and William Whitson, Jr.

On Sunday Mr. and Mrs. Whitson were honor guests at a dinner given by their children at the home of Mr. and Mrs. D. H. Vest at Walton.

Those present were Mr. and Mrs. J. L. Hamilton and son Fred and Robert, Mr. and Mrs. Harry Chapman and children Rose Ellen and James, Mr. and Mrs. William Whitson, Jr., Mr. and Mrs. Dale Hudson who were celebrating their 45th wedding anniversary, O. K. Whitson, Mrs. Clanche Coffman and daughter Evelyn, Mr. and Mrs. D. H. Vest and daughter Helen. Mr. and Mrs. Whitson were presented a handsome set of silver by their children and it was indeed a happy occasion being marred only by the absence of their oldest son Harvey and Mrs. Whitson's sister Miss Irene Hudson who has always made her home with Mr. and Mrs. Whitson.

Light Bearers S. S. Class Meets

The Light Bearers Sunday School class of the Verona Baptist church met at the home of Mrs. Lucy Brewster and Mrs. Grace Brewster, Oct. 28th for an all day meeting.

A good social time was spent together during the morning and at the noon hour everyone was invited to the dining room where the long table was laden with attractive and appetizing looking dishes of delicious food. In the afternoon the members of the class started piecing a quilt which will be used for a good cause. An interesting program was rendered by the following: Song "Shine," by the class; devotional Mrs. Shirley Roberts and Mrs. Relda

Powers; a collection of poems by Mrs. Alice Chapman, Mrs. Gertrude Brewster, Mrs. Patty Waller, Mrs. Nell Hunt, Mrs. Emma McQuinn; an interesting talk on Peace, Mrs. Scott Hamilton. The class is invited to the home of Mrs. W. D. Smith for an all day meeting in November. Mrs. Scott Hamilton was elected as teacher for the class.

SPARTA

GALLATIN COUNTY

Halloween was well carried out by our boys and girls Friday night. The streets thronged with grotesque figures of witches carrying broomsticks and blocks, while the small boys were busy exchanging gates porch swings, etc.

Wm. Riley who attends college at U. of K. spent Sunday with home folks.

Mrs. Susie Garvey who has been the guest of her cousin Mrs. Lizzie Moore of Owen county the past two weeks returned home Friday.

Bryant Alphin of Warsaw, was a visitor here this week on business as field manager of the Old Age Pension Act.

Raymond Brook spent the week end at Bowling Green. Mr. Brook is our efficient professor of Sparta High and Graded school, succeeding Prof. Traylor, who resigned to go to New Liberty.

The 1st old age pension to be received in Sparta was that of Mrs. Jeff Pirk who received \$7.

Friends of Mrs. Nora Whitlock were sorry to learn of her serious illness in St. Joseph Hospital, Louisville.

Mr. and Mrs. Wm. Harris and son Ira Richard of Warsaw, were the guests of Mr. and Mrs. Gabe Crume on Sunday.

NAPOLÉON

GALLATIN COUNTY

The Halloween party given by the Napoleon school, Friday night, was quite a success. The masked costumes were of various designs.

Mrs. Nellie B. Wallace and Miss Mary Rider were the winners of 1st and 2nd prizes for the most comical costume—Bobby Pease won 1st prize in routing a potato across the hall.

\$11.85 was made from the sale of sandwiches, coffee popcorn and candy. Everyone had a most enjoyable time.

The B. Y. P. U. of Ten Mile held its first party of the season at the Napoleon lodge of I. O. O. F. on Saturday night, Nov. 7th. The regular business meeting of Ten Mile will be held at 7 o'clock and then the young people will go to the hall to have their entertainment and all the young members of Ten Mile church are asked to come out, take part and make the B. Y. P. U. of Ten Mile the best in the Association.

Mr. and Mrs. Alva Kendall had for their guests Sunday, Mr. and Mrs. Elmer Davis and sons Wm. and Jay. Grandville Kendall returned to her house at Warsaw, after visiting her son Charley Kendall and family.

PARADOX. One of the great comedians living today, comedian PHIL BAKER, can read a note of music. He just has a natural ear and once he has heard a melody, he can repeat it immediately on his guitar. He always has a guitar with him and is always playing it. He is a very talented musician and is a very popular performer.

COALS TO NEWCASTLE. When the American Olympic Boxing Team sailed for Berlin, Johnny Fair of Chicago, their coach, took care that a good supply of American beer went along. Rather than depend on the German product, Fair shipped enough vitamin D brew to keep his team strong and healthy through the whole trip.

WOOD. Pretty TRUDY WOOD, 23-year-old San Francisco miss, has already secured four marriage offers. Trudy asserts she would rather sing on the air, and this season she gets her chance. The big radio station, KABC, has picked her as its "Beauty Night" broadcast over the NBC Red-WEAF network at 9:30, Saturday time.

WILD ANIMAL SEEN
NEAR COVINGTON

Covington, Ky.,
Nov. 1, 1933.

Editor Walton Advertiser,

A wild animal raving wild for food has been seen running through Kenton county, devouring sheep chickens and small pigs. This ferocious beast was seen by Austin Scott late Saturday evening attacking a full grown sow with a litter of ten pigs. The animal killed two of the pigs and left the mother badly mangled. J. A. Smith, assistant superintendent of the Pullman Co. of Cincinnati, was fishing in Bullpen Creek on the L.L. Highway and got a good view of this animal. He stated that the beast resembled a marsh catamount, such as roams the wood marshes in Louisiana, where Mr. Smith formerly lived. J. K. Breaux, a friend of Mr. Smith, an arcanian and once a resident of the home of Evangeline, was present and stated while he was able to judge the characteristics in human beings admitted that he was at a loss to name this beastly intruder, and stated that he had never seen an animal the shape and size of this one in the Southern marsh land.

Only recently a large wild boar and a full grown ground hog were captured in the back yard of the Kroger Grocery store located on Madison avenue, Covington, devouring the cabbage leaves and other vegetables left in the garbage of the store. These animals were captured alive and are now on exhibition at the Cincinnati Zoo, where they can be seen housed in the winter quarters of this famous garden.

Pete Tabler, a resident of Western Hills, Covington, vouched to state that it was best for the parents of small children to keep them off the streets in Covington, and near vicinity for the time being, for fear the wild animals had escaped from the passing circus that had been shown in town recently and said if the animals did escape from these shows and by being fed regular by the circus attendants and by escaping were very hungry and most liable to attack young children in their ravous search for food.

Respectfully,
C. L. BAVIS.

Kentucky Red Cross
Ready For Drive

Practically Every County and City
Prepared For Rollcall

J. A. L. Saylor, national representative of the American Red Cross in Kentucky, who has been visiting the various chapters in the State, has announced that practically every chapter has set up its rollcall organization for the drive for the Kentucky goal, which has been set at 104,000 this year.

Each chapter has been given full information of what the Red Cross has done in Kentucky to relieve distress and suffering caused by floods, tornadoes and epidemics of disease, which the Red Cross has provided food, clothing, shelter and medicines, as well as doctors and nurses to those who needed that assistance.

With the American Red Cross paying back into Kentucky at least four dollars for each dollar it has received in rollcall memberships in the past four years, Red Cross officials at Washington, and leaders in Kentucky, have assured Mr. Saylor that the goal set is not unreasonable under the circumstances and that it will be reached by Thanksgiving.

The chapters are preparing for an early start Armistice Day and expect to keep up the campaigns in the various counties, towns and cities until every Kentuckian has had an opportunity to have a part in this great work.

Mr. Saylor said that in Mayville the Junior Woman's Club has taken over sponsorship of the Rollcall as one of its public service projects, and it is expected that organizations in other places which desire to be of public service will aid the regular Red Cross workers in the 1934 Rollcall.

Wonderful Remedy

For Relief of Excruciating Pains
Caused By Arthritis and
Rheumatism

Covington, Ky., Oct. 27, 1934

Editor Walton Advertiser,

Walton, Ky.

Dear Sir:

I am past 74 years old and have been afflicted with rheumatism and arthritis for thirty years or more and for ten years have been using from one to two canes and had to go up and down stairs on all four.

I have spent hundreds of dollars for doctors and medicine and gradually grew worse. I have been spending the winters in Florida for a number of years to get relief. I do feel better while I am there but just as soon as I get back home I get stiff again and as bad as ever on me.

I got back last spring I commenced to make my own medicine and in two weeks after I commenced using it I put my canes in the closet and they have been there ever since. I can now kick as high as my head run up and down stairs, step over step and feel fine as a fiddle and raven too.

I give the following well known people as reference as to my condition for years previous and my condition now. They do not know anything about the medicine as they have not had any experience with it and only have my word for it and know my past and present condition: Geo. W. Hill, grocer, Covington; Geo. C. Goode, grocer, Covington; Homer Northcutt, Post Master, Covington; T. M. Swindler, undertaker, Covington.

I want to get this remedy before the public as I am satisfied it would help many sufferers as it has helped me. I do not claim it to be a cure or cure-all; it is a remedy only and it may not act on every individual case alike. It can only find out by trying it. If any one wants to try this remedy I will furnish it for five dollars for two months treatment. Address G. W. Culbertson, Covington, Ky., R. 3, or come to my residence on Covington and Vassila Pike, Ryland, Ky., phone Independence 207. Would like to hear from all who use my remedy.

Copper Indestructible

Copper comes from a thousand sources and goes back into use in as many and varied ways. Though copper is virtually indestructible and seemingly could not flux to balance with consumption, this is not the case. Home savings eventually equals all consumption because it goes back into use, but there are losses from wear and through the dissipation of small objects. Supply is, of course, controlled by the obsolescence rate of copper products and this may as may not balance with consumption at any given moment

FASHION FEATURES FOR FALL SEASON

Three Period Influences are Predominant.

By CHERRIE NICHOLS

Three period influences are outstanding in the new fashions—Director, Edwardian and—Victorian and post-war. These are ushering in an era of elaboration unprecedented in recent years. These trends appear not only in actual silhouette treatments, but in elegance of fabric, especially stiff formal silks and gossamer metal weaves, also in the attention paid to trimming and detail.

Flared skirts are the dominant note of the Paris collections, although several novelties make a delicate point of a slim silhouette.

Princess lines are important, so are the high-waist empire effects. Waistlines are definitely high, often mounting under the bust. Intricate pleats appear with surprising frequency in both daytime and evening models. Tunic remains a favorite theme. Costume tunics are often fur-bordered.

The swallowtail note is very new and smart for jackets and in skirt treatments. It is often expressed in overdresses with contrasting foundations, and in redingote themes.

Cocktail dresses and dinner tailcoats are street length, often in silk. Metals are made interesting.

Suits in rich silks with fancy waistcoats interpret the very new "sacroyable" fashions.

RED CROSS AID TO

MORE THAN 500,000

DISASTER VICTIMS

Large Urban Areas Devastated
As Elements Hit 20 States
East of Mississippi

"The number of disaster victims assisted by the Red Cross during the fiscal year ended June 30 was more than four times the number aided in the previous twelve month period," Admiral Cary T. Grayson, chairman, said while commenting on highlights of the annual report just issued. "Over 13,000 families were given food, clothing, shelter and medical care, and thousands of homes were rebuilt or repaired by the Red Cross to enable them to carry on."

Pointing to the many disasters which occurred during the year, Admiral Grayson said: "The Red Cross sent hundreds of trained workers into 39 states to meet the many emergencies of disaster, which included earthquake, epidemic, explosion, fire, hurricane, ice lock, landslide, refugee relief, shipwreck, tornado and typhoon. The Red Cross took charge at the scenes of 105 domestic disasters of major severity."

The report emphasized the marked value of Government-Red Cross cooperation when disaster strikes, giving as example the flight of Army bombing planes which dropped Red Cross food to marooned refugees at Henoc, Pennsylvania, during the Spring floods. More than 10,000 persons were rescued from the second floors of houses in Wilkes-Barre, Pennsylvania, through Coast Guard-Red Cross cooperation at the height of these same floods.

The complete resources of Red Cross leadership, training and disaster experience were brought into play by the Spring floods and tornadoes which took so heavy a toll of life and property in eastern and southern states this year, the annual report reveals. The Red Cross aided 77,000 families in 14 flooded states of the Mississippi and 6,000 families in 6 tornado hit states south of the Mason-Dixon line in this operation.

Long before have as many metropolitan centers borne the brunt of attack by wind and water within a single year, challenging Red Cross preparedness and efficiency to deal with a variety of pressing human problems," Chairman Grayson said.

In its work of relief to disaster survivors the Red Cross expended in excess of \$5,200,000 for the year. The report points out that this figure does not include assistance given in 27 lesser disasters with a total of 2,000 persons aided, and adds that additional millions will be used to "clean up" Spring floods and tornadoes.

"Numerous local disaster situations occurring during the year were met by Red Cross chapter funds and manpower," Admiral Grayson said. "In each major relief operation undertaken by the great army of Red Cross volunteers aided trained workers with the task of rehabilitating those without resources who had suffered losses."

"The Red Cross disaster relief service is one of many Red Cross activities supported by the American people through membership in it, the time of Roll Call held each year from Armistice Day to Thanksgiving."

Red Cross Nurses Combat Disease on Wide Front

At the close of the fiscal year ended June 30, there were 673 Red Cross nurses bettering health conditions and caring for the sick in 604 communities. These Red Cross public health nurses cared for a total of 233,616 persons during the year and made more than a million visits to their behalf.

The annual report of the American Red Cross states further that these nurses cooperated with doctors in examining 171,067 school age school children, with 42,361 physical defects found and curative treatment arranged in 209,685 cases.

In 1979 Red Cross chapters 1,239 graduate nurses taught Red Cross home hygiene and care of the sick issuing certificates to \$3,126 per nursing completing the course. In addition 1,773 Red Cross nurses were called upon during the year for disaster and epidemic control work.

Membership in the American Red Cross last year showed an increase of 599,695. A total of 4,187,636 men and women enrolled, their dollars enabling the expanding Red Cross program of service to be carried forward at full strength. An increased membership is sought this year at Roll Call time, November 11 to 26, to meet the increasing demand upon the organization during 1937.

Dust or Bait Is

Army Worm Cure

Use Calcium Arsenate for Some Crops; Poison Bait for Others.

By C. H. Brannon, Extension Entomologist, North Carolina State College, WNU Service.

There are a number of methods of controlling the fall army worm. Dust calcium arsenate on crops not burned by this material; on other crops such as corn, beans, peas, apply lead arsenate dust to cover the plant thoroughly.

Small plants like alfalfa and crabgrass may be protected with applications of poisoned bait. This is especially recommended where the worms have almost destroyed the crop.

The bait can be made at home with one pound of paris-green to 50 pounds of wheat bran. Add two gallons of molasses that have been boiled with water, and mix thoroughly. Then pour in enough water to make the bait crumbly, but not soupy.

Fifty pounds of bait is enough for five acres. Apply it broadcast in the evenings, and do not allow poultry or animals access to treated fields. Smaller amounts of bait can be mixed in the same proportion.

If desired, two pounds of calcium arsenate may be substituted for the pound of paris green in the bait.

When the worms are migrating, they can be trapped by plowing a deep furrow at right angles to the direction of advance. Shallow holes dug at intervals in the furrow and filled with gas oil or kerosene will kill the worms.

Where it is not possible to plow a furrow, a thin line of coal tar placed a little distance ahead of the worms will keep them from invading neighboring fields.

Famous Americans Urged Planting of Red Clover

Just who brought the first red clover to the New World is still a question, but records in the United States Department of Agriculture report that many men famous in Colonial history urged its growth.

As early as 1633, Lord Baltimore asked his settlers to bring good stores of clover seed, but there is no record that they did. William Penn in 1682 tells of success in growing English grass (red clover) and that Robert Turner, a wealthy merchant planter sowed "great and small clover."

Benjamin Franklin, about 1750, wrote that he had "seeded 30 acres to red clover in Philadelphia on the 23rd of August." Nearly 25 years later his "Poor Richard's Almanac" told of "An experienced method of sowing clover on barley."

George Washington in 1786 wrote that seed of red clover was obtained "on easy terms" in Virginia. It was in these years—the red construction period after the Revolution—that extensive cultivation of clover began.

Water Hemlock Poison

Cleuts maculata, also known as water hemlock, is deadly poisonous to live stock. It has such a vile smell when the leaves or stems are broken that one would not expect live stock to eat any of it, but cattle will at times, and with fatal results, especially when the plant is full of milk. Children have been poisoned by eating the fleshy roots, which taste a bit like parsnips. This is a vile plant, which should be killed out or fenced in so thoroughly that no cattle can get to it. The flower heads look a little like wild carrot, but are larger. Most farmers know this plant in localities where it grows, but many do not know its poisonous qualities.—Rural New-Yorker.

For the Farmer

Skimping on protein for pigs wastes other feeds.

Noxious weeds can be most easily destroyed during weather that is hot and dry.

According to a recent study, farmers commit less crime than men of any other occupation.

Turnips are largely used in England and Canada for feeding of stock. They grow best in cool weather.

Bone chewing in cattle is a sign of phosphorus deficiency in the ration. Feeding bone meal corrects the condition.

Entomologists suggest that an entire community work together during the summer and winter to collect and destroy egg masses from which next year's brood of tent caterpillars will hatch.

On an average, dairymen raise or purchase enough heifer to replace from one-fourth to one-fifth of their heards each year.

When the pasture becomes drier and the feed scarcer, the cow does not get as much to eat and additional feeding of grain is needed.

Making soil tests in each field and then setting down the results of the tests on a map of the farm will give a permanent record for use in a soil improvement program.

PRISON SITES

To Be Inspected By Joint Committee of the Welfare Board and Public Works Administration

At a conference at Frankfort, last week, Commissioner Frederick A. Wallis, chairman of the Department of Welfare, appointed a committee on Locations and Sites for the construction of the proposed medium security institution for the custody and training of two thousand or more short termed prisoners.

There is to be built on the site selected a modern, fire-proof institution that will be a honor and credit to the state.

It is proposed to make this model training school in morals, elementary education and industrial training. This will not be in a true sense a punitive institution but one of correction and instruction in order that these young men may be returned to society as good citizens.

The building cost of this institution will be financed by the Federal Public Works Administration from grant funds allocated for project Ky-1269-D by the United States government under the jurisdiction of State Director George H. Sager, Jr. of Louisville, with funds appropriated by the General Assembly for the Department of Welfare of the State of Kentucky under Commissioner Frederick A. Wallis and by direction of Governor A. B. Chandler.

This committee proposes to make an immediate investigation of all sites that have been offered and called to its attention. This investigation will be headed by Commissioner Frederick A. Wallis, Chairman of the Department of Welfare; Dr. W. A. Frost, representing the Advisory Board of the Welfare Department; Dean James H. Graham University of Kentucky; Mr. H. L. Bonham, Assistant to the State Director, Public Works Administration; Dr. J. M. Waters, Director, Division of Corrections Welfare Department; Mr. B. T. Brewer, Secretary of the Welfare Commission; Mr. Donney Brown, Advisor to the Welfare Department; and Commissioner Elmer Bask, Inspector of Plants and Structures of the Department.

Karakul Sheep Attractive Animals with soft wool curled tightly to their sides. The lamb hides are so valuable that the Imperial family of Japan paid \$12,000 for one garment made from the fur, and prices of \$1,200 for the cheapest to \$8,000 and \$10,000 for the more expensive garments are common.

FEED FOR IDLE MARES

Mares not required to work should stay in good condition if plenty of good roughage and occasionally a little grain are given them, says an authority. Wheat bran is one of the best additions to make in a ration for a heavy mare in foal because it is laxative, not too heavy, and yet nutritious. For mares at work, a ration of two parts good oats, two parts corn, and one part wheat bran, fed with timothy hay or a mixture of timothy and a little clover or alfalfa, is satisfactory. For mares doing ordinary work, one to one and a quarter pounds grain to one to one and one-half pounds of hay should keep them in good condition.

The Light Meter Tells Why!

BOTH of these men have normal eyesight. The seeing task is the same. The difference is the amount of light falling upon the papers. The Light Meter shows that the man at the left is straining his eyes under less than five footcandles of light . . . while the man at the right enjoys comfortable reading with better than 30 footcandles.

Now, thanks to the world's largest research laboratories, the lighting in your home can be measured as accurately as a thermometer measures temperature. Held under your reading lamp, the scientific new Light Meter tells instantly how much light you are getting and how much light you need for seeing without eyestrain.

We'll be glad to make a Light Meter check-up of the lighting in your home without cost or obligation to you. Just phone for an appointment today.

Homemakers Annual
Meeting 165 Members Were Present

With 165 members and visitors in attendance, Mrs. Jake Cleek was re-elected president of the Boone County Homemakers' Association on October 22nd at the first annual meeting, held in the Court house at Burlington. Mrs. S. I. Hamilton was elected vice president; Mrs. John L. Vest, secretary and treasurer, and Mrs. Walter Brown, program conductor.

Speaking on "Homemaking in This Modern World," Miss Myrtle Weldon, State Leader of Home Demonstration Agents, stressed the importance of Homemaking as a job and profession which requires the knowledge of many skills.

Mrs. Jake Cleek presided at the meeting. The constitution was adopted after being read to the members by Mrs. John L. Vest, secretary.

Roll call of Clubs was answered by the president's report of organization work in her community. Each president reported that the membership had at least doubled since the time it was organized last winter.

Mrs. Howard Huey gave the report of the spring project "Background of the Livable Home." She told about the improved practices that had been started by the members since the project. A report of 4-H Club activities was given by Mrs. J. L. Jones, Jr. in which she discussed the project work of 134 Boone County 4-H Club members.

Miss Lulu Logan, Assistant State Leader of Home Demonstration Agents, greeted the group and told of her visits in the county in connection with the extension program.

Greetings from Franklin County were extended by Mrs. B. T. Bedford, Publicity Chairman of the Blue Grass District Federation of Homemakers' Clubs. Mrs. Garrett Jones of Franklin County was also a guest.

Following the recognition of visitors, badges were presented to the club from Petersburg for the largest percentage of members in attendance.

Miss Mary Hood Gillaspie, Boone County Home Demonstration Agent, gave a report of her activities in the county since last January. She reported that extension work for women was started in Boone County in January 1936 with an agent having her work divided between Boone and Gallatin Counties. Miss Gillaspie said that beginning July 1st her time has been devoted entirely to Boone.

During the nine months since clubs have been organized with a membership of 280. She reported that 10 women attended the district meeting, Federation of Kentucky Homemakers and that 12 members represented Boone at the Tiresnial Conference of the Associated Country Women of the World at Washington, D. C.

Following the reports, each club put on a stunt that lasted three minutes. Most of the members took part in the entertainment.

The meeting was concluded with a social hour. Vice president's of local clubs served as hostesses. They were Mrs. R. C. Garrison, Mrs. Geo. Kottmyer, Mrs. J. E. Roberts, Mrs. Ralph Cody, Mrs. Betty Kirtley, Mrs. Elizabeth Youell, Mrs. Shirley Rogers, Mrs. Edna Berkshire, Mrs. J. T. Roberts and Mrs. J. O. Bedinger.

YO HO HO! And a Barrel of Cheese!

The ten best books to take on a desert island are all cook-books, so far as these two young pirates are concerned.

Fourteen year old Chicago high school students, Blanche Buss and Shelia Engstrom, are getting into the atmosphere for the nationwide Robinson Crusoe Week contest sponsored by the National Cheese Institute. According to the rules of the contest, each entrant is supposed to consider herself a Miss Robinson Crusoe cast adrift on a desert island with a barrel of foodstuffs. From these she is to make up a full week's menu, using as many cheese dishes as possible. The contest closes November fourth. There is a top prize of \$200, a second prize of \$100, a third prize of \$50, and 450 other cash prizes. Winners are to be announced during Cheese Week, November 8 to 14.

Following is the list of foodstuffs from which a week's menu is to be evolved: American cheese, five pounds; Swiss cheese, five pounds; Cream cheese, three pounds; Pimento American cheese, two pounds; Potatoes, one peck; Rice, one pound; Macaroni, one pound; Corn Meal, one pound; Flour, five pounds; Onions, two pounds; Spinach, one can; Corn, one can; Green beans, one can; Dried lima beans, one pound; Cabbage, two heads; Baking powder, Salt and pepper; Spices; Milk, six cans; Eggs, two dozen; Salmon, one can; Shrimps, one can; Dried apricots, one pound; Figs, one package; Dates, one package.

NATIONAL ELECTION

One Of the Most Orderly Ever Held In Boone County

The national election last Tuesday, was one of the most quiet and orderly ever held in Boone county and everyone knew just what they were going to vote for—mostly Roosevelt. There was no drunkenness and no pulling and hauling of the voters and absolutely no friction whatever as far as we could learn. The Democratic ticket carried better than two for one in Boone county, the vote being 3761 for Roosevelt, Democrat, and 1036 for Landon, Republican. It is thought the continuous rain all day prevented quite a number from voting.

In taking the returns from one of the Cincinnati daily papers it made an error in the Mrs. Madden vote the NUSI party, in giving her vote at 640, when it should have been 60.

The following is the vote of Boone County by precincts:

Precinct	R/elet	L/A
Beaver	125	47
Bellevue	137	28
Bullittsville	106	37
Burlington No. 1	174	40
Burlington No. 2	151	60
Carlton	153	43
Constantine	121	135
Florence No. 1	240	74
Florence No. 2	245	89
Hamilton	107	44
Hebron	180	90
Petersburg No. 1	153	22
Petersburg No. 2	126	24
Union	199	58
Verona	109	45
Walton No. 1	219	52
Walton No. 2	219	52

FIFTH DISTRICT VOTE

The following is the vote by the counties in the Fifth District:

County	R/elet	L/A
Boone	2,761	1,036
Campbell	16,680	10,313
Carroll	2,718	1,094
Gallatin	1,437	399
Grant	2,559	1,252
Kenton	12,994	8,865
Oldham	2,009	755
Pendleton	2,443	1,839

GREATEST SNOW STORM IN YEARS

Visited This Section Wednesday. Many Trees Lose Limbs In An Eight Inch Snowfall

Wednesday morning an unusual heavy snowstorm visited this section, continuing the entire day, until about 5 o'clock. As the weather conditions were mild, the snow was soft and clinging and lodged on the limbs of trees in great weight, causing many limbs to break and in some instances breaking young trees near the ground. The storm was general through portions of Ohio Indiana and Kentucky, doing great damage.

It was said to be one of the heaviest snowstorms that ever visited these sections. The telephone and electric lines suffered mostly and crews of workmen worked all Wednesday night repairing the damage. A large transformer of the Community Public Service Company's lines was put out of commission and a new one had to be installed. The latter company had to put on an extra gang to assist in the repair work and part of the system of this company was out of commission all day Thursday, but was placed in service that evening. The telephone, telegraph and electric lines throughout the above named states experienced the same interruption to their lines.

OWENTON BOND ISSUE CARRIES

For a Municipally Owned Electric Power and Light Company

At the regular November election the question of voting a bonded indebtedness at Owenton, for a municipally owned electric light and power plant, carried by a vote of almost 2 to 1. The vote being 302 for and 143 against.

Owenton has been supplied with electric lights and power by the Community Public Service Company.

The first award of Turkey to customers of the Quality Sample Shoe Shop, was Mrs. Ruby Chislin, 121 E. 8th street, Covington. Those holding tickets still have an opportunity to secure one of these fine Thanksgiving birds. For full particulars see their ad in this issue of the Advertiser.

Grover Lilly of Ludlow, Ky., was a visitor here last week and part of this.

Mrs. Iva Funk and Mrs. Mamie Simpson were in Crittenden, Sunday afternoon, visiting Mrs. Nettie Valandingham, who is convalescing after an attack of pneumonia.

Jack Farris of Hamilton, O., spent Tuesday here visiting his parents Mr. and Mrs. J. A. Farris.

Mr. and Mrs. Virgil Whaley of Crittenden, entertained the following guests last Tuesday evening: Mr. and Mrs. Ira Menefee and children, Mr. and Mrs. Ora Nix and children, Mr. and Mrs. Lawrence Wilson and daughter of Walton, and Charles Tugate.

WILLIAMSTOWN'S NEW ELECTRIC PLANT

Bond Issue Carried 10 to 1 For a New Electric Plant

At the regular November election a bond issue for \$72,000 carried 10 to 1 in Williamstown, for a new electric light plant. The vote was 522 votes for the issue and 50 against. However, the city is not obligated to install an electric light system but may do so if the city council desires.

It is claimed the indebtedness will not be a debt against the city, but the bonds are to be sold to the company installing the plant and will bear 4% interest.

At the present time Williamstown is serviced with electricity by the Community Public Service Company which also supplies Walton with its electric current.

The court house bond issue carried by a vote of 2,430 to 1,171, more than the two-thirds vote required.

OLD AGE BENEFITS INFORMATION

Regarding Benefits and Provisions of Social Security Act

Cleveland, Ohio, Nov. 11.—In order to make clear just what information regarding the Old-Age Benefits provisions of the Social Security Act may be secured, Benedict Crow, all Director for Ohio, Kentucky and Michigan, gave out the following statement today:

"The Social Security Board," Mr. Crowell said, "is the sole source of information regarding the old-age benefits provisions of the Act, but questions regarding the collection of taxes, who is and who is not subject to tax, should be addressed to the nearest Collector of Internal Revenue. Questions regarding the census to be made of all employees and employers should be made of your local Postmaster. This census is being made by the Post Office Department, but beyond telling you that distribution of forms will commence on November 16 when 'Employer's Application for Identification Numbers' will be distributed, and that on November 16 employees, through their employers, will receive forms known as 'Application for Social Security Account Number,' there is no information the Postmaster can give you. If within a day or so after the 24th you have not received the form your local Postmaster will supply you upon application."

"These forms are very simple and can be filled in without trouble by anyone. They are returned without cost by dropping in a mail box, by handing to a letter carrier or by any other method by which a letter can be mailed. Just address an envelope to 'Postmaster, Local,' put the form in the envelope and mail it."

Nickname for General Scott "Fuss and Feathers," the army nickname for Gen. Winfield Scott, also was used politically when he ran for the Presidency in 1845, due to his punctiliousness as to dress.

A BOONE COUNTY CONFERENCE ORGANIZED

At a meeting some weeks ago in Burlington, the Boone County High School Athletic Conference was organized, with R. W. Beavary being elected as its president. The conference calls for two basketball games between each of the teams in the county. This should create greater interest in basketball in the county and this is expected to be a banner year for enthusiasm for the hoop game. Fans throughout the county are urged to attend these games and give their best support to the team of their choice.

INDEPENDENCE SCHOOL FIGHT

Robert E. Sharon, County Superintendent, Attacked By W. V. Mills, Monday, Shot Fired

Monday afternoon, Robert E. Sharon, Superintendent of Kenton County schools, was assaulted by WILLIAM VERNOR MILLS of Covington, his predecessor in that office.

It appears that Mills claimed that Sharon owed him some money as he (Mills) aided Sharon in securing his position as superintendent of Kenton county schools. The fight climaxed ill feeling between Sharon and Mills which occurred in 1924 when Sharon had Mills placed under a peace bond after an alleged attempt by Mills to wreck Sharon's automobile in Covington.

It seems Mills went to Sharon's office in Independence and demanded the money which he said Sharon owed him. This Sharon denied and ordered him from the office, and the fight started, Mills striking him and Sharon was out and bruised on the face and head. Robert K. Rudd assistant superintendent, of schools rushed to aid Sharon and a shot was fired, when a pistol said to belong to Mills was discharged in a scuffle for the weapon, but Rudd declared Mills fired the revolver at him Mills and Rudd were uninjured.

Afterwards Mills left for Covington where he was arrested by the police on warrants sworn out by Sharon and Rudd. In default of \$3,000 bond Mills was placed in Covington jail pending a preliminary hearing before Judge John B. Reed, Thursday in the Kenton Circuit Court.

Sharon's head injuries were treated by Dr. Frank Daugherty at Independence. Mills bore marks on his right knuckles.

AT THE UNIQUE THEATRE, WALTON

Beautiful Color Picture "Ramona"

Friday and Saturday, "Suzy"

Sunday and Monday, "36 Hours to Kill" Tuesday,

Wed. "First a Girl"

The Unique Theatre, Walton, has a most elaborate program of pictures to present to the public this week and next. Manager Joe E. Falls is giving the citizens of this community some of the best pictures that can be procured. On Friday and Saturday he presents that gorgeous picture "Ramona," a most popular production that is drawing chowdowed numbers in the larger cities. On Sunday and Monday nights, the romantic triumph "Suzy" with three great stars. On Tuesday the gripping drama, "36 Hours to Kill," and on Wednesday, Jessie Matthews, the dancing divinity in "First a Girl," (then a boy).

All of these pictures are now playing the larger metropolitan theatres throughout the U. S. See program in ad in this issue.

Child Swallows Open Safety Pin

The 11 Months Old Daughter of Mr. and Mrs. Wilbur Aylor In Serious Condition

Saturday morning, Beverly Jean the 11 months old daughter of Mr. and Mrs. Wilbur Aylor of Russell Ky., swallowed an open safety pin. The little one was immediately rushed to Ashland, Ky., and had an X-ray taken at the hospital, which showed the open pin in the throat. The hospital doctors would not attempt to take it out and the little sufferer was taken to the Children's Hospital, Cincinnati, where Dr. McMary, one of the staff, failed to extricate the pin. Sunday morning another X-ray was taken and it showed the pin had passed into the stomach and was lodged in the small intestine. Dr. McMary thought the danger was past and had the parents take her back home. Monday morning she was doing fine. Wilbur's mother, Mrs. E. L. Aylor of Walton, was visiting there at the time it happened, having only recently left here on a visit to her son and family.

Sugar Used as Medicine

Sugar at one time was rare and costly—and was used exclusively as a medicine when first brought to Europe from India, at about the time of the Crusades, 1098-1271). Sugar has various pharmaceutical uses today—briefly, to render oils miscible with water; to disguise the taste of medicine; to give preparations consistency.

ASK a person to take a handkerchief by opposite corners. That done, request your friend to tie a knot in the handkerchief without releasing either corner.

The longer he attempts to tie the knot the more hopeless his task will come. Eventually, he will challenge you to perform the trick, whereupon you oblige.

Stretch the handkerchief and lay it on a table. Fold one end of the handkerchief between the fingers of your left hand; then shift and gain the other end with the fingers of your right.

Unfold your arms, holding the ends of the handkerchief as you do so. A knot forms automatically in the center of the cloth.

Lower Gasoline Tax

Would Mean More Jobs

Approximately 1300 jobs could be provided for Kentucky workers now on relief rolls, if this state were to reduce its 5 cent gasoline sales tax to a more reasonable level, it was stated recently by Herbert L. Clay, Secretary of the Kentucky Petroleum Industries Committee.

"Retail census figures covering the year 1935 recently made available by the U. S. Department of Commerce show that the average annual business volume of service stations in this state was 21.3% below that of a group of states taxing gasoline at rates not exceeding 4 cents per gallon," Mr. Clay explained. "The exact figures are \$8,268 for this state as against \$10,500 for the group of low tax states."

"This situation again illustrates how high taxes discourage consumption, whereas low taxes stimulate consumer demand, thereby contributing to business recovery and consequent re-absorption of unemployed workers."

"Census figures show that lower gasoline taxes may mean to Kentucky business and employment. If the average annual business volume of the 2709 service stations operating in this state could be brought up to normal through tax reduction, it would mean an increase of \$6,055,000 of service station business for the state as a whole."

"Data published by the Department of Commerce also reveal that 217 service station workers were required to handle \$1,000,000 worth of service station business. A return to more reasonable levels of gasoline taxation by this state consequently might well be productive of 3300 service station jobs."

"Encouragement of greater automobile use by lower gasoline taxes would redound not only to the benefit of service station operators and service station workers. In addition to the 2709 service stations, there are 1822 business establishments operating in this state catering exclusively to the needs of motorists. These are comprised of garages, repair shops, body and fender shops, tire and battery shops, etc., operated chiefly by small business men. According to census statistics these 1822 establishments did \$38,010,000 worth of business in 1935 and gave employment to 7637 workers."

"Service stations and other automotive establishments as a group accounted for 21 per cent of all retail business transacted in the state in 1935 and provided jobs for 16 per cent of the state's workers employed by retail establishments. It would seem to be the state's best interest to remedy the lopsided and excessive taxation of a product upon which is based such a large share of the state's business and employment."

Comets Return to Sun

Most comets return to the sun after a period of years. Biela's comet on its return in 1845 split into two parts and on its next visit came back as twins — two comets were traveling in almost the same orbit formerly occupied by one and on the same time schedule. There are several records of such multiple comets. The converse of this phenomenon is even more common. They break up. What causes this is unknown. Disintegration probably is caused by the same forces that cause them to split.

Warsaw of 55 Years Ago Town of Pranks

No Where On Ohio River Was a Stranger Subject to More Hair-Raising Experiences Than Here

Dr. G. F. Gaines' "Horrible?" Experience When He First Located There

Dr. G. F. Gaines, a brilliant mind, a learned physician, an exceptional writer, a humorist, intellectually brilliant, a kindly heart and of undoubted courage, located in Warsaw, Ky., in 1881, as a physician. He had all opportunity to become wealthy and famous, but he wanted to be a play boy, and indulged in "the cup that cheers" which led to other avenues of non-profitable existence more the pity.

Now the boys of these days were forever looking up some prank to "case" the gullible, more especially strangers and the uninitiated and were ably championed by all who were on the "in" of the prank. And let us say, these boys were adept in laying plots of this kind.

Dr. Gaines loved Warsaw and its citizens and after an absence of 12 years in a distant town, he writes a few reminiscences of years ago, to the old "home town" paper, the Warsaw Independent, and he herewith print a few excerpts from his letter written at Milton, Ky., Nov. 16, 1903 as follows: (He was a stranger to the town and they "cased" him properly).

"Some how or somehow else" years of absence does not destroy the lingering feeling that Warsaw is home after all. My introduction to Warsaw in 1881 was not heralded neither was my subsequent exit. Future historians however may fix the date by contemporaneous events no less startling and important: When I had the pleasure of living in Warsaw it was a dreamy, staid, rather aristocratic village, living chiefly in the past and depending for amusements upon concert, charades, theatricals, all home talent, and which by the way, was not of such undervalued praise. Practical jokes were a constant pastime, and were frequently unique and original. While one as an instance, fairly representing the scope and the extent of the majority of them. Soon on my arrival, H. T. Chambers was running a drug store where the post-office now stands (the southwest corner of the court house, that has since been torn down—Editor). Dr. H. J. Abbott, "Turp" Chambers, Jim Lilly and myself were sitting quietly in the drug store, when Jesse Winters and Billy Lantz came in quarreling. While having a passing acquaintance only with both, I attempted to keep down what appeared to be a serious difficulty. Would I first take one out and then the other begging and pleading for peace. Billy Lantz in the meantime had gone to the showcase and took out an immense knife. To me later on it looked to be three feet long. Jesse had pistol. Suspecting something I went to Turp and asked him if there was any danger. He very gravely informed me that there was "Boys were dangerous and an old feud was existing." I redoubled my efforts. Tears were added to my entreaty. Jesse had gone in the paint room with Dr. Abbott, while I was frantically holding Billy. Jesse was talking loud enough for us to hear, and when making a remark especially insulting, could hold Billy no longer. He rushed in with the knife uplifted and could hear him say: "Take that, take that, take that." With each sentence there was a dull thud, accompanied by a heart-

rending groan from Jesse. Billy came out banishing the gory knife with blood dripping from its point. Was partly standing in the back door, the one he was aiming for. He cried, "Don't stop me, stop him." I could not have stopped a gnat with it was all right. In the summer three or four games of chess were going on upon the sidewalk on top of the hill, under the hill they were tinpanning dogs, while down in the willows on the river bank they were shooting craps or playing poker, or both. All this was changed, I understand; more business now in a week than was done then in a month. But seriously speaking, in reflecting on the changes that have taken place since that time to the present, one's heart grows sad. Of course there are many changes to be proud and thankful for."—G. F. Gaines.

"The Way She Wags" Man comes into this world without his consent, and elaves it against his will. When he is little she—big girls—kiss him—and when he's big the little girls kiss him. If he is active in politics, it is for graft; if he is not interested in politics, he is no good to his country. If he makes a lot of money, he is dishonest; if he is poor, he is a bad manager. If he needs credit, he can't get it; if he is prosperous, everyone wants to do something for him. If he is religious, he is a hypocrite; if he doesn't go to church, he is a hardened sinner. If he gives to charity, it is for show; if he doesn't, he is a stingy cuss. If he is affectionate, he is a soft specimen; if he doesn't care for anyone, he is coldhearted. If he dies young, there was a great future before him; if he lives to a ripe old age, he missed his calling. If he saves money, he is a tightwad; if he spends it, he is a spendthrift. If he has money, he is a grafter; if he hasn't got it, he's a bum.

So, what's the use?—Ex.

Performance, Beauty and Safety Mark Chevrolet's Completely New Cars

Chevrolet's 1937 engine is completely new, but adheres closely to time-proved Chevrolet engineering principles. It is of six-cylinder valve-in-head type, smoother, more powerful, more economical, and lighter.

A representative model from Chevrolet's new line, typifying its beauty and grace—the Master De Luxe Sport Sedan with trunk. Note the distinctive "speed line" extending back from the side of the hood.

United construction joins the floor, cow assembly, panels, and Turret Top of Chevrolet's all-steel body, to form one integral structure, welded in all joints, and reinforced and braced for permanent silence and safety.

Beauty and utility mark the new Chevrolet instrument panel. The windshield is of greater area, with narrow corner posts, affording better vision.

Luggage capacity in Chevrolet's new trunk models has been greatly increased, as has interior luggage space in other models.

New power, economy, durability, safety and comfort, coupled with striking new beauty, characterize Chevrolet's new models for 1937. They are offered in two series, Master and Master De Luxe, virtually identical in appearance.

Chevrolet's fully-enclosed Kne-Action is furnished at no extra cost on the Master De Luxe model; and new Synco-Mesh transmission, and safety plate glass all around at no extra cost, feature all models of both series.

PUMPKIN PIE—TRUE CAUSE FOR THANKSGIVING

EVERY good homemaker aspires to the title of chef par excellence. She earns it if she "turns out" a pumpkin pie that disappears to the last flaky morsel! This hot water pastry will earn a reputation for you; it will crown you with new honors. Place 1/4 cup shortening in warm bowl, pour 1/4 cup boiling water over it. Cream thoroughly with fork. Place 1 1/2 cups bread flour (sifted), 1 teaspoon salt, and 1/4 teaspoon baking powder in flour sieve and sift gradually into bowl. Mix thoroughly. Make up into a dough ball. Chill thoroughly. Roll out and arrange in a pie tin. Fill with pumpkin filling and bake. This recipe makes one pastry shell. You may wish to increase it and store the dough you don't use. If you have a modern ice refrigerator you'll find it will keep sweet and moist indefinitely, for the air-conditioning feature of the new development in refrigerator eliminates mingling of food odors and provides moisture to keep your pastry from drying out.

Party Line-Ups in 10 Congresses

This chart shows how Republicans and Democrats will share seats in both houses of seventy-fifth congress, as compared with nine preceding congresses.

Election Sets a New Record
With 43,000,000 Votes Cast

PRESIDENT ROOSEVELT, elected to a second term by a greater plurality than any candidate has ever enjoyed in the past, finds himself now with perhaps more power than has ever before been trusted to any man in the world. He polled some 25,500,000 popular votes, to set a new all-time record. Gov. Alf M. Landon of Kansas, his Republican opponent, was a bit shy of 16,000,000, while William Lemke, the Union party candidate, polled about three-fourths of a million.

These results were based upon 107,309 districts reported out of the 122,722 in the United States. It was estimated that the total vote, with all districts reported, would approximate 43,000,000, also a new all-time record.

The American people, providing the incumbent Democratic candidate with 528 votes in the electoral college to 8 for Governor Landon, also voiced their approval of the New Deal by materially increasing

the Democratic majority in both houses of congress.

The senate in the Seventy-fifth congress will find the Democrats with 75 of the 98 seats, outnumbering the opposition more than 4 to 1. The house of representatives, where the Republicans had hoped to recover as much as 125 seats, will see the Democrats even stronger than before, holding 334 seats against 89 for the G. O. P.

PRESIDENTIAL VOTE BY STATES

President Franklin Delano Roosevelt swept to re-election on the crest of the largest wave of votes, both popular and electoral, ever cast for a Presidential candidate. It was apparent with 105,251 districts reported out of a total of 122,722 in the United States. The table below shows the number of districts reported in each state, the popular vote, the electoral vote and the winner's plurality in each state. Pluralities are estimated, since in most cases complete returns will not be available for some time.

Ford V-8 de Luxe Touring Sedan for 1937

THE Ford V-8 de Luxe Fordor touring sedan pictured above is a roomy family type car especially suitable for touring. Baggage can be stowed away in the deep luggage compartment, leaving the interior of the car unobstructed. The new grille, new bumper, headlamps recessed into tender aprons and slanting V-type windshield that opens, highlight the car's new lines. Seats are wide enough for three. The rear compartment is fitted with robe rail, foot rest and pillar 110's. The body type is available with the 65 horsepower engine, with or without de luxe appointments, or with the new 60 horsepower V-8 engine without de luxe appointments.

Northern Kentucky Production Credit Association of Williamstown

The Northern Kentucky Production Credit Association was represented at a two day conference last week at Lexington by its president A. Threlkeld of Grant county, W. H. Pater, vice president of Carroll county, directors H. W. Webb of Grant county, C. Linton Hemphill of Boone county, and C. A. Kelly of Pendleton county and secretary-treasurer A. T. Mills. The conference was called for the purpose of considering problems of association procedure and the improvement of credit service to farmers. The conference was conducted by J. W. Brown, Association supervisor for Kentucky, and was attended by directors and secretary-treasurers of 8 Kentucky associations.

Representatives of the Farm Credit Administration of Louisville included: Walter F. Gahn, President, F. L. Kerr, Vice President, and C. D. Kenness, Secretary of the Production Credit Corporation, Fred L. Pater, Information Agent, J. D. Harvey, Assistant to General Agent, and E. R. Raymond.

Outstanding programs in credit service to farmers was reported by all associations represented, with heavy increases over last year both in number of farmers served and in amount loaned. Report of the Northern Kentucky Production Credit Association which serves Boone county, shows that during the first 10 months of 1936 it closed 364 loans for a total of \$1,624,000. Delinquency or repayments on Production Credit Association loans throughout the state was reported as below 1% the best repayment record shown by

any one of the 12 Farm Credit Administration districts of the United States.

Production credit associations are cooperative organizations of farmers for supplying their members with needed credit for all farm operating and livestock production purposes according to Secretary-Treasurer A. T. Mills. They lend money borrowed from the investing public by the Federal Intermediate Credit Bank which discounts association members' notes. Production Credit Association loans at present bear interest at the rate of 5% per year.

STYLE NOTES

Lots of bright embroidery used.

A black sweater is "last word" in knitwear.

Fur trimmings were never more lavish.

Gray and beige are the very new Scotch plaid skirts.

Luxury trend is bespoken in metal cloths and brocades.

Best dressed women cling to their black for day time frocks.

Slim, princess and highwaist empire are important silhouettes.

Glass Heels

It won't be long before glass heels flash on the trim slippers of modern Cinderellas. Made of opaque glass, they come in lovely jewel colors to harmonize with the rich satins and brocades of the new evening shoes.

Black Corsets

Black corsets as under-accoutrements of the black sheer dresses which the season smiles upon are a grateful accessory to some ladies.

Bloomers for Cycling

Slender mid-calf length bloomers are smart for beach wear and bicycling.

Smallest Known Mammal
 The smallest known mammal is the pigmy shrew that is less than two inches long from nose to tail, even when full-grown. The group of backboned animals possess, however, a still smaller pigmy, a tiny fish named Pandaka pygmaea, of the Philippines, adults of which average less than three-eighths of an inch.

Fancy That!

Old Lady (meeting a one-legged tramp on the street)—Poor man, you have lost a leg, haven't you?

Tramp (looking down at his foot)—Well, I'll be darned if I haven't.

Pitt House

Pitt House, the home of William Pitt when he was prime minister, stands on the highest part of Hampstead Heath, writes a London correspondent in the New York Times. It is mentioned in the Domesday Book. During his madness, Pitt shut himself up in a small room on the third floor, which remains untouched. A hole was made in the wall, through which he received food. It was while Pitt was ill in this room that his ministers revived the Stamp Act and imposed the tea duty which led to the Boston Tea Party and the War of Independence.

Wonderful Remedy

For Relief of Excruating Pains Caused By Arthritis and Rheumatism

Covington, Ky., Oct. 27, 1936
Editor Walton Advertiser,
Walton, Ky.

Dear Sir:

I am past 74 years old and have been afflicted with rheumatism and arthritis for thirty years or more and for ten years have been using from one to two canes and had to go up and down stairs on all fours. I have spent hundreds of dollars for doctors and medicine and gradually grew worse. I have been spending the winters in Florida for a number of years to get relief. I do feel better while I am there but just as soon as I get back home I get stiff again and as bad as ever or worse. After I got back last spring I commenced to make my own medicine and in two weeks after I commenced using it I put my canes in the closet and they have been there ever since. I can now kick as high as my head run up and down stairs, step over curbs and feel fine as a fiddle and am not too old.

I give the following well known people as reference as to my condition now. They do not know anything about the medicine as they have not had any experience with it and only have my word for it and know my past and present condition: Geo. W. Hill, grocer, Covington; Geo. C. Goode, grocer, Covington; Homer Northcutt, Post Master, Covington; T. M. Swindler, undertaker, Covington.

I want to get this remedy before the public as I am satisfied it would help many sufferers as it has helped me. I do not claim it to be a cure-all. It is a remedy only in case it may not act on every individual case alike. They can only find out by trying it. If any one wants to try this remedy I will furnish it for five dollars for two bottles treatment. Address G. W. Culbertson, Covington, Ky., R. 3, or come to my residence on Covington and Vialla Pike, Ryland, Ky., phone Independence 207. Would like to hear from all who use my remedy. adv.

POST YOUR FARM

Farmers who are interested in having their lands posted can do so now until the end of the hunting season for only 50 cents, with two posted cards.

LANDS POSTED

All persons are hereby warned not to hunt with gun, dog or trap of any kind on the land of the undersigned. Any person or persons caught trespassing will be prosecuted to the full extent of the law. It is necessary that we take this step to protect our stock, fences and game. This also includes fox hunters, who in the past have done a great deal of damage to our fence and sheep, many of the latter being killed by their dogs.

SANDERS CANNELL COUNTY

Mrs. Bettie Darbo returned home Saturday from a visit with Mrs. Allen Harrod of Shelbyville.

Dudley Martin is suffering with an infected eye. As yet the cause has not been determined. Frank James Miskel enjoyed Saturday and Sunday with his cousin Orville Miskel near Tandy. Wesley Johnson who was injured last week while employed on U. S. Highway 42 is somewhat improved at this time.

Mr. and Mrs. Austin Mattick and two sons of Campbellburg, spent the week end here with Mr. and Mrs. F. A. Mastick. Garrett Burgess who is in the C.O.C. camp at Carrollton spent the week end with his parents Mr. and Mrs. C. C. Burgess. Barney Devore and Mrs. Grace Gray spent Sunday with Mr. and Mrs. Denver Miskel near Tandy.

Mrs. C. W. Sherry and two children have been visiting her parents Mr. and Mrs. John Prichard in Vevey, Ind. Mr. and Mrs. Tom Groves and Miss Ruby Groves were Sunday guests of Mrs. Groves' sister at Ghent.

The many friends of Dr. Dewey Johnson of New Castle regret to hear of her serious illness and are anxiously hoping for a speedy recovery. She will be remembered to her many friends as Miss Daisy Reynolds.

The play entitled "Miss Blue Bonnet" given Thursday and Friday nights proved a large success and was well attended.

Our community was saddened to learn of the death of Mrs. Joseph Cochran, who died Thursday at the home of her granddaughter Mrs. C. G. Wright at Ashland. We have had the pleasure of having Mrs. Cochran visit our town each summer for the past several years and during this time she gained many friends, both young and old.

Mr. and Mrs. L. W. Wood of Indianapolis, were Sunday guests of Mrs. Wood's daughter Mrs. L. H. Kemper and family, below town.

R. S. Garvey and Malone Devore were business visitors in Owenton, Wheatley and Carrollton, Monday. A. S. Devore spent from Wednesday until Saturday of last week in Covington.

R. H. Towles and James Sanders attended the Board of Education meeting in Carrollton, Monday.

Miss Mary E. Sebre of Ghent is a pleasant guest in the home of Mr. and Mrs. Sylvester Tingle.

A surprise birthday dinner was given in the home of S. Y. Lawrence November 8 in honor of his father's birthday, W. H. Lawrence. It was his 69th birthday and also the 42nd wedding anniversary of Mr. and Mrs. Sam Sanders of this place, the latter being Mr. Lawrence's sister. Those present were: Mr. and Mrs. R. R. Rieley and daughter Charmie of Louisville; Mrs. Mary Sebre and three daughters of Ghent; Mr. Barney Devore and daughter; Mr. and Mrs. W. J. Tanner; Mr. and Mrs. Sam Sanders; Mr. and Mrs. Sylvester Tingle and two children and Mr. and Mrs. George Roberts of this place. Baskets filled with all kinds of delicious foods were brought by various members of the family. A very enjoyable day was enjoyed by all who attended. They departed at a late hour wishing Mr. Lawrence many more birthdays spent in health and happiness and to Mr. and Mrs. Sanders many more joyous anniversaries.

As we go to press, we are very much grieved by the serious illness of James Gayle of Carrollton. He was former sheriff of this county and is a loyal friend and a trustworthy citizen.

Mysterious Lake. Lake Waikapi in New Zealand heaves like the beating of a heart with perfect regularity. The rise and fall of the water is about three inches every five minutes, and no satisfactory explanation of the phenomenon has ever been found. This beautiful lake in South Island is shaped like the letter S and is 52 miles long and three miles wide.

Cardinals' Red Hats. Since 1246 cardinals have worn hats of brilliant red. At that time an important council was held at Lyons to France and Pope Innocent VIII bestowed upon the cardinals their red hats. The color signified that they should always be ready to shed their blood in defense of the church.

LANDING
BOONE COUNTY

Hamilton school children delighted with the vacation the broken furnace occasioned for them last week.

Big Bone Y. W. A. met with Mrs. Cleveland last Thursday with fourteen in attendance. Plans were made to have a supper sometime near the Thanksgiving holidays and the following were appointed to look after the various arrangements for the evening's entertainment: Mrs. Frances Ayer, lunch; Fay Stephens music and stunts; Mrs. Mae Smith music. The next meeting will be held at the home of Fay Stephens on Nov. 12th, jointly with the East Bend Y. W. A.

Miss Beattie Hodges of East Bend spent Sunday with Miss Sara Ryle. When two preachers took dinner Sunday with the old deacon, of course two or three fryers had to be slaughtered. An hour later the old rooster was heard crowing loudly. "Seems mighty proud of himself," said one of the guests. "No wonder," growled the deacon, "he's got two sons in the ministry."

Mrs. Marie Asbury and little daughter called on Mrs. Mary Edwards and mother, Saturday night.

The largest room on the world is the room for improvement.

Already we are beginning to hear about Christmas: the P. T. A. will have a tree and program with no admittance fees (which we think is exactly as it should be, for if there was ever a time when all should be free, it is Xmas). Big Bone Sunday School will put on a cantata.

Mr. and Mrs. George Pitcher entertained several of their children Sunday.

Mr. and Mrs. Reuben Asbury spent two days last week with his parents of Mt. Olivet, Ky.

We are sorry to report the continued illness of Jackie, the small adopted son of Mr. and Mrs. Orville Hensley.

church will probably close Sunday night. Twenty-two conversions and seven additions by letter was the result of the meeting.

Gallatin county is one of the best counties in the state and the man that leaves it for some unknown section, without assurance of remunerative position, will find that he has made a mistake only after he has had the bitter experience of loss of time and money. A fine people that is difficult to find in most communities.

Within the next week there will be a wonderful revolution in the running of the steamboats in the trade between Cincinnati and Louisville. Commodore F. A. Laidley, the new manager of the Mail Line steamers, proposes to try as an experiment to run four sided-wheel steamers from Cincinnati and Louisville, the steamers St. Lawrence and Bonanza to run on packets between these two cities, abolishing Madison, Ind., as a terminal. The steamers Big Sandy and Fleetwood to do the through trade, carrying passengers alone.

From Boone County Recorder—In the death of Jesse Kirkpatrick last Monday morning, Burlington loses her oldest citizen. Mr. Kirk-

patrick was born at Ripley, Ohio, in 1813, and moved to this town about 60 years ago, and has resided here ever since. Use Trench Silo to Salvage Corn

Farmers Turn to a Simpler Method of Saving the Damaged Crop.

By E. W. Lehmann, Department Agricultural Engineering, University of Illinois—WNU Service.

With the cost of a temporary trench silo limited to the cost of the labor, farmers generally will be turning to this method of salvaging corn and providing extra livestock feed next winter.

Trench silos can be built easily and quickly with materials and equipment found on the farm. They are fire and wind proof, and less freezing results than with an upright silo. As the silage does not have to be blown so high, less power is required to operate the silage cutter. A tractor, horse or truck may be used to pack the silage.

Trench silos are usually dug six to eight feet deep and the silage fed from one end. Less spoilage results when they are placed at one or both ends. A hillside location is best for removing the dirt and later the silage.

As there is usually some spoilage in the top layer, it is recommended that the ears of corn be removed from the stalks which make up the top six inches of the silage. Corn may be put in the silo without being cut. However, to exclude air, pockets the stalks are laid close together and packed well. This method is not as satisfactory as the silage, corn is cut because the stalks are difficult to remove from the danger of spoilage from air pockets is greater.

After the trench is filled up to two feet above the ground level, it is necessary that it be covered well. While there are several methods of covering, the one most often used is four to six inches of dirt with the dirt extending about two feet past the edges of the silo.

Some Cows Unprofitable; Culling Found Necessary

A close culling of the dairy herd may be necessary in many sections because of the shortage of feed, believes H. A. Herman of the Missouri College of Agriculture.

Those cows that may well be eliminated first include poor producers and breeders, disease infected cows, and those with defective udders. In considering the heifers, it is wise to keep those bred by bulls whose daughters have shown the most promise as producers, and those of the best producing cows in the herd. Sometimes, good yearling heifers can be retained if they are fed only an adequate growing ration.

The choice breeding stock is usually culled as sparingly as the feed available will permit. Experience has shown that communities in which such stock has become depleted in times of emergency require several years to replace the loss. A few good cows well fed will return more net income than a larger number of inferior ones on inadequate rations.

Dairy Hints

The difficulty of producing quality milk and cream increases during hot weather, but a little extra precaution will help greatly.

Keep utensils clean. Use a brush and washing powder. If scalded with boiling water, utensils do not need to be wiped.

After rinsing, put the utensils in a sunny place away from dust. Then rinse them with clean, cold water before dumping milk into them.

Always wipe the cow's udder with a clean damp cloth before starting to milk. Always milk with clean, dry hands.

Use a fresh strainer pad for each milking.

Do not pour freshly drawn milk that is still warm into milk that has been cooled.

Feed hay after milking to avoid contamination by dust.—Wallace's Farmer.

Wheat Absorbs Selenium

Selenium, the chemical element used in some light-sensitive cells, is absorbed from soil containing it by wheat grown on seleniferous fields. Not only is selenium absorbed by wheat and concentrated in the grain itself, but it is an active poison, according to W. O. Robinson, of the bureau of chemistry and soils. The danger from this source can be avoided by careful examination of imported wheat since there are few areas in the United States where selenium occurs in the soil in quantities offering a hazard and these are already carefully mapped. There is, however, an added danger in the import of wheat from unknown areas which may contain selenium.—Scientific American.

Cameron Brakefield
Critically Cut By W.
Virginia Desperado
Knife User and Woman Arrested
and Lodged in Covington JailAutomobile Collision Basis of
Trouble in Covington Early
Friday Morning

Shortly after midnight, early Friday morning, while Cameron Brakefield, age 35, well known druggist, in the drug store of Robt. W. Jones, Walton, was returning home from the Good Samaritan Hospital, Cincinnati, O., where his wife is a patient, in going south on Scott Boulevard, Covington, returning home, an automobile crashed into his car at Fourth and Scott, damaging the Brakefield car considerably. He was accompanied by his sister-in-law Mrs. Carl Conner. As Scott Boulevard is an arterial highway and there are stop signs on Fourth street, Mr. Brakefield naturally blamed the man driving the other car for the accident. He asked the man what he was going to do about it and he said "nothing" and started to walk away. The man was accompanied by a woman. Mr. Brakefield grabbed the man by the collar to have him arrested. While Mr. Brakefield did not see the action, the man drew a large knife from a pocket and stabbed Brakefield in the back, left side and right arm, making great gashes. Mr. Brakefield did not know he was out until he felt the blood running down his person. It was then the man jerked away and ran, the woman following. The knife must have been very keen as Mr. Brakefield had on a heavy overcoat.

A covington scout car responded shortly and the wounded man was taken to St. Elizabeth Hospital, Covington, where his wounds were dressed after much loss of blood. Mr. Brakefield is getting along very well, but had he not had the heavy overcoat, his wounds would have proved fatal.

The Covington police put out a dragnet for the occupants of the other car and they arrested a woman registering as Miss Madeline Currey, age 17, at Seventh and Washington streets, who gave her home as Bluefield, West Virginia, and occupation as a dancer.

The driver of the car was arrested later in Cincinnati, O., who gave his name as Elmo Lawson, age 30, laborer.

Tracing the license number of the automobile, which was abandoned following the collision, Patrolmen Spanton and Dickerson found it was owned by Ivan McKinley, 633 Burns street, Cincinnati.

Going to the Burns street address the officers said they found McKinley in bed. He said that his car had been parked in a lot near his home and that it had been stolen.

While the officers were in the house, they said Lawson entered. The police said he told them that he had just arrived from Bluefield. He denied stabbing Brakefield.

LITTLE GIRL KILLED
AT UNION, KY.Saturday Afternoon When Struck
By Auto Driven By Louisville Salesman

Saturday afternoon, Mary Louise Presser, age 4½ years, was fatally injured when she ran in front of an automobile driven by G. W. Smith, a traveling salesman of a Louisville drug company, while en route to Latonia to visit his father, T. E. Smith. The accident occurred on Federal Highway 42 in Union. The child died of a broken neck, according to Dr. G. R. Coe. She was the daughter of Riley Presser, whose wife died two weeks ago.

After the accident Smith took the child to Dr. Coe's office. The accident was unavoidable and no charge was placed against Smith.

PROMINENT CARROLLTON CITIZEN DIED

James Gale, Supervisor of County
Highways, Ex-Sheriff and
Former Banker

James Gayle, supervisor of the county highway department of the 50th District, died Sunday night at his home in Carrollton, of pneumonia. Gayle, a well known citizen of Carrollton, Ky., suffered a paralytic stroke last Nov. 4th. He was born at New Liberty, Ky., in 1871. He was a former cashier of the New Liberty Bank and the Third National Bank of Louisville, Ky.

He built the Carrollton and Worthville Railroad in 1904 and served as mayor of Carrollton and sheriff of Carroll County. He was also a deacon in the Baptist church, there.

Surviving him are his widow Mrs. Prude Gayle, one daughter Mrs. James Tandy Sandefur and a brother June W. Gayle.

He was a man well liked and had a host of friends.

His funeral took place from his late residence Tuesday afternoon at 2 o'clock, a very large number being in attendance. Burial was in the Carrollton Cemetery.

Mrs. Mary Ransler
Died FridayOne of Walton's Splendid Ladies
Passed Away After Short Illness

Mother of C. W. Ransler
Friday evening, the spirit of Mrs. Mary Ransler, the beloved wife of William Ransler, and mother of C. W. Ransler, was wafted to the Great Beyond. While she had been in failing health for a number of years her recent illness was of short duration and her passing was unlooked for. She was a good Christian lady, a devoted wife and mother and her aged companion and son are grief-stricken in losing their dear one. She is survived by one son, Charles W. Ransler, and a number of other relatives.

Mrs. Ransler was born in Covington, Ky., 78 years ago, and was a devout member of the Lutheran church. After marriage to Mr. Ransler they lived in Cincinnati, O. for awhile, moved to Walton where both were young, and resided here ever since.

Funeral services were held at her late home on Monday morning at 10 o'clock, Rev. Schoell, pastor of a Covington Lutheran church, preaching the funeral discourse to a large assemblage of relatives and friends. Rev. J. M. Ervin of the Walton Christian church and D. E. Bedinger, assisted in the religious services. Burial was in Highland Cemetery.

Devoted relatives and friends contributed numerous beautiful floral tributes, a loving token to her memory.

The pallbearers were George Fessler, Robert Fessler, Leroy Fessler, George Egan, Chris Sticking and W. T. Jones.

Funeral Directors Chambers & Grubbs had charge of the arrangements.

COL. TOM CODY DIED
OF HEART ATTACKAt St. Elizabeth Hospital Tuesday
After Two Weeks' Illness

Col. Tom Cody, age 72, of Erlanger, Ky., one of Northern Kentucky's most colorful figures, died at six o'clock, Tuesday morning, after two weeks' illness from a heart attack at St. Elizabeth Hospital, Covington. He was born in Covington, and for a number of years conducted a restaurant at the corner of Scott Boulevard and Third street, where many celebrities were entertained. In 1913 he took possession of a large farm near Erlanger, that became famous throughout Northern Kentucky for outings and picnics, and frequently was the rendezvous for noted professionals, actors, ballplayers, supplemented by Cody's hospitality and genius of entertaining. He sold the house and farm to a corporation for a memorial cemetery and moved to Erlanger.

Years ago Cody was a member of the "Thousand-Pound Quartette," with Charles Egleston, Becker and Helle. They became widely known and their services were in great demand.

His widow, and two children, W. P. Cody, Dallas, Texas, and Mrs. P. Cody, Dallas, Texas, and Mrs. W. P. Cody, Dallas, Texas, survive him.

Mrs. Sallie Hughes of New Rochelle, N. Y., is the guest of her daughter Mrs. Alan H. Gaines and other relatives here.

Mrs. C. Scott Chambers has returned from Petersburg, where she was called by the illness of her mother, Mrs. Mary Terrell.

Mrs. Wadsworth Lettmer has returned to her home in Williamstown after a visit with her mother Mrs. Sallie James and family.

F. I. Conrad and son Powers Conrad, arrived Friday in Covington, shopping.

Gen. Henry Denhardt
Arrested For MurderOf Mrs. Verna G. Taylor, Pretty
Lagrange Widow, Found Shot
to Death November 6th

Brig. Gen. Henry H. Denhardt, formerly of Bowling Green, Ky., accused of the murder of Mrs. Verna G. Taylor, pretty 40 year old widow of Lagrange, Ky., on the night of Nov. 6th, has secluded himself at a friend's home in Louisville, awaiting an examining trial at New Castle Henry County, Nov. 20th, on a murder charge. He is at liberty on a \$25,000 bond, arranged by Dr. Arthur T. McCormick, head of the Kentucky Health Department, a boyhood friend of Denhardt.

While the 60-year-old soldier lawyer and politician, whose colorful career included service in three wars and clashes in Kentucky political campaigns, abruptly halted at the inquest into the death of Mrs. Taylor.

Her body, shot through the heart was found in a roadside ditch near Lagrange, about two weeks ago, with Denhardt's revolver lying near-by. Denhardt, the first witness called by Coroner D. L. Ricketts, declined on "advice from my counsel" to testify.

"I would like to testify very much," he said nervously, "but my counsel insists that I should not. I have argued with them for hours about it."

As his attorneys started to argue a motion by Commonwealth Attorney H. B. Kinnowing to continue the hearing indefinitely, Evan Harrod, sheriff of Henry County, said, "I have a warrant for your arrest."

The warrant, charging murder, was sworn by Dr. E. S. Garr, Lagrange brother of Mrs. Taylor.

While an estimated crowd of 1,200 spectators in the courtroom watched the sheriff, his prisoner and attorneys left the room and walked to the chambers of County Judge A. S. Morgan. There, bail was arranged by Dr. McCormick.

Meanwhile, the coroner announced the inquest would recess immediately without examination of the ten other witnesses subpoenaed. Denhardt's counsel sought to have the hearing continued.

Defense attorney's refusal to discuss the situation, but Denhardt declared: "If they had let me testify I'd have told them quick who killed her."

The body of Mrs. Taylor was found by four men, including Denhardt who began searching for her after two shots were heard.

Denhardt told the coroner he and Mrs. Taylor were motoring in the country, attempting to relieve her headache. The car stalled, and while they waited for help Mrs. Taylor left him to seek a "lost glove."

The coroner quoted the general as saying he believed Mrs. Taylor took the gun from his car and killed herself because her two teen age daughters opposed her marriage to him. Dr. McCormick said Denhardt divorced from his wife three years ago, and Mrs. Taylor expected to be married soon, culminating a romance that began last June.

Denhardt served as lieutenant governor of Kentucky from 1923 to 1927. In 1931 he was wounded seriously as the result of a political controversy.

He was adjutant general of the State during the Ruby Laffoon administration, 1931 to 1935, and led State militia into occupations of several counties to investigate disorders and supervise primary elections.

He was indicted last year for criminal contempt after leading a National Guard expedition into Harlan county in violation of a temporary order issued by Circuit Judge James M. Gilbert. Gov. Laffoon arranged for dismissal of the charges. Denhardt resigned as adjutant general in Dec., 1935, following election of Gov. A. B. Chandler.

AN ENORMOUS TURNIP

An enormous turnip was brought to the Advertiser office this week by E. R. Morris on the Ross Chapman farm near Verona, Ky. It weighed 19 pounds and was 20 inches in circumference.

Death of A. J. Williams
Was Station Agent At Eliston
Station About 40 Years Ago

The sad intelligence of the death of Arthur J. Williams, age 86, reached here Tuesday morning. He died at the home of his daughter at Westfield, N. Y., that morning from ailments incident to old age. He was well known in and around this section as he was station agent at what at that time was called Eliston Station about forty years ago for the L. & N. Railroad. He was a man well liked by all who knew him and his many friends among the older inhabitants in and around Eliston are saddened to learn of his passing. In fact he was known all along the railroad from Louisville to Covington. He was a splendid old gentleman.

A Message Every
Mother Should Read!

MOTHER, is there anything more important to you than the health and well being of your children? You wouldn't intentionally overlook a single thing that might tend to hinder their progress, would you?

And yet there is the most obvious thing that you might have forgotten—your children's eyes—upon the efficiency of which they depend for all their education, fun and happiness. Frequently, children do not realize that their eyes are not normal. They do not appreciate how much better they could do everything if they had perfect vision.

Unlike any other part of the body, it's impossible for you or them to tell whether or not their eye condition is perfect—only a thorough examination will disclose that. BE FAIR TO YOUR CHILDREN'S FUTURE. HAVE THEIR EYES EXAMINED REGULARLY.

ANOTHER LETTER

From W. T. Loomis of Interesting Summer Tour

St. Petersburg, Fla.
November 6, 1934.To the Editors of Walton Advertiser:
Dear Sirs:—

As you are aware, my wife and I left St. Petersburg, the 8th of June last on a circuitous summer vacation sight seeing auto trip, which we successfully brought to a close in our return on the 20th of October, having traveled 15,219 miles. For the trip we had prepared and had carried out a most interesting itinerary. I wrote you several letters from points along the way. Now that the election is over and I have disposed of many little demands awaiting my return, I will drop you one more letter, trusting it may contain some points of general interest.

In a trip through the west the eastern encounters many striking features of interest and especially is he struck with its many outstanding contrasts. Among such we may partially enumerate the ever changing scenes of snow capped mountains and torrid arid valleys; pastoral views of prosperity countered by heated deserts of worthless waste irrigated productive lands with perhaps only a division line between it and waterless desert growth masses and canyon cut plains, and that of plateaus affording cool and refreshing air while next you are down in the lowlands of oppressive heat.

On such a trip one finds much along the way to break up the monotony and make it worth while some of which while interesting in the main minor and can not be made to carry interest to others by description. Such must be seen to be appreciated. While there is a degree of monotony in passing through deserts, still there is interest in their differences, one from another, each with its almost barren wastes having a distinctiveness, if in no more than its cast, or other struggling growth each having a floral beauty of its own.

With the major points of interest it sometimes becomes a question of what to include or reject, or that may be added as worth while for the general reader. But sometimes it becomes apparent all are not general readers, for instance: I had just clambered down from a hard difficult climb to some cliff dwellers ruins high up in a recess of a cliff when a man of about 40 years, with his family, hailed me. He had been getting up at the ruins with a doubtful expression on his face as to the worth while of the climb. Among several questions he asked in regard to these people and their ruins was "Are they of them living up there now?" The antiquity of the cliff dwellers is of such general knowledge and so much has been written about them, the question struck me with surprise.

I will call attention to one feature of the west, brought up to us from away back in the Ages, with which even the learned are not fully advised. I have in mind the petrified forests of Arizona, in the main consisting of conifers, a portion of which has been made a National Monument. There are many points throughout the west where petrified wood may be found. However, in so far as I am advised, these forests of the National Monument carry far more interest than all the others as a whole, and should not be missed by any tourist who may be passing through Arizona. They are conveniently reached from Holbrook on the Old National Trail which Trail bears Federal Route 66. The forests of this National Monument

MICKIE SAYS—

IS TH' SMALL CITY ON TH' SKIN? NO, NOT AS LONG AS WE BUY MOSTLY AT HOME—BUT IF A MERCHANT AIN'T WILLIN' TO ADVERTISE, 'N BACK UP HIS ADS WITH GOOD SERVICE AN' UP TO DATE STOCK, THEN HE CAN'T HOLLER 'BOUT FOLKS SHOPPIN' OUT OF TOWN!

are given five divisions and as a whole are said to embrace about four hundred thousand acres. It has been my observation that some are misled by the term "forests" thinking it constitutes a standing grove of petrified trees, but such is not the case, all lying flat on the ground. However, a standing petrified tree, or trees, is not an impossibility. The Yellowstone Park I saw the remaining petrified

stump, some twenty or thirty feet high of a tree which had been covered by some convulsion of nature of not sufficient force to uproot it. I find, too, the term "petrified wood" is sometimes misconstrued as meaning wood turned into stone. Petrified, or fossilized wood is but a mineral mold of wood that once was. Such is brought about

climatic conditions being proper when the wood is deeply imbedded beneath an upper strata of earthy matter through which water is percolates, becomes silica laden and under depth of pressure finds its way into and replaces the deteriorating wood cells with a resultant replacement of the wood by a rock mold. Should the silica carry with it variegated coloring matter a most beautiful clouded agglitter colored effect is brought about. It is this agglitter condition of these petrified forests that constitutes one of its most interesting and pronounced features of attraction. A cross cut section of one of these trees under a high polish brings out vividly its variegated colorings. I first saw polished cuts of these trees at the Chicago exposition in 1893. There was then an attempt to commercialize a manufactured product from these fossils. Although so very attractive and beautiful yet the extreme hardness of the stone rendered the cost of production too high to meet with ready sales and the project was abandoned. These forests are now in the hands of the government and are rigidly guarded. All further destruction and vandalism is stopped.

What you see there is not the whole tree with its branches and roots in contact. Only the body of the tree remains, many having the butt attached or lying near as a broken section. But few trees remain intact, most all being more or less broken into blocks, or sections of varying lengths. These broken are cross breaks, generally as square as if sawed, this is due to the crystallization of the silica while under the process of petrification. A few of these blocks I saw were four or five feet in diameter. This original forest stood perhaps as much as several hundred feet higher than the present surface on which they rest. It having eroded and weathered away. One of these logs that has resisted the irregularities of an eroding surface is now styled the Natural Bridge in that it spans a ravine 60 feet wide and some 15 or more feet in depth. It is said to be of agate and jasper. Fearing it may meet the fate of most of the other logs the government has installed a supporting I-beam beneath it, the ends resting on abutments. Of course, as many others have done, I had myself kodaked standing on this bridge. At places one walks over surface covered agate chips and is reminded of a mosaic floor-nature in an agitated floor of rubble-work.

As you roam about over these grounds you can but feel you are in one of nature's wonderlands, and find the question forgoing to the front, what is the history of this place? What has brought it about? However, with all its mystery, under close observation, it seems there can be seen a lead towards its solution, or a reasonable interpretation of what has happened here. The many butts and a number of groupings that may be seen would indicate some great cataclysm of nature that threw these forests down and became, at least partially submerged in water and before decay set in were deeply covered with earthy matter covered volcanic debris. That they had become deeply covered is evidenced by the fact that many of their rounded bodies, some as much as five and six feet in diameter, had been pressed into an ellipse; before petrification had fully set in. The upper surface has long since weathered away and, as said, in addition much of the surface upon which the forest originally grew. I did not see this, but I am informed that near the park there are protruding petrified trunks from beneath some fifty feet of sandstone, so this fact at least carries us away back into the Ages to find it in its original condition. All this is easy to visualize by anyone who has traveled about among these western mountains with their numberless extinct craters, many of which have in time held a scorching caldron of boiling stone that overflowed its confines covering mountain sides with lava and filling valleys to the depths of thousands of feet, and this, too, aided by the sight of jumbled up

masses of broken stone like small mountains.

Thus nature has carried down hidden from view, a record in stone of a forest that once was which is now partially uncovered for our inspection. But we of today will never know just how many thousands of acres nature is holding in reserve beneath deep hard land strata that weathering will eventually expose hundreds of thousands of years hence, that generations of that day may too, peer into my mysteries.

In one of my former letters I told you of Arizona's Meteor Crater. I have learned there is another such fact that does not seem to be of general knowledge, located in Texas. It is a few miles off the main highway about nine miles west of Odessa a town of about 2,400 inhabitants, all asleep at the wheel of opportunity I had learned of this crater and as I approached Odessa from the west kept a sharp lookout for pointers indicating its whereabouts, but I saw nothing even intimating its existence. Upon inquiry from a garage man within the town, he looked at me with surprise and said, "Why I have lived here a number of years and I have never before heard of such a thing." After further inquiry, with no better success, and some trouble, I was enabled to secure an audience with the Chamber of Commerce where I gained the information: This crater exists and is deemed meteoric; that it is about 60 feet deep and of about ten acres in extent; that two different colleges have inspected the site, and under instrumental tests have located several large meteors some 180 feet beneath the surface; that a scientist by instrumental aid, had, along the rim of the crater at varying depths from five to seven feet, secured quite a number of small specimens; and, that an attempt had been made, but failed, to interest the government in developing it as a point of national interest. With such information as to how to find the place, and such as I could learn on the way, after a drive of about 23 miles I gave up the chase in despair.

I deem it a feature of special interest and worthy to be advertised as an unusual attraction. The locality is common place with little, if anything otherwise worthy of special notice. If the dreamy Town of Odessa could be awakened to the worth of this wonder to them, and start a drive as a unit, it could be made a National Monument.

While the Arizona meteors are imbedded to a depth of 700 feet beneath the surface, these at Odessa are but about 180 feet down. Both craters contain several large meteors each, then why the difference in depth? That can be explained in this manner, all conditions being equal, or nearly so: These meteoric bodies that persist in pelting us have elongated orbits much as do comets. At about the distance of our earth from the sun they are then traveling in their course at an average speed of about 26 miles per second, while our earth along its orbit travels at about 18 miles per second. This fact makes possible varying degree of effective force at the moment of contact. If at the moment of contact the meteor was overtaking us the force of the blow might be with an effective speed as low as 8 miles per second, while on the contrary if near or quite a head on collision the range of the blow could be as much as from a speed of 44 miles per second. Anywhere Arizona may some day find the 'a' rival.

The last city we visited was New Orleans, where Huey Long with his slogan, "Hoak the Rich," had secured many followers. All bridges within the territory are free, except one, and it is in the hands of a receiver, I am told. We visited and crossed the Huey Long bridge across the Mississippi river. It is an immense structure splendidly built. It is a combined auto and R. R. bridge free for auto travel, but not for R. R. traffic.

I was told the city is 22 feet below the river, although it hardly looks it. A large levee protects the city along which, at the city's front, is a wharf seven miles in length. At this point the river is more than a hundred feet deep and to maintain its depth with a swifter current all outlets within the delta, except two, have been closed. For protection to the city against floods, for above the city a spillway has been constructed leading into Lake Pontchartrain which, as you know, has an indirect outlet into the Gulf.

It is generally conceded that Genoa, Italy, has the finest cemetery in the world. Havana and New Orleans each claim to have the next finest. I have seen the three, and while Havana can rightfully make claim to a beautiful cemetery, yet I rather think New Orleans is entitled to second place. As you are aware, all burials in New Orleans are above ground.

In that of national control, New Orleans has had a varied experience having been subjects of Spain, France, England and finally that of the United States government. The old section of the city, dating back more than a hundred years, is now being preserved as one of the city's chief attractions. It should be seen by all visitors entering the city. No other city in the United States will afford a clearer and better touch of old European life. Its narrow streets and its unpainted houses and its shuttered windows in general effect carries one back at once to olden days. Here and there along the way will be seen what are once pretentious buildings with beautifully designed iron grill work protecting its balconies, where once dwelt the city's aristocracy. The Spanish palaces here and there stand expressive of the old Spanish spirit that once held sway.

After three rather delightful days at New Orleans, we headed for St. Petersburg, holding near the Gulf shore, a distance of 719 miles.

Sparta 33 Years Ago

(From Warsaw Independent)

November 7, 1903.

Nice rain Monday that was thankfully received.

The little daughter of N. R. Wilson was on the sick list this week.

Charles Stivers spent Sunday with friends at Whitley, Owen county.

Mr. and Mrs. Ed Wilson and baby of Warsaw, spent Sunday here with relatives.

Miss Daisy Hon of Sugar Creek was the guest of Miss Bonita Brook this week.

Walter Bourne and family of near Owenton, were the guests of Hugh McCormick and family part of this week.

Last Friday a son was born to Volle Lowe and wife near town, but the little fellow died the following day.

The L. & N. Railroad Company are progressing nicely with the building of the dam they are erecting over Eagle Creek.

Misses Scottle Sanders, Mariam Minor and Mary Whitehead of Sanders, were the guests of P. H. Vorles and family last week.

J. J. Constantine of Newport, and Emmett Orr, Deputy U. S. Marshal of Covington, spent from Saturday until Monday here the guests of Scott Moore of the Exchange Hotel.

Albert Kelly the enterprising proprietor of the Sparta Hotel, has greatly improved his hotel in a number of ways: repainting the floors and adding a nice bath room by which patrons can have hot or cold baths.

Mr. Kelly invited his friends to call and inspect the improvements.

The following was the result of the town election in Sparta: Town Trustees, the first five being elected: J. M. Stallard, 18; J. B. Samuels, 20; S. B. Moore, 18; C. L. Hunt, 18; B. W. Records, 18; George A. Wagal, 5; N. R. Wilson, 4; A. Horner, 4; H. McCormick, 3; William Ribelin, 2; Police Judge, C. E. Carpenter, 12; E. E. Bickham, 14; Town Marshal: J. E. Gullion, 18; Joseph Green, 8.

The Democratic rally here last Saturday was quite an extensive affair. The special train of Gov. Beckham stopped here at 9:40. He was met by the Democratic hosts and headed by the Covington Marine band, marched to Kelly's plantation where he made a short address.

Followed by other speakers and then the governors party resumed their journey, while local speakers entertained the crowd the balance of the day; those speaking were Congressman Marion Griffith of Vevay, Ind. Hon. E. E. Winn of Warsaw, Eugene Salin, James Settle, John Douglass and Judge Lee of Owenton.

Last Friday, Oct. 30th a very sad death took place when little Curtis Martin Gullion was borne to the celestial world. The little fellow was the son of Mr. and Mrs. C. M. Gullion and was the idol of their heart and the sunshine of their home. He was nine months and three days of age at the time of his death and had been sick but two weeks with chronic diarrhoea and a complication of diseases. The sympathy of many friends is tendered the grief stricken parents. The funeral took place on Saturday, Rev. Father O'Donnell of the Warsaw Catholic church, held a brief service over the remains after which the internment took place in Oakland cemetery.

Boone County Farm Notes

H. R. FORKNER, County Agent

Poultry Pays \$1 Per Hour
Grant Maddox of near Florence received a net labor income of 81 cents per hour for 2825 hours on an average of 728 laying hens for the poultry year ending Sept. 30th. This is one of the best managed commercial demonstration poultry flock in Kentucky. The average hen in the flock laid 163½ eggs, consumed \$2.34 worth of feed and paid \$3.12 above feed cost.

The above demonstration was not an average. It is unusual in that a 100% clean chick brooding program was followed combined with a farm and custom hatchery and careful scientific management. Close culling was followed throughout the year. 1065 laying pullets were put in the house on Oct. 1, 1935. Only 320 of these birds remained in the flock of Oct. 1, 1936.

The commercial poultry flock can be set up as a model for the farm flock owner according to the County Agent. There are probably more financial failures in commercial poultry raising in the hands of the average man than any other line of business. However, the farm flock can learn some very important lessons from the commercial owner.

Among these are: 1. Start with clean, healthy B. W. D. free chicks and raise them on clean ground. 2. Have well developed, early hatched pullets for fall and winter eggs. 3. Raise stock of known high egg production strains. 4. Full feed balanced rations in good houses. 5. Cull closely. Maddox culled approximately 70% of his birds as soon as individual birds quit laying.

Twenty-Five Hat Blocks Used
Boone Homemakers have purchased 25 cork hat blocks this fall to use in remodeling of old winter hats. Project leaders have demonstrated to club members how simple the remodeling of old felt hats is for the amateur. If the hat is not becoming after the first blocking it may be dampened and reblocked another style. Miss Mary Gillispie, Home Demonstration Agent, reports that over 50 hats have been brought up to date this fall.

Meat Canning Demonstration
Canning of beef, pork and chickens will be demonstrated by a specialist from the U. S. to Homemakers of Boone County, Monday, Nov. 30th. Meat canning has become more popular the last few years. Homemakers have found that a meat surplus during the butchering period can be preserved and put on the emergency shelf for future use. Canning of meat will be very important this year because meats sold on the retail market are higher.

The demonstration will be open to any one interested according to Miss Mary Hood Gillispie, Home Demonstration Agent.

County 4-H Leaders Conference
Boone County 4-H club leaders held an all day rally and conference at Burlington Courthouse on Saturday Nov. 14th. Special speakers on the program were E. E. Fish, Junior Agricultural Club Agent and Miss Annie Burman, Junior Home Club Agent from the college of Agriculture and Prof. D. H. Norris, County Superintendent of schools.

Boone County 4-H clubs through the splendid spirit of cooperation of adult leaders and the high quality of club work done by boys and girls have come to be recognized as some of the best in the state. Fifty-two volunteer adult leaders the past year supervised the community and project work of 307 members in nine community clubs.

Leaders who served the past year will receive certificates in recognition of their public service at the conference. The following leaders who served in 1936 will receive special recognition, according to the number of years 4-H club service they have rendered (the number fol-

BACK TOGETHER AGAIN!—Ed Wynn and Graham MacNamee, whose antics before a microphone four years ago established them as one of radio's greatest comedy teams, are back on the air over the NBC-Blue network Saturday night, with Don Voorn's orchestra. Don was on that first Wynn series, too, so it's a reunion all around.

WHAT DO YOU WANT TO HEAR?—Phillips M. Lora, director of the "We, the People" program heard each Sunday afternoon at 8, eastern time, over the NBC-Blue network, asks a representative group of people each week about their likes and dislikes. This is Janis Dramann, New York stenographer, giving her views.

NAMED FOR THE INDIAN TRIBE whose ancestors found and mined copper in the northern peninsula long before Columbus discovered the New World, Manominee, Michigan, has been selected for the erection of the first of a number of Tourist Information Lodges by the State Highway Department. These lodges will be noted with that age-old metal, copper. A new type roof known as "Double-Deck" copper has been approved by the Michigan Highway Department.

LOOK WHAT I HAVE! Calls Lyle Lindsay, flicker beauty, as the first to hold her share of the wealth. Stage money, trust, but none the less effective.

STUDIES NEW SAFETY FEATURES!—Among the first to recognize the real importance of Plymouth's new "safety styling" was Barney Diefel, the man who hung up helmet and goggles to plead the cause of highway safety throughout the nation. Here he is examining the padded roll over the top of the front seat which gives protection to back seat passengers in case of being thrown suddenly forward by an emergency stop.

Virtue of Necessity
All men must recognize the advice of necessity. All men are willing to listen to agreeable advice. But few men follow a bit of advice that will support them—unless it be that they are ambitious and want this brand of help.

Smallest Human Being
The smallest human being on record is represented by a skeleton which shows that its owner, when alive, was less than twenty inches tall; about half the height of the famous General Tom Thumb, exhibited by Barnum.

Size of Plants
Plants and flowers range in size from microscopic organisms too minute to be seen with the naked eye to the leaves of the Royal water lily, which attain a breadth of five feet and can bear the weight of several human babies.

WALTON PERSONALS

Mr. and Mrs. J. W. Isley and son Arnold, of Covington, Mrs. T. W. Darbro and Miss Nancy Darbro of Cincinnati, have returned to their homes after a visit with their relative Mrs. J. M. Arnold.

Mr. and Mrs. Wallace K. Grubbs had as their guests at dinner on Sunday, Mr. and Mrs. I. T. Grubbs, Mrs. William Wright and her son, Wallace Ray Vallandigham of Covington.

Donald Stephenson has returned from a visit with his parents Mr. and Mrs. Warren Stephenson of Vandalia, Ohio.

Arthur Owens who is attending school at Pikeville, spent the week end with his mother Mrs. Christine Owens.

Mr. and Mrs. H. T. Hartsough of Cincinnati, were here this week visiting with their relatives, Mr. and Mrs. C. W. Thompson.

THE HOMEMAKERS CLUB

The November meeting of the Walton Homemakers club was held at the home of Mrs. J. C. Bedinger with a goodly number of members and several visitors present. There were three new members added to the roll, Mrs. Chas. Thompson, Mrs. Harry Mann and Mrs. Russell Yealey. The business session was presided over by the president, Mrs. John L. Vest. Miss Gillespie made several suggestions as to the aims toward which the club should work. She urges regular and prompt attendance of all members. Meetings are held on the second Friday of each month at 1:30 p. m. The study period was conducted by the club leader of the years program Mrs. A. H. Gaines; in the absence of her assistant, Mrs. R. T. Conner, the demonstration was not given. The topic of "The Well Groomed Woman" is divided into various phases for the several meetings, the phase of the day being "Cleanliness and Care of the Skin." Suggestions helpful as to the use of soaps, and toiletries were given, also formulas for such articles that could be made at home and used more economically than those on the markets. The next months topic or phase of the topic is the manicure, each member is asked to bring the following articles, towel, small bowl, nail file, orange stick, cuticle remover, nail polish and buffer. The place of the meeting is the home of Mrs. E. E. Fry. The vice president, Mrs. J. C. Bedinger, is chairman of the membership committee with Mrs. E. E. Fry, Mrs. Pearl R. Johnson and Mrs. D. Hess Vest as committee members. If you want to become a Homemaker see any of the committee. No initiation fee or dues. At the December meeting a bit of the Christmas spirit will be had in an exchange of gifts and a good time together. Each member is asked to bring a gift the price of which is to be no more than 10 cents. Gifts committee—Emma Jane Miller, Mrs. W. O. Rouse and Mrs. William Sturgeon. Slogan—Every member present on time.

Born on Battlefield
A baby girl was born on the battlefield of Waterloo, between the cross fire of the English and the French, and not only lived, but grew up to become the grandmother of the youngest wife of Baron de Lesseps who first planned the Panama canal.

Birthday Celebration

Mrs. Jennie Wayman of Independence, Ky., celebrated her 84th birthday, Thursday, Nov. 12th at her home. Her sons, Dr. H. C. Wayman of Ft. Thomas, Ky., and Rel C. Wayman of Independence, grandchildren and many friends were present. Mrs. Wayman can recall many interesting happenings of Independence, most memorable being when the Rebel army invaded Independence and carried away our flag.

SPARTA

The L. & N. Railroad has beautified the depot with a new coat of paint, the first in many years, which is another sign that prosperity is just around the corner.

Mrs. Ora Greene of Lexington and Mrs. Sallie Carpenter of Owen, two former residents of Sparta were the guests of Mrs. Greene's brother, Chas. Brock, Monday.

The American Legion gave an oyster supper and chicken soup at the town hall Wednesday evening. A good sized crowd was in attendance.

Last Thursday a woman who gave her name as Mrs. Tyler of Eagle Station, drove into town soliciting for a family named Jas. Smith of Sanders, who had the misfortune to lose their house and clothing in a recent fire and were left destitute with seven small children. Everyone on whom she called gave generously and then she left town that afternoon for parts unknown and it is said she was a fake, securing clothing under false pretense.

County Agent Berge of Warsaw was here Thursday on business and had headquarters in the Sparta Creamery station.

B. F. Wilson of Dry Ridge, spent several days here this week on business. Mr. Wilson is closing out his mercantile business at reduced sale.

Miss Rose Jacobs who is a freshman at Villa Madonna College, Covington, attended an exhibition of Fine Arts held in Louisville, this week sponsored by the International Federation of Catholics. Miss Jacobs had the opportunity of viewing the poster that won for her a four year scholarship at College. The painting exhibited last June at the Cincinnati Museum won for Villa Madonna the Duveneck paint painting contest and sent the young artist on to fame.

A. Roter, William Brown, Mrs. Rex Kite and Marvin Afterkirk. Many

who were unable to get to the shower have sent gifts and Mr. and Mrs. Brown appreciate very much this friendly gesture.

Playing Cards as Cash

A fortune on a card had unique meaning for early residents of the historic French Canadian city of Montreal. In the latter part of the Eighteenth century real money was so scarce that playing cards were used as commercial tender, the signatures of three administrators of the French colony being inscribed on the back to make such "money" legal. The playing card money, together with a land transfer written on the back of a jack c hearts, is among the exhibits in the McCord National Museum of McGill university.

Honey Bees Lose Stinger

When honey bees sting they lose their stinger, it being fastened to their intestines, and this kills them. In other words their stinger is a single shot affair, whereas with the humble bee and wasps it is different—they can sting repeatedly without doing themselves injury; their stinger is something like a machine gun.

Clean Cows

Nearly every authority recognizes that the state of cleanliness of the cow's udder, flanks, and belly at the time of milking influences the quality of milk. The condition of the barnyard has a direct influence on the state of cleanliness of the cow. Muddy, dirty yards result in dirty cows which then require a considerable amount of hard work if they are put in proper condition for milking. Graded drained barnyards have an advantage.

MAKING A CHOICE

"Mother asked me what you wanted for your birthday, and I told her maybe you'd like something for the house."

"Oh, you did! And what did she select—new curtains or a pickled dish?"

From Dixie Land
Two-thirds of the world's supply of turpentine comes from the pine forests of southern states of the country. The principal use of this liquid is for thinning paints and varnishes. After the trees are tapped for the gum they contain, the substance is strained, and distilled. The distillate is turpentine and the residue in the still is rosin.

SMART KNIT WEAVES

By CHERRIE NICOLAS

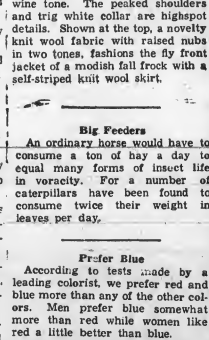

Just out! Jacquard knit fabric! These artfully patterned novelty knit wool weaves register the "something different" that gives zest to the mode. You'll love a blouse or perhaps a gilet or better still one of the very modish new waistcoats made of this jacquard knit weave. Two most attractive models are here shown. Zephyr wool and angora are combined in the jacquard knit fabric of the smart two piece frock pictured below. The edelweiss flowers in yellow and white scattered over the neatly fitted wine-colored overblouse are knitted into the fabric. The skirt is in a solid wine tone. The peaked shoulders and trim white collar are highest detail. Shown at the top, a novelty knit wool fabric with raised nubs in two tones, fashions the fly front jacket of a modish fall frock with a self-striped knit wool skirt.

Big Feeders

An ordinary horse would have to consume a ton of hay a day to equal many forms of insect life in voracity. For a number of caterpillars have been found to consume twice their weight in leaves per day.

Prize Blue

According to tests made by a leading colorist, we prefer red and blue more than any of the other colors. Men prefer blue somewhat over the red while women like red a little better than blue.

Peel Off Flaws of Pearl

As a pearl grows, it is possible
for an expert to "peel" off flaws or
imperfections if they are not too
deep. While a pearl may be
better in this manner, it is well to
remember that fine pearls are sold
by weight and the larger the pearl
the more it is worth per grain.

WARSAW, KY., 39 YEARS AGO

FROM THE INDEPENDENT PUBLISHED BY D. B. WALLACE

Warsaw, Ky., Jan. 16, 1907

The heaviest snow of the season
fell on Tuesday night, being about
three inches deep.

Business on the river is only fair.
The packet, City of Vevay, is laid
up. However, the steamer City of
Louisville had the heaviest trip on
Tuesday night that she has had for
over a year.

James Gale, an old and highly es-
teemed citizen of New Liberty, Owen
county, died at his home last Sat-
urday night, age 72 years. He is
said to be the oldest Odd Fellow in
the United States. He was also a
prominent Mason. He is the father
of John W. Gale, sheriff of Owen
county.

The little son of Robert Herrick
and wife has been quite sick.

Wm. O. McCan, who holds a
lucrative position with the John
Shillito Dry Goods Co., Cincinnati
is home here on the sick list.

Miss Mamie Cogrove, the popular
dressmaker at McDaniel & Sons Co.
left Sunday for her home in Louis-
ville, expecting to remain there un-
til spring.

Oatney Ross, the popular son of
Mr. and Mrs. Will Ross, who has
been dangerously ill with pneumonia
at his home near South Fork, is
slowly recovering.

J. Walter Payne and wife who
have been visiting her parents, Mr.
and Mrs. J. J. Payne, have returned
to their home near Middletown, in
Bourbon county.

A. M. Hickman of Terre Haute
Ind., who has been traveling in the
south for a business concern, is vi-
siting his parents Mr. and Mrs. Silas
Hickman.

John Wood of Owenton, and A. F.
Kuhlman of Cincinnati, were here
Saturday getting estimates for Mr.
Wood's new hotel to be built at
Owenton, this spring.

Josh Cropper, mate on the steamer
City of Louisville, is laying off this
week and Will Noble is substituting
for him.

John J. Richards of Walton, who
had been here on a visit to his sis-
ter Mrs. D. B. Allen, has returned
home. He is in partnership with his
brother-in-law Weden W. Dean in
stores at Walton and Crittenden.

H. T. Chambers, one of our es-
teemed citizens and business men
has been very ill the past three
weeks and is still in a serious con-
dition. His condition became so
serious that besides his regular phy-
sician, Dr. Wm. Bond of Sparta, and
Dr. Murnan of Cincinnati, have been
at his bedside.

Howard Fenton of Petersburg,
Boone county, the handsome and ac-
complished pilot of the steamer Sun-
shine, in the Cincinnati and Mem-
phis trade, has won a beautiful
young lady for his bride, Miss Nan-
nie Sparks of Monterey, Owen
county, Ky., and the ceremony is to
take place at the home of the bride's
father Capt. Sparks in Feb.

The death of Lewis Cox at his
home in the lower end of Gallatin
county of pneumonia, late Friday
was sad news to his many friends.
He was just 36 years old and the
idol of his parents, Mr. and Mrs.
John A. Cox. He was unmarried and
lived with his parents. He was a
Knight Templar and DeMolay Com-
mandery, Louisville.

On Friday morning, Jan. 8th, Mary
J. Hance, wife of J. W. Hance, peace-
fully passed "over the dark river"
into God's own paradise, there to
receive that rich award that awaits
such Christlike characters as was
her's. Mrs. Hance was born in Boone
county, 50 years ago, where she lived
until her marriage to J. W. Hance
one of Gallatin's best citizens. She
was the daughter of Stewart Baker
who was one of the wealthiest and
prominent farmers of Boone coun-
ty, and a sister of Hon. Harry Baker
one of the distinguished men in this
portion of this state. She is sur-
vived by three children, viz: Le
Hance, Mrs. Harry Adams and Bes-
sie Hance.

Died—Mrs. Charles Baker, age 82
Wednesday morning, from lung
trouble, at her home near South
Fork.

When the Romans Wed
June was considered a lucky
month for marriages. May an un-
lucky one, by the Romans.

WARSAW 33 YEARS AGO

Warsaw, Ky., Nov. 7, 1903

Sunday afternoon as the steamer
Tacoma landed here, one of the col-
ored deck hands ordered George
McDaniel to get off the checking
post as he was going to tie the boat's
rope to it or would knock him off.
Some words ensued and McDaniel
picked up an iron bar and struck
the man on the head, knocking him
into the river. He was fished out.

Last Saturday the Ku-ux-or Me-
dicine Company closed their engi-
ne house in Warsaw Oper House. The
house was packed to its capacity. In
the voting contest for the handsom-
est baby, Martha Wood received the
gold ring. For the most popular
young lady, Miss Aurs Kirby won
the prize, a gold watch.

Dr. J. Allen Sleet of Rabbit Hash
spent part of the week with his pa-
rents Mr. and Mrs. Marshall Sleet
near town.

Mrs. Fannie Hamilton of Will-
iamstown, Mo., arrived here Sunday
on a visit to her niece Mrs. J. F.
Donaldson. It has been nearly 40
years since she left Gallatin county.

Dr. H. S. Rowlett sold his resi-
dence property here last Monday to
Sheriff James W. Conley for \$2,000
and expects to move to Missouri.

Small pox is on the increase in
this section. The latest cases are
in the family of Vachel McDaniel.
His brother James R. McDaniel also
has it.

WARSAW 33 YEARS AGO

Warsaw, Ky., Jan. 16, 1904
Born—To Mr. and Mrs. George
Henry, Sunday, a 10 pound son.

Died—George Wash Roberts of the
South Fork neighborhood, Jan. 8th.

The young folks are enjoying the
cold weather by organizing skating
parties. There is good skating on
the Ohio river shore and ponds.

The Willing Workers of the Bap-
tist church, will have a candy pull-
ing at the millinery room of Mrs.
Eliza Blackmore Neal, Saturday
afternoon and night.

Wharfmaster John Williams has
his wharfboat in good shape. He
keeps his boat free from ice. Ground-
ed gorges ice ahead of this craft is
a great protection in case of heavy
running ice.

Charles Ross of the Cox neighbor-
hood has bought the merchandise
establishment of John W. Ewbank
at Steeles Creek and takes charge
this week.

Hon. E. E. Winnall representative
of Gallatin county was placed on
the Railroad Committee as chair-
man of the committee on Rules and
a member of the committee on Cor-
porations.

O. S. Clendenen, the purchasing
agent for the Continental Tobacco
Co., has received about 30,000 pounds
of tobacco up to present time.

Monday, Dr. C. E. Walton, Cin-
cinnati surgeon, was called here in
consultation with Dr. S. B. Robin-
son in the case of Mrs. John Heler
who was in a critical condition with
strangled hernia. It was decided
that a surgical operation was neces-
sary and was attended by Drs.
Walton, C. H. Duval, Robinson and
J. S. Brown. However the unfor-
tunate lady succumbed at 6 o'clock
that evening.

Miss Anna Carver fell on the icy
pavement, Thursday and sustained
slight injuries, but had to be as-
sisted home.

Wednesday, Thomas H. Edwards
22, and Miss Gypsy Wilson, age 19
of near Sparta, eloped to Cincinnati
and were married in the parlors of
the Gibson House.

The Ladies Aid society of the
Methodist church met last Thurs-
day and elected officers for the en-
suing year: President, Mrs. Laura
Larkin; vice president, Mrs. E. S.
Joseph; treasurer, Mrs. C. J. Sut-
ton; and secretary, Mrs. J. H. Mc-
Daniel.

During the suspension of naviga-
tion in the Ohio river, owing to the
heavy running ice, the J. H. McDaniel
Sons Co. and the Warsaw Furni-
ture Factory have been hauling
their goods to the railroad at Sparta.

Peter Weiden sold a very large

comfortable—safe.

It takes a lot of money to maintain
this "home" for you—\$40,000,000
per year for wages; \$12,000,000 for
materials and supplies; \$4,000,000 for
taxes; \$4,000,000 for fuel.

These are just a few items of our
carefully planned routine. But they are
contributing to the welfare of your com-

BEARCATS WIN OPENER

AGAINST A. J. JOLLY

Friday night at the Walton gym the Bearcats inaugurated their 1936-37 campaign with a 34 to 18 victory over the A. J. Jolly team of Campbell county. The Cats held a substantial lead throughout, and it was not until the fourth quarter with some of the regulars out, that the visitors were able to score with any degree of efficiency. The score being 31 to 6 at the start of the final period. The Walton Cubs were defeated 26 to 14 by the Jolly reserves.

KENTUCKY RETAIL MERCHANTS MEET

Louisville, Ky., Nov. 9th—Conrad Maraman of Shepherdsville, Ky., was elected President of the Kentucky Retail Merchants Association for the coming year at a meeting of the Association held at the Brown Hotel in Louisville on November 5th.

Other officers elected at the meeting were: Bernie Ellerman, Covington, Chairman of the Board of Directors; Shirley E. Haas, Louisville, Treasurer; James W. Smith, Campbellsville, First Vice President; James Pascook, Louisville, Secretary; and Mrs. Ruth Gilbert, Louisville, Field Secretary.

In addition to the above elected officers, several Directors and one Vice President were named in each of Kentucky's Nine Districts.

The Association went on record as opposing, and favoring the immediate repeal of the Omnibus Tax Law in the following resolution, which was unanimously adopted:

"WHEREAS, the Kentucky Retail Merchants Association in meeting assembled at the Brown Hotel in Louisville on November 5th, 1936, unanimously resolve that the Omnibus Tax Law, passed by the recent session of the Kentucky Legislature and signed by the Governor, works a hardship on both consumers and retail merchants alike; and

WHEREAS, it places an unbearable burden of competition on Kentucky merchants and favors to a large extent all out of State distributors such as mail order houses and retailers in bordering states and cities.

THEREFORE BE IT RESOLVED that we, the Kentucky Retail Merchants Association, request the Governor and members of the Legislature to repeal this unfair tax at the earliest opportunity.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to Governor A. B. Chandler."

Dr. C. H. Parsons, Ashland, Vice President of the Association, addressed the meeting regarding the advisability of the University of Kentucky adding to its curriculum a course in retailing. Dr. Parsons expressed the belief that such a course would be very welcome to many students, and at the same time would be of immeasurable benefit to the merchants of Kentucky and other states.

"THE IDLERS" HERE THUR. AND FRI.

Musical Comedy Sponsored by P. T. A. With a Cast of Fifty Voices

Those who have witnessed the last few rehearsals predict Walton will witness one of the most entertaining Musical Recreational Programs ever seen in this community. The routine contains many beautiful ensembles dances, solos, duets which is enhanced with comical scenes, which make ninety minutes of fast entertainment.

The cast is unusually strong this year and contains fifty-voices

The plot is written around the visit of a New York Reporter to the Dallas Inn, a society summer resort in the mountains. He experiences many thrilling adventures, coming in contact with the guests, the neighbors, the summer girls, the tennis dandies, Kloml and her fortune tellers and many others. His egotistical manner is quickly discovered by all assembled and he is quickly put in his place.

Three bums enter the Inn and rifle the Professor's safe, but are quickly discovered by Shady, the porter, and make a hasty exit, which is one of the bright spots of the entertainment.

Among the eighteen musical numbers to be sung appear "I'm Nobody's Baby" sung by the Professor and Chickie, an old spinster. "He Thinks He's the Whole Thing" one of the feature numbers of the entire program, introduced by the entire cast leading up to the final of the first act. "We Really Ought to Be Married" introduced and sung by the cast with a special comic feature introduced by the P. T. A. Ladies. Space will not permit the mention of other numbers, but each and every one is full of pep and presented with plenty of stage action and guaranteed to please the most fastidious.

Tickets are on sale at 15 and 25 cents each with reserved seats selling at 50 cents. The cast of "The Idlers," includes

extra and a lucky number is given every adult entering the gym and a basket of groceries for your Thanksgiving dinner worth \$2.50 in value. Persons purchasing reserved seats will receive two numbers.

"THE IDLERS" A BIG SUCCESS

Both Financially and Entertainingly
According to General Opinion

The musical comedy, "The Idlers," produced by Emerson G. Barrow and sponsored by the Walton Parent Teachers Association at the Walton High School Auditorium on Thursday and Friday evenings of last week, according to the consensus of opinion of those who attended, was an entertaining success and was well patronized both nights.

All of the characters were well up in their lines and every act was loudly applauded. The cast contained fifty-five voices and all were colorfully costumed.

Of course the Alhambra Band was present, prettily costumed and the little ones received untold applause.

A basket of groceries was given to the holder of the lucky number each evening. Thursday night, Miss Helen Vest was the winner, and on Friday night, a lady from Verona, was the lucky one. We were unable to get her name.

MOVED TO S. MAIN ST.

Mr. and Mrs. Glenn Law, a young couple, who have been making their home with his mother, Mrs. Helen Law on High street, moved to the C. D. Benson bungalow on South Main street, Saturday, when they have gone to housekeeping.

SERVED AS BRIDESMAID

Miss Glenn Edwards, daughter of Mrs. Sarah Edwards, served as a bridesmaid in the marriage of Gilbert W. Kingsbury and Miss Sylvia Irene Phillips in Covington, Saturday evening at 7:30 at the Grace Reformed church. Rev. Wm. E. Miller officiating. Mr. Kingsbury is sports editor of the Kentucky Post.

Young Boy Leaves Home

Sunday, Rayburn Simpson, the 14 year old son of Mr. and Mrs. Opal Simpson of Needmore street, disappeared from home and his whereabouts is unknown. Probably he has gone to fight Indians, but there are no hostile Indians, unless it is the Yucos in the southwestern part of the United States. His efforts will be in vain. However, he will return to have the fatted calf killed—when he gets hungry.

Marriage Just Revealed

The marriage of Ben Menke of near Walton, to Miss Anna Blanche Speagle, at the Christian church patronized by Rev. J. M. Ervin on Saturday, October 31st, has just become known. Mrs. Menke is the daughter of Mr. and Mrs. Tom Speagle of Verona. The many friends of Ben, with wife and his bride much happiness and prosperity. They are at home on his farm east of Walton.

BAPTISMAL RITES AT FLORENCE

Baptist Church Sunday Afternoon
When 19 Converts Are
Immersed

Sunday afternoon 19 new members of the Burlington Baptist church were baptized in the Florence Baptist church in the baptismal font by the pastor Rev. R. Lee Jones of the Burlington church. As the Burlington church had no baptismal font the converts were brought to Florence to have the rites administered. This was the result of a two week revival at Burlington.

THANKSGIVING AT FLORENCE BAPTIST CHURCH

Will Treat Its Membership to a
Free Turkey Dinner In Afternoon

Thanksgiving day will be celebrated at the Florence Baptist church. Rev. R. F. DeMolloy, the pastor, will deliver an appropriate sermon benedicting the occasion at 11 a. m., fast time, and at the noon hour the membership and their families will be treated to an elaborate turkey dinner in the church dining room. This will be followed by a program entitled, "Coming of the Mayflower."

Builds Nice Garage

Claude Norman, the efficient mail carrier of Route 3, has about completed a nice brick garage on his property on Edwards avenue. Claude did all the brick laying himself. In his spare time, and made an excellent job of it. The building cost \$200. Frank Norman assisted in putting on the roof. Claude is one of our ultra industrious young men and is deserving of much credit for his industry and energy.

Tom Conry's Store Changes Location

Tom Conry's liquor dispensary has moved from 34 Pike street to 415 Pike street, at junction of Main street where he will be glad to greet his many old friends. Mr. Conry is well known throughout Gallatin, Owen, Grant, Boone and Kenton counties, in fact he is well known throughout the entire Fifth District. Tom is a "square shooter" and honest in all representation of his goods. See his ad in this issue.

Boone County Schools

Organize to Sell Tuberculosis
Christmas Seals

The Boone County Protective Association Seals Boone County schools. Co-operating has been organized in Boone County for the purpose of selling the Tuberculosis Christmas Seals. R. V. Lenta, Principal of the Constance school is Executive Secretary and D. H. Norris, Supt. of Boone County Schools is the treasurer of the organization.

Boone County retains 50% of the sale of the seals to be used here in the county to aid in the prevention and control the white plague. Every school in the county is aiding in disposing of the Seals.

A beautiful trophy will be given to the school that sells the most seals based upon the enrollment of Dec. and an elegant electric clock will go to the school that sells the next most seals per pupil. A prize will also be given to the pupil that sells the most seals in his school district. Each school is also giving a prize to the pupil that sells the most seals in each home room.

This is a worthy cause and should have the support of the public spirited and thinking people everywhere. The Christmas Seal gives an opportunity for the old and young, the rich and poor, to help bear the great burden, and have a share in making Kentucky homes safer for Kentucky children.

When the Christmas Seal joined the crusade against tuberculosis in Kentucky, the great white plague was taking 227 out of every hundred thousand lives, and leaving thousands of our people ill with the disease. Now after twenty-five years under the banner of the Christmas messenger, our death rate has been reduced to 78 per hundred thousand and each year we see tuberculosis become less of a menace to the lives of our people.

The sale of the Christmas Seals will begin on Thanksgiving Day. Hundreds of the seals are being mailed to individuals and firms. If you fail to receive any seals, just drop a postal to R. V. Lenta, Prin. of the Constance School, Ludlow Ky., Route 2, and he will gladly send as many as you wish.

Join the crusade of the Christmas Seal. Purchase a hundred or more. Mrs. J. Walter Stephenson of Lexington, who has been here keeping house for her son-in-law Cameron Brakenfeld in the school building, daughter who is a patient in Good Samaritan Hospital, Cincinnati, O., left Wednesday for her home on a short visit to her husband.

Cameron Brakenfeld Brought Home Friday

Identifies Suspect Held In Stabbing, In Covington Jail

Cameron Brakenfeld, druggist at Jones Drug Store, Walton, who was critically cut by a man giving his name as Elma Lawson, Friday night, Nov. 13th, when Lawson crashed into Mr. Brakenfeld's car at Fourth and Scott streets, Covington, returned to his home here Friday. Before returning home he went to the Covington jail where he identified Lawson.

Assistant Chief of Police Alfred Scholtz, checked up on Lawson's finger prints through Director D. E. Hoover of the Federal Bureau of Investigation, U. S. Department of Justice, Washington, D. C.

Hoover stated that Lawson's print show that he was arrested twice in Bluefield, once as Jess Allen on a charge of grand larceny and another time as Jess Pennington on a charge of transporting liquor. He received a year's sentence on the latter charge, the report said.

Lawson, whose correct name, police say, is William Pennington, is accused of stabbing Brakenfeld on the above date.

Lawson also faces a Federal charge of automobile theft. He is alleged to have stolen the automobile of Ivan McKinley, 633 Burns street, Cincinnati, the night of the wreck with Brakenfeld's machine. Police reported that Lawson attempted to flee, and when Brakenfeld seized him the Bluefield man turned and stabbed him.

Lawson was later arrested in Cincinnati and returned to Covington. He made a complete denial to the charges and insisted his name was Elma Lawson. He also denied being arrested before.

A girl registered as Miss Madeline Caury, 17, also of Bluefield, burglarized a store, who police charge was with Lawson at the time of the accident, is being held on a charge of possession of a stolen car.

The Covington police are to be commended for the excellent work they have been doing in the detection, arrest and apprehension of these thugs and known criminals.

Lawson or Pennington's bond was raised from \$5,000 to \$7,500 and the Caury woman was released and given one hour to get out of Covington, or she would be put back in jail.

Mr. Brakenfeld is getting along nicely, though very sore on the stabs. He was able to be out on the streets, Wednesday.

Union Thanksgiving Service

Union Thanksgiving day services will be held at the Walton Methodist church and will begin at 10 o'clock in the morning instead of 11 o'clock, as announced in last week's Advertiser. Rev. C. J. Alford, pastor of the Walton Baptist church, will deliver the sermon. The public is most cordially invited to attend. Remember the hour, 10:00 a. m.

SUPPER A SUCCESS

The Thanksgiving supper given by the ladies of the Walton Christian church, in the church dining room, Tuesday evening, was a success both socially and financially.

WALTON LITERARY CLUB TO MEET ON DEC. 4th

The Walton Woman's Literary club will meet with Mrs. Blanche Coffman on Friday, Dec. 4th.

BAPTIST CHURCH WALTON, KY.

REV. C. J. ALFORD, Pastor
"Serve the Lord with gladness, come before His presence with singing. Ps. 100:2."

A class and a welcome for all.
11:00 A. M. Morning Worship
6:00 P. M. Jr. Int. and Sr. B.Y.P.U.
7:00 P. M. Evening Worship
This service will bring to a close our series of meetings.

Servants each night of this week at 7:00 p. m. "Come thou with us and we will do thee good." Perhaps it might help some of us to ask ourselves the old question: "What kind of a church would this church be if every member were just like ME?" Remember some day you will have to give an account to God. You will be the loser if you do not heed His call. God wants your cooperation your allegiance and support. "For we are laborers together with God."

Rev. and Mrs. Noble Lucas moved to Petersburg, last week. He is the pastor of the Petersburg and Sulphur Springs Christian churches.

DENHARDT GOES TO LOUISVILLE JAIL

For Safe Keeping Until Grand Jury Meets. States Mrs. Taylor Threatened Suicide

Brigadier General Henry H. Denhardt's bond of \$25,000 was canceled and he was taken to the Louisville jail where he is without bond to await the action of a Grand jury grand jury, because of "probable danger" that he might be rescued by violence from the Henry county jail.

Denhardt said that the evidence before the examining trial at New Castle, should have proven him not guilty and released him. He said the hundreds who had assembled at the trial "deliberately assembled to influence the court and made a Roman holiday of my prosecution."

The feeling is very strong against Denhardt in Oldham and Henry counties. Denhardt said his love for the murdered Mrs. Verna Taylor was too strong for him to have murdered her on the night of November 9th.

According to all investigation, the law contends some one murdered her. But who?

Sunday Denhardt told newspaper men that Mrs. Taylor threatened suicide the night of her death and said "let us die together." He said she seized his revolver and he took it away from her. He said she told him another man had been courting her since her husband's death and he had planned their marriage up to the time he (Denhardt) had given her an engagement ring.

Covington Merchants Will Celebrate Opening of Pike Street, Friday

The Pike street merchants will have a big parade Friday afternoon at 1:30 fast time beginning at the public library building. BIG FARM SALE OF 300 ACRES

By the R. G. Kinman Co. On
Saturday, Nov. 28, Near Union

The R. G. Kinman Realty Company, 408 Copple Building, Covington, Ky., will sell at public auction, beginning at 10:30 fast time, on Saturday, Nov. 28th, the splendid 300 acre farm of Mr. and Mrs. W. T. Upton, located on Rice Pike, 1 1/4 miles from U. S. Highway 42, near Union, Ky., 17 miles south of Covington. The land is level to rolling 200 acres in grass, 150 acres tobacco growing. Aside from the farm with a house almost new and all necessary outbuildings, the personal property will also be sold to the highest bidder, as Mr. and Mrs. Upton have decided to locate in Florida. This is an excellent opportunity for a progressive farmer to buy an ideal farm. The personal property consists of cattle, horses, hogs, etc. See ad in this week's Advertiser for further particulars.

Independent Tobacco Warehouse

The Independent Tobacco Warehouse of Cynthia, Ky., in this issue of the Advertiser, has an advertisement announcing the opening of its warehouse on Dec. 1st and sales to be held Dec. 8th. Alford, is meeting with great success and large congregations are attending nightly. Last week there were 14 additional. The public is cordially invited to attend all services.

Warsaw Man Is Found Dead In Bed

Beymer Bledsoe Dies of Heart
Attack Friday Night

Saturday morning when Beymer Bledsoe, age 56, failed to appear at breakfast at the home of Mrs. J. H. McDannell, about a mile east of Warsaw, Ky., a visit to his room disclosed he had died some time Friday night. He had been making his home with Mrs. McDannell for some time as an employee. The cause of his death was attributed to a heart attack. He was the son of Mr. and Mrs. Lemuel Bledsoe, deceased, and was born in Florence, Ind., and when a small lad he moved with his parents to a farm on the banks of the Ohio river about two miles west of Warsaw, and has lived in and around there ever since. He married Miss Mary Lee, daughter of Mr. and Mrs. George Lee of Carrollton, Ky. To this union was born a daughter, Miss Mary Lee Stols of Ft. Mitchell, Ky. His wife preceded him in the grave a number of years ago. He is also survived by two brothers, Lemuel, Jr., and Will Bledsoe, nieces and nephews, all of Warsaw. He was a member of the Warsaw Christian church.

His funeral took place Monday from his late home, Rev. H. Tinsley pastor of the Christian church presiding, an appropriate funeral discourse to an assemblage of relatives and friends, after which interment was in the Warsaw cemetery. Funeral Director J. Vernon Kemper had charge of the arrangements.

County Community Service

The quarterly communion services of the Boone County Christian churches will be held on Sunday, Nov. 29th at 2:15 p. m., at the Beaver Lick Christian church.

Funeral services were held at the Hopeful Lutheran church, Wednesday morning at 10:30. After appropriate funeral services the remains were laid to rest in the church cemetery. Funeral Director Philip Tallaferro, Erlanger, had charge of the arrangements.

Miss Anna Cleek Surprises Friends

By Her Marriage At Cincinnati
Wednesday, Nov. 25th

Friends of Miss Anna May Cleek will be interested to learn of her marriage in Cincinnati, on Wednesday, Nov. 25th to Mr. James E. McCabe of New Haven, Conn., and Tampa, Fla.

Mrs. McCabe, a daughter of the late Joseph W. Cleek, is well known in this section for her excellent qualities and ability, having taught in the High Schools of the County for several years.

Mr. McCabe was, for a number of years, an outstanding educator in the schools of New Haven, but more recently has spent the greater part of his time in the South.

They left immediately after the ceremony for a motor trip through the West, stopping en route to visit relatives and expecting to finally locate in San Antonio, Texas, for the winter, returning in the spring to the home of Mrs. McCabe on Federal Road No. 42 near Beaver Lick for the summer.

FATAL FALL

Aged Florence Lady Succumbs to
Injuries of Fractured Leg

Two weeks ago Mrs. Sally Fulton, age 91, a lifetime resident of Florence, Ky., fell down a flight of stairs and fractured her leg. The fall proved fatal, and she lingered until Sunday, when she died, just before her 92nd birthday. She is survived by her son Charles Fulton of Florence, with whom she made her home, a half-sister Mrs. Ary Rives and a half-brother Charles Tanner. Her husband, J. O. Fulton died 35 years ago.

Funeral services were held at the Hopeful Lutheran church, Wednesday morning at 10:30. After appropriate funeral services the remains were laid to rest in the church cemetery. Funeral Director Philip Tallaferro, Erlanger, had charge of the arrangements.

Rev. and Mrs. F. S. Pollitt of Huntington, W. Va., are visiting their relatives Mr. and Mrs. J. O. Bedinger.

Land of Opportunity

American's who knew him, or who were acquainted with his record as a public servant, feel a keen sense of loss in the sudden death of Vice President Charles Curtis, who passed away at the age of seventy-six in the nation's capital recently.

Mr. Curtis was a thorough American in thought and in deed. His record as congressman, senator and Vice President was one of which any citizen who had risen from humble beginnings with common school education, to such a high estate, might well feel proud.

We can find a lesson, however, not only in Mr. Curtis' long and unsullied record but in the fact that his life proves to us once more that the United States in a "land of opportunity." Spending his early years on an Indian reservation, in humble surroundings, Mr. Curtis worked his way up the ladder through his own individual efforts and the strength of his character.

Appearing in his youth in many jobs, including that of jockey, he finally entered the law and became a county attorney in Kansas, previous to his election to the Congress of the United States. He first took office in 1893 and fourteen years later went into the United States Senate. After one term in the Senate he was defeated for reelection and then came back two years later being re-elected in 1920 and again in 1926. In 1928 he was chosen Vice President of the United States.

When we begin to doubt again that this is the "land of opportunity" which our fathers said that it was, let us look over the record of Mr. Curtis. He permitted no obstacle to overcome him. He worked his way to the front by dint of his own efforts. Fortunately for him, in his youth there was no socialist incentive for one to throw up his hands at the futile question "what's the use?" and then demand "security" through federal regimentation.

What this Kansas boy could do boys of today may accomplish. This is still the "land of opportunity," no matter what the Theodore Dreisers and other defeatists may tell us. It requires, however, personal character, enterprise and perseverance to develop the opportunity once it is found. This cannot be done on governmental fiat. It must be accomplished by the youth at home not by a federal bureau at Washington.

Here is one lesson which may be gained by looking at the record of this Kansas boy, one-eighth American Indian, who became a popular and beloved Vice President of the United States—National Republic

Announcing THE FORD V-8 FOR 1937

The Quality Car in the Low-price Field

V-8 65 HORSEPOWER
Maximum Performance with Good Economy
Bore, 3.02 in. Stroke, 3.75 in. Displacement, 221 cu. in.

Two Engine Sizes - One Wheelbase
AND A NEW LOW PRICE

V-8 60 HORSEPOWER
Good Performance with Maximum Economy
Bore, 2.8 in. Stroke, 3.2 in. Displacement, 128 cu. in.

THE New Ford V-8 for 1937 is the most beautiful Ford car ever offered. It is built in only one size— one standard of roomy comfort and modern appearance. But you may have either the improved 85-horsepower V-8 engine for maximum performance—or the new 60-horsepower V-8 engine for maximum economy. The smaller engine makes possible a lighter car—lower operating costs—and a lower price.
When you drive the 1937 Ford with the 85-horsepower V-8 engine, you are master of a power plant that gives everything you can possibly demand in speed and acceleration. Today, improved carburetion enables it to deliver its thrilling performance with unusually low gasoline consumption.
The new 60-horsepower V-type 8-cylinder engine delivers V-8 smoothness and quietness—even at speeds up to 70 miles an hour—with gasoline mileage so high that it creates an entirely new standard of economy in modern motor car operation.

We invite you to see this new Ford car, and arrange to drive one equipped with the engine that fits your needs.

BASE PRICES \$480 AND UP

AUTHORIZED FORD FINANCE PLANS
\$25 a month, after usual down-payment, buys any model 1937 Ford V-8 Car—from any Ford dealer—anywhere in the United States. Ask your Ford dealer about the easy payment plans of the National Credit Company.

FEATURES
APPEARANCE—A newly designed car. Head-lamps recessed in fender aprons. Modern lid-type hood hinged at the back. Larger luggage space. Spare tire enclosed within body. Completely new interior. Slanting V-type windshield opens in all closed cars.
COMFORT AND QUIET—A big, roomy car. Extra space in the body, not taken up by the engine under the hood. Comfort of the Center-Pole Ride further increased by smoother action of the long-tapering springs, with new pressure lubrication. New methods of mounting body and engine make this a quieter car.
SAFETY
BRAKES—New Easy-Action Safety Brakes, of the cable and conduit control type. The safety of steel from pedal to wheel. Self-emergent car momentum is used to help apply the brakes. Tests show that about one-third less pedal pressure is required to stop the car.
BODY—Not an ounce of wood used for structural strength. Frame structure all steel, sheathed with steel panels—top, sides and floor. All are welded into a single steel unit of great strength. Safety Glass all around at no extra charge.

King Edward's Pleasant Country Residence

When King Edward of England is not traveling or kept in London by official business he resides in Fort Belvedere, his country home, which is set in a beautiful wooded region. His Majesty has taken great interest in laying out the grounds and planning the tennis court and the swimming pool.

Gems in Volcanoes

Three of America's semi-precious stones are products of Hawaiian volcanoes. The olivine, most widely known of these, is a transparent olive-green stone somewhat like an emerald. "Pele's pearls" are amber-colored formations produced by lime seeping through crevasses. "Hawaiian diamonds," rarest of the three, are found inside another stone, the moonstone. Like true diamonds, which they resemble, they are a carbon formation, but only nine points in hardness compared with the ten points of the real diamond.

King Ethelbert

The man originally responsible for the fact that most Anglo-Saxon descended peoples are Christians, was baptized in 597 A. D. This was Ethelbert, Saxon king of England, whose conversion by St. Augustine was the most important since Constantine the Great was baptized on his deathbed at Constantinople. Ethelbert's Christian zeal caused 10,000 of his subjects to be baptized in the River Swale the following Christmas day, and firmly established the faith in the West.

The Mission San Francisco de Los Tejas at Crockett, Texas, was built in 1690. It is near the site of the old Tejas Indian village of Mabe-dache.

Coach for the Holy Ghost

For centuries in monarchical Spain, even to the day it became a republic in 1831, every royal procession included an empty coach, the coche de respeto. This beautiful carriage, writes Rachel L. Woodhouse, Madison, Wis., in Collier's Weekly, which preceded that of the king in both rank and order, was reserved exclusively for the Holy Ghost.

No Mound Builders' Notes
It is not believed that the mound builders had any written language, as no inscriptions or tables indicate this, the inscriptions on rocks so common in the country they occupied being regarded by the highest authorities as of "doubtful parentage."

Study of Mosquitoes
In a Capetown, South Africa, aquarium one may follow in safety the four stages of development which every one of the more than 1,000 species of mosquitoes undergoes. First is the raft stage, so-called because as many as 400 eggs congregate; then the larva, when the raft "dissolves;" third, when each larva near the surface puts up an infinitesimal nozzle for air and last when it develops wings, legs and feelers, walks on the water, then flies away.

Responded to Troop Call
On April 19, 1861, just three days after President Lincoln's call for 75,000 troops, two regiments of Ohio were on the way to Washington — without guns, ammunition, uniforms, and other accoutrements.

smiling. What's worrying you?

Stingo—My past—Pathfinder

*We're putting in coal
too, neighbor!*

Yes, sir! Winter's com-
ing and we're getting
ready for it just as you are.
Putting in coal. Keeping
fires going. Doing all
the things that keep a
home warm and friendly.

You see, we maintain a home-
your "Home Sweet Home" on rails.
We buy coal—thousands of tons
—we build fires... shovel snow
—and remove sleet and ice... so
that your "home on rails" will be
pleasant, inviting, safe, no matter
what the weather.

And though sometimes you may

be inclined to think of us as noth-
ing more than a safe, comfortable
means of transportation... we are
actually a neighbor of yours—a
very human sort of neighbor with
a banking to talk with you
across the fence about the homely
things that concern us both. That's
the way with neighbors, isn't it?

WARSAW, KY., 38 YEARS AGO

FROM THE INDEPENDENT PUBLISHED BY D. E. WALLACE

Warsaw, Ky., April 9, 1886

J. R. White has moved his gar-
age to the rooms formerly occupied
by Mrs. Amanda McDaniell, who
moved to the Bailey Lineback
dwelling on Market street.

J. F. Donaldson and D. E. Gibson
are planting their nursery on the
Capt. Gibson farm near town. They
have the largest assortment of for-
est tree seedlings in the state.

H. D. Clore, druggist, spent Wed-
nesday in Rising Sun, Ind., on busi-
ness.

Mr. and Mrs. Harve Winn of
Sparta, were here Thursday.

Mrs. Ed Winters left Sunday on
the steamer for Louisville, on a
visit to relatives and friends.

Clarence Rader and Jesse Mon-
gomery spent Wednesday in Vevay
Ind., on business.

Eddie and Charles Marshall re-
turned their positions on the steamer
Dick Brown, Tuesday.

Mrs. Joseph Wilcher has been im-
pelled the past week, but is improving
ill.

Joseph Cassell, our Italian harpist
furnished music for a church party
given by June Gale, Friday evening
at Owenton.

D. B. Wallace returned home to-
day (Saturday) from a very extend-
ed trip in Ohio and throughout the
northwest, to St. Paul and Minne-
apolis, in the interest of his coal
business.

Bailey & Rowlett are preparing to
install a nice soda fountain in their
drug store.

The Ohio river has fallen very
rapidly since last Saturday and is
well within its banks. All the boats
are now running on regular time.

Tuesday the water was off the roads
leading to Warsaw, and quite a
number were here on business.

Die!—The infant daughter of Mr.
and Mrs. J. H. McDaniell, Jr., on
Tuesday night. The little one had
been ill for about five weeks with
bronchitis.

Billy Lepper, formerly clerk on
the steamer Bostona in the Cincin-
nati and Louisville trade, who went
to Alaska on the Klondike gold
strike, writes home March 24th
from Calgary, Northwest Territory
British Columbia, as follows: We
have been very busy selecting our
outfit and now have it OK and are
ready to go on to Edmonton, which
is about 200 miles north of here. Our
train has been snowbound for three
days and I expect it will be tomor-
row before we get away. Now I
suppose it will sound queer to you
when I say now, but I have not
seen anything else since I came
here. Last night we had a blizzard
and it was only 20 degrees below
zero, yet the cold is not felt much
as it is so dry. I would dislike to
live here as it is so cold in many
ways. We have met some very fine
people here but the majority are
cowboys, Chinamen, Indians and
red-headed girls. I never saw so
many red-headed girls in all my
life. Quess red hair keeps them
warm. I went to church last Sun-
day night and enjoyed it very much.
The singing was just grand, and
they treated me fine and they call
me "the Yankee visitor from the
East." Everything goes on here in
a slow way—none of the stores open
until 8 o'clock. No one is in a hurry
yet there is a great deal of business
done. I am fat, saucy and happy.
Will

The Owenton Herald says: "Every-
body knows Judge J. W. Green lost
a leg on a Southern battlefield. His
nearly appointed Master Commis-
sioner E. C. Vallandigham, has
but one arm; the County Assessor
D. A. Lilly, only one leg and the
lately retired jailer, B. F. Snelson
is a one-armed man."

The wharfboat was moved back to
her regular moorings from the Ind.
side of the river, Sunday, where it
has been since the extreme high
water.

The Vevay and Cincinnati pocket
Dick Brown resumed her trips Mon-
day after a lay-up of five days owing
to the high water in the river.

Capt. John Hamilton is now mas-
ter of the steamer Dick Brown, sup-
plying the vacancy caused by Capt.
Ed Long who is home in Vevay, Ind.

The New Orleans and Cincinnati

steamer, New South, landed here

last Sunday putting off a large as-
signment of shingles for McDaniell
& Sons.

The steamer Bostona is lying at
Covington, Ky., undergoing repairs
having struck the C. & O. Railroad
bridge at Cincinnati, tearing away
one of its wheelhouses.

The small stern-wheel steamer
Louise, that plys between Florence
and Aurora, Ind., is doing a good
business.

The steamer Buckeye State, in the
New Orleans and Cincinnati trade
landed here Tuesday night and put
off two carloads of shingles for Mc-
Daniell & Sons. Her master, Capt.
McNairy, stated the Mississippi and
Ohio rivers were out of their banks
and a drove of cattle they had on
board had to be driven through two
overflows by men on horseback in
order to get them on the steamer.

WARSAW 34 YEARS AGO

Warsaw, Ky., July 26, 1902

Oil White is building an addition
to his lively stable.

An opposition steamer, City
of Wheeling, has entered the Madison
and Cincinnati trade.

Wednesday evening, Miss Willie
Mower Gibson entertained a large
number of her young friends at her
home near town, with a guessing
party.

Mr. and Mrs. John Gibson and
three children of Napoleon, were
visiting relatives and friends here
Wednesday.

Chas. R. Wood and daughter Miss
Emma left on the night boat Wed-
nesday for Louisville, where he will
consult a specialist.

Ky., arrived here Monday to attend
the funeral of little Leonard Payne
son of Mr. and Mrs. R. F. Payne.

Mr. and Mrs. J. B. Wallace left
Monday for Owenton, Ky., to at-
tend the annual session of the Ken-
tucky Press Association and will
accompany it to the northern lakes.

George Gibbs and wife of Rising
Sun, Ind., were here Wednesday
and have contracted with Carl Han-
son and James Abbott to erect a dwell-
ing for each on the Job Stephenson
subdivision to Warsaw, above town.

T. Jeff Miller of Steeles Creek, was
here Monday on business. His son
Zach T. Miller, who was district
manager of the Prudential Life In-
surance Co. of St. Louis, Mo., has
been promoted to a more lucrative
position in New York City at a sal-
ary of \$6,000 per year.

Die!—Leonard, the young son of
Mr. and Mrs. R. F. Payne, Saturday
night, of flux and whooping cough.

Bed Glosser, age 32, residing on a
house boat at Elbridge, who follow-
ed fishing for a living, died Satur-
day night, leaving a wife and
several children. Burial in I. O. O. F.
cemetery.

The editor and the local man of
the Independent have gone to the
33rd annual meeting of the Kentucky
Press Association which met at
Owensboro, Tuesday. From there
they go to Toledo, thence to De-
troit, by lake steamer to Clinton on the
Great Lakes. During their absence
this paper is gotten out by the office
force.

Helen, her mother Mrs. Ella Jacobs
of this place, six sisters Misses
Stella, Roberta, Katie and Julia
Jacobs of Sanders, Josephine of
Owenton and Florence of Coving-
ton, two brothers John of Covington
and Frank of Sparta. She is also
survived by a host of relatives and
friends. Funeral services were held
at the Catholic church in Warsaw,
Monday morning at 9 o'clock. The
sympathy of this community is ex-
tended to the entire family.

Death of James Gayle of Carrollton
James Gayle died at his home in
Carrollton, Sunday night, Nov. 15th.
He was stricken on Nov. 14th with
a paralytic stroke and within a few
hours pneumonia developed, caus-
ing his death. All that willing hands
could do was bestowed upon him but
to no avail. He was born in New
Liberty, Ky., in 1871. In early life
he cultivated many friends both in

business and everyday life. He served
as cashier of the New Liberty
bank and later he was made cashier
of the Third National Bank of
Louisville. Later Mr. Gayle became
involved in politics and after mov-
ing to Carrollton, several years was
appointed mayor of the city. He

May Net Speak to Men

Several white, Christian countries deny to women some of the most common privileges of mankind, says Collier's Weekly. An outstanding example is Armenia, where, throughout an area of 6,000 square miles, women are not allowed to speak to any man except their husbands. In all their dealings with other men, such as storekeepers, they are required to use a sign language.

"Now I Lay Me—"

This child was hurt when a tornado struck Tupelo, Mississippi, necessitating medical and nursing care for hundreds—care which in many cases could not have been given without Red Cross assistance. It is a fine tribute to the organization that the young beneficiaries of its health and relief services invariably place themselves in the hands of the Red Cross with a completely confident, "Now I lay me—"

RED CROSS HIGHWAY POSTS AID INJURED

1,000 Function At Key Points To Give Emergency Care To Traffic Hurt

Highway first aid stations, set up by the Red Cross to give emergency care to victims of traffic accidents, are saving lives, according to James L. Fleiser, vice-chairman in charge of domestic operations.

"More than 1,000 of our emergency posts are already operating in 47 states and thousands of others will soon be established at key points along America's highways," Mr. Fleiser stated.

The Red Cross highway posts are concentrated at danger spots in rural areas where medical aid is not readily available. The importance of this coverage of the open road, the Red Cross holds, is given sharper emphasis by the fact that there has been a 150 per cent increase in rural traffic fatalities during the past twelve years.

The project was initiated last year on a national scale as a practical approach to the highway accident problem. The Red Cross felt that it could best apply its strength by succoring those who continue to be injured pending a reduction in the highway accident rate through legislation and safety education.

"Our program brings first aid skill to the scene of accident in an effort to reduce the number of persons killed and maimed in automobile mishaps," Mr. Fleiser said.

"Our highway first aiders are not medical men in any sense, but it is their job to turn the injured over to the medical profession in the best shape possible."

The Red Cross highway posts are established at gasoline service stations, tourist homes, rural police and fire departments. The personnel of the posts are trained by the Red Cross in first aid, standard first aid equipment is installed at each station, and identifying signs for the benefit of motorists are erected beside the highway at both approaches to the station.

The attendance of these roadside units who qualify as first aiders volunteer their services through the Red Cross and may under no circumstances accept pay for caring for the injured.

To complement the highway first aid stations, the Red Cross has announced formation of mobile units. Several thousand trucks which regularly ply the highway in the course of routine work will be equipped with first aid kits. Drivers and crews will take courses in both standard and advanced first aid, and each truck will be identified as a Red Cross mobile unit. More than a hundred trucks are already operating.

"The highway police of eight states who have finished first aid training will join this army mobilized to cut accident fatalities and prevent complication of minor injuries through mishandling at the scene of accident," Mr. Fleiser said.

"We receive reports from our first aid stations daily, telling of essential care given to traffic casualties on the spot and of lives actually saved."

This and many other Red Cross programs of equal value are supported by the people of America through the annual Roll Call for members. This year the Roll Call will be held from November 11 to 26.

First aid and life saving certificates issued by the American Red Cross since the start of the service 26 years ago now number 1,838,702. During the past year the Red Cross qualified 222,493 persons in first aid and taught water safety and rescue methods to 80,851.

This army of First Aiders and Life Savers is one of the great safety factors in the nation. They are trained to give immediate first aid at the scene of accident, thus saving many lives and preventing permanent injury. Red Cross training includes skill in treating for shock, splinting fractures, checking arterial bleeding, applying artificial respiration, towing drowning persons to safety, and in the safe handling of boat and canoe.

Last year the Red Cross reached 10,000,000 homes with check lists of accident hazards in a nationwide program to reduce the incidence of home and farm accidents. This year home accident fatalities were cut by several thousand according to statistics. A similar campaign has been launched this year through Red Cross chapters.

GEORGE WHITE'S NEW STAGE "SCANDALS"

BOASTING CAST OF 100, TO OPEN AT TAFT THEATER IN CINCINNATI ON DEC. 6

Twelfth Edition Of Famous Revue Booked In Cincinnati
For One Week — Popular Price Scale Arranged

With the critical acclaim of New York, Chicago, Washington, Boston and Philadelphia play reviewers and theatergoers behind him, George White will personally present his newest edition of the stage "Scandals", twelfth in the notable series, at the Taft Theater, Cincinnati, for one week only beginning Sunday evening, December 6.

In order to give all theatergoers an opportunity to see the new "Scandals", producer White has arranged a popular scale of prices. The price scale evenings, including Sundays, will range from \$1.00 to \$2.50, plus tax. The price scale for the matinee on Saturday only will be from 75c to \$2.00.

Playgoers are urged to buy their seats well in advance to get choice locations. A special staff to take care of mail orders has been organized. Patrons are requested to send checks or money orders to the order of J. H. Thuman, Taft Theater, stating number of seats, performance and locations wanted and these will be filled in order of receipt.

Not since he started Broadway into a burst of feverish enthusiasm over the initial "Scandals", has George White assembled a cast and production so worthy of his managerial reputation as in his forthcoming, extravaganza which he has peopled with a galaxy of stage and screen stars for what he believes to be his peak musical revue.

"The new 'Scandals'", states producer White, "has been a year in the making. Dozens of sketches, dozens of production ideas and dozens of songs have been written and rewritten before each individual item in the programme was finally accepted as worthy of the newer and greater 'Scandals' I have been assiduously laboring to produce. An instance in point is my chorus ensemble, always noted for its rare beauties. Having set a high mark with my gorgeous dancing girls in the past, I determined to outdo myself on this occasion and interviewed upwards of five thousand beauties before I selected the seventy-five who now comprise my 'Scandals' chorus. All in all, it is my sincere belief that from a standpoint of talent, sketch and song material, as well as in costumes, lighting and settings, I have eclipsed anything that I have heretofore done in the field of extravaganza."

The new "Scandals" is in two acts and thirty-five scenes and boasts a cast of more than one hundred. The uproariously amusing Willie and Eugene Howard, and the ever-delightful Helen Morgan head the brilliant array of stars gathered by Mr. White for the new "Scandals". Others in the cast of more than one hundred include Earl Oxford, George Dewey Washington, Stanley Twins, Sam, Ted and Ray, Richard and Lane, Estelle Jayne, Gloria Rich and Fred Manatt.

BEAUTY IN TRUCK DESIGN

DESIGN reaches unmatched heights in the streamlined White over-engine tank truck pictured above. It was styled by Count Alexis de Sakhnoffsky, internationally noted authority on streamlining and is typical of ultra-modern types, embodying new safety features as well as beauty, now in regular production at The White Motor Company, of Cleveland. A far cry, indeed, from the ugly truck designs of a few years ago.

TYROLEAN INFLUENCE

The Austrian Alps have given the ladies a new beauty ideal. Screen and stage actresses, wearing one of the new models inspired by the quaint headpieces of the men of the Tyrol. Miss Hayes is appearing in the Broadway hit, "Victoria Regina," and broadcasts Monday nights over the NBC-Blue network in "Sambo," a popular serial drama.

FORMER GLENCOE
WOMAN DIESFeature Writer and Special Reporter
On Cincinnati Enquirer
For Ten Years

Mrs. Sally English Spicer, age 63 member of the editorial staff of the Daily Enquirer, Cincinnati, for 10 years, died last Thursday morning in a private hospital at Columbus, Ohio, after a long illness from a stroke, affection that was incurable. She was a valued employee of the Enquirer, but her ailment compelled her to resign her position.

She went on the Enquirer staff from the old Commercial-Tribune. On that paper she edited the travel and resort section of the Sunday edition and covered special assignments. Miss Sally—as her coworkers knew her—could cover any kind of assignment, is stated by the Enquirer staff, sometimes going out of town on stories men usually would be assigned.

For years she taught school in Latonia, Ky., then at the Guilford school in Cincinnati. Previous to this she married Elmer Spicer of Carrollton, Ky., who died a few months after her marriage.

Mrs. Spicer was born in Glencoe, Ky., and was the daughter of B. W. Norman, owner of a woolen and hemp mill many years ago. Her mother was Melissa Stevenson Norman. She was educated in Glencoe schools, and afterwards was a student at Kentucky Female Orphan School at Midway, Ky.

Previous to going to the Columbus hospital, she made her home with her niece, Mrs. J. Neal Griffith and husband.

She is survived by two brothers, B. W. Norman of near Walton, and Edward Norman of South Park, in Boone county; five nieces, Mrs. Kate Dickson, Mrs. McKinley Mahoney Lusk, Mrs. Hubert Romaine, Mrs. A. J. Myers, P. Thomas, Mrs. Arthur H. George, Fleming, N. Y.; two nephews, Frank and Norman Duncan of Latonia, and grand-nieces and grand-nephews.

Her funeral took place from a P. Thomas funeral home at 10:00 Monday, after which the remains were taken to Glencoe, her old home for burial.

SCHOOL BUILDINGA Beautiful Modern Structure to
Be Built With Federal Aid

Plans for the building of a modern common and high school building at Warsaw, Ky., have been submitted and approved by the government, it being a FWA project, at a cost of \$72,000, the government to furnish \$31,000 and the state and county the balance, \$40,000. The building is to be erected just east of the present school site. Plans and specifications are to be submitted for the approval of the state and county board of education.

The structure is to be equipped with an auditorium, gymnasium and recreation hall, according to County Superintendent, William Harris, who is quite enthusiastic over this much needed and necessary feature for the town of Warsaw.

Bids for the erection of the building will be advertised for in a short time.

As Warsaw is installing a splendid sewerage system, has a fine waterworks system and electric light plant, all these features will be incorporated in the erection of the new school. It will also prove of great advantage from an educational standpoint.

Through the untiring efforts of Superintendent Harris and the progressive citizens, this great improvement was made possible.

BEARCATS DEFEAT

BEECHWOOD 30 to 19

On Wednesday evening of last week, the Walton Bearcats annexed their second victory of the infant season by turning back the Beechwood basketballers of Ft. Mitchell, 30 to 19.

Throughout the first half the Cats missed many good scoring chances and were only able to hold a 10 to 7 advantage at the intermission. Walton teams have always played better in the first half, provided the score is close, and last week's game was no exception. The locals played much better ball in the final session, outscoring their opponents by 8 points, to make the final reading, 30 to 19 in their favor.

DeMolsey, IV, was the scoring star for the Bearcats with 14 points and Cook was second with 9. For the losers, Northcutt was high scorer with 9 points.

In the preliminary game, the Walton Cubs were defeated by the reserves of Beechwood, 26 to 23. McElroy was leading scorer for Walton with 10 points.

Kenton County Faculty Club

On Monday evening, November 3rd, Piner High School was host to seventy-eight members and guests of the Kenton County Faculty Club. Upon their arrival the guests assembled in the study hall, after which they were invited to the auditorium where a most tempting dinner awaited them. The tables were decorated in keeping with Thanksgiving; brown and orange paper, place cards and candles making an attractive setting. The menu consisted of turkey, dressing, gravy, cranberries, sweet potatoes, rolls, coffee, ice cream and home made cake, for which Piner is very famous.

Following the dinner a short musical program was given. Irene Piner and Ruby Callen of the Sophomore class gave two numbers, accompanied by Miss Louise Talbott; the Girl's Glee Club sang three numbers; Dora Elisabeth Trapp, member of the 8th grade, gave selections on the accordion.

The guest speaker of the evening was Dr. W. S. Taylor, Dean of College of Education, Lexington, Ky., who brought an interesting and inspired address on "Eight Modern Trends in Education." Short talks were made by Mr. George Gray, Mr. J. A. Culbertson and Mr. Elmer Rich. All members of the board and Superintendent Robert Shanon.

Among the guests at this lovely dinner were Miss Anna Peck, critic teacher at University of Ky., Mrs. Robert Shanon, Mrs. Robert Eudd, Mrs. J. A. Culbertson, Mrs. John Prather, Mrs. Lillian Faber and Mr. Raymond Beavary of Walton.

Thanksgiving Service
At Methodist ChurchWell Attended and Fine Sermon
Delivered By Rev. Alford

Thanksgiving services were held at the Walton Methodist church Thursday morning and were well attended by members of the three churches. Rev. C. J. Alford of the Baptist church, delivered a splendid sermon. A quartet composed of Mrs. Mary Jane Calloway, Mrs. Carl Conner, Lyle Clemons and Malcolm Simpson sang an appropriate sacred song.

Rev. Alford, who is a stranger in our midst, has an attractive personality, fine delivery, and his splendid sermon was very appropriate for the occasion and thoroughly appreciated by the congregation. He no doubt will become very popular with the Baptist membership.

Rev. J. M. Ervin of the Christian church and Rev. R. R. Rose of the Methodist church, assisted in the program.

When He Crashes Into Truck

W. L. McMakin, 55 years old traveling salesman for the Belknap Hardware and Manufacturing Co., Louisville, Ky., who resided at Lagrange, Ky., was killed Friday near Lagrange, when he struck the rear of a State Highway truck parked near that city.

Mr. McMakin is widely known in Northern Kentucky and has many friends throughout his territory. He recently visited Walton and sold the Conrad Hardware a bill of goods.

His brother, George B. McMakin, who formerly made this territory, is one of the official staff of the Belknap Co., Louisville.

JUDGE MATTHEWS
DIES OF INJURIESGhent Police Judge Succumbs
To Auto Accident

Judge L. G. Matthews, age 70, Ghent, Ky., died Tuesday morning in St. Joseph's Hospital, Louisville, where he was taken Thanksgiving Day.

The judge was walking across Highway 42 in Ghent, and in avoiding one car was struck by another. Dr. J. S. Brown reported both legs broken.

Judge Matthews was born at Mayfield, the son of the late Rev. and Mrs. Robert Lewis Matthews. His father was a Presbyterian minister and at one time Consul to Italy.

Judge Matthews was a graduate of the Ghent School and the University of Michigan. He was an accomplished pianist and had traveled widely.

For more than 30 years he had been Police Judge of Ghent. He was a Mason.

Survivors are a sister, Mrs. Lucy Hammet of California, and three brothers, Will Matthews of England, Robert and Paul Matthews of Chicago.

Miss Virginia Moore, a student at Transylvania college, Lexington, was the guest of her parents Mr. and Mrs. Robert Moore.

Suit To Invalidate
1936 Income TaxIn Kentucky Brought In Franklin
Circuit Court Saturday

Saturday, a suit seeking to invalidate the 1936 income tax law was filed in the Franklin Circuit Court at Frankfort, by A. H. Grayburn and the Inland Gas Corporation, through W. E. Lockhart, trustee, against the State Tax Commission.

Grayburn sued in behalf of himself and all other taxpayers. He asked the court to hold the act invalid on the following grounds: (1) Discriminatory classification of property for taxation; (2) a corporation is not taxed at the same rate as an individual, and (3) no provision is made for a referendum.

The Inland Gas Corporation of Ashland contended the act was unconstitutional because corporations are taxed at 4 per cent and individuals at a lower rate.

The law firm of Caldwell & Gray of Ashland and John C. Vigor represented the plaintiffs.

Grayburn averred the law violated both Federal and State constitutions. He contended it made an "unreasonable, arbitrary and discriminatory classification of property," that the rates were unfair and there was no uniformity.

The income tax law provides for a tax ranging from 1 per cent to 5 per cent on incomes of individuals and 4 per cent on incomes of corporations. Exemptions of \$1,000 are given to single persons, \$2,500 to married persons and \$400 for each dependent.

The corporate taxes are payable now for corporations doing business on a fiscal year basis. Taxes for individuals and for corporations operating on a calendar year basis are payable not later than next April 15.

With Long Ruffle

An elongated ruffle which extends from around the neck down to the hem of the skirt trims Ginger Rogers' dress of gentian blue crepe printed with tiny bright blue cream-colored. Her accessories are a Dache hat which, in design, is newer than next week. The trim is tied up by means of a blue cord which matches the net that forms the crown.

"I hope that's a nice book for you to read, darling," said the conscientious mother to her young daughter. "Oh, yes, mummy, it's a lovely book, but I don't think you'd like it. It's so sad at the end."

"How is it sad, dear?"

"Well, she dies and he has to go back to his wife."

The Household

By LYDIA LE BARON WALKER

WOMEN who do their own laundry work can save themselves labor and time by following the suggestions given today. Be sure to sort clothes carefully so that danger of colors from one article to another is avoided. This is not quite so obvious a method as it may seem, as recently a good landlady failed to take out a red handkerchief from those she was soaking, and several other handkerchiefs were slightly stained before she realized the color was not fast.

Be sure to soak handkerchiefs in a container of cold water before putting them into the wash water. The work of getting the handkerchiefs clean is treble unless they have been for some moments in cold water, and have been rinsed well in it. Clothes that have spots and stains on them, which will come out in the wash, should be especially rubbed with soap and the soil loosened before going into the tub or the washing machine. It is easier to look over the clothes before they are wet. While this will take a little longer than to plunge them right into the tub, the time taken is not wasted. It is either tiresome, if clothes are rubbed, or tedious, if machine washed, to wash every bit of the garments equally well, when it is only these spots that require special treatment. Also it is often found that the marks remain unless given particular care.

Ironing Sheets. Sheets can be ironed with the minimum of trouble as follows: 1st fold; with hems together, their full width, and the wrong side out. 2nd fold; bring fold in line with hems. 3rd fold; turn the hemmed edge that is outside to the opposite side. This makes each outside fold right side out and each side has the hem out. Roll the sheet to bring the hem inside. When ironing the sheet do not unfold. Iron one side and then the other, pressing firmly so that the inner part of the sheet is sufficiently ironed, as if it had been put through a mangle. A quick way to iron handkerchiefs is to press them without folding. Be sure to have hems, lace, and fancy edges ironed on wrong side. Do not fold until later. Then when sitting down, crease them in folds with the hands.

Hazards in Home. Fighting hazards in the home is now a recognized work. These hazards vary from such little things as pins and needles on the floor, to the major danger of fires. Whatever causes accidents should be eliminated or, if this is impossible in entirety, at least reduced to a minimum. Personal precautions can be taken. Carelessness can be reduced and carelessness increased. There are some outstanding dangers that everyone in a home should realize. In this non-hazard campaign the whole family should be enlisted. Fire hazards are on the increase because of the recklessness of cigarette smokers. Smoking in bed has to be done with the utmost precaution. Never smoke when drowsy. You may get badly burned yourself. Or you may set fire to the newspaper, magazine or book you are reading. If it falls to the floor, it may ignite whatever it touches, and destruction be rife.

Fire Escapes. When there are three floors to a house, and it has no fire escape, it is a wise precaution to keep a roll of rope handy to rooms occupied. The rope must be long enough to reach the ground and there should be some secure way of fastening it, so that it would not slip with the weight of a person escaping down it from smoke or flames.

Accident hazards to be guarded are open stairways. These can be made free from danger by gates that come for the purpose, or by chairs overturned in emergencies, or temporarily. Rugs that slip or turn up at corners are other hazards, because falls result, and these may be serious. Speaking of falls, it is amazing the number that come in bathtubs. Grab rails are insufficient, or awkwardly placed, and someone gets slippery from soap. A heavy bath towel or a rubber mat in the tub removes this hazard.

A doctor once said that many accidents would be prevented in homes, if persons did not walk around in bare feet. Stepping on a needle may give just a momentary twinge of pain, but if the needle breaks, as sometimes happens, the results may be serious.

Wise Precaution. As soon as the heating equipment is shut down for the summer all doors, pipes and hot portions should be painted.

NATIONAL
CONVENTION

Of Evangelists and Christian Workers

At Louisville December 29, To January 3, 1937

The widespread interest being shown in the coming National Convention of Evangelists and Christian workers is evidenced by the inquiries reaching the offices of the Interdenominational Evangelistic Association. From all indications every state of the union will be represented by evangelists, pastors, singing evangelists, Bible teachers, children workers, young people workers and other church and evangelistic workers.

Evangelist Elmer C. Miller of South Bend, Ind., the executive secretary of the association, will again be the director of the convention headquarters established in the Kentucky Hotel in the next few days. Evangelist Mordcai F. Ham of Louisville, the president of the association, said, that in Houston Texas, where he is now conducting an union evangelistic campaign, many Christian workers are planning to attend this seventh annual convention of evangelists.

Several large railroads already have inquiries concerning the convention. The association has already ways stood for the highest type of evangelistic workers, sensational publicity seeking workers not being invited into fellowship of the association. Almost every protestant denomination is represented in the membership of this organization. Previous conventions have been held in Chicago, Indianapolis, Ind., Philadelphia, Dayton, Ohio, Memphis, Tenn., the convention having met twice in Chicago in the great Moody Memorial Church. The largest halls in each city have been used in order the greatest number of persons may hear and meet these evangelistic workers.

The morning sessions of the convention will be devoted to the discussion of the work of the church and evangelistic workers. The afternoon and evening sessions will be open to the public and will be held in the Armory. These public sessions offer an unusual opportunity to those who take advantage of the chance to see and hear these evangelistic workers. Some of the foremost singing evangelists of America have already announced their intention to attend and help in the services.

The pulpits of Louisville and nearby communities will be occupied by many of the evangelists, in this manner many who are unable to attend the meetings of the convention will also have a chance to see these evangelists about whom they have read many times. The evangelists and song directors and helpers will be available for services throughout the week of the convention.

One of the outstanding services of the convention will be the New Years eve watch night service which has always been one of the greatest services of the convention. Instead of revelry the new year will be greeted with prayer and praise service.

These evangelistic conventions have been a great lift to churches in and near the convention city and should assist the churches of this convention city in starting a city wide revival effort. This will help keep burning the revival fire started by the preaching missions.

The U. S. is in Africa
A great day in the war history of the Stars and Stripes occurred in 1885 when Lieut. P. N. O'Bannon raised it for the first time over foreign conquered territory, over the Tripoli fortress which the marines had captured at Derne, on the north coast of Africa. It happened in the war with the Barbary States over tribute exacted from shipping in the Mediterranean. Again, American arms had done what other Europeans couldn't. Pope Pius XI declared the Americans did more for Christendom against these pirate states than all the powers of Europe combined.

"Say, Sambo, what time in your life does yo' think yo' was scared de worst?"

"Once when ah' was callin' on a married gal on' her husband come in and caught me. Boy! Was ah' scared!"

Boone County Farm Notes

H. R. FORKNER, County Agent
ACP Committee Order Final

Report Practices Earned

The Boone County ACP Committee reports the completion of all phases of the 1936 Agricultural Conservation program preliminary to the signing of the final performance forms with the exception of Soil Building practices carried out since the supervisor visited the farms in late summer or fall.

The soil building practices do not affect the diverting of tobacco or general soil diverting crops to soil building crops. The check on the diversion of these crops was completed several weeks ago. The soil building practices are those practices where a farmer earns credit for solving of legumes and certain specified other soil building crops, use of limestone and phosphate, turning under of green manure crop as soybean rye, lespedeza, etc. during 1936 and certain other soil building practices. Farmers receive pay for these practices at specified rates up to the total allowance for their farms, the allowance being rated on the number of soil conserving crop acres on the farm.

Final payment is expected in a short time after the final forms are delivered.
4-H Tobacco Show and Sale
Date Changed to Dec. 18th
The 1936 Northern Kentucky 4-H Club Tobacco Show and Sale date has been changed to Friday, December 18th. The change in date from January to just before Christmas

has been gratefully received by most Boone County 4-H tobacco club members who use part of their returns as Christmas money.

Boone County has 88 boys and six girls who have raised approximately 40 acres of tobacco in their project work. The show and sale will be held at Kenton Loose Leaf Warehouse in Covington and the premium awards will be the largest of any show or sale to date. The warehouse is giving all floor expense money to the premium fund which is expected to amount to several hundred dollars. The County Agent is urging all members who can to have their crops stripped out, carefully graded, and ready for the show and sale.

Addresses 4-H Leaders Conference
Prof. D. H. Norris, County Superintendent of Schools, addressed the Boone County 4-H Leaders in their conference at Burlington, recently. He advised leaders that our boys and girls are our most priceless possessions. The goal of the 4-H Club is working toward the end of greater happiness and contentment on the farm, are developing boys and girls to become leaders in farm and home development in their communities and are teaching them to solve the problems that are before them.

Prof. Norris who has served as chairman of the Boone County 4-H Council for the past four years stated that he was proud to be connected with such an important national wide movement as 4-H club work that involves more than a million rural boys and girls. Big business interests have shown their appreciation and interest in rural improvement through the splendid cooperation rendered through the 4-H Club fairs and other special events. 4-H Club work will advance because of the importance of its project work. Members spend much time on project work that is worthwhile. When ever a boy or girl spends time on worthwhile work he or she is growing in good citizenship.

4-H leaders giving reports on work in their communities included Mrs. Vernon Pope and H. E. White of Burlington 4-H club; Mrs. E. E. Newman of Grant; Mrs. Sibbia Reimer, Mrs. Etta Walton and John E. Origer of Hebron; Mrs. Emile Pettit of Florence, and Mrs. B. C. Stephens. Mary Hood Gillaspie Home Demonstration Agent, outlined the county 4-H program carried out during 1936. She stated 172 girls had conducted 185 projects during the year. H. R. Forkner, County Agent, stated that 185 boys and 33 girls had conducted 200 farm projects in 1936. The total of Boone County project work conducted in 1936 is valued at \$13,652.

E. E. Fish and Miss Anita Burman, 4-H Club specialists from the College of Agriculture addressed 4-H leaders in the afternoon session. Mr. Fish stressed the importance of recreation in addition to the regular

business meeting. Both specialists forecasted increased enrollment for 1937 and stressed the importance of reaching larger numbers of rural boys and girls.

Homemakers Attend Meat Canning Demonstration

Mrs. Gladys Milenburg Ayars gave a meat canning demonstration for the Homemakers of the county at the courthouse, Monday, Nov. 30th. Many women are planning to can beef and pork during the butchering season of the next few months. Chickens may be canned and used during the winter months instead of putting them on the wholesale market.

Mrs. Ayars has had practical experience in canning and in Extension work. She was associated with the State Extension Office of Mo. as Assistant State Home Demonstration Agent. Since her marriage four years ago, she has canned thirty to thirty-five chickens each fall and she cans quantities of beef and pork every winter.

41 Boone County Farmers Use T. V. A. Phosphate

Twenty tons of T. V. A. phosphate were delivered to Boone county, on Feb. 3rd for distribution to soil improvement cooperators. This was divided among 41 farmers making 4 demonstrations in each of the ten communities in the county.

Four hundred pounds of phosphate was the smallest amount received by any farmer and 2,000 pounds was the largest amount, while 25 cooperators received 1,000 pounds.

The 20 tons were applied on a total of 334 acres of pasture, clovers and alfalfa. Of this 334 acres there were 93 acres of pasture mixtures (23 1/2 acres were new seedings), 60 1/2 acres of alfalfa, 46 acres of mixed hay, 24 1/2 acres of lespedeza and 10 acres of red clover.

Because of the severe drought in the county this year it is impossible to distinguish the check plots from the plots where both lime and phosphate were used. Upon close observation, however, it was found that lespedeza was benefited most by the application of lime and phosphate. It was found, on an average between 13 and 15 lespedeza plants to a square foot of untreated soil and from 16 to 18 plants on one square foot of soil treated with both lime and phosphate.

The phosphate has not received a fair test this year because of the drought and also because many of the cooperators applied their phosphate in the early fall. In either case the phosphate has not had sufficient time to demonstrate just what it will do under favorable conditions in the county.

Our cooperators are planning to keep a close watch on their demonstration plots in the future to determine the effects of phosphate and lime.

THERE'S SOMETHING NEW IN SALADS—CRANBERRIES

YOU'LL doubt the truth of the old adage that "there's nothing new under the sun." If you try this delicious Cranberry Cheese Salad. Dissolve 1 package orange-flavored gelatin in 1 1/2 cups boiling water. Add 1 cup sweetened cranberry juice. Chill. When mixture thickens, add 1 1/2 cups cream cheese (mashed), 1/2 cup celery (chopped), 1/4 teaspoon salt, and 1/2 cup crushed pineapple (drained). Then fold in 1/2 cup whipping cream (whipped). Chill in modern ice refrigerator until firm. When protected by the constantly circulating clean moist air of the air-conditioned ice refrigerator you need have no fear that the cream and cheese will develop an "off" flavor while chilling. If you wish, you may unmold your salads on lettuce a little while before serving, and place them in the ice refrigerator; the lettuce will stay crisp and fresh, and they will be ready to serve pronto!

NEW-STYLE BAGS

By CURRIE NICHOLAS

Alert manufacturers of bags have set to work to devise distinctive openings, out of the ordinary, yet practical. Perfect with all sorts of tailored clothes, football tops and travel costumes is the new double-zipped transatlantic handbag (top picture) the unusual opening of which resembles a suitcase fastening and a roomy interior that provides ample space for anything from a passport and travel papers to a pocket-size novel. With a smart fall dress of rummy homespun as pictured below it is the very essence of good style to wear washable kid gloves matching the leather of an underarm bag.

The Dance of Salome

No one is in a position to give definite information concerning the steps danced by Salome nor the tempo of the music. In ancient Hebrew times the tambourine and the crystal ball were used to fascinate the dancer. This type of dance is always sensational. The entire body is brought into play. The hips and the hands are emphasized. The dancer who takes this role should dance in bare feet. It is customary for her to wear a scarf tightly folded about her head, ornamental breast ornaments, and skirt which is ankle length or a little longer, slashed up one side. Many scarves of various colors form an important detail of the costume of Salome.

ROSE DECORATIVE THEME FOR AUTUMN

Newest feature of this season's costume flowers is the American beauty rose. Singly or in clusters, it is worn with full-length stem almost to the knee. The flower, flatteringly soft and graceful, is posed just below the shoulder.

The rose motif is also prominent on printed and blocked scarfs and in formal chiton evening handkerchiefs. Rich evening brocades follow the romantic mode in large all-over rose or leaf designs. Rose patterns have all the old-world air so typical of the Victorian and Edwardian revivals that are dominating the fall modes.

Accents of rose on black are a leading theme for fall: copper-rose buckles, necklaces of rosy crystal, touches of lace in a faint blue-rose, nail polish in old rose with faint smoke-blue undertone. Polish this autumn is going romantic, along with everything else. Soft shades of old rose, coral, mauve—or if you're wearing gold or autumn-leaved red, a new light rust polish—faintly echo the undertone of the gown or its accessories.

State Prison

Wants 1000

Acres of Land

Dry Ridge Farmers Striving to

Get Location At That Point

The Kentucky Welfare Commission is looking for a favorable location for a new prison to confine convicts charged with minor offenses and to obviate the crowded condition of the present penal institutions. The commission wants 1000 acres of land not to cost over \$150 per acre. A number of farmers of the Dry Ridge neighborhood are striving to secure sufficient land to fill these requirements. At the present time they have several hundred acres for the project but not up to the quota required. It is a state and national project under PWA provisions.

"FRANCIS' FOLLY"

PROVED ITS WORTH

Eighty-six years ago James Bechen Francis of Lowell, Mass., built a special guard lock to support, in times of danger, an ordinary lock at a certain weak point in the town's canal system.

Although it was used one year ago—and thereby won for the builder an inscribed silver token of esteem—the extra gate became widely known as "Francis' Folly."

For nearly 66 years the guard lock hung unused, suspended from a shed roof. Then the recent American floods roared down upon the city. A 26-foot wall of water rose swiftly against the gate lock.

Vainly, it strained and swayed against the torrent. Then, just as it was about to break, an employee of the canal company remembered "Francis' Folly."

"Francis' Folly." Some one climbed to the roof, released the guard lock, and "Francis' Folly" performed the service its designer thought might be needed some day, when he built it—66 years ago.—Pearson's Weekly.

Lion and Man Friendly

At Tabors in Central Africa the approach of the wet weather and the possibility of the long grasses encouraging lions to hunt the purpose of raising goats and possibly human beings, influenced the native authorities to set traps. An old native found a lion in a pit trap, hurriedly made a ladder down which he climbed and released the beast.

Native authorities hailed him before the court, where he was fined. The native's plea was that he knew that particular lion and it was on such friendly terms that it always left part of its kill for him.

Among the passengers on the local were Mrs. Tillie Waters and little daughter of Eagle Station, Miss Stella Price of Covington, Mrs. Laban Ellis and Miss Mary Ames of Glencoe, Harry F. Davis and Richard K. Roberts of Warsaw, and all were painfully hurt.

"Mother," said the sweet young thing, "I'm not going out with Charles any more."

"Why," said the mother, "I thought you were rather fond of Charles."

"I am," was the reply, "but he knows too many naughty songs."

"Do you mean to say he sings them to you?" demanded the mother.

"No," replied the girl, "but he whistles them!"

WE DON'T FORGET

As I have been asked to write some more of that sob stuff by several of my friends, and today and for several days have been confined to my room on account of an injured knee, I will run off a few things that tell my why you want to hear from me through the Advertiser.

I'll never forget the watermelons that I missed that you carried for a mile and found out they were all green. My apple hole that was opened before I was ready. The strawberries and raspberries that I missed. And there is a nail sticking up under the weather boarding yet and a part of a chalk line hanging from it so high above my head I never could find it until after 12 o'clock when "the tac" went to bed. Oh, yes, you all thought I didn't know you, but I had your finger prints and knew every one of you. Well boys, and you weren't always by yourselves. I'll say girls. Yes you had your fun and worried me some and I worried you all the night I ran you all through that tall rye on McCoy's Fork creek.

Yes, it's funny now, and I wish I had you all back. I would love to turn the trick on you now. I would have some fun too.

Things have changed with your old pal. You have all gone and I am left lonely, and often think of your little torments. Please don't forget the old place and the good parties and the old apple hole. It's all different now. I am all alone, but have a good warm window and just four walls for company. Nature in all its beauty and loveliness, with its flowers and the babbling brooks is food for the lonely and I love it.

Mounted Police Coming To Unique

Theatre, Thursday, December 3

A novel and unusual stage show is booked at the Unique Theatre, Walton, on Thursday, Dec. 3rd—"Arctic Varieties," a performance that is different from anything presented on the local stage.

The Canadian Northwest Mounted Police have the reputation the world over of "always getting their man." Their heroic captures up in the Arctic Circle have filled history's pages. Just how they work and why it is that they seldom, if ever, fail to get their man will be told and illustrated by Sgt. Lancaster, who is managing the tour of the Red Coats.

There is also an interesting exhibit of curios from the Arctic, together with a collection of guns used by some of the most famous characters in American history on display in the theatre lobby during the engagement of the Northwest Mounted Police company in Walton.

It will be free for the public to examine, and has the reputation of being the most valuable collection of relics on traveling exhibition.

Ryland Woman Died Thursday

From Effects of Gunshot Wound

While In a Fit of Despondency
Mrs. Alvina Blitz, age 27, residing near Ryland, Kenton County, on Dry Creek Road, while in a fit of despondency, Wednesday, shot herself in the side, inflicting a wound from which she died Thursday night at St. Elizabeth Hospital, Covington where she had been taken.

Her husband was in the yard and heard the shot. He attributed the act to despondency.

Surviving besides her husband are two daughters, Theresa and Frances; parents, Mr. and Mrs. William Martin; two brothers, Albert and Willie Martin, and three sisters Mrs. Emma Cahill, Mrs. Fred Grishover and Mrs. Stanley Beers.

Funeral services were held Monday, with requiem high mass at 8:15 a. m. in St. Cecilia church, Independence. Burial in Mother of God Cemetery.

ROY A. CRAWFORD

Roy A. Crawford, age 64 years, passed away Monday morning at his home near Florence, Ky., after a short illness. The remains were removed to the Tallafarro Funeral Home for preparation.

Mr. Crawford was born and reared in Mason county, Ky., moving to Boone county thirteen years ago. He is survived by one daughter Mrs. Lloyd Osborn, several grandchildren as well as three brothers of Mayfield, Ky.

Services were conducted Wednesday at 2 o'clock at the Tallafarro Funeral Home, interment following in Highland Cemetery.

Underpass at Williamstown

The Fiscal Court of Grant County contemplates having an underpass on the Southern Railway on the Dixie Highway, just south of Williamstown, according to the Grant County News. However, it is thought considerable trouble will be had in securing right-of-way from the property owners in that location.

Mrs. J. C. Miller, Miss Emma J. Miller and Mrs. Mattie Moore have returned from Aurora, Ind., where they were called by the death of their kinsman, Henry Gregory.

COVINGTON'S BIG PARADE

Celebrating the Opening of Pike

Street As a Two-way Thoroughfare

The celebration of the opening of Pike street as a two-way thoroughfare by the progressive merchants of Pike street, Friday, was a most enjoyable event. These merchants were ably assisted by other Covington merchants, but the event was sponsored by the Pike street business men. The procession was several blocks long, accompanied by two bands, Al Schild's and Holmes High School, and a number of pretty floats, fancifully decorated, led by Covington Folks and a large number of children and grown-ups. A large crowd had assembled along the line of march and of course Santa Claus was in evidence—in fact there were two—besides numerous marchers in fancy and comic costume. The parade started from the public library, down Madison avenue, along Pike street, returning to Seventh street, esplanade where speeches were made by the mayor and prominent Covington citizens from a speakers' stand and from which candy, prizes and merchants' orders were distributed to those who marched in the parade and others. Although it was one of the coldest days of the winter, the event was enjoyed by many Covington and rural visitors.

Rev. and Mrs. R. F. DeMoisey entertained on Friday with a family dinner for Mr. and Mrs. Charles A. Alphin of Florence, Mr. and Mrs. John R. DeMoisey of Harrodsburg, Paul DeMoisey of Richmond, Mr. and Mrs. Frank DeMoisey and daughter, Mr. and Mrs. Robert DeMoisey Jean, Mary and Truitt DeMoisey and the host and hostess.

Mrs. Hattie B. Stevenson, who came here from Pittsburgh, Pa., to spend part of the winter with Mrs. R. O. Hughes in the Richmond Church neighborhood, together with Mrs. R. O. Hughes and Miss Margaret Brugh of Montvale, Va., a niece of Mrs. Stevenson, were dinner guests Sunday at the home of Mr. and Mrs. B. F. Bedinger.

Mrs. E. K. Stephens of Covington was the guest of friends here Sunday.

BOY KILLED HUNTING RABBITS

Victim's Head Blown Off By

Companion Whose Gun Goes Off Accidentally

One of the first fatal hunting accidents occurred Wednesday when 8 year old James Howard Elmore of Independence, Ky., was killed on the farm of his father, Edgar Elmore. The child, Edgar Eubank, Crescent Springs, Fred Salmon and his son James Salmon, Crescent Springs were hunting and had crippled a rabbit which fled to its burrow. Fred Salmon was attempting to dislodge the rabbit by poking a stick in the burrow while the victim was at another hole and James Salmon at a third.

The dogs started another rabbit and ran it towards the group. James Salmon picked up the shotgun to shoot the animal and the gun was discharged, blowing the top of the Elmore boy's head off.

The Salmon's had come to the Elmore farm to obtain a load of corn. Shortly after they arrived, the hunting excursion was made.

A verdict of accidental death was given by Dr. Riffe.

The unfortunate boy is survived by his parents, six brothers and sisters.

MAN HIT IN WARSAW

Tom Hughes Suffers Fractured

Arm and Lacerations When By Automobile

Saturday afternoon about 4 p. m., while crossing Main street in Warsaw, Tom Hughes, age 83, an inmate of the poor farm, was struck by an automobile with Ohio license, which knocked him down and injured him severely. His right arm was fractured and he received a gash on the head and body bruises.

A young girl, said to be about 12 years old, was driving, with her parents, when the accident occurred. The injured man was taken to St. Elizabeth Hospital, Covington, in the ambulance of J. V. Kemper, where attaches said his injuries were not serious. The Ohio car carried insurance, which will bear the expense. The accident was said to be unavoidable, and the owner of the car expressed his regret in striking Mr. Hughes.

Up at the firehouse they tell about the business man who fired his new stenographer the first day for lack of experience. It seems he told her to sit down and she looked around for a chair.

OSCAR L. JONES

Brother of T. W. Jones, Died At His Home In Stamford, Ky., December 2nd

Oscar L. Jones, age 64, died at his home in Stamford, Ky., Wednesday, Dec. 2nd, of cancer. A short time previous to his death he consulted his physician relative to a pain he had in his side and he was advised to have an X-ray made. He went to Lexington for that purpose and it was discovered he had cancer. He underwent a surgical operation but the disease had advanced too far and he succumbed to the ailment a short time afterward. He was a good man and a member of the Presbyterian church.

He was a brother of T. W. Jones of the Dixie Highway, about a mile south of Walton, and who is engaged in the real estate business in Covington, who attended the funeral. The services were held Friday, with interment in a local cemetery.

"PETE" MONTJOY SEEKS APPEAL

Through His Attorneys On New Evidence Claimed

John "Pete" Montjoy, young Covington Negro, through his attorneys Friday turned to the Kentucky Court of Appeals in an attempt to save his life. New evidence in the basis of his appeal.

Montjoy is in the Frankfort Reformatory awaiting execution of a sentence of a Kenton Circuit Court jury that he be hanged for a criminal attack on a Covington white woman. The scaffold from which Montjoy twice has been saved by court order, still stands where it was erected in the courtyard of the Covington City Building in preparation for the hanging, Aug. 21st.

Montjoy escaped that execution by seeking a writ of habeas corpus from Judge H. Church Ford in the United States District Court at Lexington. The writ was refused and an appeal, which has not been perfected, was undertaken to the United States Circuit Court of Appeals, Cincinnati. Previously Montjoy had escaped hanging last spring when his case was taken from the Kentucky Court of Appeals to the Supreme Court of the United States.

Among the affidavits is one signed by Willie Black, Huntington, Va. Negro, who testified for the prosecution. Black repudiated his testimony, alleging it was made under duress. Black was a companion on the night of the attack.

In the affidavit, Black said Detective Leroy Hall held a revolver against his head to compel him to make untrue statements regarding Montjoy.

Clarence H. Heitsman, Enquirer reporter who was present when Black was interviewed and who wrote the confession for him said the Negro was not struck or threatened in his presence.

Attorneys for Montjoy, in the petition, asserted that one of the principal issues of the trial was whether the woman he is alleged to have attacked had known Montjoy prior to the date of the supposed attack that she had testified that she had not known Montjoy. Affidavits were filed tending to show that the woman had accompanied Montjoy to a night club in Cincinnati on various occasions, and at one time had returned to Covington with him in a taxicab.

CARROLL COUNTY VOTES WET

As Does Trimble, Henry, Rowen and Lawrence Counties

Friday, in a local option election, Carroll county went wet by a majority of 245 votes. In a similar election, Trimble, Henry, Rowen and Lawrence counties voted wet. While Marshall, Metcalfe, Barren and Knox counties voted dry. Court injunctions prevented Wolfe and Kenton counties holding elections on local option.

BEARCATS PLAY BEST GAME OF SEASON TO TRIM

NEW HAVEN 34 to 15

Friday night at the Walton gym, the Bearcats won their first Boone County Conference game by defeating the Tigers from New Haven High School.

At the start it looked as though it might be a nip-and-tuck battle but the Cats gradually drew away from the Tigers and at half were up by 25 to 10 score. The visitors tightened their defense in the second half and the Bearcats maintained their guard, thus, neither team did much scoring. Walton collecting 9 points and New Haven 5, to make the final score 34 to 15 for the Bearcats. Walton's offensive combination of DeMottsey and Osborn scored 25 points for the victors. Foxy ringing up 14 and Oe 11. Williams and Sturgeon divided 11 points for the Tigers.

The locals played their best game to date to whip the Tigers, and had New Haven's passing and goal shooting been better, it would have been much more difficult for the Bearcats to have hung up their first Conference victory. The Cats, however, are showing improvement with each game and should develop into a first class quintette ere the season is far advanced.

In the preliminary game, a much improved Cat team, put the pressure on the New Haven reserves to win 28 to 11. Pennington and Marsh led the Walton offense with 8 points each, and Noel was best for New Haven with 6.

Happy Helpers Entertained

The Happy Helpers class of the Walton Methodist Sunday School was delightfully entertained at the home of Mr. and Mrs. Bruce Wallace of South Main street, Tuesday evening. After business was completed, a splendid luncheon was served.

NEW BUSINESS HOUSE

A new business house is a new building has been opened on North Main street. J. A. Farris, the restaurateur, had a small neat building built between his restaurant and the Walton Garage, which he has rented to Heber H. Holbrook of Owen county, who has stocked the place with a supply of liquors under government Internal Revenue laws. It is called the Walton Dispensary and liquor can be sold only in bottle packages. Mr. Holbrook comes to Walton well recommended by those who know him.

Mr. and Mrs. E. H. Walton of Crittenden, Ky., were welcome visitors to Walton, last Thursday. Mr. Walton is an attorney at law and has been engaged in several large cases in which he has been very successful.

Mr. and Mrs. George Fisher and Mrs. Stephenson spent Sunday with Mr. Stephenson's daughter and family, Mr. and Mrs. Stanley Conrad of Covington.

ELI CONRAD IS IMPROVING

From a Major Surgical Operation At Good Samaritan Hospital Cincinnati, O.

Eli Conrad, formerly of Walton, who recently underwent a major surgical operation at Good Samaritan Hospital, Cincinnati, where he is employed, is improving after very serious illness. His son John Conrad of Edwards avenue, gave a blood transfusion to his father when he was in a very weakened condition from the operation. There is every indication his father will recover his health.

Mr. and Mrs. Bruce Wallace delightfully entertained with a fine turkey dinner Sunday evening at their beautiful home corner of South Main and Needmore streets. Among those who enjoyed the occasion were: Mrs. Pearl R. Johnson, Mrs. Gertrude Gardt, Mrs. D. B. Wallace, Mr. and Mrs. J. R. Wallace and the host and hostess. Mrs. Gardt assisted the hostess in entertaining.

December 5, 1936

Judge N. E. Riddle, Judge Boone County Court, Burlington, Kentucky.

Dear Judge Riddle: In our recent examination of the records in your office covering the period beginning October 1, 1935, and extending to November 1, 1936, we found that you had collected in cash 100 per cent of the fines assessed and taxes on suits charged in your court for that period of thirteen months. Your record of 100 per cent in collections is so unusual that I can not help offering you my congratulations upon your accomplishment. Of the forty county judges' offices we have examined since July 1st, yours is the only one that has made this perfect score.

With kindest regards and best wishes, I am,

Sincerely yours,

(Signed) Nat B. Sewell

THE TOBACCO MARKETS

Highest Prices For Many Years Small Offerings Owing to Dry Weather Conditions

Tuesday morning, the Covington loose leaf tobacco markets opened under the most favorable circumstances barring the light offerings owing to the recent dry weather that prevented growers from stripping their crops. However, the prices paid were the highest for many years and sales at the Tri-State and Kenton houses were well attended by buyers and speculators.

The Tri-State warehouse 7512 pounds were offered which brought an average of \$35.55, the highest basket bringing \$48 per hundred and the low \$2. At the Kenton loose leaf, in the afternoon, the high price was the same as the Tri-State, \$48, and the low, \$3, with an average for the day of \$25.96.

Molly Cirso and G. W. Richardson of Burlington, sold of crop of 376 pounds of the Tri-State at an average of \$35 per hundred. Carson and Richardson had 448 baskets, and Parris Fouty of Rising Sun, Ind., also had a 448 basket.

At the Kenton House, William Harrison of Union, Boone county, had the highest crop average, \$41.80 per hundred.

Keeping Watch on Rhine

A few years after the Franco-German war, which gave Alsace-Lorraine to Germany as an imperial territory, a large national monument was set up on the hill opposite Bingen, representing the figure of Germania, keeping watch on the Rhine. It is thirty-four feet high and bears aloft the imperial crown and the laurel-wreathed sword. On the base are portraits of Emperor Wilhelm I and other German princes and generals and representations of troops from various states of the empire, together with the words of the national song "Die Wacht am Rhein."

Art of Vanished Race

In the remote, little visited areas of southeastern Utah and northern Arizona the country is dotted with ruins left by a vanished, prehistoric people. The ruins are unquestionably old, possibly dating back 1,000 to 3,000 years. The evidences of the use of color by these people are numerous and consist largely of bits of colored pottery and photographs on the walls of caves and cliffs. These photographs are primitive paintings in black, mineral red and brown.

STOLEN SWEETS ALWAYS ARE SWEETEST

SMOOTH, creamy, crystal-free home-made ice cream in an hour. Now that's front page home-making news. It's so delicious that it's worthy of being stolen. Little ice cream "swipers" so about it calmly, too, because they know that mother can make more even than the guests may be arriving in less than an hour.

This speedy, perfected refrigerator ice cream is made in a "still" ice cream freezer, the kind you simply pack and place, without cranking, in the modern ice refrigerator during the freezing period.

A mixture of chipped ice and salt is used—without accounts for the speed with which the ice cream freezes, and the speed is responsible for its smooth, creamy texture.

BRIGHT SASHES AND FLOWER CLUSTERS

To be inspired by the men's clothes of the Directory period and at the same time achieve a most feminine looking collection is certainly no common feat. This was brilliantly demonstrated at Bruyere fall showings where smart Parisiennes were given a glimpse of beautiful fashions - to be for autumn and winter.

One of the most important items of this collection was the introduction of sashes, such as the elegant beaus of the Directory used to pat-

terned in. They are black or black dresses, and have the ends embroidered in vivid colors. They look graceful and give a brilliant note to the dark day and evening gowns.

Louise Boulanger places flower clusters on the sleeves this time in many of her dresses, encircling the arm.

Dignity Is Latest Note in Fashions for Campus Wear

Fall styles for the school and college miss are going sophisticated. It's no longer smart to cultivate a look of studied carelessness. Swagger "collegiate" clothes are giving way to dignity, and formal tailoring. Sweaters are worn with pearls, and formal velveteens are breaking into the classroom. The college lass will be up on her curled pompadours and her smoky shades of polish for the nails. No more boyish bobs or buck-to-nature finger tips.

Off-the-face bonnets ready for the big game are dressed up with tiny veils. Bonnet toques are smart in velvet with matching velvet bags. These contrast with the color of the suit: American beauty with slate blue, capucine or caramel with black or with brown, raisin with dark green.

"Dressy, fur-trimmed suits are the leading theme for football week-ends, with fur jacket costumes a close second.

Violent Stinging Insect
The hornet or yellow jacket is among the most vicious of our stinging insects. When aroused it is fearless.

CONCORD BOONE COUNTY

This community was saddened by the sudden death of Mr. W. H. Willard Friday night, he had been in failing health for some time with heart trouble but was able to out. The end came sudden. He was buried at Concord, the funeral was preached by the pastor, Rev. G. N. Smith. The family have the sincere sympathy of the community.

Mr. and Mrs. Raymond Rex, of Ludlow, were dinner guests at their parents Mr. and Mrs. W. N. Robinson, Sunday.

The Subbanas met with their leader Bertha Chapman, Saturday and ten members were present. The O. A. met with their leader Ira Hughes and five members were present. This will be the last meeting in this year.

Mrs. W. M. U. met at the church for all day Friday and had their regular program in the morning and the week of prayer in the afternoon. The ones present enjoyed the program. Mrs. Pearl Webster will be the new president of 1937.

The sale was well attended at Mrs. Jennie Chapman's on Thursday and things sold well.

Mr. and Mrs. Elmer Wilhoite and Miss Lula Wilhoite of Cincinnati spent the week end here at their farms.

Don't forget Sunday School on Sunday morning—your presence is needed.

WHY— Chile Adopted Standard of Red, White and Blue.

Chilean independence began on September 18, 1810, when the patriots of Santiago, now the capital of the republic, deposed the last Spanish captain-general and established a provisional government. Two years later a choice of national colors was made, blue, white and yellow being selected, the last-named being taken from the 'ag of Spain. This banner was adopted as the national standard of Chile until 1917, when, after the victory of Chuabuco, which was decisive in giving Chile its independence, a new tricolor flag composed of the present red, white and blue, but of different design, waved over Chile.

The permanent national flag dates from October 17, 1917, when, through a decree of the supreme director of Chile, Gen. Bernardo O'Higgins, it was officially adopted. The lower half of the flag is red, and the upper half white with a blue canton in the upper left-hand corner, encircled by a large five-pointed white star. This star is taken from the pennants used by Chilean Indians in the past, and also recalls the geographical position of Chile, the most southern country of the American continent.

Why Apples Are Red No More Puzzle to Experts
Laboratory workers of the Department of Agriculture have partially solved one of the most closely guarded secrets—why some apples turn red.

Dr. Henry G. Knight, chief of the bureau of chemistry and soils, announces for the first time that the coloring matter which makes apples red has been isolated.

This pigment is known under the scientific name of lutein. Previously this coloring material had been found in European cowberries which are closely allied to the American cranberry.

The yellow coloring which is seen in apples has not yet been isolated, but it probably is similar to the coloring matter found in carrots, the scientists believe. This substance is closely related to vitamin A.

Why "Percy" Is Not Effeminate
Why the name "Percy" is so often regarded as effeminate is a mystery, as no name in history has more masculine associations. A member of the Percy family was a follower of William the Conqueror and from then on the Percys were fighting men. One was among the barons who forced the Magna Charta from King John, another took prisoner King David II of Scotland, another fought at Greely, and several were outstanding in the wars of the Roses and other struggles. Sir Henry Percy was such a frebrand he was given the name of Hotspur. Several Percys figured in Shakespeare's plays. They became dukes of Northumberland.

Knit Reading Jackets Novel nightdresses and matching reading jackets in pale blue, loosely-knit fine wool are featured in the fall collections.

These Swiss Hand-painted buttons, decorated in the Swiss peasant style, are now to be had, and are strongly advised for the ski suit.

Lady Bag Clips
Lady bugs set in semi-precious stones in silver or gold are used as clips on gloves, belt buckles, dress clips and even as earrings.

Cows, Donkeys, Notice Weather
Cows and donkeys are useful "barometers." Cows show restiveness when wet weather is coming and cease "chewing the cud." Donkeys, at such times, will often be heard to bray repeatedly.

SYRIAN CITY FIND

Discovery of an ancient city in Syria whose inhabitants buried their dead under the floors of their houses has been announced by Prof. C. Schaeffer, assistant curator of the National Museum of Antiquities, writes a United Press correspondent in the Chicago Tribune.

The city, which was laid bare on the site of Ras-Shamra in northern Syria, apparently was the capital of the Kingdom of Ugarit, powerful state 3,500 to 4,000 years ago. Its people were rich and highly civilized, Schaeffer found, and lived in well appointed houses, some of which contained as many as 20 rooms, baths and efficient plumbing.

The most curious custom of the inhabitants was the burying of their dead under the floor—apparently for religious reasons rather than lack of space. With due ceremony they lifted the flagstones of the floor, put the body in a sort of crypt beneath the stones and tamped it in place.

Next time there was a death the process was repeated and the second body was lowered beside its predecessor.

Schaeffer's expedition found evidences of several civilizations. The oldest found was Ugarit, the people of which were among the successors of the Sumerians. Less aged buildings, dating from the Fourteenth and Thirteenth centuries before Christ, were found in some cases to be even more luxurious than those of the earlier city.

England Continues Pack Monday Fair Observance

Of the surviving harvest fairs in England one of the most curious is that held in Sherborne, Dorsetshire. The legend is that when Queen Mary, Catholic wife of Philip of Spain, gave up the ghost and to Queen Elizabeth, her throne in 1558, the ardent Catholics of Sherborne accepted the curfew on economic grounds but rejected the Protestant Sabbath on religious grounds.

Their Pack Monday fair had already been held annually for a century, when in 1585 they abrogated the curfew for Pack Monday eve.

There is also a legend about the fair itself. When the great restoration of Sherborne's abbey was completed in 1490 the workmen paraded the town and made a noisy clamor to indicate their departure. Sherborne people on the eve of Pack Monday still parade the town to make the clamor.

This year, at midnight approached, the customary Sabbath tranquility of the town was strangely disturbed. The long, narrow main street, Cheap street, and its approaches, had already been whitewashed into sections for stalls.

Sound Waves Spur Potatoes

Sound waves are being used in Russia to make potatoes more prolific. Moscow reports say that the waves vibrate through the seed 40,000 times a second. As a result, the "spuds" thus treated flower earlier, grow bigger and contain more starch than others. The purpose of the research has been to prepare potatoes which will grow in more northern and colder climates than before.

Yellow Spot Still Horrs

For once the chief of police in Berlin is popular. His plan of marking noisy automobile drivers has brought peace. He ruled that anyone tooting his auto horn too loud or too frequently must have his car painted with a large yellow spot. After a few had received the decoration others became quiet and peace reigned in the city, which not long ago was called one of the noisiest in Europe.

Cheaper Wives

Moslem young men, finding that dowries payable for brides on the island of Cyprus are lower than in Palestine, are importing their wives from the British colony. About 2,000 Cypriot wives are already there and newspapers suggest that in the interests of local spinsters dowries be reduced.

Popular Sport

Ten years ago Gen. A. C. Crittenden of Calgary introduced dog-racing into England. Now 22,000,000 go to three races every year. The derby at White City stadium, London, has a value of 1,000 guineas.

Cautious Dependence

"Do you depend on the wisdom of the plain people?"

"I do," replied Senator Sorghum, "if their wisdom is attained through courses of instruction which I supervise."

Better Be Safe

"Inside or outside room, sir?"

"Inside, I guess; it looks like rain."—"Royal Arcanum Bulletin."

New Device to Measure Light of Stars Revealed

A tiny instrument so sensitive it can detect the light of a candle 3,000 miles away was announced by Dr. Albert E. Whitford as a measuring rule for the light of the stars, writes a California correspondent.

Doctor Whitford said he had used the instrument, a photo-electric cell about the size of a small light bulb, to measure the brightness of 11 nebulae, or star systems. Only one of the group, he said, is visible to the naked eye.

In arriving at the apparent brightness of each nebula, Doctor Whitford compared it with a star of known magnitude. The difficulty he encountered was to integrate the light of the diffuse luminous areas of a nebula, any of which is so large light would need 100,000 years to travel across it.

The light of a star would appear as a needle point on a photographic plate, while the image of a nebula might be 2 1/2 inches across. Doctor Whitford used the photo-electric cell attached to the 10-inch telescope at Mount Wilson observatory in order to "include the necessary area in the field of view."

Clock Turns on Lights

When darkness comes a new auto clock turns on the parking lights automatically. The clock is connected to the dimmer lamps of the headlights and to the tail lights, operating them at a set hour. The clock is fastened to the steering post of the car. A three-wire cable, with instructions for installation, is included.—Popular Mechanics Magazine.

WARSAW, KY., 52 YEARS AGO

FROM THE INDEPENDENT PUBLISHED BY D. B. WALLACE

Warsaw, Ky., May 8, 1884
 Robert Smith, colored, of this place
 died in Cincinnati, last week of
 small pox.

Creagh & Hearick have moved
 their carriage shop into the Hobbs
 building near the river.

A large raft of lumber from New
 York arrived here Thursday. It
 was purchased by McDannell & Sons.

Capt. J. H. McDannell sold to John
 C. Hamilton a fine thoroughbred
 short-horn calf Thursday for \$75.

Andy Beyer has his bakery now
 in full operation and is supplying
 the stores and citizens with first
 quality of fresh bread daily.

Ed Marshall opened his hotel for
 business, Thursday morning. He will
 at the earliest opportunity move his
 household goods from Carrollton,
 and keep the hotel at the old stand.

Andy Beyer is erecting a neat
 frame dwelling house on his property
 near the river. It will be a story and
 a half, 18x32 and when completed
 will be occupied by his family.

The funeral service of the late
 Wm. Carver, who died at his home
 in Carroll county, recently, will be
 placed at the Christian church at this
 place the fourth Sunday in this
 month, 25th inst.

The Town Trustees, under the su-
 pervision of B. F. Griffin, have had
 the public wharf grade repaired in a
 thorough and substantial manner.
 The high water of February had
 destroyed a great portion of the
 grade, but it is now in excellent
 condition.

Judge B. F. Turley and son Amos
 leave Monday for Hill county, Texas
 where B. F. Turley, Jr., resides.

Miss Laura Hilton and brother
 Wm. Hilton severed their connection
 with the establishment of J. H.
 McDannell & Sons, last Saturday.
 They have been connected with the
 house for eleven years. Joseph W.
 Roberts and Miss Eliza Blackmore
 have secured the positions vacated.

Tuesday noon, as the Warsaw and
 Sparta stage was coming by the toll-
 gate near town, the tongue of the
 vehicle broke and a runaway was
 imminent. Several passengers were
 in the stage at the time, but jumped
 out and with the exception of a
 sprained ankle which Joe Walker of
 Anderson county, sustained, no one
 was injured.

The saloon situated opposite here
 on the Indiana side, familiarly
 known as "Lost Boy," ceased opera-
 tions Wednesday evening, the gov-
 ernment license expiring at that
 time, and their stock having run low
 besides the return of the liquor busi-
 ness to the town being sufficient to
 justify their traffic. The proprietor
 has realized largely from his invest-
 ment.

Billy Fletcher of Patriot, visited his
 sweetheart here Sunday.
 Capt. Wm. Rowin of Patriot, was
 a visitor to our town Tuesday.

Miss Ackie Craig has been the
 guest of friends in Louisville, the
 past week.

Spencer Hartwig of Covington, was
 the guest of Chas. K. Lillard sev-
 eral days this week.

W. H. and Q. P. Kemper and Henry
 Dornan spent Monday in Cin-
 cinnati, disposing of a fine drove of
 hogs.

Dr. Gaines was called to Ghent,
 Sunday on account of the serious
 illness of his sister Mrs. McCann.
 She is much better.

Dr. H. J. Abbott who has been
 quite ill at Locust, Carroll county, we
 are pleased to state, is much improv-
 ed and expects to come home in a
 few days.

Mrs. Elizabeth Eaglin, aged 60
 years, died at her home above town
 Thursday evening of cancer of the
 stomach. Her mother survives her
 and is now in her 103rd year.

The first writ issued from the
 peace officers of the town under the
 new charter was issued yesterday
 for the arrest of John Steele charged
 with whipping his sister. He
 evaded arrest by flight.

Chas. Wood, with the assistance of
 his sister Miss Isa Wood, will con-
 duct the Brown's Hotel for the com-
 ing year. They open that establish-
 ment this morning. Capt. J. D.
 Pulliam the former proprietor and

family have moved to his property
 recently occupied by Rev. J. N. Cur-
 rent.

While Fred Brown was playing
 near town yesterday morning his
 horses became unmanageable and
 kicked loose from the plow, running
 through the streets with reckless
 speed. Fortunately no one was in-
 jured.

Mrs. Mary Ann Swango, aged 78
 years, wife of Wm. Swango, died at
 her home near Vera Cruz, yesterday
 of heart disease.

Burglars endeavored to rob the
 establishment of John Connor and
 Ourlay & Northcutt at Walton, last
 Sunday night. They were discover-
 ed by the proprietors and a number
 of shots exchanged. Two escaped
 but the third one was captured after
 receiving a shot in the head and one
 in the knee. He was found to be a
 negro named Charley Dickerson who
 recently escaped from the jail at
 Burlington. His wounds are not
 dangerous.

Several weeks ago burglars broke
 into the store of H. T. Chambers
 and stole watches, pistols, etc., es-
 timating in value to about \$150.

Chambers secured the services of
 detectives from the McGrannan
 Agency at Cincinnati, and they
 worked the case up to a point where
 they could almost lay their hands
 on the guilty party. Wm. Butler of
 the agency worked up the case and
 when his plans were consummated
 he, with the assistance of Messrs.
 McGrannan and Scott, all of the de-
 tective agency, met here Wednes-
 day, and agreed to burglarize the
 bank, consulting with the officers
 that at the proper time they would
 surprise them in the work and ar-
 rest them and put them in jail
 where they expected to pump the
 guilty party, who was to be a con-
 federate in the bank job. The plan
 was in a fine way to succeed when
 an individual who was acquainted
 with the facts called the party they
 desired to enslave and disclosed the
 entire plan to him, and warned him
 of their intentions. Of course the
 plan fell through. The people so
 indignant at the action that they
 representatives—the Town Trustees
 immediately made the following
 call: "All good citizens of the Town
 of Warsaw, are requested to meet
 at the Court House, to-day, at 2
 o'clock p. m., for the purpose of
 taking such action as they may
 deem necessary and proper to rid
 the town of known thieves and their
 aiders and abettors—Robert Payne
 D. B. Dalley, Wm. Taaffe, Ben F.
 Griffin and J. S. McHatten, Trus-
 tees for the Town of Warsaw."

WARSAW 36 YEARS AGO

Warsaw, Ky., Nov. 17, 1900
 Martin Myler sold to Marshall
 Steel for Mrs. John Conner, Thurs-
 day, two yearling heifers and a bull
 for \$85.

Corn selling at 35 cents per bu.;
 potatoes at 50 cents. At all neigh-
 boring towns potatoes are selling at
 55 and 60 cents.

John Williams has opened a lunch
 room stand in the Brown building
 opposite McDannell's store.

Married—Joseph Harmon to Miss
 Eliza Glosser at Vevay, Ind., Thurs-
 day, Nov. 8th. The groom is a fish-
 erman residing above town and is
 about 45 years old, and the bride is
 a daughter of Ben Glosser and is
 about 14 years old.

In the Court of Appeals, Wednes-
 day, a motion for a rehearing of the
 case of Anna Richards vs. Samuel
 Davis, was overruled, closing the
 case.

W. B. Mason and William Wiley
 who bought the Eagle Hotel prop-
 erty here from Edwin Marshall 3
 months ago, dissolved partnership
 Mr. Wiley selling his interest for
 \$175 profit to Mr. Mason, who will
 continue the business. Mr. Wiley
 and family have moved back to his
 farm near Florence, Ind., and Mr.
 Mason moved part of his household
 effects here Thursday. He will dis-
 pose of his saloon business in Flor-
 ence in March, when his license
 there expires. He has several pros-
 pective buyers.

At the services at the Warsaw
 Methodist church last Sunday, when
 the pastor Rev. Willard G. Gram
 finished his sermon, the following
 united with the church: Mr. and
 Mrs. John R. Looney and niece Miss
 Winters, from the Carrollton church;
 Miss Mary Griffin from Prury

LACE OVER METAL

By CHERRIE NICHOLAS

All the rich fabrics have a leading place in first fall showings, and the picture is one of luxury. Special importance is placed on metal cloths, heavy nubby silks and woolsens and above all new patterns in lace, in such variety as has not been seen before, even in these last few seasons when lace has been foremost in vogue. The redingote dinner gown pictured combines the high-style features of rich fabric and the accepted silhouette. The foundation is heavy metal brocade.

OVERTURNED IN
BANK LICK CREEKTwo Men Narrowly Escape Death
When Car Leaves L.L.L. Highway
At Happy Hollow

Saturday night about 12 o'clock Ralph Elkin, 25, and Roscoe Rich, both of Covington, narrowly escaped drowning when their car skidded on the L.L.L. Highway at Happy Hollow, striking the bridge at that point and overturning into Bank Lick creek. With difficulty Rich opened the door of the automobile and went to the home of Elmer Croger and called an ambulance to take him and Elkin to St. Elizabeth Hospital in Covington. Elkin was pulled from the half submerged car and both were taken to the hospital where they received treatment. Both men were in a serious condition for awhile from the cold caused by their plunge in the icy water.

They had been to a resort called "Kentucky Pines" and were returning home when the accident occurred. They stated they had been in a semi-conscious condition at the hospital for six hours. Both will recover.

Poisonous Snakes
Rattlesnake is not necessarily a "gentleman snake" which rattles its tail before every strike. A cotton-mouth water moccasin can and does bite under water. The copperhead is the most common poisonous snake in some sections, says a writer in the St. Louis Post-Dispatch, and in the dead grass and dried up leaves which it infests is one of the hardest to detect.

SMITH GIRL GETS FIVE YEARS

In the Penitentiary As Accessory In Criminal Attack On 12 Year Old Girl

Tuesday, at Burlington, in the Boone Circuit Court, Ethel Smith 17 year old Covington girl, was found guilty as an accessory in a criminal attack on a 12 year old girl, and sentenced to 5 years in the penitentiary. The girl was accused of aiding her brother, Henry Smith, Covington, in a criminal attack on a child on the Walton-Verona Highway 16, in Boone county, July 19th. Smith was alleged to have attacked the girl when on the way from Verona to Walton, after a dance. The wife and sister are alleged to have held the girl when she resisted the attack. Smith was tried in the Boone Circuit Court, Sept. 15th and sentenced to 20 years in the pen. The jury deliberated only twenty minutes on the Ethel Smith case. Judge Vallandigham passed sentence immediately and she was returned to Covington, to await removal to the penitentiary. Mrs. Lena Smith, wife of Henry Smith, also accused of being an accessory, is to be placed on trial on Monday.

WELL KNOWN GALLATIN FARMER DIES AT GEX

Walter "Bum" Craig, Well Known and Well Liked Man Passes to Great Beyond

Walter Craig, lovingly known as (Bum) Craig, of Gex, lower Gallatin county, died suddenly Monday, December 14th. He was a farmer and a son of Mr. and Mrs. Ashton Craig, deceased. No one knew him but was his friend. Of a delightful personality, kind, considerate and charitable, it is no wonder he had many friends. He was born in the neighborhood in which he died. He never married but after the death of his good parents, made his home with his sister, Mrs. Birdie Lillard. He is survived by one brother Thomas Craig of Gex; four sisters Mrs. L. E. Stachwell, Mrs. Mast Gard, Mrs. Lillard and Mrs. Lillian North. Funeral services were held from his late home Wednesday afternoon. Rev. Herbert Tinsley, pastor of the Warsaw Christian church, delivering a splendid sermon to a large assemblage of loving relatives and friends. Interment in the Warsaw Cemetery.

BORN-To Mr. and Mrs. Wallace K. Grubbs, Monday, at Christ Hospital, Cincinnati, a fine son. Mother and babe doing nicely.

Well Merited Praise of Boone County Officials

By Nat B. Sewell, Director of Post Audits, In Appreciation of the Fine Financial Returns

As the editor of the Advertiser has heretofore stated, Boone County is one of the best conducted counties in the State of Kentucky. With honest, conscientious officials, who so very efficiently conduct the county's affairs and the prompt financial returns to the state, inspired Nat B. Sewell, Director of Post Audits, to prepare the following statement to our worthy County Judge, N. E. Riddell:

December 4, 1936. Judge N. E. Riddell, Judge Boone County Court, Burlington, Kentucky. My dear Judge Riddell:

I am enclosing herewith for your permanent file, for the reference and use of yourself and other public officials, a copy of my report upon a recent examination of the records accounts, and affairs of the public offices in Boone County for the fiscal year beginning July 1, 1935, and extending to July 1, 1936. I trust that this report may be of some practical service to the county administration in carrying out the present year's program of operation.

In our yearly examination of governmental agencies in all the counties of the State, it is very seldom that we find as little to criticize and as much to commend as is revealed through our investigation in your county. As a whole, I sincerely feel that Boone County's fiscal affairs are exceptionally well managed. The public records covering the last year show not only that your county has operated strictly upon a cash basis but has lived well within its income and has conformed very satisfactorily to the requirements of the 1934 county Budget Act. I am pleased to see that the business of the last fiscal year definitely was closed before the beginning of the present fiscal year. One of the prime purposes of the Budget Act is to prevent the long-continued custom, in a great many counties of disregarding the beginning and the ending of the fiscal year, and as a result, having the business of two years mixed and the yearly records, accounts, and revenues correspondingly tangled. I therefore, consider your accomplishment in this connection an outstanding one.

The fact that, after all claims for the year were paid, you had cash balances at the close of the year of nearly \$15,000.00, \$20,000.00 and \$35,000.00, respectively in the General Fund, the Road and Bridge Fund, and the Road and Bridge Bond Sinking Fund clearly shows that it is not the policy of the Boone County administration to expend all revenues simply because they are available. This policy of expending only such revenues as actually are necessary to carry out efficiently the essential functions of the county government is a most commendable one that I should like very much to see enforced in every county in the Commonwealth.

Boone County is fortunate in having a Fiscal Court of only three members and this court is to be praised for holding only such meetings as actually are necessary for the consideration and transaction of fiscal affairs that require the attention of the Court. The total cost of \$186.00 for Fiscal Court meetings.

A Nice Christmas Gift

A year's subscription to the Walton Advertiser. It doesn't cost much and lasts throughout the entire year of 1937.

Represents Kenton House

Joseph Huey of Union, Boone County, is now representing the Kenton Loose Leaf Tobacco Warehouse of Covington, Ky., and any business that may be given him will be highly appreciated by this warehouse. The Kenton has ample floor space to take care of all tobacco brought them.

ings during the last year is one of the lowest in the State, and I am gratified to see that the members of this court do not engage in any "rugging" by making extra per diem allowance to themselves for the so-called "committee services," as has been done in various other counties without justification.

As compared with other counties in the same part of the State, the Sheriff of Boone County has made a good showing in the enforcement of the Dog law and in the administration of the Live Stock Fund. His charges for administrative costs are legal and thoroughly reasonable. It is evident that he is trying conscientiously to perform his duties under the law. He deserves the full co-operation and support of other county officials and the courts in extending the enforcement of the dog law to cover the listing and the licensing of ALL dogs in the county. I would suggest that a special effort be made to wipe out entirely the existing deficit in the Live Stock Fund, as of October 31, 1936, of approximately \$840.00, so that the new calendar year may be started on January 1st with no claims outstanding.

While your Road and Bridge Bond Sinking Fund is in excellent condition at this time, due to the receipts from the sales tax in the last two years, I would suggest for your consideration the fact that the present Sinking Fund surplus of nearly \$35,000.00 will be wiped out in the next few years because the annual requirements for maturities and interest are at least \$10,000.00 per year in excess of the revenue that will be derived from your 20-cent Sinking Fund levy. I would suggest, also, as good business for the county, the purchase of outstanding unroad and bridge bonds, whenever they can be obtained at a fair price, with the bond fund of nearly \$110,000.00 that you have been holding a number of years. In disposing of a recent injunction proceeding from Estill County, where the same condition as to an unexpected bond fund exists as in your county, Judge Rees held that these funds might be used to buy up bonds, not for retirement, but as an investment. Through this procedure, a very considerable saving can be made each year, since there is very little chance of securing anything like as much interest upon bank deposits as is being paid upon the outstanding bonds.

I want to express appreciation from this department for the excellent co-operation that we have had in our work from Boone County officials. The fine administrative record that is being made by these officials is an encouragement and should be a helpful example for many other counties to follow.

Trusting that the good work in the handling of county business that already has been accomplished will be continued and further extended and hoping that you will not hesitate to call upon this department whenever you feel that we may be of practical service, I am, Sincerely yours,

(Signed) NAT B. SEWELL, Director of Post Audits

AN ERROR MADE

Through misunderstanding, a letter to us by Joe Hopperton, Tampa, Florida, it stated that it was Mr. Hopperton who was in a hospital in that city, with phosmeline poisoning, when it should have been his wife Mrs. Joe Hopperton. Her many friends here sympathize with her and her husband and hope for early recovery.

Guyolen Carlisle, the young son of Mr. and Mrs. O. O. Carlisle of South Main street, was quite ill last week with chicken pox, but has now fully recovered.

A Strange Case In Boone Co.

From A Jovial Disposition to a Recluse

Took to His Bed Fifteen Years Ago and Remained There Until His Death

One of the most unusual cases was that of William C. Waits, who died at his home in Bullittsville, Boone county, Thursday, Dec. 10th, in his 85th year, after taking to his bed fourteen years ago. Up to that time he was of a jovial, humorous disposition and delighted to tease those with whom he came in contact. He was engaged in the mercantile business at one time. Fourteen years ago a change took place in his disposition, and although perfectly rational, he became morose, took to his bed and refused to talk to his friends when they called to see him. There he remained, not an ache or pain, during all these years. He would ask for what he wanted and that was all. He was a bachelor and was cared for by his sister-in-law, Mrs. Tom Waits, who attended his every want—a service of love.

The cause of his death was called senility. It was a strange case indeed—from jovial, humorous disposition, to a recluse, one of the queerest in the annals of Boone county. Nothing of an unusual nature ever came up in his life, as far as is known, to cause this radical change in his nature. He was not a member of any church, though a sober industrious man until this change came over him.

He is survived by one brother, O. E. Waits of Petersburg, and several nieces and nephews.

His funeral took place Saturday afternoon from the Sand Run Baptist church, Rev. W. T. Dunaway officiating, after which the remains were interred in the Sand Run Cemetery.

Funeral Directors Chambers & Grubbs of Walton, had charge of the arrangements.

CONTATA AT M. E. CHURCH

Wednesday Night, Dec. 23, In a Beautiful Program

The choir of the Walton Methodist Church is making extensive preparations to present a beautiful Christmas Cantata at the church on Wednesday evening, December 23rd. The choir has been rehearsing for some time and the program promises to be very entertaining, especially to the lovers of music. The public is most cordially invited to attend. Admission is free.

Methodist Bazaar Successful Affair

Sponsored By the Happy Helpers' Class Was An Enjoyable Event!

The bazaar sponsored by the Happy Helpers' class of the Methodist church Tuesday night was a most enjoyable event. The gift shop, confection store, candy booth and refreshment stand were liberally patronized. The free entertainment given by Mrs. Helen Biedinger, Mrs. Olive Johnson, Mrs. Fay Conner and Malcolm Simpson, in costume of the gay eighties, was very entertaining and laughable, and much credit is due these young people for their explication of these old-time features in old-time songs, etc. The proceeds go toward the church debt.

Tobacco Market

High Prices Prevail On the Covington Market This Week

High prices prevailed on the Covington tobacco market Monday and Tuesday. At the Tri-State Warehouse, Mrs. J. M. Arnold and Chandler sold 986 pounds for an average of \$45.03; A. Schwartz and H. Brown sold 182 pounds at \$42.30; F. L. Powers and J. F. Gruell, 3474 lbs. at \$31.25; L. Wilson and L. Holt, 33471; Harry Study and Lee Phillips, 1524 lbs. at \$34.42; J. B. Brooks and R. E. Workman, 1450 lbs. at \$40.67; C. M. Pribble and R. Reed, 1292 lbs. at \$37.75; Frank Houston, 440 lbs. at \$40.20. A total of 40,246 pounds were sold at an average of \$32.58 per hundred.

At the Kenton House, 31,318 lbs. brought an average of \$31.19. Col. R. G. Kinnaman, auctioneer at the Kenton, said the tobacco market on Tuesday was the highest since the war. The high was 56c per pound, and the average between 43 and 48 cents on the day's sales.

Covington markets will close for the Christmas holidays on Dec. 22nd and will reopen Jan. 4th, it is stated. The Carrollton markets sold 298,032 pounds of tobacco Monday for an average of \$32.12.

On the Cynthiana markets, on Monday, sold 388,222 pounds of tobacco at an average of \$46.70.

Mr. and Mrs. Joseph L. Reffett of near Napoleon, Gallatin county were welcome visitors here last Thursday.

Mr. and Mrs. V. P. Kerns, who are making their home in Covington were visitors to friends here Sunday.

MRS. HOPPERTON'S LEG AMPUTATED

At Tampa Hospital to Save Her Life From Blood Poisoning

Wednesday morning we received the sad intelligence from Joe Hopperton, Tampa, Fla., that his wife Mrs. Hopperton, had her right leg amputated at a local hospital to save her life from blood poisoning. The operation was performed Sunday morning. She is in a critical condition but is expected to recover. She was attacked by ptoxin poisoning about a week previous and it settled in her right leg and physicians deemed it necessary to amputate her leg to save her life. She was getting along nicely until Tuesday of last week, when complications set up and the operation was deemed necessary.

Mrs. Hopperton was engaged in the restaurant business here previous to her selling out and moving to Florida, where she expected that climate to restore her health. She has many friends here who deeply sympathize with her and Mr. Hopperton and sincerely hope for her recovery. She is a splendid lady and has a host of friends.

Christmas Eve Pageant

On Thursday evening, December 24th at 7 o'clock the pageant "White Gifts for the King" will be presented by the Sunday School of the Walton Christian church. This program will be different from the usual Christmas program in that it emphasizes the consecration of life to Christ through gifts of Self, Service, and Substance. Mrs. Olive Willis and Mrs. Lula Huey are directing the pageant. You will enjoy it—Come.

MRS. NANCY JOHNSON

Fine Old Lady of the Verona Neighborhood Passed Away December 9

Mrs. Nancy Willis Coyle Johnson, age 86, daughter of Thomas and Harriet Coyle, was born in Scott county, Kentucky, October 31, 1850 and entered into eternal rest, Dec. 9, 1936, at the age of 86 years, one month and nine days.

She was united in marriage to John S. Johnson, March 23, 1878. To this union was born six children: viz: Walter Johnson, Verona; Chas. Johnson, Covington; Harry Johnson, Crittenden; Mrs. Virgie Allen and Mrs. Ida Simpson, Walton, also Hatie Johnson, who died in infancy. She also leaves three step-children Ben W. Johnson, Mrs. Mari Benson and Miss Julia Johnson, Walton, 6 grandchildren, 28 step-grandchildren, 8 great-grandchildren and a host of other relatives and friends. She had been a constant member of New Bethel Baptist church, Verona, for many years and will be greatly missed by all who knew her.

Funeral services were held at New Bethel church, Saturday, Dec. 12th. Rev. R. F. DeMosley, pastor of the Florence Baptist church, her former pastor, preaching a very appropriate funeral discourse to a large assemblage of relatives and friends. He was assisted by Rev. Roy Johnson, pastor of the Big Bone Baptist church, a relative. Interment was in the church cemetery.

Attended Relative's Funeral

Mrs. Bert Schneider received the sad intelligence Friday, of the death of her sister-in-law, Mrs. Oscar Dennitt at Portsmouth, Ohio, and left immediately for that point to attend the funeral.

Castleman property, recently vacated by Gilbert Carpenter.
Phill Zapp and family called on L. G. Beemon and wife, Sunday afternoon.

Irvin Sanford of Bellevue, visited his aunt Mrs. Lilla Hambrick, Sunday.

Sam Hambrick and son Fred, played down on father's and mother's farm, and again see them in their accustomed place by the fire-side, with a large fire place, where a huge back-log of sugar tree or hickory helped to bring warmth and cheer, as our neighbors dropped in for a chat before bedtime.

We remember it so much better than if it had happened a fortnight ago.

As we grow older the world seems more beautiful, I think; because, as children, we never had a care or ever thought of growing old.

I remember of going to the woods to gather the beautiful flowers and green and gold foliage, but we never dreamed of the lesson they portrayed of the "seasons of the year."

Why the acorn fell from the mother earth, to burst forth from its prison walls in springtime, to grow and take the place of the mother oak—that in time must fall.

This is always a sad time of the year to me, as it nears the time of the birth of the Christ Child—God's gift to the world, who suffered a life of persecution, and we are told in the Scriptures that after all hope had vanished, he knelt in the garden of Gethsemane and agonized. Oh what an awful word. Can we realize that feeling of Christ as he prayed, "Oh Father, if be possible, let this cup pass from me, but not my will, but thine be done."

Persecution today is going a long way to help fill watery graves. Many are there today, because of the need of someone to put their arms around them and speak a kind word of encouragement instead of "persecution."

Now at Christmas time we look up and watch the snowy cloud boats wafting their way to other lands, and we think of the little ones over there, as well as at home, living in cheerless homes, looking through paneless windows at play children on the street with their toys and wondering why no "Santa" will come to see them.

Then too, we wonder, as we see our gleeful children go to school warm and snug, if they will ever realize the comparison to the way we older ones went to school in snow knee deep in weather. Nevertheless, hardened by the exposure of our wild winters, we lived happy carefree days—that, now as we look back they seem to come to us as, "roses in the November of our lives."

Now as I near the midnight hour I expect our editor will be saying "Good Night," I will close by again reminding you that Christmas will soon be here and we must not let unfortunate little ones go without a visit from Santa Claus for please remember—

"There's nothing on earth so holy as the innocent heart of a child. Oh my heart grows weak as a woman's"

And the fountains of feeling will flow when I think of the paths, steep and stony

That the feet of these dear little ones must go—

We wish you all an old-fashioned Xmas in a new-fashioned way.

STILL WONDERING

In my last week's article I said, "I was wondering what the young people of today would be thinking about when they grow old."

We older ones love to think back over our lives, as boys and girls, we played down on father's and mother's farm, and again see them in their accustomed place by the fire-side, with a large fire place, where a huge back-log of sugar tree or hickory helped to bring warmth and cheer, as our neighbors dropped in for a chat before bedtime.

FEELS SORRY FOR HIM

An exchange says: We feel sorry for the man who does not read his home paper. He is no better than a man without a country. He is like a homeless cow that has no regular pasture, but grazes promiscuously on weeds and thistle. No matter what other papers he may read, the straightforward citizen always insists on having his home paper. This is the paper that stands for him and his business and the best interests of the community.

FORD
advances into 1937 with the
LOWEST PRICE IN YEARS
and new operating economy

THE ADDITION of a new 60-horsepower engine to the Ford line for 1937 brings you a new, low price and gives you a choice of two V-type 8-cylinder engines. 85 horsepower for maximum performance, 60 horsepower for maximum economy.

The 60-horsepower V-8 engine was originally developed for use in England and France, where fuel costs are high. It has been proven there for two years with brilliant success. Now, brought to America, it

creates an entirely new standard of modern motoring economy!

The "60" engine, available in five body types, is built in exactly the same body size and wheelbase—to the same advanced design—with the same comfort and convenience as the "85." And it delivers V-8 smoothness at speeds up to 70 miles an hour.

Two engine sizes—but only one car and one purpose—to give you more miles and more satisfaction for your money in 1937.

FORD FEATURES FOR 1937
APPEARANCE—Distinctive design. Headlamps in fender aprons. Modern lighthouse hood. Larger luggage space. New interior. Slanting V-type windshield.
BRAKES—Easy-Action Safety Brakes with "the safety of steel from pedal to wheel." Cable and conduit control. About one-third less brake pedal pressure required.
BODY—All steel. Top, sides, floor and frame welded into a single unit. Safety Glass throughout at no extra charge.
COMFORT AND QUIET—A big, roomy car. Center-Pole comfort increased by smoother spring-pan with new pressure lubrication. New methods of mounting body and engine make a quieter car.

FLORENCE HOMEMAKERS

The Homemakers club of Florence met last Tuesday for an all day meeting at the Town Hall. In the morning their regular meeting was held with 26 members present and 8 new members, which we are very glad to welcome. They are Mrs. Robert Eads, Mrs. Erma Popham, Mrs. Garnet Lucas, Mrs. Rose Dean and Mrs. Effie Herrington.

Mrs. L. T. Uts and Miss Marry Gillaspie gave the lesson on Helping Hands.

At the noon hour a delicious lunch was served by the committee in charge. The table was decorated with a small red Christmas tree in the center and on each end were Silver Candelabras containing Red Tapers.

Mrs. C. F. Blankenbaker, our program conductor, and Mrs. Virginia Goodridge had charge of the Christmas party. Games were played and a very interesting Christmas program was part of the afternoon program, with all members pointing in singing "Silent Night." Each member received a package from Santa's postoffice.

The next meeting will be held on Tuesday, January 12th.

Camphor Found in Tree

Sometimes camphor is found distributed through the grain of the tree in small white sugar-like crystals, when the method of collection is to fill the tree, split the wood up into splinters and scrape off the crystals; at other times the camphor occurs occupying a single cell like a kidney, about the size of a man's forearm.

Tobacco Warehouse

Gargon Explained

On the Covington Loose Leaf Warehouses By a Cincinnati Newspaper Reporter

We have never been able as a novice to understand what loose leaf tobacco auctioneers said until it was explained by a Cincinnati (O.) newspaper reporter at the opening of the Covington tobacco markets, Dec. 8. As it is, it is a little misty yet, but probably some of our readers can understand what was meant. Here follows the news man's explanation:

Rugh Arnold stepped up to the first basket of bright brown weed in a long line at the Tri-State Tobacco Warehouse, Covington, yesterday morning and cleared his throat for that sound the like of which there is hardly anything else in the world—the tobacco auctioneer's chant.

A price starter slapped a hand of tobacco against the open palm of his own hand and shouted, "Let's go!"

Arnold began his chant:

"Quarter, art, an a ree; quarter art, and a ree."

He turned his head from side to side while his glance darted among the assembled buyers for the large tobacco companies, and his lips continued their sing-song chant, the closest approximation to which probably is a Chinese waiter giving an order to a cook in a cheap busy restaurant.

Each time a buyer raised a finger scratched an ear, cocked an eyebrow, nodded or shrugged a shoulder, Arnold raised the price a point and continued with his "quarter, art and a ree." When there were no more nods or motions from the buyers Arnold moved to the next basket and repeated the performance.

Up and down the rows of baskets Arnold walked, never pausing either with his feet or his lips.

Buyers, clerks and watchers trailed behind him in a sort of double lookstep formation on each side of the row of baskets, weaving slightly as they walked, like two synchronized serpents. At the head of the lines walked the price starter beating his hands with tobacco starting the bidding, yipping, and carrying on much like a cheer leader at a college football game.

Within an hour Arnold had sold 7,512 pounds of tobacco for \$19.19 and the buyers moved from the Tri-State house to the Kenton house.

Here, Colonel Rome Kinman, the Kenton house auctioneer, loosened up his voice and went into his chant. He, too, kept walking and talking as he hustled through the sale of 15,000 pounds of tobacco for a total of \$4,155.91. Behind him trailed the lookstepping buyers and clerks; ahead of him went the cheer-leading price starters—there were two of them at the Kenton house.

Some Old Coins

L. & N. RAILROAD EXPENDS \$500,000

In Improvements and Modernization of the System

Nearly \$500,000 has just been authorized by the Louisville & Nashville Railroad for the modernization of the mechanical facilities of its principal ship plants, it is announced in the December L&N Employees' Magazine. Approximately \$380,000 will be devoted to the purchase of 87 new machines and tools for the road's largest shop at South Louisville, Ky. The remainder will go into equipment for the shops at Mobile and Birmingham, Ala.; Ravenscroft, Decatur and Corbin, Ky.; Nashville and Paris, Tenn., and Evansville, Ind.

At Birmingham one of the more important items is an electric crane for boom cranes for handling with greater safety heavy parts of locomotives. Among the Mobile item is a 39-inch motor-driven crank planer for locomotive repair work. An unusual machine to be included in the Decatur program is an electrically operated locomotive spotter, for the moving of engines while they are undergoing repairs.

Work of installing the new machinery commence in the very near future and is expected to be completed some time next summer. Employees' Magazine.

Any Christmas Seals?

Do you have an Tuberculosis Christmas Seal to place on your holiday mail? Every school child in Boone County has them for sale or can tell you where you may purchase them.

Over forty counties sell Christmas seals to fight tuberculosis. A half a billion people can't be wrong. They buy Christmas Seals annually.

Nearly 90,000 seals have been released in Boone County according to a statement made by R. V. Lenta Ludlow, Ky. Route 2, who is in charge of the county sale.

If you received 100 seals from Mr. Lenta, don't forget to send him a dollar for them. You cannot spend a dollar that will do more good than to buy Christmas Seals.

BIG BONE'S OIL WELL FIASCO

Thirty-one Years Ago The Gullible Sunk Many Dollars In Wells

An excerpt from the Warsaw Independent of December 23, 1905 gives a very glowing account of the Big Bone Oil, Gas & Development Company, copied from the Indianapolis (Ind.) Daily News, which is as follows:

According to a special in Indianapolis News, Saturday, the Big Bone Oil, Gas & Development Company will begin work this week. The company is capitalized at \$100,000. Thomas H. Baker, postmaster at Louisville, a former resident of Boone county, is president; Harry Miller, secretary, also from Boone county. Miller discovered the gas and salt mine and bought the farm of 300 acres. He started to dig a well, and after going down fifteen feet a test showed one gallon of salt to twenty gallons of water. The Big Bone neighborhood is excited and land has gone up 50 per cent. Albert S. Berry, ex-congressman of the Sixth district of Kentucky is trying to interest Eastern capitalists in running a traction line to Big Bone and the erection of a large hotel.

Like a great many of such wildcat oil and gas propositions, it is a failure, many poor people losing hard earned money investing in this great (?) get-rich-quick fiasco.

CHARLES BEEMON

Charles Beemon, age 68, died at his home on Wolper Pike, Boone county, Monday, Dec. 7th, from heart attack after failing health for about a year. He was a farmer, a valued member of the Christian church, and a member of the Knights of Pythias. He is survived by his widow, Mrs. Charles Webster Beemon, one sister and a number of nieces and nephews. His funeral took place from the Petersburg Christian church, Wednesday, Dec. 9th, Rev. Noble Lucas, the pastor, preaching an appropriate funeral discourse to an assemblage of relatives and friends, after which the remains were laid to rest in the Petersburg Cemetery.

Funeral Directors Chambers & Grubbs of Walton, had charge of the arrangements.

ALL STEEL HOUSE

AT FT. MITCHELL

Opened to Public. Well Known Business Houses Furnish Equipment

Unique, durable and beautifully decorated, northern Kentucky's first steel house, built on Ashton road, Ft. Mitchell, was opened for public inspection, December 5th, by the Ft. Mitchell Realty Co., Inc., and the Kentucky Post, and will continue open for inspection until Saturday.

Six large-sized rooms and bath are found within the home's walls. A large basement is beneath.

A heating and air-conditioning unit provides heat for the home at a nominal cost of \$58 per year. Rock wool insulation adds this all-round advantage. Because of its steel construction fire insurance rates are at a record low price. In addition, the new cost of original construction is added by a continued low cost of maintenance. Permanence in the structure is unobtainable in any other type of building, real estate men say. The rock wool insulation also shuts off outside noises.

The house is built on a one-floor plan. It is divided into a living room, dining room, kitchen, two bedrooms, bath and a studio, convertible into a third bedroom.

Motorists en route to the Steelco house are being routed out the Dixie Highway through Ft. Mitchell, over Beechwood road, then right onto Ashton road a short distance beyond the Beechwood school. The house is within a short distance of the school, providing further facilities to the family of its owner.

Some of our advertising firms who have furnished either materials or work on the house, and their part in its construction are:

Furniture, Dine's Furniture House Covington; plumbing, N. S. Blau, Walton; asphalt drive, J. A. Harris, Erlanger; electric fixtures, Sande Supply Co., Covington; landscaping Dixie View Nurseries, Florence; the Studebaker car, Dempsey Motor Co., Erlanger; draperies and rods, John R. Coppin Co., Covington.

CHRISTMAS SERVICES AT CHRISTIAN CHURCH

A worship program titled "Christmas in Song and Story" will be presented at the Christian church on Sunday evening, December 20th at 7 o'clock. This service will be unusual in its simplicity, and yet full of the real Christmas spirit. Many of the familiar Christmas carols will be sung, and other Christmas music will be rendered as special numbers. Everyone is invited to attend.

Dorcas Class Honors

Mrs. Susie Norman

The Dorcas class of the Walton Baptist church gave an elaborate banquet Tuesday night in the dining room of the church in honor of the birthday anniversary of Mrs. Susie Norman, a charter member of this Sunday School class. A large number were present and a most enjoyable evening was spent together in honor of this good lady, who greatly appreciated this honor.

CRITTENDEN GRANT COUNTY

Mr. and Mrs. P. C. Brown and Miss Carol Brown attended the funeral of their uncle Dr. T. J. Griffith at Vevay, Ind., Tuesday. Dr. Griffith passed away suddenly at his home in Washington, D. C.

Mr. and Mrs. Durbin Collins of Lexington, were recent guests of Mr. and Mrs. J. M. Collins.

Mrs. Ben Schneider who is a patient at the Good Samaritan Hospital, for an operation, is getting along nicely.

Mrs. Martin of Cordova, spent several days the past week with her daughter Mrs. Marion Crowe and Mr. Crowe.

School News

The honor roll for the 4th month of school is as follows: 18 grade—Lawson Henderson, Freddy Brown, Marshall Wilcher, Merideth Work; 2nd grade—Hazel Caldwell, Ida Mae Mullins, Kenneth Coleman, Mayne Noble Lucas, the pastor, preaching an appropriate funeral discourse to an assemblage of relatives and friends, after which the remains were laid to rest in the Petersburg Cemetery.

Funeral Directors Chambers & Grubbs of Walton, had charge of the arrangements.

There will be a talking picture "The Hoosier School Master," a comedy and news reel Tuesday, Dec. 22nd at 7:30 p. m. at the High school auditorium, sponsored by the P. T. A. Admission 10 and 20 cents.

POULTRY POINTERS
FOR DECEMBER

By STANLEY CATON

Poultry Department, College of

Agriculture, Lexington, Ky.

Housing the laying flock properly

presents one of the greatest problems

of winter management. During the

fall and winter it is good manage-

ment to keep the flock confined un-

til at least noon, even when the

weather is nice. This encourages

the consumption of more of the

proper feeds for egg production.

Then, of course, when severe cold

weather, snow or rain occurs it may

mean that the birds will have to re-

main in the house at all times. We

must realize, therefore, that hens

will spend much time in the house

between December first and April

first.

To keep the flock in the best of

condition, the following points must

be kept in mind:

1. Provide plenty of fresh air

without drafts.

2. Keep the muslin curtain open

unless there is snow, cold rain or

a cold wind blowing into the front

of the house.

3. Clean the dropping boards

frequently. This doesn't take as

long if it is done often. The dropping

boards that are hard to clean are

the ones which are cleaned in-

frequently.

4. Provide adequate litter.

5. Keep the floor as dry as pos-

sible. Spilling water on the litter,

dirty dropping boards and poor ven-

tilation are the primary causes of

wet litter.

6. Do not overcrowd the house.

Three and one-half to four square

feet of floor space should be pro-

vided for each hen.

7. If your present poultry house

is undesirable, remodel it to make it

satisfactory. Some excellent results

have been secured by remodeling

sheds or barns making them into

excellent poultry houses.

8. Keep your poultry house well

ventilated, comfortable, dry and

clean this winter—the hen will

spend three-fourths or more of her

time in it.

9. Details about housing farm

poultry can be obtained from Ky.

Extension Circular No. 107.

According to announcements from

Fred J. Lowe, president of the poultry

association, Kenton county, an

important school will be held for

poultrymen at Independence, Ky.

the second week in January, 1937.

Detailed announcements will be

DEPTY OF THE FIRE

By BEN
AMES
WILLIAMS

COPYRIGHT, BEN AMES WILLIAMS • WALS SERVICE

Doctor Greeding nodded. "Here's a strain. My head's whirling. A surgeon should never operate on his friends!"

"You did all that could be done, did it perfectly," Mary Ann assured him; and she asked, with a sudden widening in her tones, her first confession of fear: "Tell me what you think?"

Doctor Greeding hesitated. "Everything was as fortunate as possible," he said. "There are many perforations, as you saw. That was inevitable. But not much poisonous matter free. Of course, all we could do was repair the damage, and drain the wound, and—well, you know that as well as I." He added: "Yet—I believe we got better!"

With Thomas and Jerry helping, they carried Dan into the dining room, and laid a mattress on the table for his bed, and set a fire on the hearth.

And thus began the vigil that must endure for days. Doctor Greeding assumed command. "Another procedure may be necessary later," he explained. "I'll get whatever we are likely to need, have it ready. He is taken to Boston and arranged that a full kit should be dispatched by messenger. He suggested a nurse; but Mary Ann negated that."

"I shall be within call always," she said. "And Nancy will want to help. Any unhelpful people could only add to the confusion. He needs quiet, needs to sleep."

He assented. "Yes, that's true," he agreed.

"But I must let Father know," she remembered.

Doctor Greeding said quickly: "Of course." And he urged: "Have him come up here, Mary Ann." He was suddenly and for no tangible reason eager to see Professor Carlisle again.

Jerry took this matter by hand; he volunteered to drive to Boston and fetch Dan's father. "It's better than having him make the trip alone," he said. "And—I must confess my fault to him, Mary Ann."

She reassured him. "It wasn't your fault. It was an accident," she urged. Yet she let him go.

Thomas took him to the boat to land the landing where he had left his car. He would, they decided, return next day.

Dusk began to creep across the lake and cloak the hills. Dan was drowsily conscious, murmuring absurdities and realizing their absurdity and chuckling at himself; and Nancy, close by him, holding his hand, laughed with him over so tenderly. Mary Ann had made a couch in the billiard-room, close by where he lay. After dinner—they ate in the kitchen, in relative privacy of their ways by his side—Mary Ann insisted that Doctor Greeding go to bed for a while.

"I'll call you later," she promised. "Nancy will stay with him, and I'll sleep here, and we'll call you!"

So Doctor Greeding went to his room; but at first he did not sleep. He turned on all the lights, unwilling that there should be anywhere a shadowed corner in which anything or nothing might hide. The man's nerves began to twitch. He had a sense of dark forces gathering like a smothering cloud. He slept at last, uneasily; and when at last some one came tapping at his door, he woke with a bound and a cry.

"It's Nancy, Father," the girl said reassuringly, through the panels. "It's all right. Nothing's happened. Only Mary Ann thought you might come down for a while now."

"At once," he promised, steadily enough; yet it was in fact time before he was sufficiently composed to face them. When he came downstairs, he found Mary Ann and Dan's sister, Nancy half asleep, and a great chair near Doctor Greeding touched Dan's wrist, his brow, and nodded reassuringly; and Mary Ann smiled. She went to spread a blanket gently over Nancy.

"You lie down too," Doctor Greeding directed.

She obeyed him, white and weary, and Doctor Greeding was left with the hurt man. He stood beside Dan for a moment; then he too sat down without moving, while long thoughts absorbed him.

Sometime later he looked toward Nancy. Her eyes were open. He saw the glint of them.

"Awake, dear?" he murmured.

She smiled. "I had a bad dream," she whispered. "But it's all right if you're here." And she closed and slept again. Her faith was like a draft of warm wine.

Hours later Nancy roused, and came and stood with her hand touching Dan's. His fingers closed faintly over hers.

"He knows me," Nancy whispered; and Dan muttered: "Nancy. There?"

CHAPTER X

There followed days of waiting, of that inaction which is so much more difficult than action, when they could only tend the hurt man, and seek to cheer him with their smiles, steering with the fuel of their untainted strength the flickering fire of life that burned in him. Sometimes he was in torment, but he managed to grin despite the pain, hiding his anguish behind a brave mask of mirth from these, folk who loved him.

And thus deceive Nancy; but at such hours his brow was wet, and Mary Ann knew he suffered, and eased him as she could.

Doctor Greeding himself seldom went far from where the hurt man lay. He clung to Dan's proximity, as a mariner in stormy weather clings to safe anchorage, with a jealous diligence. Here was his task and his duty; to make sure, first of all, that Dan came back to health again. He would not by even a faint absence take the least risk of failure.

The vigil left its mark upon him, so that even Mary Ann urged him to rest, to walk around the island, or take a boat-ride, or find some other means of distraction.

"You need it," she insisted. "You're dead tired."

"I'm all right," he protested. "I'll stand by him."

Jerry and Professor Carlisle had arrived early on the first morning, having left Cambridge at dawn. Doctor Greeding welcomed them. They were rising in him a deep affection for these folk, a new perception of the kindness and understanding in them all. Jerry, for instance, had first offered to throw the resources of his wealth at their disposal; his silence seemed to assume that whatever could be done for Dan, they would do it. Some men, you know, they do that.

It's already twenty-four hours," he reflected. "Wound draining?"

"I'll stay with him for a while," he suggested. "If you want to rest."

And he did in fact stay close to Dan's side during the days that followed. It was in part solicitude; since so long as he stayed near Dan, who was conscious and rational now—he need not be alone with Professor Carlisle.

There was in Doctor Greeding a passionate desire to avoid that wise bold man, whose sharp eyes saw so much, who might be keen enough to suspect, and even to credit, the incredible. He perceived that question multiplied in the other's mind; but as he himself stared, near Dan, who must overhear any catchword that might be attempted, Professor Carlisle could not interfere with him.

And—Doctor Greeding had no answers ready for the old man's unasked questions; so he clung to Dan as a buckler and a shield.

He and Mary Ann and Nancy shared that vigil; but he bore the greater burden. It was as though he poured his own life and strength into the hurt man. He seemed in fact visibly to fall while Dan grew stronger. For Dan's strength did begin to return, his color to improve; and his spirits were brave and untroubled.

Doctor Greeding, by contrast, began to look like an ill man. Nancy saw a heavenly tenderness, and Mary Ann entered with her sympathy to this conspiracy of gentleness toward the man who so visibly grew weary and drawn before their eyes. She said to him, once it dawned on her: "You mustn't wear yourself out, Doctor." And she added, understandingly: "Father told me you blame yourself for the hurt."

But that's wrong. You mustn't be so strong. Grief and worry can make you ill, and Dan doesn't blame you. None of us does."

He smiled, frankly. "No one has blamed me."

"They've all been mighty kind and generous. But it was my fault, just the same."

Neither man spoke; and he added honestly: "As a matter of fact, this was worse than carelessness. With that particular pistol, if I had been empty, the action stays half-open. The fact that it was closed should have warned me that there was still a charge in the barrel. I was incredibly stupid!"

"There was a moment's silence. Then Jerry said uncomfortably: "Decent of you to say that, Ned. But after all, if I hadn't pointed the gun at Dan—"

He added, in an incoherent recollection: "I didn't mean to, I tried, not to. I can't understand it, even now. It was exactly as if some one's hand, on mine, swung the pistol toward Dan."

"If it had been empty, you could have done no harm," Doctor Greeding insisted.

Professor Carlisle looked keenly at the Doctor. "No one is blameable for an accident," he remarked. "This of course was an accident. Let it rest so."

And he repeated his question of a moment before. "You think he will recover?"

"Why?" the older man inquired. "On what signs do you rely?"

Doctor Greeding hesitated, shook his head, smiled. "I don't know," he said. "I remember. A guess, perhaps. He chuckled. "Or it may be that I'm relying on my luck. I was born under a caul. Professor, the old women say that a sign of luck, you know; and I've always been lucky, certainly."

Professor Carlisle sat down, almost suddenly, as though he were tired. His eyes still on Doctor Greeding's face, he waited a moment and lighted it. So presently he spoke.

"Born under a caul, were they?" he repeated thoughtfully. And he said: "I remember. You once told me some strange experiences of a friend of yours, who was also born under a caul."

Doctor Greeding felt his cheek flame; then the blood dried, and he cursed his folly, his own loose tongue. There was no accusation in the Professor's tone; yet Doctor Greeding felt himself accused.

"Yes, so I did," he confessed lamely.

Professor Carlisle puffed at his pipe, his old eyes stem and still. "Strange things do happen," he said gravely, "—some things too dark for the human mind; to contemplate. He met Doctor Greeding's glance. "I perceive," he said, "that Dan and Nancy—"

"Yes, I am much pleased," Doctor Greeding said hurriedly.

"You do not—object?" the Professor asked.

"No," the other man assured him. "Not at all. And he said: "Strange things, yes. Dan's recovery—"

"You're dead tired," he insisted. "I'm all right," he protested. "I'll stand by him."

Jerry and Professor Carlisle had arrived early on the first morning, having left Cambridge at dawn. Doctor Greeding welcomed them. "If it had been empty, you could have done no harm," Doctor Greeding insisted.

Professor Carlisle looked keenly at the Doctor. "No one is blameable for an accident," he remarked. "This of course was an accident. Let it rest so."

And he repeated his question of a moment before. "You think he will recover?"

"Why?" the older man inquired. "On what signs do you rely?"

Doctor Greeding hesitated, shook his head, smiled. "I don't know," he said. "I remember. A guess, perhaps. He chuckled. "Or it may be that I'm relying on my luck. I was born under a caul. Professor, the old women say that a sign of luck, you know; and I've always been lucky, certainly."

Professor Carlisle sat down, almost suddenly, as though he were tired. His eyes still on Doctor Greeding's face, he waited a moment and lighted it. So presently he spoke.

"Born under a caul, were they?" he repeated thoughtfully. And he said: "I remember. You once told me some strange experiences of a friend of yours, who was also born under a caul."

Doctor Greeding felt his cheek flame; then the blood dried, and he cursed his folly, his own loose tongue. There was no accusation in the Professor's tone; yet Doctor Greeding felt himself accused.

"Yes, so I did," he confessed lamely.

Professor Carlisle puffed at his pipe, his old eyes stem and still. "Strange things do happen," he said gravely, "—some things too dark for the human mind; to contemplate. He met Doctor Greeding's glance. "I perceive," he said, "that Dan and Nancy—"

"Yes, I am much pleased," Doctor Greeding said hurriedly.

"You do not—object?" the Professor asked.

"No," the other man assured him. "Not at all. And he said: "Strange things, yes. Dan's recovery—"

"You're dead tired," he insisted. "I'm all right," he protested. "I'll stand by him."

Jerry and Professor Carlisle had arrived early on the first morning, having left Cambridge at dawn. Doctor Greeding welcomed them. They were rising in him a deep affection for these folk, a new perception of the kindness and understanding in them all. Jerry, for instance, had first offered to throw the resources of his wealth at their disposal; his silence seemed to assume that whatever could be done for Dan, they would do it. Some men, you know, they do that.

It's already twenty-four hours," he reflected. "Wound draining?"

"I'll stay with him for a while," he suggested. "If you want to rest."

And he did in fact stay close to Dan's side during the days that followed. It was in part solicitude; since so long as he stayed near Dan, who was conscious and rational now—he need not be alone with Professor Carlisle.

There was in Doctor Greeding a passionate desire to avoid that wise bold man, whose sharp eyes saw so much, who might be keen enough to suspect, and even to credit, the incredible. He perceived that question multiplied in the other's mind; but as he himself stared, near Dan, who must overhear any catchword that might be attempted, Professor Carlisle could not interfere with him.

And—Doctor Greeding had no answers ready for the old man's unasked questions; so he clung to Dan as a buckler and a shield.

He and Mary Ann and Nancy shared that vigil; but he bore the greater burden. It was as though he poured his own life and strength into the hurt man. He seemed in fact visibly to fall while Dan grew stronger. For Dan's strength did begin to return, his color to improve; and his spirits were brave and untroubled.

Doctor Greeding, by contrast, began to look like an ill man. Nancy saw a heavenly tenderness, and Mary Ann entered with her sympathy to this conspiracy of gentleness toward the man who so visibly grew weary and drawn before their eyes. She said to him, once it dawned on her: "You mustn't wear yourself out, Doctor." And she added, understandingly: "Father told me you blame yourself for the hurt."

But that's wrong. You mustn't be so strong. Grief and worry can make you ill, and Dan doesn't blame you. None of us does."

He smiled, frankly. "No one has blamed me."

"They've all been mighty kind and generous. But it was my fault, just the same."

Neither man spoke; and he added honestly: "As a matter of fact, this was worse than carelessness. With that particular pistol, if I had been empty, the action stays half-open. The fact that it was closed should have warned me that there was still a charge in the barrel. I was incredibly stupid!"

"There was a moment's silence. Then Jerry said uncomfortably: "Decent of you to say that, Ned. But after all, if I hadn't pointed the gun at Dan—"

He added, in an incoherent recollection: "I didn't mean to, I tried, not to. I can't understand it, even now. It was exactly as if some one's hand, on mine, swung the pistol toward Dan."

"If it had been empty, you could have done no harm," Doctor Greeding insisted.

and found them so, and Nancy said laughing: "Mary Ann, you stay with him for a while. He'll be unbearable. I'm going swimming." She spoke to Dan: "Don't you wish you could? It will be beautifully cool."

"Dan growled, half angrily: "That's right, make it tough for me. Go on, get out of here!"

She kissed him on the forehead. "Kiss me right," he demanded. "Don't peek like that."

"You don't deserve it," she protested. "But—there!" And she left him with Mary Ann.

She swam, then lay on the wharf, half-asleep. The afternoon was still; but to the northwest, clouds were banking, and she heard a far roll of thunder, and thought a shower was near, and was grateful for the approach of this relief.

A while she saw her father come down to the beach and go into the water, and she called ironically: "Beautifully cool, isn't it?"

"Shower coming!" he said.

She nodded, and watched him lazily, through half-closed eyes. He swam slowly, strongly, out into the lake. He often did this; often swam from the island to the mainland half a mile away. That he should do so now was not remarkable; but he did not answer, probably did not hear her. She thought of joining him for the long swim, but was too much at ease.

The clouds ponder came racing toward them, a dark wall streaked now and then by lightning's flame. She watched these flashes, thrilling to the beauty of them, waiting ardently for the slashing of rain across her body.

Doctor Greeding swam straight away from shore, yet not with any purpose in his mind save to commit himself to the embrace of the cool water. Once or twice he paused, floating on his back, utterly relaxed. The island, the mainland, the world was far away. Floating thus, he thought, suddenly, that Myra was here beside him; and this was strange, because Myra had never been a strong swimmer, never ventured far from shore. Yet it seemed to him that she was here, smiling tenderly, her soft eyes full of the sublime and forgiving love of which only women are capable.

It was treacherously beautiful and comforting to think of her close to him, was turned on his side to face her, to speak to her. . . . But she was not there.

He heard Nancy's halloo: "Are you all right, Father?"

He shouted back: "Yes, of course." "I thought I heard you call."

"No. I'm all right."

He would see Nancy standing by the wharfbord, looking toward him; his hand raised, as if to wave a moment more. Then he swam on toward the other shore.

Nancy watched him, his head above the water, the lake's mirror surface, and she saw the shimmering shower. A veil of rain obscured the farther hills and swept down to the lake and darkened the water, and she saw her father. It was a deluge, hiding everything. She saw it reach her father and conceal him from her eyes; and she stood and watched him disappear, welcoming the cool downpour on her face, holding up her face to the sweet rain, opening her arms as though to a lover.

The shower continued for half an hour; but long before it ended, she was almost chilled; and she went up to the house to dress. She was in her room when the rain ceased, suddenly; the shower moved like a curtain, like a wall.

And Dan swam away the hot, stale, stifling air with a gasp of relief, stinging them for so long. Then suddenly the sun shone, wetly, smilingly; the world was washed bright and clean and fresh; and Nancy had a great sense of well-being, of security. She came downstairs.

Mary Ann and Jerry were with Dan. She saw Professor Carlisle on the veranda, and went out to him.

"This is better, isn't it?" she said happily.

"Sunshine after rain," he assented. "Nothing more beautiful." Then he asked slowly: "Where is your father?"

She looked out across the lake. "He swam over to the other shore, I expect," she replied.

"Oh, he often does it," she assured him.

He looked at her thoughtfully. "You're not—concerned about him?"

She smiled, shook her head. "Not in the least. He'll swim back when he's ready. I'm sure he's perfectly all right, but he went into the water to be with Dan."

Professor Carlisle stayed there on the veranda for a while alone, looking out over the water; but Doctor Greeding did not reappear. So presently the Professor nodded, as though in assent to some remark, and then accepting the explanation of some matter which for a while he puzzled and disturbed him, and his brow cleared, and trouble left his eyes.

It was in fact impossible, in the bright radiance of the sunshine, to believe that in this world so newly washed and cleaned, any dark blotch could remain.

No trace of Doctor Greeding ever was found. He had vanished as if withdrawn by some superior power after he had served his purpose.

WARSAW HEIGHTS GALLATIN COUNTY

William Harvey Smith was born in Trimble county, Jan. 9, 1846, and passed away at the home of his son Leslie Smith near Warsaw, Friday night, Dec. 11, 1936. He joined the Mt. Byrd Christian church early in life and was married Sept. 23, 1875 to Mary Frances Berkshire, who passed away just three years ago. To this union was born eight children of which four survive, Mrs. Frank McGee and Mrs. Lela Coffin, Milton, Ky., Jess Smith, Madison, Ind., and Leslie Smith, Warsaw, Ky. He also leaves one brother, one sister, ten grandchildren, and six great-grandchildren. Funeral services were conducted Sunday afternoon from his home church at Milton, Ky., by Rev. Snyder and Rev. Blankenship. His favorite songs were sung, "God Will Take Care of You," "Near My God to Thee," and "In the Sweet Bye and Bye." Funeral arrangements were in charge of a Carrollton undertaker.

Electoral College Candidates Party candidates for the electoral college did not appear until the Presidential election of 1800.

**BEARCATS TRIM BURLINGTON
AND PINER BUT LOSE
TO DAYTON**

During the past week the Bearcats have played three basketball games and batted .666 for the series. They defeated Burlington, 31 to 15, lost to Dayton, 28 to 40 and won from Piner 36 to 12.

At the Walton gym last Friday night, the Cats played their second Boone County Conference game with the Tomcats of Burlington as their opponents. Neither team did anything of importance during the first half, and the period ended with Walton leading 12 to 3. The teams had a somewhat keener eye for the basket in the last half, but even then many good shots were missed. The locals increased their lead to 16 points before the going stopped ending the game, and bringing Walton a 31 to 15 win. DeMolsey scored 15 points for Walton and Osborn was next with 10. Clure and Snow divided 11 points for Burlington.

In the preliminary game the Walton Cats trounced the Burlington second team 53 to 16. Pennington and McElroy were heavy scorers for Walton with 16 and 13 points respectively.

Saturday night the Walton team went to Dayton, Ky., where they were handed a pair of laces. The second team was snowed under 46 to 7, and the Cats were on the short end of a 40 to 28 score. The locals staged a good fight and were leading well up in the game but the pace set by the Green Devils was too fast and they finally succumbed.

At home again on Tuesday night the Bearcats fared better against Piner, chalking up their fifth win in six starts, 36 to 12. Osborn led the Walton team in scoring with 12 points.

CONFERENCE RESULTS

Last Friday night at New Haven the Tigers turned back Hebron 29 to 17. The winners were leading 14 to 7 at the half. Griffith was high scorer for New Haven with 10 points and Sturgeon was next with 6. Hittchfield led for Hebron with 6 points and Shinkle played a nice floor game. The N. H. reserves defeated the Hebron second team 15 to 6 in the preliminary.

At Florence, Friday night, the Knights inflicted the first Conference defeat of the season to the Hamilton Farmers. The score was 40 to 38 in favor of Florence, and at the half they were in front 26 to 16. Scott was high scorer for the Knights with 17 points and Tanner ran second with 11. For the Farmers, Williamson rang up 19 tallies and Moore 10. The Hamilton second team defeated Florence's reserves 30 to 9.

Saturday night the Knights won over Mason by a 25 to 18 score.

WM. HARDEE WILLEFORD

**Farmer of Upper Gallatin County
Died Suddenly of Heart Attack**

William Hardee Willeford, a farmer of upper Gallatin county, passed away Friday night, Dec. 4th at his home. He had been afflicted with heart trouble for several years but his death came as a sudden shock to those who loved him. He was 72 years old and leaves to mourn his passing, his wife and one daughter. He was a member and deacon of Concord Baptist church from which his funeral took place Sunday, Dec. 6th at 11 o'clock with interment in the Concord cemetery.

Methodist Ladies Aid

ENJOYABLE MEETING

**Of the Boone County Young Men's
Democratic Club At New
Haven Monday Night**

The Victory Dinner, given by the Young Men's Democratic Club in the auditorium of the New Haven Consolidated school, Monday night, was a most enjoyable affair. It is estimated in the neighborhood of 300 were present, among whom were our popular Congressman Hon. Brent Spence, Circuit Court Judge J. G. Vallandigham, Owenston; Commonwealths Attorney, Ward Yager, Warsaw; Judge N. E. Riddell, Burlington, Carroll Cropper, newly elected chairman of the Boone County Executive Committee and Boone County officials. Congressman Spence, Ward Yager, and Judge Vallandigham made appreciated talks.

Walter Ferguson of Union, Ky., president of the club, presided and introduced the speakers and others. Representatives of the Kentucky Post, Kentucky Edition of the Republican, Boone County Recorder and Walton Advertiser were present. The dinner was in celebration of the great Democratic Presidential Victory on November 3rd.

A delightful repast was served by school pupils and ladies of the New Haven Parent-Teachers Association, who sponsored the splendid service.

In appreciation of his efficient services as president of the Boone County Young Men's Democratic Club, Walter Ferguson was presented with a handsome gold watch and other officials were remembered with tokens of appreciation.

The Walton-Verona School Rhythm Band, trained and directed by Mrs. Naomi Wilhoit, one of the teachers, in their drill and specialties, among which was Betty Jean Willis, Barbara Crouse, Jeanette Grubbs, Jack Connor, Guyolen Carlisle, Jerry Johnson and other members. Mrs. William Crouse presided at the piano.

The club presented the band with \$25 and Mrs. Wilhoit \$5 as a token of their appreciation.

In the election of officers of the club for the ensuing year, Ted Helle was elected president; Proctor Brothers, Vice President; Wilton Stevens, Secretary; Russell Mitchell Treasurer.

No better selection could be made for president of the club than Mr. Helle, as he is an untiring worker for the Democratic party and is alive to it's every interest.

Another Old-Time Story

In this issue will be found another of George B. Powers' letters. A large number of our former citizens living at distant points have implored Mr. Powers to write some of the stories of years past. He greatly enjoys writing incidents of past days, with which he is familiar bringing to mind happy events, and old friends, many of whom have crossed the Great Divide, a tribute to their memory.

Tobacco
Market**Stupendous Prices Paid On All
Markets, Some Baskets Run-
ning Up to \$1.00 a Lb.**

Tobacco prices have soared to the highest known for many years owing to a short crop principally. Millions of dollars are flowing into the pockets of tobacco growers. It is stated that one large consignment from two brothers brought a check for \$100,000.

At the Tri-State Loose Leaf Tobacco market in Covington, the following are some of the crop averages: W. J. Fardo, California, Ky., \$40.35; Dora Mae Tucker and T. L. Brown, \$37.85; W. H. Presser, Burlington, Ky., \$43.31; F. Merriek, Union, Ky., \$40.52; C. C. Kennedy and J. Kinman, Verona, Ky., \$40.70; Frank and Clyde Caldwell, Crittenden, Ky., \$45.78.

At the Independent Tobacco Warehouse, Cynthiana, Ky., prices ranged up as high as \$84.00 per hundred pounds. The following is a partial list of some of the crops sold at that house: Mrs. Mary Jones, 860 lbs. average \$48.00 per hundred, high basket \$69.00; Frank Middleton, 530 pounds brought an average of \$59.03 high basket \$69.00; Raleigh McFintosh, 1294 lbs., averaged \$53.91. The high crop average was \$69.00. According to Tom Marshall, one of the warehouse managers, Cynthiana and three other Kentucky markets have Federal Government grading and both the growers and warehouse managers have been well pleased with the type of work done by the grader.

The average at the Kenton house Monday was \$40.83 per hundred lbs. High rose to a new level and reached \$74. Low was \$3.

Crop averages reported were: Mrs. A. J. Ogden, Ludlow, \$48.47; Geo. Cessner, New Richmond, O., \$50.50; Taylor & Gardner, Dry Ridge, \$49.20; John Baker, Williamstown, \$55.21; W. P. Blackburn, Sherman, \$57.85.

Prices on all useful tobaccos advanced \$10 per hundred on the Carrollton market Monday, best smokers selling to \$80. Sales were 348-112 pounds for \$148,621.25, averaging \$42.83.

Hubert Falcomb of Owen county averaged \$71.40 on an offering of 1,032 pounds. Houses bought in many baskets at 1 cent.

OWEN COUNTY GOES DRY

On Saturday, December 12th, in a local option election, Owen county, went into the dry column by 232 votes. There was a stiff fight at the polls between the wets and drys, but the drys were well organized with the above result. Nine precincts went wet and two were tied.

J. D. Powers and sister Miss Katie were pleasant callers in Walton, last Thursday.

Appointed First Lieutenant

Dr. Calvin Layle Baker of Cridersville, Ohio, has been appointed First Lieutenant of the Medical Detachment of the 156th Regiment of Field Artillery of the Ohio National Guards. Dr. Baker is a Walton boy the son of Mrs. Tom Fernald and a grandson of Mr. and Mrs. J. B. O'Neal. He is a fine young gentleman and worthy of recognition.

THE WEATHER

The fore part of last week this section enjoyed delightful weather up until Friday, when a light snow visited us followed by snow and sleet on Saturday and on Sunday the thermometer dropped to 15 degrees above zero, which continued until Monday when the weather moderated. Many automobile accidents occurred during the icy weather but no fatalities here.

BURNED
TO DEATH**Chas. Bridges Meets Death
In Burning of Home of
Randall Mullins At
Bracht****Mr. Mullins Died At St. Elizabeth
Hospital a Short Time
Previous to Fire**

Sunday night about 10:45, Charles Bridges, carpenter, age about 48, was burned to death in the house of Randall Mullins, Bracht, Kenton county, where he made his home. The property was completely destroyed. The house was located near the Dixie Highway, on the Bracht-Pike Highway.

The unfortunate man was the only occupant of the house at the time and the origin of the fire is unknown.

Mr. Mullins had been ill and was taken to St. Elizabeth Hospital, and he died there Sunday night just previous to the burning of his house. Mrs. Mullins was informed of the loss of her home.

Mr. Bridges is survived by one brother Joseph Bridges of Fiskburg, Kenton county, one brother Frank Bridges having died some time ago.

The Walton Fire Department, under Chief Roland Glenn, was called to the scene of the fire but when they arrived the house was one mass of flames, but the bodies of Mr. Bridges could be seen lying on the floor, the bed having been burned.

Mr. Bridges was well known here where he had been frequently employed at his trade of carpenter.

The remains of Mr. Mullins were taken to Bracht by Funeral Directors Chambers & Grubbs of Walton. The cause of his death was abscess of the liver, coupled with pneumonia. He was born in Grant county and is survived by his widow Mrs. Gertrude Mullins, his parents Mr. and Mrs. E. Mullins, four brothers and four sisters. He was 27 years old, a farmer and a member of the Goshen Christian church. His funeral took place Wednesday afternoon at 2 o'clock from the Goshen church, Rev. R. F. DeMolay of Walton, preaching the funeral discourse, after which the

remains were laid to rest in Goshen Cemetery.

Chambers & Grubbs, funeral directors, had charge of arrangements. His funeral was held Wednesday morning at 10 o'clock from the Wilmington Baptist church at Fiskburg. Burial in Fiskburg cemetery.

EXTENSIVE
ALTERATIONS**On the Projected Funeral Home
of Chambers & Grubbs On
Alta Vista Drive**

Funeral Directors Chambers & Grubbs are, having extensive alterations made on the John E. Roberts property that they recently purchased. It was formerly the home of Mrs. America Norman, deceased. The second story has been raised considerably higher, a concrete basement has been placed under the building, more window lights placed in it and a full length canopy will be built on the south side of the building under which automobiles can be driven in inclement weather. These are a few of the improvements to be made including a chapel in the building to hold services for the deceased.

BANK HAS WONDERFUL
GROWTH

The directors of the Southern Exchange Bank, Covington, at their last meeting declared a 4% dividend payable December 31, 1936. This bank has made a wonderful showing as it has been established seven months, opening its doors for business May 23, 1936. Great credit is due its efficient cashier, Claude Davis, and its splendid board of directors. On the last page of this week's Advertiser will be found a large ad of this institution wherein advertising that this bank will now pay 3% on time and saving deposits through the year 1937.

BOY RETURNS HOME
Rayburn Simpson, son of Mr. and Mrs. Opal Simpson, who left home some weeks ago, recently returned home, a wiser youth for his experience. He states to went to Palm Beach, Florida. He was returned home, it is said, through the generosity of the Salvation Army.

Beaver Lick

52 Years Ago

April 12, 1884

We clip the following from the Warsaw Independent of 52 years ago. The correspondent was Harmon Polly, one of the most versatile writers in Boone county:

Tunnell and John Rich paid the Queen City a business visit last Monday.

Joe H. Rich left here last week for the scholastic shades of Lebanon. O. Joe deserves great credit for the energy he has applied to get an education.

Miss Hattie Slett is teaching the young idea how to shoot at the Beaver school house. Both pupils and patrons are well pleased with Miss Hattie's didactic tutelage.

Great preparations are being made here for a large acreage of tobacco. It does seem like there is a boom in tobacco culture just at the present time. Their brightest prospects materialize in our hurrah.

Andy Hughes has bought of Frank Gordon a tract of land at South Park, and will immediately build a storehouse and dwelling on the land. South Park needs a store, and should see that Mr. Hughes gets the surrounding trade.

Rev. Lefe Johnson preached an able sermon, last Sabbath at the Baptist church from the text, "One time is appointed unto man to die, then comes the judgement." He is an excellent speaker and handled the subject with the grace and facility of a cultured mind.

A protracted meeting is going on at the Huguenot Chapel this week. Rev. George Froh, an able Methodist divine, is conducting the meeting.

George Osmon comes to the front with a charming snake story. He says he and his hired help saw in a spring sign of snake and began investigating, when to their surprise they saw a whole pile of the wily serpents coiled up in the vein of the spring. They began killing and counting and soon had fourteen of the vile reptiles, of different species and size, killed and corded up, varying in length from 4 to 6 feet. Soon after this in passing the same spring he saw and killed 3 more, making 17 in all. Now we consider this, although true, a daisy snake story.

"Cincinnati" is a Southern city. We always thought so, know we are right. For in action that deserves great pity. She told us all on last Saturday night.—Bill Lloyd.

Clayde—I took my girl horseback riding but she said the horse I hired for her was too starchy.
Harold—What did she do about it?
Clayde—Oh, she got sore and walked home.—Pathfinder

"Guess I've Always Wanted to Be An Engineer, Son"

YOU will find, in countless American homes on Christmas morning, eloquent evidence of the place railroads and railroading hold in the hearts of folks throughout our land.

In the memory of oldsters still living, the railroads completed the bold and romantic enterprise of binding the nation together with bands of steel from the Atlantic to the Pacific.

And by their enterprise, the railroads continue to challenge the interest and stir the imagination of youngsters born and reared in an age of wonders.

Today, with undiminished vigor, the American railroads, in providing cheaper fares, faster freight and passenger schedules and marvelous records of safety, are writing new chapters into their romantic history.

Next time you take a trip, go by train.

Merry Christmas, NEIGHBOR!

We extend the Season's Greetings to patrons and friends, with the hope that the year 1937 will be one of happiness and prosperity for all.

**WOMEN NEED MORE
IRON IN THE FOOD**

The average woman is more anemic than the average man because she does not get enough iron in her food, reports an article in The Lancet of London.

This condition is commented on by the medical correspondent of The Morning Post.

"Investigators have shown that a group of men of the middle classes who weighed all their food for a week took half as much iron again as a group of women keeping similar records," he writes. "Even allowing for the smaller weight of women they took less iron and this was mainly due to a higher consumption of meat by men."

"It is clear that women are suffering from iron deficiency of iron, for if larger doses of iron are given to normal men and women as medicine, so to speak, the level of the iron containing pigment in the blood is not in where all the men, but is definitely raised in the women."

"It is clear from the results reported that the average woman has little to spare in her system, she is definitely anemic and foods containing available iron ought to form a regular part of her daily diet."

**Water-Tasters of Paris
Constantly on Pay Roll**

There are many unusual workers on the pay roll of Paris. For instance, there is a large staff of water-tasters, and they work on a 25-hour basis. Night and day their job is to taste the water and to make sure that the chloride used to purify it hasn't left any sign of its passage.

They do their tasting, not at the Melin-Montouris reservoir, but at the Porte d'Arcueil, where all the Paris aqueducts come together before being emptied into the common reservoir. Each separate stream is tasted once every hour, and if the taster detects any suspicious taste or odor, he telephones the chemical bureau, and on its order that particular aqueduct is cut off while the chemists analyze a sample of the water.

They also analyze samples even when there is no foreign taste, for each time the water-taster performs his duty, he takes a sample and sends it to the laboratory, which thus keeps a check on the efficiency of the human sense of taste.

Among the queer fish employed by the city, also, to detect the presence of chloride in the water, are what the water department calls the "truteestomoe"—the witness trout. The city water passes through their aquarium, and as trout are particularly sensitive to chloride, they serve, often at the cost of their lives, as a check on the water-tasters.

Another variety of animal city employee is the rat-catching cat. These cats carefully selected as rat mounds, are farmed out to buildings infested with rats.

Caves Guarded by Red Hand
Caves which natives have declared for centuries were the home of an enormous serpent waiting to devour the trespasser have been explored. They are in Nullarbor plain, a treeless waste, 480 miles long and 80 miles wide, in south Australia. From blowholes in its limestone expanses the winds blow up weird noises which the natives attribute to wicked spirits. At the entrance of one, the Murrawidgin cave, are painted the signs of the red hand as warning that none must enter. This cave is believed to house the emblems of the weird tribal ceremonies of the Blackfellows tribe. Another cave contains a chamber 800 feet in circumference.

Face Makes Gift Craze
Presenting face masks of one's self to friends is a new gift craze in London. An artist covers the face with what he calls "magic pulp," which he has discovered. He takes it off almost immediately and has a perfect impression of the sitter's face. From the mold is cast the mask in porcelain or bronze.

North Pole Next Stop
Finland boasts the only highway in the world to the shore of the Arctic ocean. Graded for motor traffic, the Great Arctic highway crosses the Arctic circle, the corn line and the timber line. In summer motorists need wear only ordinary walking clothes when traveling on it.

Indian Mound a State Park
The largest Indian mound in the United States, the Cahokia, near East St. Louis, Ill., was made into a state park 11 years ago. Covering 16 acres and 104 feet high, it looks much as it did to the earliest settlers.—Gas Logic.

Discretion
Mistress (to new maid)—Now, Norah, when you wait on the guests at dinner, please don't spill anything.
Norah—No, ma'am, I won't say a word.

Mrs. Lena Smith Gets Three Years

In the Penitentiary For Aiding and Abetting Her Husband In Criminally Attacking a Young Girl

In the Boone Circuit Court at Burlington, Monday night, a jury sentenced Mrs. Lena Smith, to three years in prison following her conviction on a charge of aiding and abetting her husband, Henry Smith, in a criminal attack on a 12-year-old Covington girl last summer, on July 19th, on the Walton-Verona Highway.

Smith was sentenced to 20 years in the penitentiary recently charged with committing the attack. Miss Ethel Smith, sister of the convicted man was sentenced to five years in prison on the charge of aiding and abetting in the same offense, Tuesday, Dec. 15th.

John W. Harris Dies In Hospital

Former County Surveyor and Member of Board of Education of Kenton County

John W. Harris, age 83, died at St. Elizabeth Hospital, Covington, last Wednesday after an illness of a week from the effects of a fractured leg when he fell at his home. He was a life long resident of Kenton county and years ago he was county surveyor and also a member of the Board of Education. His wife, Mrs. Mollie A. Galbraith Harris, preceded him to the grave October 8th at Bradenton, Fla. He is survived by a daughter, Mrs. Mara L. Wadham Bradenton, a son Claude E. Harris with whom he made his home in Erlanger, Ky. 87 Thomas street, and a grandson, Jay Harris.

His funeral took place from the home of his son, Friday afternoon at 2:30. After appropriate funeral services the remains were laid to rest in the Independence cemetery, in the family lot, along side his father John Harris, and his grandfather Thomas Harris, a soldier of the Revolutionary War.

Funeral Director Philip Tallafarro of Erlanger, had charge of the arrangements.

BIRTHDAY PARTY

Last Wednesday night, Mr. and Mrs. O. O. Carlisle of South Main street, delightfully entertained at their home with a children's party in honor of their son Guyton Carlisle's 10th birthday anniversary. The basement of their home was prettily decorated for the occasion where the children greatly enjoyed games and a general good time, after which they were invited upstairs to the diningroom, where delicious ice cream and cake were served. During the evening Guyton received many presents among which was a gold watch presented to him by his parents. Among those who greatly enjoyed the occasion were: Ernestine Webster, Wanda Neal, Betty Jean Willis, Barbara Crouse, Beverly Jean Perrett, Neida Campbell, Margaret Percival, Annabelle Percival, Mona Mills, Naundine Mills, Laura May Whitson, John D. Breeden, Franklin Breeden, Junior Breeden, Albert Neal, Jerry Johnson, Kenneth E. Johnson, Lawrence Welsh, Buddy Whitson, Byron Wilhoit, Dwight Maddox, Gaines Edwards Huey and the honor guest Guyton Carlisle.

Mrs. D. B. Wallace and niece Mrs. Gertrude Gardt spent Friday in Cincinnati, shopping and on business.

House Where "Peter Pan" Was Born Is to Be Razed
Egerton House, the old gabled house at Berkhamsted in Hertfordshire where Sir James Matthew Barrie's ever youthful "Peter Pan" was born, is to be demolished. In its place will rise stores and flats, states a London United Press correspondent.

It was thirty years ago that Barrie passed his week ends at Egerton House as the guest of Mr. and Mrs. Llewellyn Davies. Peter Davies, one of the five sons of the family, one day remarked to the author, "Do you know, I was wondering if you will ever grow up!"

This remark inspired Barrie to write "Peter Pan."
Later while the five boys were munching chocolates with more enthusiasm than discretion, an adult ventured, "You'll be sick in the morning."
"Oh, no," retorted one of the boys, "I shall be sick tonight." This reply is one of the favorites with all the world.

But today there is none of the roars of children's laughter in Egerton House. It is dark and cold, and the Victorian flowered wallpaper lies in strips upon the bare floors and it is rumored among the local inhabitants that the Great Hall is haunted.

Birds Build Apartment
That the desire for apartments has spread to the feathered world has been reported by ornithologists of Mullumbimby, New South Wales. In the rafters of a stable was found a wattle's nest consisting of "three rooms and kitchen." The nest had four parts resembling four connecting smaller nests, and obviously was completed in one session by one pair of birds.

Convict Suits Auctioned
Convict clothes worn by murderers, stockings of women prisoners, blankets and sheets from cell beds, and even hangmen's ropes were auctioned recently in London. They were part of 35 tons of material collected from 21 English prisons. Much of it was bought by paper and cloth manufacturers.

Petersburg Good Will Club

The Petersburg Good Will Club held its last meeting of the season December 10, 1935. The meeting was called to order by our President Carra Lu Huey. Minutes were read and roll was called having twenty-five members present. We also had Mrs. Berkshire, one of our leaders Miss Gillespie and Mr. Finkner present. We had an election of officers for the coming year. The following officers were elected: Wilma Huey, President; Carra Lu Huey, Vice President; and Mark Heinback, Secretary. More officers will be elected at the next meeting. Mr. Finkner returned our record books and awarded the achievement cards to the ones that completed their projects. We all stood and repeated our pledge and then gave a peppy yell for our leaders. The meeting was then adjourned.—Club Reporter

Once again the death angel winged its way to earth in the early hours of morning and took from us to that heavenly mansion in the sky one of the most devoted husbands and fathers, James B. Beers, age 62 years, of Bullock Penn road. He was a faithful member of the Eggleston M. E. church here, where he joined seventeen years ago. He was stricken on Monday morning at 3 a. m. with a paralytic stroke and passed away Tuesday at 3 a. m. He leaves his wife Mrs. Esther Beers, one son Andrew Beers, three daughters Mrs. Fred Hutton, Mrs. Lee Haire of Covington, and Mrs. Blair Goughnour of Canton, O., five sisters Mrs. Augusta Smith of LaGrange, Ky., Mrs. Thos. Nead, Mrs. Wm. Callant of Florence, Mrs. H. S. Riley of Independence, Mrs. Sarah Quick of Covington, two brothers P. B. Beers of Bullock Penn road and Stanton Beers of Oakland, Calif., six grandchildren and one great-grandchild and a host of other relatives and friends. His funeral took place on Friday at 2 p. m. at Eggleston chapel with Rev. Carl Froederman of Wilmore, Ky., preaching his funeral, assisted by Rev. Hudson, Rev. Nankivel and Rev. Oscar Riley. After the services the remains were laid to rest in the Independence cemetery.

You have gone from our midst dear father
To that beautiful home over there,
Where no pain, no sorrow, no
heartache will ever be known
up there.
You were always so kind and
so gentle
Always a smile you would wear,
In gladness, in sorrow or trouble,
With us you always did share.
You have gone, but will not be
forgotten.
Your sweet face on this earth will
'not see,
But I know you are waiting in
Heaven,
So it's Heaven we're longing to see
—A daughter who loved him dearly
Mrs. Fred Hutton.

(Delayed from last week)

ACP Final Application Sign Up

Final applications for ACP benefit payments are being rapidly completed according to H. R. Forkner, County Agent. The first shipment of completed forms have already left the office.

A series of community sign up days were recently held for farmers whose forms were ready to sign. Those whose forms were not ready to sign at that time may sign on any week day at the County Agents office in Burlington.

Farmers are advised that the sooner they can sign their final forms the sooner their checks will be received. Checks are expected in about three weeks after the forms leave the county office.

Six hundred completed 1936 ACP performance forms were forwarded to the State office for payment on Tuesday of this week.

Payment on the first 600 completed forms is expected in about three or four weeks. The delayed forms will be forwarded in groups for payment as rapidly as possible after they are signed by the farmer.

In upholstery crevel embroideries and needlepoint tapestries have prestige. Mohair and cut velvet are also found on high grade furniture. These are but a few of the textiles, but are worthy of note.

Colors vary for large furniture, and for smaller pieces. Plum, brown and blue are much in evidence in upholstery for large furniture. While beige, plum, gold, and various shades of yellow are noticeable on smaller pieces, and on occasional furniture. It will be seen that colors on both large and small furniture are in pleasing harmony. While mention is made of these colors as used in connection with sizes of pieces, each may be found alone or in combination on any furniture. It is merely a trend of fashion that is noticed in connection with prevailing upholstery and its uses on large and small pieces.

Choosing Furniture
The value of everything is measured by the yardstick of its usefulness. A chair may be both beautiful and durable but if it is so small and uncomfortable that it will not be used or enjoyed, it is next to worthless in the home. Furniture is primarily for use and not for decoration. It is only when the three qualities of beauty, durability and usefulness are combined that we have really good furniture.

WOODS.
In woods for furniture, mahogany still holds choicest place. Walnut, finely carved, is much in evidence in French pieces. Magnolia is reputed to be popular and similar types of woods in bleached walnut finish.

Inaugural Arrangements

Special Official Kentucky Train For Washington

James A. Diskin of Newport, chairman of the Inaugural Committee in charge of arrangements for the Kentucky Official train, announces that for the convenience of Kentuckians who will attend the second inaugural ceremonies of President Franklin D. Roosevelt on January 20th, arrangements have again been made with The Chesapeake & Ohio Railway to operate special train service to Washington.

These trains will leave Covington at 9:45 p. m., and Louisville at 5:56 p. m., on Monday, January 18th, consolidating at Ashland. The party will arrive in Washington at noon on Tuesday, January 19th, and the train will be parked in the railroad yards so that passengers may sleep in their cars during the stay in the Capital City. Returning, the train will leave Washington on January 21.

The per capita cost in Pullmans including the privilege of occupying the cars during the stay in Washington, will be \$40.50 for a lower berth. A much less coach fare will be available. To afford those using coaches an opportunity to get some rest en route and at Washington, the seats will be lowered each night.

Mr. Diskin, who is a member of the Democratic State Central Executive Committee, asks that applications for reservations be sent to him at Newport as soon as possible.

Feathers Always Popular

There is, perhaps, no period of history in which feather fans were not used; feathers were primitive men's favorite decorations, and an outspread wing or a cluster of tall feathers is a natural fan.

Angle on All Shears
The National Bureau of Standards says that the angle found on all shears and scissors has been proved to be the most satisfactory in service. The action is really not a cutting one as one cuts with a knife, but is a shearing one.

Small Towns Dangerous
Two-thirds of all traffic accidents throughout the United States in the year 1935 occurred in small towns under 10,000 population and in rural areas.

LEGISLATURE MET WEDNESDAY

Gov. Chandler Favorable to Repeal of Ice Cream, Chewing Gum, Candy, Nuts and Cosmetic Tax

Gov. A. B. Chandler called an extra session of the General Assembly to meet Wednesday and notified all senators and representatives to be present. He has a 11-point program before the Legislative Council for consideration.

The 11-points follow:

Passage of a unemployment insurance bill.

Repeal of the tax on ice cream, candy, chewing gum, soft drinks, nuts and cosmetics, to be effective March 1st.

Legislation to permit the University of Louisville to construct a law school building with federal aid.

Amendment of the workmen's compensation law eliminating the "waiting" period between the time a workman is disabled and the time he began receiving benefits.

A bill to permit second-class cities to establish and maintain junior colleges.

Legislation strengthening and clarifying powers of the Department of Revenue on byk taxes and omitted property assessments.

Legislation to compensate wholesalers for affixing revenue stamps on manufactured tobacco products.

A trade-mark registration bill.

Legislation to establish a commission to dispose of state property not needed, to be composed of the governor, the attorney-general and state auditor.

Legislation to appropriate funds to the Hazelwood Tuberculosis Sanitarium to equip an annex recently completed.

Rev. and Mrs. J. M. Ervin, accompanied by Mrs. J. B. Dean and sister Miss Mary Ransler, left Monday morning in Rev. Ervin's car for Chattanooga, Tenn., to consult a specialist, an uncle of Mrs. Ervin relative to Mrs. Dean's health.

DR. R. E. RYLE INJURED

Saturday afternoon, Dr. R. E. Ryle while returning from a visit to a patient, had the misfortune to fracture his collar bone when his car skidded on the Walton-Vernon Highway near Salem creek. It attempting to give another car room to pass him, he got too near the edge of the highway, it skidded over an embankment, struck a tree, damaged the car and rendered the doctor his injuries. He was taken to St. Elizabeth Hospital, Covington, where his injury was cared for. He was brought home by Rev. C. J. Alford of the Baptist church and Rev. J. M. Ervin of the Christian church, who happened to be at the hospital.

M. E. LADIES AID

The Ladies Aid Society of the Walton Methodist church met at the home of Mrs. William Lancaster on the Dixie Highway, south of Walton, December 19th.

The president, Mrs. W. O. Rouse, led the devotional, and Mrs. Lula Hudson had charge of the Christmas program. The annual exchange of gifts was enjoyed by the members.

Officers re-elected for the coming year were: President, Mrs. W. O. Rouse; Vice President, Mrs. Wm. Lancaster; Treasurer, Mrs. Pearl R. Johnson; Secretary, Miss Hallie C. Norman.

Noon luncheon was served to the following guests and members: Rev. and Mrs. D. E. Bedinger, Mrs. J. C. Bedinger, Mrs. W. O. Richey, Mrs. Ella Green, Mrs. Lula Hudson, Mrs. W. O. Rouse, Mrs. Sallie R. Miller and daughter Miss Emma Jane Miller, Mrs. C. T. Hall and daughter Marianna Hall and Master Junior Calloway, Mrs. Frank Norman and daughter Miss Hallie Norman, Scott Lancaster and son Master Bobby Ray Lancaster, and the hostess Mrs. William Lancaster and Mr. Lancaster. The January meeting will be held at the home of Mrs. Sallie R. Miller and daughter Miss Emma Jane Miller on South Main street.

Secretary
Mrs. Jasper Williams and daughter Miss Alice Jane of Walton, R. 1 left Saturday in their car for Beckley, W. Va., to visit her son Wm. J. B. Williams and wife.

BEARCATS WIN FROM HEBRON TO HOLD CONFERENCE LEAD

The Bearcats played their first Conference game away from home last Friday evening when they were guests of the Hebron club. The Cats won this game 49 to 26 to bring their total to three won and none lost in Conference play. DeMolsey and Osborn were again the outstanding scoring threats for Walton and were the main cogs in the local's victory.

Walton's Cubs were defeated by the Hebron reserves.

OTHER RESULTS

At Burlington, Friday night, the Hamilton Farmers wrestled a hard fought game from the Tomcats by a score of 55 to 40. The Cats fought desperately and it was not until late in the final quarter that the Farmers took a commanding lead.

Hubbard was high scorer for the winners with 30 points and Clure set the pace for the losers with 17 tallies. The Hamilton second team was victorious over the Burlington reserves, 42 to 17. Jimmy Vest of Walton, was the referee.

We were unable to get the facts of the New Haven-Florence game on Friday night and all we know of the game is that New Haven was the winner—sorry, we will try to do better in the future.

Next Games on Jan. 8th

Basketball activities in the county have been halted until after the Christmas holidays. The next Conference games are on January 8th, with Walton playing at Florence, and Hebron at Burlington.

CECIL GAINES

NEW CASHIER

Of Florence Deposit Bank, Supplanting J. G. Renaker, Retired

December 10th, the directors of the Florence Deposit Bank, elected Cecil Gaines as cashier of that bank supplanting J. G. Renaker, former cashier who has held that position for many years. The reason for the change was the ill health of Mr. Renaker who has been unable to officiate in that capacity owing to failing health. Through the efficiency of Mr. Renaker and his fine business qualifications, this bank has prospered until it is one of the best banks in Boone county, considering the capital stock. The directors adverse to making the change but they felt that under the circumstances a change was imperative.

Mr. Gaines is a son of Judge Sidney Gaines of Walton, and has many friends and no doubt will fill the office with credit to himself and profit to this institution.

In recognition of Mr. Renaker's splendid service to this bank he has been retired on pension.

HAPPY HELPERS ENJOY TURKEY DINNER

On Tuesday evening in the basement of the Walton Methodist church, about sixty members and friends of the Happy Helpers Sunday School class enjoyed a delightful turkey dinner. This is an annual affair of the class and always enjoyed to the utmost by all present.

After the dinner, short talks were made by various members and guests, which were encouraging and helpful. Later in the evening gifts were distributed, in keeping with the Christmas season.

These banquets grow in popularity from year to year and it is hoped the one next year will surpass, if possible, the one had this year.

KELTY-SIMPSON

Marriage of Horace G. Simpson
to Miss Mary Helen Kelty At
Maysville, Ky., Saturday

Horace G. Simpson, son of Mr. and Mrs. Reamy Simpson, was united in marriage to Miss Mary Helen Kelty at Maysville, Ky., Saturday morning, Dec. 26th at 10 o'clock, in the parsonage of St. Patrick's Catholic church by Rev. Father Rohrer, in the presence of the immediate relatives of the bride. The bride is a splendid young lady and the daughter of Mr. and Mrs. James Kelty, and has a large circle of friends.

Mr. Simpson is the efficient manager of the Model Food Store, South Main and Depot streets, Walton, and is a fine young man who has many friends.

After a reception at the home of the bride, the happy couple left for Cincinnati, and returned here on Sunday evening to the home of his parents on Walton-Verona Highway where they will remain until they secure a suitable home to go to housekeeping.

The many friends of Mr. and Mrs. Simpson wish them a long life of happiness and prosperity.

BIDS MADE ON
WARSAW SCHOOL

Monday, Ranging From \$82,000
to \$93,000 For New Consol-
idated Structure

Monday, was the day set for the opening of contractors bids on the new Warsaw Consolidated school. There were four bids, made by Geo. P. Nicholson & Son, Walton, Eisen Brothers, Lexington, Beres and Louisville contractors. Some changes were made in the building and equipment and the bids were lower than anticipated. Skinner Brothers of Lexington, bid \$82,000, which was the lowest, and in all probability will be awarded the contract.

Nicholson & Son have many friends in Warsaw, who hoped to see them get the contract.

Beautiful Warsaw
Homestead BoughtCovington Dentist Purchased Mc-
Danell Homestead Near That
City Last Week

Special to Advertiser

Warsaw, Ky., Dec. 26—Wednesday of last week, Dr. Edward R. Plunkett, a well known dentist of Covington, purchased the beautiful J. H. McDanell homestead on Federal Highway 42, about a mile east of Warsaw, together with 117 acres of land.

This magnificent homestead has been the home of the McDanell families for nearly 66 years. State Senator James H. McDanell built this handsome two-story brick residence where was reared a family of two sons, John W. and James H. Jr., and a daughter, now Mrs. Flora Wooley, Lexington, Ky., and a number of grandchildren. John W. McDanell and wife died a number of years ago. James H., Jr., passed away a few months ago.

The farm was noted for fine stock raising, fine saddle horses, mules and pure bred cattle. Of late it has been used as a dairy farm. It is one of the best farms in Gallatin county and at one time consisted of several hundred acres, but part of the acreage has been sold off. Mrs. J. H. McDanell was making her home there up to the present time.

Dr. Plunkett is the owner of several fine farms, and at one time owned the beautiful L. H. Hopkins farm on the Dixie Highway about 2 1/2 miles south of Walton. He anticipates making added improvements to his late purchase in its beautification and may make his home there.

It was stated to a representative of the Advertiser that the price paid for this fine old homestead was \$30,000.

LANHAM FURNITURE FACTORY

A representative of the Advertiser while in Warsaw, Saturday, attempted to glean some information about the purchase and establishment of a distillery in the Lanham Furniture Factory that was sold some time ago. It was learned a representative manufacturer of Cincinnati, O., owned the building, but no further information was gleaned.

J. B. Holcomb, wife and son Morris of Pittsburgh, were in Warsaw, spending the holidays with friends. Mr. Holcomb is one of the leading officials in the Heinz Canning Co. that city.

WARSAW PEOPLE IN FLA.

The fore part of last week Mr. and Mrs. W. B. Graham, Mrs. Ward Yager and their beautiful daughter, Miss Zereida Yager, left in their car for Florida, expecting to traverse the state. Rev. and Mrs. J. B. Yager of Lagrange, Ky., are keeping house for their son, Hon. Ward Yager, during the absence of his wife and daughter.

Entertained Her Classes

On Tuesday, Dec. 22nd, Mrs. Wm. Crouse of South Main street, delightedly entertained her dancing and music classes of Florence and Walton with a pre-Christmas party at her home. The basement of her home was beautifully decorated for the occasion, and about thirty of the two classes were present. The children had a delightful time in games, etc. Afterwards all were invited to the diningroom where delicious refreshments were served and each one given a Christmas stocking filled with candy. The children greatly enjoyed the occasion and after the festivities, all left for their homes, having had a most enjoyable time, made possible by their genial hostess and teacher.

Mrs. D. B. Wallace, as is her custom, Christmas, entertained her relatives and Rev. Robert R. Rose, pastor of the Walton Methodist church, with an elaborate turkey dinner and all the delicious accessories, with favors at each plate. Among those who enjoyed the occasion, including Rev. Rose were: Mr. and Mrs. Bruce Wallace, Mrs. Gertrude Gardt, Mr. and Mrs. J. R. Wallace and the hostess.

METHODIST CHURCH BAZAAR ENTERTAINERS

The above is a picture of three young ladies of the Happy Helpers Sunday school class of the Walton Methodist church, who contributed greatly to the enjoyment of the evening of December 15th. They are, beginning at the left, Mrs. Olive Johnson, Mrs. Fay Comer and Mrs. Helen Bedinger, dressed in old time costumes of the covered wagon days. At the extreme left can be seen Bruce Wallace, winding up one of Thomas Edison's first phonographs, made about 32 years ago.

The outstanding feature of these young ladies is their progressive spirit in the upbuilding of the church, lending their time and energy to make a successful and amusing program.

Malcolm Simpson, dressed up as a "rube" was one of the outstanding characters, but unfortunately left before the picture was snapped by Dr. F. E. Bedinger.

BUSY AUTO THIEF
STEALS 2 CARSOne Stolen At Warsaw and Another At Carrollton; Arrested
In Louisville Now In
Warsaw Jail

Special to Advertiser

Warsaw, Ky., Dec. 26—Friday night, a 1932 Ford V-8 sedan, the property of Robert Gilbert, was stolen from the streets of Warsaw. H. G. Beall, sheriff of Gallatin county, phoned to the police of Carrollton, Ky. to arrest the thief if he came they way. Shortly afterwards they arrested a young man in a wrecked car, giving his name as John Sims, age 18, stating his home was in Alabama, and that he was a member of the Civilian Conservation Corps near Covington. In some unaccountable manner he got away from the Carrollton police and immediately stole another automobile in that city belonging to Bernard Mosley. Louisville police were notified of the second theft and arrested Sims as he entered that city. Carrollton police went to Louisville and brought the man back, placing him in the Carrollton jail.

As the first theft was made in Gallatin county, sheriff Beall went to Carrollton and brought back Sims who was placed in the Warsaw jail. He had his preliminary examination on Monday, before Judge J. W. Conley, who bound the prisoner to the March term of the Gallatin Circuit Court.

Inquiry was made at the Walton CCC camp and it is stated he was not a member of this camp.

PASTOR SHOWERED

Last Wednesday night, Rev. and Mrs. C. J. Alford were most abundantly and graciously showered by members of the Baptist church, of which he is pastor. Rev. Alford and wife are recent acquisitions to Walton and no doubt have become very popular with the membership of the church, judging from the numerous articles given them.

NOTED NEWSPAPER WOMAN

Miss George Ellison and Dr. Bill Wolf of Cincinnati, were guests of Mrs. Julia A. Rouse and daughter, Miss Georgia M. Rouse of South Main street, Sunday. Miss Ellison is a cousin of Mrs. Rouse and is one of the feature writers on the staff of the Cincinnati Times-Star.

Basket Meeting
At Florence ChurchA Most Enjoyable Affair and
\$800 Subscribed Toward
New Edifice

The all-day meeting and basket dinner held in the basement of the new Florence Methodist church, on Sunday, Dec. 20th, was a most enjoyable affair. While the edifice was not completed, the entire membership was greatly pleased with it and there was not one dissenting voice. Rev. Robert R. Rose, the pastor, preached an excellent sermon in the morning. Rev. C. B. Trayner in the afternoon and the Presiding Elder, Rev. O. B. Crockett in the evening. During the day the members contributed \$800 for the new church building—\$500 in cash and the balance in pledges. Much credit is due the pastor, Rev. Rose, for his untiring efforts in behalf of the building of the new church. As an evidence of appreciation of his services, a nice Christmas present was given him.

MRS. J. D. VIOLETT

Mrs. J. D. Violett, age 75, died suddenly at her home in Williamstown, Ky., from pneumonia and heart attack, Sunday morning, Dec. 20th. She is survived by her husband. She was a sister-in-law of Miss Nannie Violett of Nicholson avenue, Walton. Her funeral took place Tuesday, Dec. 22nd, and after appropriate religious services at the Baptist church, of which she was a devout member, the remains were laid to rest in the Williamstown Cemetery.

Another Geo. Powers Article

In this issue will be found another of Geo. B. Powers' stories of local character of some years ago. Mr. Powers delights in writing reminiscences of years ago of people and incidents in and around Walton that are greatly appreciated by many of his old friends and others. George has a big heart, always remembers his old friends, charitable to the needy and everybody is his friend from his viewpoint. "Give flowers to the living."

George always had a penchant for writing and years ago began a story of the early history of this section of the country when it was populated with hostile Indians. As an evidence he permitted us to peruse some of the manuscript.

LEST YOU FORGET

Money Floating Around Do
Not Forget the Advertiser

As the tobacco growers have received unusual prices for their tobacco this year, the Advertiser would like, to participate in some of the prosperity. Quite a number of our subscribers are in arrears. Following the three years of depression we did not send out any accounts owing to the lack of money among the farmers. Now that prosperity has again smiled on us we wish to enjoy some of it. Those knowing themselves in arrears, we suggest they look at their name on the paper and see how they stand. We sure can put the money back into circulation. We will shortly send out statements but to save time and expense will those knowing themselves in arrears please remit?

A QUIET CHRISTMAS

Christmas passed off very quietly but good cheer prevailed and many turkey dinners were in evidence. Many of the less fortunate were remembered with gifts of food and presents by our kind citizens and a spirit of peace and plenty prevailed.

Merchants Have Splendid Trade

Our merchants, Franks' Department Store, Bert Schneider, grocer, Model Food Store and Jones' Drug Store report an exceptionally good Christmas trade. Mr. Franks of the Franks Department Store says they had the largest trade in years and the others were well satisfied with the fine business they enjoyed.

FAMILY DINNER

Mr. and Mrs. R. B. Dickerson of North Main street entertained a number of their relatives with a delightful turkey dinner on Christmas day. Those who enjoyed the day together were: Mr. and Mrs. Roy Dickerson and two daughters, Mr. and Mrs. Cecil Dickerson and five children, Mr. and Mrs. Harold Dickerson and daughter, Mrs. Lon Hamilton and five children, Mr. and Mrs. Walden O'Dougherty, Mr. and Mrs. C. H. Kuyper, Mrs. Mamie Simpson, Miss Helen Dickerson and friend, Miss Virginia Kuyper, Eugene Sparrow, Malcolm Simpson and the host and hostess.

BEARCATS HAVE CLOSE CALL
BUT CLING TO CONFERENCE
LEADERSHIP

On Wednesday evening, Dec. 22nd, the Bearcats won a close and exciting game from the Hamilton Farmers by the narrowest possible margin, 28 to 27, for their fourth consecutive Conference victory. This game was a real thriller from start to finish. At one time in the first quarter the Farmers held a 5 point lead, but after that there was never more than a 3 point margin between the teams and this was at the half when Walton led 18 to 15. The pressure was really on the boys but they stood up under it pretty well, although good and bad basketball was seen. It was a game all fans owe to see—but hate to lose.

Moore, diminutive forward, of the Farmers was high scorer of the game with 9 points and Osborn and DeWolsey of Walton were next with 8 ints each. In the second half a game appeared in the Bearcat lineup for the first time this year and he acquitted himself nobly.

In the preliminary game the Hamilton reserves snatched a 28 to 25 victory from the Cubs. McElroy of the losers scored 14 points and Aylor rang up 11 for the winners.

Games Friday, Jan. 8th

The teams of the County are still enjoying their Christmas vacation and no games will be played until on January 8th, when they renew their hostility with the following encounters:

Walton at Florence
Hebron at Burlington
Saturday, Jan. 9th
Alexandria at Hamilton
Florence at Dry Ridge

CRITICALLY ILL
WITH NO HOPEFor Mrs. Joe Hopperton Who
Had Her Right Leg Amputated
At Tampa, Fla.

Word was received here Monday of the critical condition of Mrs. Joe Hopperton at Tampa, Fla., who is in Cooks Hospital, that city. On December 13th she had her right leg amputated three inches above the knee. It is stated amputation was necessary because of diabetes from which she suffered. She and Mr. Hopperton left here several months ago for Florida, with the expectation of improving her failing health. She owned and conducted Hopp's Tea Room, on South Main street, Walton, which she sold to Mr. and Mrs. A. P. Stephenson.

She made many friends while here and enjoyed a nice pastorage. It was stated she had pottail poisoning at the time, but she had been afflicted with diabetes which was primarily the cause of her leg becoming affected.

She is a good christian lady and a member of the Baptist church and a valued member of the Missionary society. Her many friends here were saddened to hear of her condition.

The following friends of Mrs. Hopperton sent a card of condolence to her: Wm. Breiden and family, Elmer Breiden and family, Bill Crouse, wife and daughter, Lloyd Johnson and family, Dr. and Mrs. D. L. Maddox, John and Dwight Maddox, D. J. James, Geo. Burris, Tom and Grace McCardwell, Mr. and Mrs. B. H. Franks, Mr. and Mrs. Elton Clegg, Mr. and Mrs. E. L. Aylor, L. M. Stith, Grace Simpson, Jess Hopperton, Mr. and Mrs. A. P. Stephenson, and Anna Louise Roberts.

New Years Union Services

On New Year's eve, union services will be held at the Walton Christian church, services beginning at 7 o'clock, slow time. Rev. Robert R. Rose, pastor of the Walton Methodist church, will preach the sermon. The public is most cordially invited to attend. Excellent singing by a full choir.

Pseudonym Used
By S. S. Van Dine,
Author of "Serial"

S. S. Van Dine, author of "The Garden Murder Case," our new serial story, is actually named William Huntington Wright. This little known fact about America's foremost writer of detective fiction was uncovered only a few months ago.

As Willard Huntington Wright, Van Dine was an obscure literary, dramatic and art critic, also writing a few books on scholarly topics which gave him little fame. In 1918 he published his first novel, "The Man of Promise," but it attracted small notice.

It was in 1923 that the modern Van Dine was born. By way of occupational therapy after a long illness he wrote "The Benson Murder Case," creating the master sleuth, Philo Vance. In order to avoid comparison of this more popular literary character with his previous scholarly work, he adopted the pseudonym of S. S. Van Dine, taking an old family name of his maternal grandmother.

"The Benson Murder Case" was published in Scribner's magazine and in book form during 1928. Within a year came Van Dine's second mystery story, "The Canary Murder Case." Already he had become a best seller and his detective, Philo Vance, was a household word.

Following an anthology, "The Great Detective Stories," and an introduction under his own name to "Some Famous Medical Trials," he continued the exploits of Philo Vance, turning them out since at the rate of one a year. After Van Dine's enormous success as a writer of detective fiction, his earlier neglected novel, "The Man of Promise," was reissued in 1929 and received high praise.

Born in 1888 at Charlottesville, Virginia, the author was graduated from Harvard university where he was a prize student in anthropology and ethnology. With his wife, who was Eleanor Rulapaugh, a portrait painter known professionally as Claire De Lisle, he lives in Los Angeles.

Van Dine's newest story, "The Garden Murder Case," has received enthusiastic praise from critics everywhere. You will be thrilled by this tale as it unfolds serially in our paper.

Urges Farmers to
Store Machinery

Equipment Should Be Under Cover to Prevent Damage in Winter.

By Prof. E. R. Gross, Agricultural Engineer, Rutgers University, N. J. Service.

Thrifty farmers have long recognized the value of storing their farm machinery after its season of use is over in a shelter that protects it from damaging effects of the weather.

Do not try to crowd machinery into a small space in the barn. Farmers who have tried to do this usually become discouraged over the extra labor of taking down the machines and outside storage is the result.

A simple structure of ample size which will keep out the sun, wind, rain and snow is all that is needed to house the farm machinery. Framing that is well braced and a good foundation are essential.

Roofing and siding may be corrugated galvanized sheet or corrugated metal or slide freely and be tight enough to exclude birds and animals. If high and dry, an earth floor treated with oil is not objectionable.

The cost of upkeep for a piece of machinery is already greatly reduced when such tasks as cleaning, listing and repainting parts on a tarp tied to the machine, and repainting or varnishing to save the finish and prevent rust are done at the time of storing or in the winter.

Vetch Aid to Orchards; Needs to Be Inoculated

Winter vetch is one of the state's best cover crops for orchards under bearing age, says W. R. Martin, Jr., of the Missouri College of Agriculture. It is not satisfactory in older orchards because the shade of the trees prevents any large production of a cover crop.

The most satisfactory seeding date is soon after the late rains begin. Normally, vetch should be prepared well ahead of seeding time. Best results are obtained if the seedbed is firm and free of weeds.

The vetch being a legume needs to be thoroughly inoculated before seeding. The use of soil in which winter vetch has been successfully grown is a satisfactory way of supplying this inoculation. When this is not possible, pure cultures of the proper bacteria can be obtained.

The crop will reach its maximum growth in early May. At that time its greatest value as a green manure crop can be secured by disking or plowing it under. By such a practice a secure yield of organic matter equivalent to 15 or 20 tons of barnyard manure per acre. This will be in addition to the nitrogen added to the soil by the legume.

Rivers That Steal

Streams in Ohio are stealing soil at the rate of one foot a day—the fertile top six inches from 174 acres, according to estimates made by erosion experts. Measurements made of the mud carried by the Muskingum river at Zanesville, Ohio, during the nine-day flood in August, 1935, showed that the river carried off topsoil from 2,600 acres, enough to fill a freight train 480 miles long. At 50 cents a ton for soil, the river stole \$1,059,783 from Ohio farmers. We aren't much for statistics, when put in terms of farms and dollars in this way they do make you think, especially when you know that the same kind of soil robbing is going on all over the land.—The Country Home.

Market Old Sheep

Old ewes which have poor teeth should be marketed as soon as possible, says the Prairie Farmer. It is an easy matter to check a lot of sheep by looking at the front, or incisor, teeth which are in the lower jaw. Mature sheep have eight of these incisor teeth, the last against the pad in the upper jaw. After five years, sheep begin to lose these teeth, and from then on will have trouble in feeding.

FIND SEA INSECTS
SLEEPING IN ICE

Members of the Soviet Academy of Sciences, probing in the Siberian ice, recently discovered at a depth of 15 feet a number of primitive insects and small sea animals. These creatures are supposed to have lain dormant since 1000 B. C. Notwithstanding, they have now, by means of scientific having, been brought back to life. Immediately, on resurrection, all showed an eagerness to resume their normal functions; even the eggs located beside them have been hatched; and from the frozen crawfish, Prof. P. N. Kaptev, leader of the expedition, has already bred ten new generations.

As an example of nature's re-creating power, this research triumph is amazing. But scientists attach a far deeper significance to it. They foresee that if insects can survive for 3,000 years, man might well accomplish a similar feat. In America, Dr. Ralph S. Willard, in his campaign to extinguish degenerate cells, has frozen a disease-ridden monkey solid, put it away for a period in an ice box, and then thawed it without the little creature showing any ill effects.—Tit-Bits Magazine.

REFUTES IDEA THAT
GIRAFFES ARE MUTE

Game Warden Says Young Bawl, Low Like Calf

Washington, D. C.—Some naturalists long have held that giraffes are voiceless animals, unable to make a sound even when in agony. A recent challenge of this occurs in the game warden, which says they are a young giraffe, separated from its mother, will bawl and low like a hungry calf.

"Whether mute or not, the giraffe is one of the world's most peculiar animals," says the National Geographic society. "It has at least two other claims to distinction. It is the world's tallest mammal and one of the most expensive animals found in menageries."

A giraffe's neck, long as it is, contains no more vertebrae than does the neck of a man. It is merely elongation of the vertebrae that elevates the giraffe's head among the trees.

Thorns No Bother. "Possessing few means of defense, giraffes are protected by their coloration. Their irregularly marked coats blend so perfectly with the dappled light and shadows of the trees on which they feed that a trespasser is difficult to detect. Thorns acacias do prove a trial to them, for the animals' tough hides protect them from long thorns, and their elastic tongues taper to pluck leaves without including the trees' piercing armor."

"When feeding among the tree tops, 16 or 18 feet above the ground, the giraffe's long-lashed eyes can scan a wide range for menacing enemies. When grazing, however, or drinking from a water hole, the animal cannot see lions prowling in the surrounding grasses. Since a springing lion could break a giraffe's neck, it is fortunate that the giraffe can survive a long time between drinks. Dew on leaves helps to quench its thirst."

Giraffes usually stalk a giraffe in pairs. Attacked by a single lion, a giraffe might be able to fend it off by kicking viciously, or, if able to shake the lion off its back, it could escape by running.

"Giraffes usually seek safety in flight. Hunters pursuing them on horseback do not have an easy time catching up. Given a few minutes' rest, especially over uneven ground, they travel more rapidly than a horse. Young giraffes begin galloping shortly after they are born, and usually are up on their feet in an hour, can outrun a fleet Sudan horse. Young giraffes begin galloping shortly after they are born, and usually are up on their feet in an hour, can outrun a fleet Sudan horse."

Use For Tough Hide. "Africans hunt these animals for food, and for their tough hides out of which they make shields and sandals. They often strip the hide off in one piece. Although indigenous hunters have rapidly increased the number of giraffes, many herds still roam the heart of Africa."

"Giraffes are among the most costly animals in captivity, not so much because they are scarce, but because they are temperamental. They are delicate and nervous. Necessary surgical operations can be performed on many wild animals, but seldom on giraffes. They are so timid they may show alarm at the least cause. They even have been known to drop dead when their keepers approached to give them medicine."

"Catching them in pitfalls or traps is out of the question because of injury that would result to their necks and legs. The usual method of capturing them is to pursue a herd until the young drop out exhausted, or to drive a herd into a corral."

"The joke of the giraffe with a long throat is not humorous to zoo keepers. Fierce wild men, sore throats and colds. Legs of the young frequently swell, become crooked and too weak to support them. Giraffes feed almost entirely on thorn bushes. In the Calcutta zoo a changed himself by catching his neck in a forked branch."

New Highway Opens Up Mindanao to Tourists Manila—A long step forward in the development of the island of Mindanao will have been taken by the middle of July when an inter-provincial road is opened to traffic from the province of Lanao to the province of Cotabato.

This road, connecting the northern shore of the island with the great central valley of the Cotabato river and the shores of the Moro gulf, is only sixty miles long. It will, however, connect with two other highways previously built and add approximately 500 miles of motor communication to the province's road system.

Oldest Handwriting Is Found in Urak Berlin—Discovery of what was said to be the oldest known handwriting in the 6,000-year-old crumbling ruins of Urak in Mesopotamia was announced by Dr. Ernest Heinrich, member of a German excavating expedition.

The city of Urak has long been known through legend, Heinrich said, as lying on the shores of the Euphrates and was deserted about 200 A. D. because of lack of water.

"Parachute" Cape Added to Autumn Brigade of Wraps

The "parachute" cape is a fetching member of the autumn brigade of "little wraps" which Paris offers for chilly days. Mushroom and saucer also describe its shape, and it takes its shape best when developed in some soft, velvety knitted fabric. Letting has expressed it perfectly in his knitted chenille model which has a matching jacket and "cock-o'-the-walk" hat. Worn with a fine black jersey skirt and waistcoat-belt of rich, crinkled crepe in pure white, Paris lets such an ensemble slip easily into the cocktail-afternoon category of smart apparel. White velvet flowers, placed smartly, give the hat a formal appearance etc.—while black and glass buttons on the blouse repeat the black and glass fasteners of the cape. To be right, the cape should hug the shoulders nicely.

FLASHES FROM PARIS

Necklaces of glittering gold beads are worn. Designers play up pockets in amusing and novel ways. Evening velvets are made with voluminous circular skirts. Dresses flare open at front revealing contrast foundations. Dressmakers use fur in a big way, accenting wide borders. Mannish swallow-tail jackets à la Directoire make their appearance. Beading, embroidery and decorative fabric work embellish the mode.

Popularity of Lily Is Traced Through History

In countless instances, wherever and whenever men and women have sought to typify refinement, gracefulness and other of the fine flowering attributes and qualities of the human mind, they have turned to the lily for an example, for an illustration, for a simile, observes a writer in the New York World-Telegram.

The sentiment, which in our English speech finds expression in the phrases, "Fair as a lily" and "Pure as a lily," also finds lodgment in the idiom of every civilized language.

The words echo a universal agreement; they represent a worldwide ideal; they stand for a commonly held creed. Men and women for hundreds of years have obeyed the injunction of the great Galilean. The have "considered the lilies" and have found them exceeding fair.

In the world's architecture, its paintings, its literature (both prose and poetry) the lily always has been employed as the symbol of immaculate beauty and grace.

Turning backward in the world's history one finds the lily already in favor as a flower, as a symbol, as decorative art. In the Old Testament there are a number of poetical allusions to it. In the Canticles is one passage known to the world over—"My beloved is mine and I am his; he feedeth among the lilies."

The appearance of the lily in Jewish art is evidenced by the description of the great temple built by King Solomon, in which it was stated that Hiram of Tyre wrought in the capitals of the porch pillars with lily work and that he also surrounded the great "molten sea" in the great auditorium with richly carved "flowers of lilies."

"Phantom" Vessel Visits Cape One Each Season

According to a popular belief, a "phantom ship," a sort of "Flying Dutchman," visits the St. Joseph Cap d'Espoir coast of the Gaspé peninsula at least once a year, notes a Gaspé correspondent in the Washington Star.

It is generally seen in the twilight of a summer's eve. The sea is calm, the waves rise from the bottom of the ocean and come tumbling in toward the beach. Out of those agitated foam-covered combers there looms the distance the phantom of a vessel, all sails set and steering right for the foot of the cape.

Her deck is manned by sailors and soldiers in the garb of olden times. On the prow stands the captain, with a white-draped form resting upon his left arm. A clap of thunder, a crashing noise, and the vessel and her ghostly crew are no more. The next resumes its usual aspect, a hush lies upon the waters.

Hyena Has No Friends

From ancient times hyenas have been the subject of strange myths. It was said of them that they changed their sex each year, that their neck-bones were in one piece and that they were capable of assuming human form. The hyena's cry, like maniacal laughter, may have given rise to this superstition. The hyena has huge teeth and powerful jaws capable of cracking heavy bones. He is efficient as a scavenger by night as is the buzzard by day, and is said to rob shallow native graves and to kill sheep, dogs, pigs and calves. He is called a sneak, coward, robber and thief. Even the aroma surrounding him is the kind his best friends won't tell him about—if he had any friends.

Horse Racing Terms

"To nose" is the term used when one horse leads another by the length of the nose. To bet "on the nose" means to bet to win. The horse that "picks up" runs second and the one that finishes third "shows." To bet "across the board" on a horse is to wager money on the horse to win, to place and to show. To parlay is to make a multiple bet on two or more horses in different races. If the first wins, according to an authority in the Detroit News, the original bet and the winnings are bet on the second horse and, if the second wins, the entire sum again is bet on a third horse, if it is a three-horse parlay, etc.

Value of Guinea Pigs

The guinea pig or cavy is commonly kept as a pet, possessing the advantages of being clean, harmless and without offensive odor. From a commercial point of view, his value is for laboratory and experimental purposes. The original ancestors of the domestic guinea pig are thought to have lived in the highlands of Peru, where they were domesticated by the Incas. They were allowed to run freely about the homes of their owners and were probably bred for their food value.

Marks on Coins

The portion of a coin which are sunk below the level of the surface are said to be incuse. The obverse side is the front or face of a coin. Mint marks are the small letters on coins denoting the place of mintage. The mint marks are found on the reverse side of the coin.

Baker and the host and hostess.

"WHO IS IT?"

Tonight my thoughts are wondering and covering many states, where many of our promising young men have settled, and I would like to tell you about them, but outstanding in my writing at this time is a good man here in Walton. I am not going to tell you who he is, but will let my readers guess who this article will fit. He is a man with his heart in his hand. No matter what people might say, I have had many conversations with him and I love to talk with him, but I must be guarded in my conversation because of the "fountain of feeling" that begins to flow and the big hot tears that course down his cheeks. As then I change my subject on account of the love and sympathy he manifests.

About six years ago I underwent a mastoid operation and during my confinement in the hospital, I overheard someone say I had about a ninety percent chance for recovery and in telling this man, the tears flowed down his face. I conceived the idea of telling him a funny story to get his mind off the subject. It was about a dream I had—my readers may judge whether it was allegorical or true.

"At midnight after the operation, the nurse called in two physicians as they came into my room, they said, 'what's the matter?' The nurse counting my pulse, said, 'pulse skipping.' 'Is that so?' said one excitedly. 'I was not feeling very badly and hearing their conversation told them that it didn't amount to anything, as it often happened and tried to impress upon them that during normal health, it had occurred many times. Soon the lights were lowered and the nurse still by my bedside, I went into dreamland and I told this mysterious man I dreamed I had died and went to Heaven and stopped in a beautiful entrance, according to the scriptures, I knocked and as I had been away from Walton several weeks I hadn't any knowledge as to his whereabouts, so the door at the entrance of Heaven began to open slowly and the first person I saw was this mysterious man, I said 'hello J. B.' and he said, 'hello G. B. is that you?' and asked, 'how is W. B.?' and I said 'you will have to ask D. K.'"

Then an angel came to the door and asked my name and where I was from and to what church I belonged. Then the door began to close and I was told to knock at the next door which I thought was 'purgatory.' I knocked and the door opened slowly, working like a bulldoor, but the operator was shielded from my view. From the darkness came a voice which asked the same questions, as before, and the door began to close and a husky voice said, 'Go away from Walton here now.' There I was dead, no place to go, so you see I just had to get well. This good hearted old fellow got up and looked disgusted and said 'well Powers I just don't know what to think of you.' He looked broken and said 'you are getting old enough to begin to look for a place to go.' This man has a heart of gold a heart that at times aches as the scriptures say, "His cup runneth over" as his prayers go up to the throne of God for all His children.

This man has lived, believing that each day one should be living on "higher ground," and he has climbed until he has almost reached the summit and soon will be looking into the "land of promise," and will see a beaming hand and hear a voice saying "well done, enter into the Heaven I have prepared for you." I love him and I believe he loves me, for when I meet him, his smile speaks louder than words.

MRS. ROSE ANN LOUDEN

Mrs. Rose Ann Loudon, age 53, Waterloo, Boone county, died Dec. 24th or 25th, as she was found dead in bed, of angina pectoris. She was born in Boone county and was a member of the Christian church. She is survived by her husband, J. H. Loudon, eight sons, three daughters and five grandchildren. Her funeral took place from the Bellevue Christian church, with Rev. Bruer of Indiana, preaching an appropriate funeral discourse to an assembly of relatives and friends after which the remains were laid to rest in the Bellevue cemetery. Her eight sons were the pallbearers. Funeral Directors Chambers & Grubbs of Walton, had charge of the arrangements.

Appearance and Protection Historically, paint has two functions—one protection and the other appearance. Which was the first thought in its development is unknown, but the famed use of war paint seems to point to the prior claim of appearance.

BAPTIST CHURCH

WALTON, KY.

REV. C. J. ALFORD, Pastor

Don't allow your pew to be empty next Sunday. Let's begin the new year right. As we say good-bye to 1936, we pray that your joy in the Lord may be full this year.

Here is something to think about! If all that we say in a single day with never a word left out, Were printed each night in clear black and white,

Two hundred prove your reading, no doubt.

And then just suppose, ere our eyes we close, we must read the whole record through:

Then wouldn't we sigh, and wouldn't we cry

A great deal less talking to do? And I more than half think That many a kink

Would be smoother in life's tangled threads.

If half that we say in a single day were left FOREVER UNSAID.
